Geo. W. Fraser, Prop.

Willimantic, Connecticut

OUR INTRODUCTION FOR 1928

The Dahlia Everyone Has Been Waiting For !

YELLOW PRINCESS

For the past two seasons this variety has been the most talked of dahlia throughout New England, and has been a sensation wherever shown, without doubt the largest and best yellow decorative dahlia. Flowers from 10 to 12 inches on stiff stems. Won the American Dahlia Society Gold Medal Ribbon 1927, for the best undisminated decorative seedling that had been certificated at Storrs Trial Gardens. First Prize for largest bloom in show Providence, R. I., 1927. American Dahlia Society Certificate of Merit 1926. Mentioned in the Garden and Home Builder Dahlia "Roll of Honor" 1927.

Habit of plant is ideal, clean, healthy, upright growth, the immense flowers are held well above the foliage on strong stems.

Tubers \$10.00

Plants \$5.00

GEORGE JR.

A beautiful exhibition hybrid-cactus, of perfect formation. The large flowers are of Light Rosolane purple with shadings of pirc yellow (Ridgeway's) and are carried well above the foliage on good stems. Habit of growth, dwarf.

We had intended to keep this variety for 1929 but the demand for tubers of it from those who saw it growing in our gardens, and at the shows last season decided us to offer it this year. Stock limited.

Tubers \$5.00

Plants \$2.50

1 - 9 - 2 - 8

Again we greet our friends, old and new, and take this opportunity to express to you our appreciation for the generous patronage we have received in the past, and to assure you that we will do all in our power to merit a continuance of your support in the coming season.

Our policy of testing every variety in our trial garden, before listing in our catalog, still holds good, and every year we discard many varieties, no matter how much they cost us, if they do not measure up to our standard.

We spray, and dust all our growing stock regularly during the growing season, so are in position to fill your orders with clean, healthy, field-grown stock.

We extend a cordial invitation to one and all, to visit our gardens where you will find growing the latest novelties in Dahlias, Delphinium, Gladiolus and other garden favorites.

We are located on the Willimantic-Norwich trunk line, adjoining the Willimantic Camp Meeting ground.

Thanking you again for past favors, assuring you that all orders will receive our best attention.

GEO. W. FRASER.

COLLECTIONS

To those not acquainted with the various classes and varieties of dahlias we would suggest that you leave the selection to us. Tell us what colors you most prefer, and the amount of money you wish to invest and we send you a collection that cannot fail to give you satisfaction.

ABBREVIATIONS USED IN THIS LIST:

- C.—Cactus
- H. C.—Hybrid Cactus
- DEC—Decorative
- Sh.—Show
- Pf.—Paeony Flowered
- COL.—Collarette

A. D. S. CLASSIFICATION OF DAHLIAS SEE PAGE TWENTY

GENERAL INFORMATION

PLEASE READ BEFORE ORDERING

ORDER EARLY—All orders filled in rotation—ordering early insures reservation of varieties that may later be sold out.

Small orders receive the same careful attention as the large ones.

SUBSTITUTION—Orders are filled with varieties called for, and, we never substitute unless directed to do so.

GUARANTEE—We guarantee every root, and plant, to be true to name and in good growing condition when sent out by us. We will cheerfully replace any that may prove otherwise, but will not be held responsible for any amount in excess of the purchase price.

If, for any reasons, tubers fail to sprout, we will replace same with a perfect root or refund the purchase price if sold out. **However, we will not be responsible** if they are kept in a too dry place a long time before planting or otherwise abused.

SHIPPING—We begin shipping dahlia tubers after May 1st, unless notified for earlier delivery. Green plants after May 15th. Dahlias ordered shipped before April 15th will be sent only at **Purchaser's risk** of drying out or freezing.

TERMS—Cash with order or in advance of shipment. **No goods sent C. O. D.** unless 50 per cent. of purchase price accompanies order.

REMITTANCES—Should be made by bank draft, post office money order or registered letter. Postage stamps accepted up to \$2.00.

SIZE OF TUBERS—The size of the root does not in any way indicate the size of the plant, or flower. Some varieties of dahlias always produce small roots, while other varieties make large ones. A good many of the best varieties have very small roots, so do not consider small roots worthless. Any root with a good growing bud will grow, and make a good plant if properly looked after.

CULTURAL DIRECTIONS—Inclosed with each order.

ERRORS—In the rush of the shipping season errors are possible to occur. Kindly notify us promptly so that proper adjustment can be made at once. Kindly keep a copy of your order for comparison.

DAHLIA GREEN PLANTS

Our green plants are propagated right, grown right, and guaranteed to reach you in good condition. We ship every year, thousands of plants to all parts of the country, and the repeat orders from satisfied customers, and our increasing new business has made it necessary to increase our propagating space. Our method of packing insures safe delivery.

Mrs. John Scheepers. (Dec.) —An immense flower, color a clear canary yellow, with pink suffusing. a beauty....	1.00	
Mrs. I. De Ver Warner. (Dec.) —The color is a pleasing shade of mauve pink, perfect form, and immense size. The stem is long and holds the flower well up	1.00	

	Tuber	Plant
Miss Fairhaven. (Dec.) —"It will be hard to get a better combination of colors than is produced in this large fluffy decorative. Color a beautiful shade of pink, with the petals veined and streaked creamy white, the base of the petals yellow. Plants are strong and vigorous, and blooms freely on long stiff stems.".....	5.00	2.50
Nagel's Roem. (H. C.) —One of the best of the European novelties of recent years. The medium sized flowers are carried on long stiff stems that makes it ideal for exhibiting in baskets or vases; its keeping qualities are unsurpassed. We exhibited a vase of it at the Connecticut Horticultural Society Show in Hartford, Conn, 1927, that took first prize as the best keeping variety in the show. Color, chamois overlaid salmon pink. Very scarce. Plants		2.50
Nanaquaket. (Dec.) —Color, white ground overlaid with amaranth pink; could be called a delicate orchid pink. Large flowers; good stem; free flowering.....	10.00	5.00
Nazareno. (Dec.) —A beautiful shade of purple, different from any other, and the nearest to real blue that we have even seen in dahlias. Large flowers on long stiff stems, free flowering and good keeper.....	3.00	1.50
Nichu. (H. C.) —The large blooms are a light sulphur yellow; very incurved; and held well up above the foliage on good stems. Free flowering.....	2.00	1.00
Olive Robertson. (C) —A beautiful soft pink, cactus, that is a great favorite with the ladies. The medium sized flowers are borne in great profusion on good stems. In great demand by florists	3.00	1.50
Papillon. (H. C.) —Large flowers of a beautiful shade of old rose, with golden suffusions; early and very free flowering; good strong stems.....	2.00	1.00
Patrick O'Mara. (Dec.) —Orange buff shaded rose pink. The best keeping dahlia when cut that I know. Strong stems. A. D. S. Certificate of Merit, Storrs, Conn.....	1.00	
Patapsco. (Vincent) H. C. —Very free flowering, color, soft orchid pink, stems hold flowers well up above foliage	2.50	1.25
Paul Revere. (Dec.) —The finest red dahlia we have ever grown. The flowers are large and full centered, and great depth. Color, a rich crimson with a velvety sheen; never burns or fades in the strongest sunlight. Splendid stem and growth	3.50	1.75

	Tuber	Plant
Pride of Stratford. (Dec.) —A wonderful autumn shade; the petals are deep cadmium orange shading to light orange yellow at base of petals, reverse doree rose, (Ridgeway); large flowers; stiff stems. One of the best	5.00	2.50
Purity. (Dec.) —Free flowering, pure white variety; with long stiff stems, fine for cutting.....	.50	
Polar Snow. (Dec.) —One of the best white decoratives; flowers large, perfect form and great depth, long stem	1.50	
Primula Rex. (Dec.) —Color, primrose yellow, very distinctive and one of the largest flowers grown. Has everything to recommend it.....	5.00	2.50
Queen of the Garden Beautiful. (Dec.) —Primrose yellow. A large well formed flower on stiff stems. A sure prize winner	5.00	2.50
Radio. (Dec.) —Here is a variety that never fails to attract attention. The color is a combination of Blood Red tipped and edged with yellow. Immense flowers held erect on rigid stems.....	2.00	1.00
Rose Fallon. (Dec.) —This variety was the sensation of the New York show 1925. A magnificent flower of a pleasing shade of amber russet and salmon. Large flowers of perfect form on good stems. True stock.....	5.00	2.50
Robert Scott. (Dec.) —Apricot yellow, with rose suffusions shading darker towards the center. Large flowers on good stems	5.00	2.50
Robert Treat. (Dec.) —Color, American Beauty Rose; this variety has won several cups and medals. The large flowers are held perfectly erect on stiff stems.....	1.50	.75
Regent. (C) —Beautiful flower of clear mauve pink; the large flowers are held well up on good stems, very free flowering; splendid for exhibition and cutting.....	1.00	.50
Rienzi. (Dec.) —"Big, bold flowers of great depth and of unique coloring, bright scarlet verging on vermillion, with reverse of gold." Stems stiff.....	2.50	1.25
Rotarian. (H. C.) —Tyrian Rose and amaranth purple, shading to pansy purple in center; free flowering, good stem. A. D. S. Certificate of Merit, Storrs, Conn., 1923	2.50	1.25

	Tuber	Plant
Roman Eagle. (Dec.) —Large flower, color a brilliant burnished copper; a wonderful autumn shade. Flowers carried well above the foliage on long stems.....	3.00	1.50
Roycroft. (H. C.) —An early free flowering variety; the flowers are of perfect form and hold their center all season; color, cinnamon buff deepening to tawny russet in the center. Dwarf growth with heavy foliage; good stems	3.50	1.75
Sagamore. (Dec.) —One of the most desirable for exhibition or cutflower; color, golden amber shading to the center with a warm salmon rose or orange buff. Good stem	2.50	1.25
Sanhican's Blue Bird. (Dec.) —A dwarf growing variety; early and free flowering. The color is a beautiful violet blue. Good stem	2.00	1.00
Sanhican's Magnate. (Dec.) —"Exhibition decorative of a pale aramant pink; face of petals tinged with a deeper shade; reverse of petals a solid claret color, heavily veined." Dwarf; stiff stems. One of the best. D. S. N. J. Certificate of Merit.....	4.00	2.00

Sunset. —A beauty. The tiny flowers are deep orange and are very attractive	.35

BARGAIN COUNTER

EACH YEAR WE HAVE A QUANTITY OF DAHLIA ROOTS THAT HAVE
BECOME MIXED IN HANDLING. ALL GOOD VARIETIES.

WHILE THEY LAST, \$3.50 PER DOZ.

DAHLIA SEED

We are able to offer a limited amount of dahlia seed specially selected from the best varieties in our gardens at \$1.25, \$2.50 and \$5.00 per packet. The five dollar size contains 150 seeds.

DELPHINIUM

(Perennial Larkspur)

For a number of years we have been growing these beautiful hardy perennials, until now we have one of the best collections of our own, and of other specialists organizations.

They are not hard to grow, any well drained garden soil suits them if reasonably well fertilized, and given plenty of water during the growing season.

We offer for Spring Delivery only, strong, pot-grown plants, seedlings of the **Super Wrexhams—Advancement**, (the Super Wrexham), **Cleve Graves**, and **Nora Phillips**, the three greatest delphiniums grown. Carefully packed and guaranteed to reach you safely. \$12.00 doz. No order for less than a dozen at this low price.

Strong, pot-grown seedlings from other well known named varieties \$6.00 dozen.

Seed selected from the choicest varieties such as Advancement, The Bishop, The Villain, Monarch of Wales, mixed. Limited. \$1.00 and \$2.50 pkt.

Seed general run of hybrids \$1.00 pkt.

THE AMERICAN DAHLIA SOCIETY

The Bulletin of the society is published quarterly and contains valuable information on Dahlia growing. It is sent free to every member. Dues \$2.00.

Write WM. J. RATHGEBER, SECRETARY, 198 NORTON STREET, NEW HAVEN, CONN.

GLADIOLUS

HOW TO GROW GLADIOLUS

The gladiolus like the dahlia will thrive in almost any climate and any kind of soil.

The bulbs should be planted from four to six inches deep after the ground has warmed up in the spring and the danger of frost over.

Cut the flowers as soon as the lowest bud opens, taking care to leave four or five of the lower leaves to help the growth of the new bulbs.

Lift the bulbs in the fall and store in a dry place, free from frost.

FRASER'S TESTED GLADIOLUS

THE CREAM OF MODERATE PRICED VARIETIES

- Anna Eberius.**—A very much admired large deep purple, shading to deeper throat 15c each \$1.50 doz.
- Alice Tiplady.**—Most attractive large Primulinus species of a rich salmon orange, with soft geranium tongue..... 5c each 50c doz.

- Special Offer.**—Assortment of good varieties 50c doz. postage extra.

CLASSIFICATION OF DAHLIAS

AS ADOPTED BY THE AMERICAN DAHLIA SOCIETY

Cactus Dahlias. a. True, fluted type. Flowers fully double; floral rays (petals) long, narrow, incurved or twisted, with sharp, divided, or fluted points and with revolute (rolled back) margins, forming, in the outer florets, a more or less perfect tube for more than half the length of the ray.

b. Hybrid cactus or semi-cactus type: Flowers fully double; floral rays short as compared with previous type, broad, flat, recurved or twisted, not sharply pointed except when tips are divided (staghorn), margins only slightly revolute, and tubes of outer florets, if any, less than half the length of the ray.

Decorative Dahlias. Double flowers, full to center in early season, flat rather than ball-shaped, with broad, flat, somewhat loosely arranged floral rays with broad points or rounded tips which are straight or decurved (turned down or back), not incurved, and with margins revolute if rolled at all.

Ball-Shaped, Double Dahlias. a. Show type: Double flowers, globular or ball-shaped rather than broad or flat, full to center, showing regular spiral arrangement of florets; floral rays more or less quilled or with markedly involute margins and rounded tips.

(The class called Fancy Dahlias is not recognized separately in this classification, but is included in the sub-section A.)

b. Hybrid show, giant show or colossal type: Flowers fully double, broadly hemi-spherical to flatly globular in form, loosely built so spiral arrangement of florets is not immediately evident; floral rays broad, heavy, cupped or quilled, with rounded tips and involute margins.

c. Pompon type: Shape and color may be same as A or B; but must be under two inches in diameter.

Paeony-flowered, or "Art" Dahlias. Semi-double flowers with open center, the inner floral rays being usually curled or twisted, the other or outer petals being either flat or more or less irregular.

Duplex Dahlias. Semi-double flowers, with center almost exposed on opening of bud, with petals in more than one row, more than 12, long and flat, or broad and rounded, not noticeably twisted or curled. Many so-called Paeony-flowered Dahlias belong here.

Single Dahlias. Open centered Dahlias, small to very large, with 8 to 12 floral rays, more or less in one circle, margins often decurved (turned down or back). There are no distinctions as to colors. The type embraces the large Twentieth Century, as well as small English varieties.

Collarette Dahlias. Single type: Open centered blossoms with not more than nine floral rays with one or more smaller rays, usually of a different color, from heart of each ray floret, making a collar about the disc.

Anemone-Flowered Dahlias. Flowers with one row of large floral rays like single Dahlias, but with each disc flower producing small, tubular petals.
