301 EAST BROOKLAND BOULEVARD
RICHMOND, VA.

Remittance must accompany order. All retail orders for \$2.00 or over sent prepaid; on orders for less, add 10c for postage and packing.

GUARANTEE

We guarantee tubers true to name as grown by us and free from disease. Beyond this we are not liable and take your order with that understanding. Return tubers to us at once if not satisfactory. Do not wait till Fall or Spring and write us that they did not grow. We positively will not replace a tuber that has not been returned.

Only the best and strongest root divisions are used in filling orders, and the utmost care exercised. But should an error occur, we will gladly rectify it if notified. Most failures in starting roots are due to improper planting or because of attacking insects.

No guarantee is given that roots will grow and bloom or will not rot in the ground, as that depends largely on soil, climatic conditions and attention.

Remember that the size of the tuber makes no difference, as a small tuber will give as fine flowers as a large one and in most cases better.

J. S. BOSHER.

New Dahlias

Alcalde (Doolittle) (Dec.). Old rose and bronze, average size of 9 inches -----	2.50
David Rust (Root) (Dec.). Blending of old rose and yellow. Excellent keeping qualities -----	2.50
Edna Ferber (F. & M.) (HyCac). Salmon Orange with a lighter rosy pink reverse. Twisted and curved petals. Huge size -----	7.50
Fort Washington (Dec.). Mahogany red, almost maroon tinged with black, easily grown to 12 inches. Sturdy growth, free flowering -----	5.00
Frederick S. Michell, Sr. (Root) (Cac.). Amber. Large flowers on sturdy stems. Plant growth medium -----	5.00
Furedi (Cac.). Clear lilac. True form with cleft petals --	.75
Jersey Jewell (Waite) (Dec.). Lavender pink, flowers are borne face up on the bush. Long petals droop gracefully. Leathery leaves -----	2.50
Jersey Monarch (Waite) (Dec.). Deep salmon with yellow at the base of the petals. A very large deep bloom on a stiff stem -----	2.50
John J. Thorpe (Cac.). Yellow striped and speckled with crimson. Outside petals very long and reflexed -----	1.00
Nagels Roem (HyCac). Naples yellow tinted with salmon and chamois. Immense flowers on very rigid stems. Finest from Europe for years. Plants -----	2.00
Mrs. Charles H. Geist (Root) (Dec.). Creamy white blending to lavender pink. Large flat blooms on very stiff stems -----	5.00
Mrs. Frances E. Bullard (Peo). Clear silver or pastel pink. Petals are very long and pointed. Huge blooms -----	3.50
Nottingham Beauty (Dec.). Light purple and white. Huge flower with slightly pendant stems. Very thick blooms. Plant 9 feet tall -----	5.00
Oyster Bay Beauty (Dec.). Dark velvety red. Plants covered with extra large flowers. Blooms grow on top of stalk -----	3.00
Queen of Garden Beautiful (Dec.). Primrose yellow. Huge flower, easily grown to 12 inches, part of flowers have green centers -----	5.00
Radio (Dec.). Gold, red and yellow. Giant flower on best of stems. Very prolific -----	2.00
Robert Leeds (Root) (Dec.). Rich royal purple, massive thick flowers about 9 inches -----	5.00
Sheila Ward (Stredwick) (Dec.). Clear primrose yellow, with every petal heavily tipped white. One of the largest -----	5.00
Sanhican Ruby (F. & M.) (Dec.). Deep shade of pigeon blood. Full large flowers held absolutely rigid -----	1.00
Seal of Connecticut (Alling) (Dec.). Golden yellow. Dwarf plant. Tremendous blooms and very thick, easily grown to 12 inches -----	5.00
Wanda Miller (Murphy) (Dec.). Purple with white tips. Colors very regular. Stems very stiff -----	2.00

General List of Dahlias

Adda Patterson (Kemp) (HyCac). One of the best white. Averages 9 inches. Tall plant. Stems 4 feet long. Splendid keeper -----	2.50
Alaskan Yukon (Greinberg) (HyCac). Clear lemon yellow. Huge flowers on fine stiff stems. An excellent keeper -----	3.00
Albert Ward (M. & S.) (Peo). Light rosaline purple at tips of petals, shading darker at base. Free bloomer. Exceptionally large flowers -----	1.00
Alex Waldie (Broomall) (Dec.). Creamy ground color overlaid with pure salmon pink. Very large flowers on fair stems -----	.50
Alice Voisinet (Davies) (HyCac). Copper rose with a tan reverse. Large flowers on medium size plant with purple green foliage -----	3.00
Amanda M. Greinberg (Greinberg) (HyCac). Dark crimson. Very large flower with broad loose petals -----	.75
Amanda M. Houghton (Slocombe) (Dec.). Lilac pink, changing to a soft pink toward the center, the center petals fading to pink white, tipped and suffused rose. Exceptionally large flowers. Ideal for exhibition work -----	1.00
Ambassador (Broomall) (Cac.). Soft yellow center with salmon, amber and pink shadings, gradually deepening toward the tips. Flowers average 8 inches, set stiff on the best of stems. Strong grower and free bloomer from early to late -----	1.00
Ami Barilett (Min). Deep scarlet. Flower under 2 ins. Foliage and stems purple green -----	.50
Amun Ra (Seal) (Dec.). Center petals are shades of copper and orange shading to gold and amber, deepening to a rich reddish bronze with a metallic lustre. Immense blooms easily grown to 8 inches on erect stout stems. Blooms keep very long when cut -----	.75
Attraction (Hornsveltdt) (Cac). Clear lilac rose or orchid. Large elegant flowers. Habits are perfect. Long strong stems. Early and a very profuse bloomer. Bushy plants. Roots are rough looking and keep very poorly -----	.50
Aurora B (McWirtter) (Dec.). Royal purple dusted with silver, filled with contrasting collerette petals. Flowers averaging 5 inches on an excellent stem. Blooms freely and lasts well when cut -----	.50
Auburn Beauty (HyCac). Gold suffused copperly red. Very large flower on stiff stems -----	2.50
Azalea (Bruant) (Dec.). Soft creamy yellow, outer row of petals tinted pink creamy yellow, more or less suffused salmon, shaded to old rose. Bloom is formed of many rows of long, narrow florets. Average size of bloom is 6 inches -----	.35
Ballet Girl (Boston) (Cac). Orange with white edge; white shading to orange; white edged orange and other variations. Very large flowers, averaging 7 inches. Stem long but pendant -----	.75

Bashful Giant (Marean) (Dec.). Apricot with golden shadings. Enormous flower easily grown to 9 inches. Stiff stem but pendant head. Ideal for exhibition-----	.75
Ben Wilson (Murphy) (Dec.). Rich velvety red with each petal tipped yellow. Easily grown to 8 inches without disbudding. Excellent growing habits. Medium size plant -----	.75
Bertha Jost (Jost) (Dec.). Base sulphur yellow, outer petals blending with peach pink, center tinted burnt orange. Very large flower-----	1.00
Biltmore (Stillman) (Dec.). Ground work is carmine and the petals are more or less tipped white. Flowers average 6 inches without disbudding. Very stiff stems-----	.50
Blue Lady (Boston) (Dec.). Bluish lavender where the blue instead of the pink prevails. Large blooms on extra stiff stems -----	2.00
Bob Pleusse (Superior) (HyCac). Carmine shaded to ox-blood red, petals tipped white. Large incurved flowers -----	1.00
Bonnie Brae (Broomall) (Dec.). Cream shaded bluish pink. Blooms are about 7 inches and very deep. Stems a little pendant at times because of the weight of flower. Ideal cut flower-----	.60
Break O' Day (Maytrott) (Dec.-Cac.). Delicate clear sulphur yellow, shaded to light green yellow. Full high centers with back petals coming through the front ones. Excellent cut flower. Average size 5 inches. The center bud must be taken out instead of the two side ones-----	.50
Calvin Coolidge, Jr. (Root) (Dec.). Rose pink suffused salmon shading deeper toward the center while the petals are distinctly edged gold. Flowers are immense and never show an open center-----	2.50
Casper G. Ware (Dahliadel) (Dec.). Clear violet rose. Flowers average 9 inches. Excellent keeping qualities-----	3.00
Catherine Wilcox (Marean) (Dec.). White tipped reddish pink. Heavy massive bloom being very full with thick petals. Blooms average 7 inches-----	1.00
Champagne (Boston) (Dec.). Dull golden champagne and chamois. Very stiff stemmed. Large size flower and very profuse -----	1.00
Chanson (Boston) (Peo.). Deepest lilac with a bluish sheen. Petals are very numerous, broad and flat. Tremendous blooms on satisfactory stems-----	.75
Charm (Marean) (Dec.). Golden ochre, shading to burnt umber at tips. Large, perfect blooms on stout, wiry stems. Very free bloomer. Tall bushes-----	.75
Chickahominy (Bosher) (Dec.). Maroon copper. Plant habit excellent. Good keeper. Profuse bloomer on long stems. Dark green foliage. Blooms average 7 inches -----	1.00
Christine Evers (M. & S.) (Peo.). Lavender rose, reverse of petals showing a rhodamun purple, shading lighter at tips. Ends of petals curl, showing the two colors. Huge blooms. Stems 2 to 3 feet long-----	.50
Cinderella (HyCac). Pale salmon or fawn. Immense deep full flowers on a long stem held stiffly upright-----	1.00
Comstock (Boston) (Dec.). Yellow. Immense flowers with petals slightly fluted -----	.60

Dakota (Marean) (Dec.). Deep tone of coral red suffused copper. Six-inch blooms on stiff, strong stems. A very vigorous bloomer -----	.50
Darkeye (Boston) (Dec.). Flesh pink with the petals, especially the center ones, heavily edged lavender. Lavender color nearly disappears in the late season. Huge thick blooms on very stiff stems. Petals are sometimes slightly quilled. Six-inch blooms-----	1.00
Delighted (Childs) (Show). White. Exceedingly large flowers for its type. Center is slightly elongated. Very profuse bloomer -----	.35
Delice (Charmet) (Dec.). Rose pink. Ideal florist flower but a very slow bloomer-----	.25
Dorothy Wooten (Hathway) (Dec.). Rose pink. Medium size blooms on fine stems. Very good cut flower. Free bloomer -----	.50
Dream (Hornsveld) (Dec. Peo.). Peach pink with an amberlike glow. Perfect form, standing erect on long stems. Ideal for cutting. Very broad petals-----	.50
Dr. H. L. Tevis (Pelicano) (Dec.). Salmon rose suffused old gold and shaded to apricot. Flowers are easily forced to 9 inches. Excellent cut flower on good stem -----	.50
Dr. L. C. Bosher (Bosher) (Dec. Cac.). Reddish salmon pink, the so-called Henna. Heavy petals are slightly twisted. Excellent for cutting. Blooms average 7 inches -----	.75
Edith Wooster (Boston) (Peo.). Tea rose, blend of red and yellow; yellow is overlaid and suffused sunset red. Very large, thick blooms. Free flowering with excellent habits -----	.75
Elberon Beauty (F. & M.) (HyDec.). Soft apricot, shading to a slightly darker tone at the center. Large exhibition flower -----	1.00
Elite Glory (Kennedy) (Dec.). A monstrous flower of red without any purple or maroon. Blooms and foliage gigantic in size. Especially fine keeper-----	5.00
Elkridge (Griffiths) (Dec.). Pure white. Flowers are of good size on splendid stems. Excellent for keeping when cut -----	5.00
Etolie de Foch (Single). Clear yellow with moired carmine reverse. Petals rolled to form a perfect star, being rolled forward-----	.75
Emil Panuski (Rodeck) (Show). Light lavender ground striped maroon occasionally sporting to a solid maroon. Form is perfect and of the largest size. Grown on vigorous bushes on stiff stems-----	.50
Emma Marie (Dahliadel) (HyCac). Clear pink with a creamy white center half. Robust grower. Flowers average 8 inches on long stiff stems-----	2.00
Emperor (Marean) (Dec.). Deep royal purple. Long flat petals. Color does not spot under adverse weather conditions. Enormous blooms on extra stiff stems. Perfect form and habit. Very tall bushes-----	.75
Epworth Glory (Bosher) (Dec.). Canary yellow, more or less tipped white. A lighter yellow than Exmouth Glory, of which it is a sport. Large flowers on very long stems. Bushes tall. Great many blooms come pure white -----	.35

E. T. Bedford (Marean) (Dec.). Purple, shaded lighter on edges of petals. Blooms easily measure 10 inches without forcing. Very profuse flowering-----	.75
Florence Michell (Root) (Dec.). Cream white with a faint suffusion of shell pink. Full centered all season. Petals are long and pointed. Bush growth excellent. Wonderful exhibition flower-----	2.50
F. W. Fellowes (Stredwick) (Cac.). Orange. Blooms larger than usual for a Cactus type, growing in our field this season over 9 inches. Very sharp pointed petals -----	.50
Gee Whiz (Broomall) (Cac. Dec.) Soft buff, shaded salmon. Seven-inch blooms 2 inches deep. Never shows an open center regardless of the weather. Good long stems -----	.75
Gilda Gray (F. & M.) (Dec.). Petals of pure lilac shading to a deep tyrian rose. Profuse bloomer. Huge flower -----	1.50
Glory of Argonne (Maytrott) (Show). Persian lilac, shading to a white center. Perfectly formed 6-inch blooms on an 18-inch stem. Ideal cut flower-----	.40
Glory of New Haven (Slocombe) (Dec.). Orchid lavender. 8-inch blooms with broad, twisted petals on long stiff stems -----	.75
Glory of Verdun (Dec. Show). Crimson shaded to bright vermilion -----	.75
Goodby Delice (Broomall) (Dec.). Pink. Good size flower produced in utmost profusion. As a cut flower it is without a rival-----	.50
Grace Marie (Vavra) (Dec). Alzarine pink, shading to eosine pink. Center petals are rose with cadmium yellow showing through the rose. Large, fine flower on good stems. Very profuse bloomer-----	.50
Grace Sperling (Underhill) (Dec.). Face of petals golden buff and reverse of Amaranth purple. Huge blooms on good stems -----	1.00
Greinberg Oriental (Greinberg) (Dec.). Crimson lake suffused French vermilion. Huge size with great depth. Free bloomer. Dark green foliage-----	5.00
Grisette (HyCac). Old gold, heavily flushed with pink. Flowers are large and ideal in every way-----	1.50
Grizzley (Burns) (Dec.). Dark velvety maroon. Immense flowers are composed of broad petals, a little twisted at tips and slightly reflexed. Stem is over 24 inches long. Best of its class-----	.75
Harry Sheldon, Jr. (Murphy) (Dec.). White center with outer row of petals a shell pink, large flower, profuse bloomer -----	2.50
Henry F. Michell (Root) (Dec.). Blending of scarlet and red. Habits late. Blooms 7 inches wide by 3 inches deep. Unusually tall bush, reaching a height of 8 feet with center cut out -----	.75
Herald Tribune Elite (Kennedy) (Dec.). Pure white. Splendid form and wonderful keeping qualities. Large flower -----	3.00
Hercules (Marean) (Dec.). Tangarine and deep yellow, reverse of the petals shaded tangarine. Quilled and of enormous size. Long, stiff stems. Exceptionally free bloomer -----	.75

Insulinde (Kriest) (Cac. Dec.). Dull old gold, suffused bronze and dusted gold. Outer petals are twisted, showing the mauve tint on the reverse of the petals. Flowers grow erect on top of the stems-----	.75
Islam Patrol (Davies) (Dec. Cac.). Very dark velvet scarlet tipped and flushed with pure gold. Stands very upright on cane-like stems. Huge bloom-----	3.00
Ismalia (Davies) (Cac.) (Dec.). Velvet maroon shaded to red. A very large flower with a perfect form on a perfect stem -----	.75
Jean Chazot (Cayeux) (Cac.). Golden bronze, heightened with a suffusion of nasturtium red. Faultless flower on a good stem. Free bloomer and an excellent keeper. Averages 8 inches -----	.50
Jersey Beacon (Waite) (Dec.). Brightest of all so-called reds, with a tan reflex. A Dahlia without a fault. Grows to 12 inches -----	2.50
Jersey's Beauty (Waite) (Dec.-Peo.). Spinel pink slightly tipped gold; habits fair; stiff 24-inch stems. Seven inches in diameter. A prize winner everywhere exhibited -----	1.00
John Lewis Childs (Boston) (Dec.). Yellow suffused and striped and generally tipped white. Eight-inch blooms on stiff stems. Excellent keeper. Self-colored blooms are red tipped white -----	.75
Joppa (Vincent) (Dec. Cac.). Dark salmon rose. Tall grower. Habits excellent. Seven-inch blooms on cane-like stems. Easily keeps a week when cut-----	.75
Judge Marean (Marean) (Dec.). Salmon pink, orange, yellow and pure gold. Very large flowers. Perfectly true type. A most profuse bloomer. Long, straight stems. About the best bloomer in our field with one exception -----	.75
Judge Langford (Dec.). Deep pansy purple with silver suffusion. Large blooms on good stems. Very deep flowers -----	1.00
Kalif (Englehardt) (Dec. Cac.). Pompeian red. Perfect form, being very deep and full. Large blooms on wiry stems -----	.50
Kitty Dunlap (Boston) (Dec.). Shade of American Beauty rose. Blooms freely all season. Excellent keeping qualities. Long, firm stems. Immense blooms of good substance. Petals have a tendency to curl and are very broad. Long stems are practically without leaves----	1.00
La Mascotte (Boston) (Dec.). Front of petals are silver white while the reverse is a deep violet-----	.75
Laura Weber (Weber) (Dec.). White, the finest and largest of its color. Huge bloom-----	2.50
Laura M. Starke (Bosher) (Dec.). Soft red with a white tip, the white extending part way down the center of each petal. Some blooms are pure scarlet. Blooms measure 6 inches as an average and are grown in great numbers on a medium size bush. Petals wide and flat. Center keeps closed all season-----	2.00
La Gros Bete (Marean) (Dec.). Dark cerise. Huge bloom. Excellent exhibition type as well as cutting-----	.75
Le Toreador (Marean) (Dec.). Crimson. Exceptionally free bloomer. Strong, wiry stems. Excellent keeper. Unrivalled for shipping -----	.75

Lida J. Smith (Root) (Cac. Peo.). Center a deep maroon, almost black, outer petals magenta shading lighter toward the tips and striped a velvety brown. Large blooms, easily measuring 8 inches, and are held erect on strong but slender stems. Very early and free bloomer -----	1.00
Little Jewel (Min. Dec.). Peach blossom pink. Bloom under 2 inches -----	.60
Mabel Thatcher (Marean) (Dec.). Pale yellow deepened to gold. Flowers average 8 inches on a strong, stiff stem. Very profuse bloomer -----	1.00
Maid of Mist (Slocombe) (Dec.). Deep cream, shading to a salmon pink. Outer petals rolled back to a depth of 4 inches, pointed and twisted. Easily grown to 10 inches -----	1.00
Margaret Masson (F. & M.) (Dec.). Silvery pink. Great size and good depth with excellent keeping qualities. Stiff stems -----	2.50
Margaret Woodrow Wilson (F. & M.) (Dec.). Opalescent pink. Face of petals creamy white with reverse phlox pink. Petals are broad and sharply pointed. Tremendous blooms -----	4.00
Marion Christine (Howell) (Dec.). Cadmium yellow, tipped begonia rose. Excellent in every respect. Average size of blooms 6 inches -----	.75
Mariposo (Boston) (Dec. Cac.). Pink intensified by violet. Long, narrow, incurved petals that twist and curl. Absolutely long, stiff stems over 3 feet. Blooms very early -----	1.00
Marmion (Tyler) (Dec.). Golden yellow with a bronze suffusion on reverse of petals. Petals outlined bronze. Florets are long, wavy and curl. Enormous size -----	5.00
Martha Washington (Dahliadel) (Dec.). Maroon with a lighter reflex and tipped Tyrian rose. Huge blooms on a fine stem -----	1.00
MacGregor (Mastick) (Dec. Cac.). Spectrum red, base of petals lemon yellow. Flowers are large and full and are carried on long, upright stems. One of the few that are not affected by pests. Excellent keeper -----	1.00
Medusa (Peacock) (Cac.). Rose red, tinting lighter at tips. Long narrow buds. Entirely new type. Narrow petals unroll with a twist. Petals reflex down. Flower easily grown to 8 inches -----	.50
Merrick (Albright) (Cac. Dec.). Light maroon, tipped mahogany, reverse mahogany. Very large and a free bloomer on a fine stem -----	1.25
Meyerbeer (Peo.). Dark cardinal with a purple center. One of the largest of its type, being easily grown to 11 inches. Good keeper -----	.50
Millionaire (Stillman) (Dec.). Lavender, overcast with pink, sometimes tinted with white. Largest of its kind, being easily grown 8 inches without forcing. Very deep flower. Slow bloomer. Good root maker, but a very poor sprouter. Wide, flat petals. Never shows a center -----	.50
Miss Bridgeton (Venable) (Dec.). Deep pink with a suffusion of violet. Large blooms on good stems -----	1.50

Mohammed (Davies) (Dec.). Clear, soft yellow. Many of the flowers come peony in this climate. Blooms average 6 inches -----	.75
Mordella (——) (Dec.). Bright apricot buff. Flowers average 9 inches. Petals are slightly pointed at the tips, making it look like a Hybrid in some localities. Excellent under artificial light. Long, graceful stems. Profuse bloomer -----	2.00
Morocco (ShowHy). Maroon with white tips. Large blooms for its type. Very profuse -----	.50
Mr. Crowley (Broomall) (Dec.). Salmon pink, shading to a bright yellow, overlaid violet. Excellent keeper. Dwarf plant. Flower averages 6 inches. Must be heavily disbudded to make good flowers. -----	1.00
Mrs. Carl Selbach (Selbach) (Dec.). Mallow pink, shaded lighter in center with each petal outlined with deep mauve. Seven-inch flowers on strong, stiff stems. One of the best of its color -----	.50
Mrs. C. D. Anderson (Slocombe) (Show). Purplish crimson. Large blooms. Petals reflex forming a perfect ball. Excellent stems -----	.50
Mrs. I. Devere Warner (Marean) (Dec.). Mauve pink or orchid. Large perfectly formed flowers. Good stems. Profuse bloomer -----	.75
Mrs. Jessie Seal (Seal) (Peo.). Old rose with golden suffusion and shadings. Largest of its coloring. Long, stiff stems. Sturdy plants. Free flowering. Profuse bloomer -----	.75
Mrs. John M. Root (Root) (HyCac). Immense flowers of pure canary yellow. One of the largest dahlias. Petals are long, broad and slightly twisted -----	1.50
Mrs. John T. Sheepers (Marean) (Dec.). Center of clear canary yellow, gradually changing to a shade of pink on the outer edges. Huge blooms on very stiff stems. -----	.75
Mrs. Robert B. Stiles (Peacock) (Peo.). Light tyrian pink, tipped lighter with a reflex of true pink. Blooms average 7 inches and 3 inches deep. Cane-like stems 20 inches long. Strong, vigorous, sturdy grower. Remarkable shipping flower -----	.75
Myra Valentine (Mills) (Dec.). This tall growing variety produces large golden bronze flowers on two to three foot stems. Fine for exhibition or cutting -----	1.50
Nagels Wonder (Cac). Scarlet, lightly tipped and marked yellow. Petals are long and narrow, more or less tubular. Tips cleft -----	1.00
Nobilis (Doolittle) (Dec.). White with crimson markings. A sport of Earl Williams and in our opinion a better keeping Dahlia -----	1.00
Oregon Beauty (Gill) (Dec. Peo.). Oriental or geranium red. Free flowering on slender but wiry stems. Outer petals reflex to stem. Excellent cutting flower -----	.25
Osam Shudow (Boston) (Dec.). Delicate old rose. Slightly suffused lilac and shaded to yellow at the center. Big, heavy loose petals resembling a rose rather than a Dahlia. Blooms average 9 inches. Bush is very tall. -----	.75
Our Country (Stillman) (Dec.). Deep purple and florets heavily tipped white. Very deep bloom with a closed center -----	2.00

Papillon (Boston) (HyCac). Old rose, tinted gold. An incessant bloomer. Stems long and very stiff. An improved Geo. Walters. Flowers average 7 inches without disbudding -----	1.00
Paradise Found (Doolittle) (Dec. Peo.). Deep lemon yellow. Giant double flower with fluted petals. Free in bloom and on good stems. Blooms ten to twelve inches and with a depth of seven inches-----	1.50
Patrick O'Mara (Vincent) (Dec.). Orange buff, tinted neyron rose. Huge stiff bloom on good stems. Splendid cutting and shipping flower-----	.50
Paul Michael (Michael) (Dec.) Gold or orange buff shaded to old rose. Average size of bloom 9 inches. Petals curled, twisted and pointed. One of the most prolific of all Dahlias -----	.75
Peacock (Peacock) (Dec. Show). Finest variegated maroon purple, edged white. Wide petals. Dwarf bush; full deep centers -----	2.00
Peppermint Candy (HyCac). Creamy white with many crimson stripes and splashes. Very large size and a very free bloomer. Stem slightly pendant-----	1.50
Perfect Beauty (Stillman) (Dec.). Bright light scarlet, outer ends of petals heavily tipped white. Colors are divided about equally. A most beautiful flower of large size--	2.00
Pond Lily (Sherk) (Dec.). The flowers, which are of good size, face directly upwards, and are on extra good stems. The color is pink suffused with purple. The formation of the flower resembles a pond lily. It is a free bloomer and has fine foliage. The flowers come out early in the season and keep up until frost-----	1.50
Pop Stewart (F. & M.) (Dec.). Petals are rosy pink, maturing to a lilac pink. Remarkable flower of great size -----	2.00
Pride of California (Lohrman) (Dec.). Crimson red with a darker center. Huge flowers on long, straight stems. Free grower. One of the best reds for all purposes. An excellent keeper -----	.35
Pride of Connecticut (Alling) (Dec.). Amaranth pink, blending tyrian pink, edge of each petal rose pink. Plants are of medium height. Stems are 12 inches long in clear. Flowers average 7 inches and 2 inches deep. An excellent keeper-----	1.00
Pride of San Francisco (McWhirter) (Dec.). Golden salmon pink. Six to seven-inch flower on stout stems. Habits excellent. Requires no staking or disbudding--	1.00
Pride of Wayne (Grienburg) (Dec.) Plum purple. Flowers are of enormous size on excellent stems. Fine for exhibition purposes -----	.75
Red Wing (Kirby) (Dec.). Scarlet. Exceptionally good growth and stem. Fine cut flower. One of the best large reds -----	1.00
Rodman Wanamaker (Peacock) (Dec. Peo.). Buds are pale lemon yellow as it first expands, but it quickly develops into a golden yellow bronzy salmon pink and finally into a beautiful shade of ochraceous salmon with a reflex of spinal pink. Originator says, "It is the largest Dahlia grown." Blooms here average 9 inches without disbudding. Plant is a giant, strong, sturdy and vigorous. Lacelike foliage-----	3.00

Rotarian (Vincent) (Dec.). Velvety maroon. Large curled and twisted petals. Profuse bloomer. Erect, good habit of blooming and growth. Form is like the emblem of that name -----	.75
Rumson (Waite) (Dec.). Beautiful soft pastel apricot. Blooms of good size on excellent stems and full at center. Fine for cutting-----	1.00
Sagamore (Bedetty) (Dec. to Peo.). Golden yellow on the outside petals and shading to a golden salmon. Flowering habit free. Ships well. Blooms average 8 inches by 3 inches deep. Strong wiry stems-----	2.00
Sanhican Bluebird (F. & M.) (Dec.). Outer petals at maturity are bright violet blue, while the center ones retain the violet tint, making it the nearest to a blue Dahlia. Blooms are of gigantic proportion and are perfect in form. Strong, wiry stems-----	2.50
Sanhican Darky (F. & M.) (Dec.). Bordeaux crimson, almost black toward the center, the whole covered with a chocolaty sheen, margins of petals marked Amaranth purple. Huge ideal exhibition flower-----	1.25
Sanhican Gem (F. & M.) (Dec.). Old rose thickly suffused with amber in its young state, at maturity it is clear old rose. Giant flower. Petals are large and thickly placed, being a true staghorn type of flower-----	2.50
Senorita (Lohrmann) (Dec. Cac.). Dark maroon; giant flower; dwarf plants. Stems are long and very stiff--	1.00
Sheba (Peacock) (Dec. Peo.). Petals tipped white, a broad band of white along the middle toward the base, both edges cardinal darkest on opening petals. Fluffy, loose and stylish. Petals recurved, twisted and whirled. Some half spiral edges, some inrolled trowel like, the tips acuminate, none of them cleft. Blooms facing on perfect stems well above the foliage-----	.50
Siskiyou (Broomall) (Dec. Cac.). Pink, tinted mauve. Plants are sturdy and vigorous and flowers are held erect on extra long and sturdy stems. One of the largest of all, easily grown 11½ inches in this locality--	2.00
Snowdrift (Broomall) (Dec.). White. Immense deep flowers. Very broad and wavy petals. Blooms open quickly and remain for a week. It never sunburns and when the last petal drops it is as white as when it first opens	.75
Sport (Dahliadel) (Cac.). Buttercup yellow with buff shading. Fine for cutting and a wonderful exhibition flower -----	1.00
Sulphuria (West) (Dec.). Sulphur yellow. Large, long petals half quilled upward and bent backward. Dwarf plant. Huge blooms -----	.50
Talisman (Boston) (Cac.). Brownish red, with a reverse of tan. Petals are long, incurved slightly and open at the tips showing the reverse color. Huge flower---	1.00
Theodore Vail (Boston) (Dec.). Old gold, shaded to apricot. Stem is long and very straight. Very large and heavy flowers -----	.50
Tillamook (Broomall) (Dec.). Canary yellow. Huge blooms easily averaging 8 inches. Excellent habits. Considered to be the finest decorative yellow produced	2.50
Tryphinnie (Estes) (Dec.). Bright shell pink, shading lighter at the tips of the petals, bright golden yellow at the base of the petals. Perfect bloom on very long, wiry stems -----	.75

Uncle Henry of Oz (Doolittle) (Dec.). Cerise rose. Very tall sturdy plant. Good size bloom on long stems----	.75
U. S. A. (Stillman) (Dec. Cac. Peo.). Deep salmon-orange. Blooms average 7 inches. Petals are twisted slightly and the back rows are pushed through the front ones. Excellent formation on extra good stems-----	.75
Vineland (Maytrott) (Dec.). Russet orange suffused apricot. Petals curl and twist; bloom is of immense size. Similar to Mrs. G. W. Elkins, but heavier and better color. Good keeping qualities-----	1.00
Violetta (Rivori) (Cac. Dec.). Petunia violet. Large flowers on upright stems -----	2.00
Virginia Harsh (Broomall) (Peo.). Shell pink, one of the largest of its type. Petals are very wide and center ones are set straight out to front-----	2.00
War Dance (Gill) (Dec. Cac.). Color is similar to Geisha, except it is scarlet tipped and marked golden yellow. Gigantic flowers, often 10 inches, being very heavy and massive; carried on good stems. Strong, vigorous plants, producing an abundance of fine flowers-----	1.00
Whiffestan (Doolittle) (Dec. Peo.). Pure white. One of the best of its color. Often grows over 10 inches, being an average of 7 inches -----	1.50
Winifred Slocombe (Slocombe) (Dec.). Mustard yellow at tips and shaded to mikado yellow at center. Blooms average 7 inches by 2 inches deep. Dwarf plant-----	1.00
Wizard of Oz (Doolittle) (Dec.). Amber pink or soft salmon pink. Easily grown to 10 inches and can be forced to 14 inches. One of the finest grown. Apparently has no fault -----	1.00
Yale (Alling) (Dec.). Base is for the most part deep violet purple with a deep and distinct edging of pure white. Stem is very long and has tendency to droop--	1.00

MIXED TUBER COLLECTION

In handling our stock there are some tubers from which the labels have been lost, that can not be sold for a certain variety. We are offering them for sale as mixed varieties.

\$2.50 for 1 Dozen, Postage Extra
