INTRODUCTION

It is with great pleasure that we present to you our 1928 list of Dahlias. We are quite sure that we have compiled a list of only the highest class and really superb Dahlias, and that these are really outstanding in merit.

For the past number of years we have collected from all best sources the finest in Dahlias, and while we grow others than these listed, these found here have all the qualities that make them really outstanding.

In describing the Dahlias herein, we have held as much as possible to the originators' descriptions. In our opinion no one can adequately set in cold type the description of any Dahlia, as the beauty lies in the bloom itself.

We grow many other flowers besides Dahlias, and have one of the finest Delphinium collections in Canada. We also grow Gladiolus, Iris, Peonies, and Hardy Perennials. We take great pride in our Delphinium collection, and it is well worth seeing during blooming season. You are welcome at any time.

Thanking you for the interest this list may hold for you, and any business you may care to do with us,

Respectfully yours,

W. PERCY BACON

GENERAL INFORMATION

ORDER EARLY

Stock of most varieties is limited, so ordering
early is of prime importance. Kindly order as early
as possible to avoid disappointment in the event
of a variety being sold out.

The prices in this catalogue are for strong
divisions of field-grown tubers only.

GUARANTEE

We guarantee all tubers true to name and
also their arrival in good growing condition. We
enclose with each order full growing instructions.

TERMS

Terms are strictly cash with order. We de-
liver orders prepaid.

We find that nearly all Dahlias have "off"
years; so if a new variety does not thrive for you,
do not be discouraged and discard it. In all prob-
ability, it will more than justify its continued
existence the following year.
