For Fall Planting, 1928

Hunter's Special Get Acquainted-Offer

100 Blooming Size, Native Grown Tulip Bulbs for \$2.25

A fine mixture of the named varieties in a wide range of colors, mostly Darwins, but a few Bronze Breeders, and a liberal sprinkling of Yellow Cottage varieties. Just the thing for beds and borders, or for planting here and there in the shrubbery border. Excellent for cut flowers. While the supply lasts, *only \$2.25 per 100, \$20.00 per M.* Better order at once. Many were disappointed last season.

PLANT PLENTY OF TULIPS

Ready October 1st to November 15th

Prices are much lower this season. Take advantage of this opportunity to replenish your beds and borders.

The enthusiasm for Tulips is not due so much to fad and fancy as to an awakened sense of their beauty. Their range of color is unequalled by any other spring flowering plant, and once grown the amateur becomes interested and soon becomes a fancier and no wonder for when one considers the wide range of colors, the varying heights, and the many uses which the Tulips fill in the Spring plantings, the wonder is how any one with any garden room at all will refrain from planting at least a few dozen. They are valuable for permanent planting and are thus highly prized for use in shrubberies and borders, but for the very best effects it is well to dig the bulbs when the foliage begins to fade and re-plant in prepared soil again in very early October. The varieties which we offer are the best of the moderately priced varieties.

Single Early Tulips

Desirable for pot culture indoors; also for very early bloom out of doors.

KEIZERKROON—Most popular early Carmen Scarlet with broad yellow border. Fine for early bedding. App. height 16 inches. \$1.00 per dozen, \$7.00 per 100.

Double Early Tulips

For early bedding or forcing indoors. If grown in pots do not attempt flowering before they are well rooted.

COURONNE d'OR—Golden Yellow flushed Orange. Strong stems. App. ht. 13 inches. \$.70 per dozen, \$5.00 per 100.

MURILLO—Delicate blush pink. Easy to force in pots or pans. App. ht. 12 inches. \$.55 per dozen, \$3.50 per 100.

Cottage Tulips

These Tulips bloom with the Darwins in season, but come in the lighter and paler colors. Also this class contains many yellow varieties, which are very fine for mixing with the Darwin Tulips or for use as borders around beds of Darwin Tulips.

GESNERIA LUTEA—Deep Yellow, very fragrant. App. ht. 24 inches. \$.60 per dozen, \$4.00 per 100.

INGLESCOMBE YELLOW—Glossy Canary Yellow. Large globular flower, of perfect form, on a strong stem. This is frequently called the Yellow Darwin Tulip. App. ht. 23 inches. \$.50 per dozen, \$3.00 per 100.

MOONLIGHT—Soft Canary Yellow, which fades to light Crimson Rose. A very excellent Yellow, and the large oval shaped flowers, with outer petals slightly reflexed at the tips, are much prized for bedding. App. ht. 24 inches. \$.70 per dozen, \$5.00 per 100.

Breeder Tulips

These are similar in habit to the Darwin Tulips and flower at the same time. The blooms, however, are usually larger and come in Buff and Brown Hues. These Tulips are at present very popular with all lovers of this beautiful flower.

LOUIS XIV—Dark Purple, flushed Bronze, with a broad margin of Golden Brown. Very large globular flower with Green-Black base, Starred Yellow. Unquestionably the finest Tulip in existence. App. ht. 32 inches. Specially priced at \$1.15 per dozen, \$8.50 per 100.

ASSORTED CROCUS---Ready in Early October

Very Fine Mixture, \$3.00 per 100

ASSORTED PHLOX---Ready in September

Phloxes will grow and bloom almost anywhere. Plant in masses for bold and striking effects. Light colors, assorted varieties, \$2.00 per dozen. Dark colors, assorted varieties, \$2.25 per dozen.

Darwin Tulips

This class of Tulips is unexcelled for cutting or late bedding and often are in bloom for Decoration Day in this latitude.

PEONIES FOR PERMANENT BEAUTY

Ready September 15th to November 1st

Peonies are probably the most valuable of all perennial plants. Once planted they require little care and are practically permanent. Tho they come in but three main colors of White, Pink and Red, the various hues of these colors give us a beautiful range of color. The plants must not be planted over three inches deep and when cutting flowers do not remove all the leaves from the plant. It is possible to have Peonies for at least a month if one has a dozen or more varieties. We furnish in three to five eye divisions, which is the best size for general planting.
