12 For 50c; 25 For 85c; 100 For \$2.75.

Peony

The su... ly in the coldest places and will bloom for years with little care or atten... a priceless pleasure that all should have.

Hansen Select Bush Cherries

EASY TO GROW—SURE TO PRODUCE

**A Desirable Good Fruit and Ornamental for Extensive
Planting Everywhere**

Bushcherries Are Fruitful

He has developed what was formerly the rather small, little known western South Dakota Sand Cherry, to a fruit of large size, desirable taste, good habits, wonderful bearing and beautiful in flower, fruit and foliage.

The fruit is good to eat from the bush and makes a wonderful jam. The juice makes fine jelly and a not to be forgotten cordial which won't keep long.

Though the fruit of this cherry much resembles a plum in size and shape, the plant itself grows in a bush like shape, branching and bearing from the ground up, usually bearing the year after planting. It always retains its dwarf stature which is of fine value for planting in the garden as it doesn't take up near the room of an ordinary plum tree and yet often bears more. The bushes should be planted 2 to 4 feet apart, in rows 4 to 6 feet apart about 25 or more to every home garden.

In landscape planting a few of the bush cherries are very desirable as they are dwarf and bushy and so a great aid in foundation covering planting work. While the foliage itself, a beautiful silvery green, turning a rich red and gold in fall, adds a very desirable

Masses of Fruit

Bushcherries Are Ornamental

color touch to landscape planting, while the profused masses of white flowers in early spring, completely covering the bushes are a glorious sight. The fruit later is ornamental as well as useful.

Because of their dwarf bushy habit these Hansen Select Bush Cherries make a splendid ornamental low hedge for the front lawn as well as garden use.

Plant these Hansen Select Sandcherries Because:

- 1—They are easy to grow and perfectly hardy everywhere.
- 2—Are good to eat, and make delicious preserves.
- 3—Bear early, heavy, and annually.
- 4—Are dwarf growing and bushy.
- 5—Are excellent for hedges or ornamental shrubs.

Apples and Plums

ANOKA—The Wonder Apple

Perhaps no other apple in recent times has created so much sensation or has received as much praise as this wonder apple—Anoka. It is very good to eat, hardy everywhere, a big producer and best of all usually bears the second year! Thus, this apple of the century, the apple of apples, does the entirely unexpected and bears on one year wood. It is a marvel, a masterpiece of the famous fruit breeder, Prof. N. E. Hansen, and the wonder of all hardy apples. Be sure to include it in your order for fruit trees. Prices: Large Trees, Each, \$1.25; Three Trees, \$3.50; Small Trees, 75c; Six Trees, \$3.50.

WEALTHY APPLE—A long time favorite with all good fruit men. A good eating and cooking early fall and winter apple.

DUCHESS APPLE—The standard summer cooking apple for the northwest. Bears heavily and annually. Hardy everywhere and very disease resistant.

WHITNEY CRAB—Perhaps the most popular eating crab grown. A good annual producer and hardy. Should be in every good fruit orchard.

Prices on Wealthy, Duchess and Whitney: Large Size 75c; Ten Trees, \$6.50; Small Size 50c Each; Ten Trees, \$3.50.

DOLGO CRAB—Another of Prof. N. E. Hansen's famous fruit introductions. Absolutely hardy everywhere. Growing more popular every year. Fruit good size, brilliant red in color and very juicy for eating, jelly or cider. Tree is free from blight and very vigorous. Commences bearing big crops when very young.

Prices: Large Trees, Each, \$1.00; Three Trees, \$2.50; Small Trees, Each, 60c; Six Trees, \$2.50.

SIBERIAN PEARS

These are perfectly hardy anywhere in the northwest, free from disease and resistant to fire blight, the dreaded disease of the standard varieties of pears. Fruit of good size and sweet eating. Trees grow rapidly and are very sturdy. Pear production has just commenced in the northwest and it is an honor to be among the first to start their culture in each community. As our stock is yet very limited, it is well to order early to avoid disappointment. Price: Each, \$1.25; Three Trees, \$3.50.

GOLDO APPLE

The Best Winter Apple for the Northwest

Though Goldo has been introduced but a few years, its remarkable characteristics prove that it is destined to make a great change in apple culture in the northwest, as it is really a true winter apple adapted for northern fruit culture. But the remarkable thing is that its flavor and size is really superior to most of the apples shipped in from warmer climates for the winter sale here.

Goldo is a cross between Grimes Golden and Duchess of Oldenburg from which it gets its famous, well selected name which carries with it a true meaning. It is perfectly hardy throughout the northwest. Larger and better eating than Grimes Golden and will keep in an ordinary cellar till late in March.

Due to the recent introduction, our stock is as yet, very scarce, however, it will be advisable for those interested to obtain stock of this as fast as possible. For Goldo is a coming apple of commerce for the north and the time is not far off when it will be in great demand here. Prices: Per Tree, \$2.00; Three Trees, \$5.00.

Small Fruits and Berries

Carrie Gooseberry

The best and most popular gooseberry for the northwest. Large size, hardy everywhere, productive and almost thornless. Each, 40c; Ten, \$3.50.

One of the best and most productive red currants. Vigorous, good size and a heavy producer. Each, 35c; Ten, \$3.00.

Rhubarb

The most welcome sure producer of the garden. A rigorous grower with rich red stems of fine quality. Ten Large Roots, \$1.15; 25, \$2.50.

RASPBERRIES

SUNBEAM RED RASPBERRY—The hardest of all red raspberries and the most famous of Prof. N. E. Hansen's raspberry introductions. Has choice fruits of large size and flaming red color.

OHITA RED RASPBERRY—Productive and vigorous. Hardy for the north. Very free and resistant to Mosaic, the dread disease of raspberries.

Prices on Sunbeam and Ohita: 10 Plants, \$1.00; 25 plants, \$2.00; 100 plants, \$7.50.

Latham Raspberry

LATHAM RED RASPBERRY—Tremendously popular everywhere. Very bright red, firm and of fine quality. The best red raspberry for both home and market. Ten Plants, \$2.00; 25, Plants, \$5.00; 100 Plants, \$15.00.

PROGRESSIVE STRAWBERRY—The very best of the ever-bearing varieties. A good producer of fine large berries of excellent quality from early spring till late fall. Prices: 100 Plants, \$3.50; 250 Plants, \$8.00; 500 Plants, \$15.00; 1000 Plants, \$25.00.

DUNLAP STRAWBERRY—No doubt the best and most productive June bearing strawberry. Prices: 100 Plants, \$2.00; 250 Plants, \$4.50; 500 Plants, \$8.00; 1,000 Plants, \$15.00.

Waneta Plum

THE GIANT OF HARDY PLUMS

Up to two inches in diameter. Highly flavored. Richly colored red skin. Considered by many the best and most popular of the Hansen Hybrid Plums and the champion plum of the northwest.

Opata Cherry Plum

Earliest of all plums and famous everywhere for its rich, wonderfully delicious flavor. The flesh is a light green color with purplish red skin. Very productive. Hardy throughout the northwest prairies.

Sapa Cherry Plum

Early, large, productive, and hardy. Its intense black purplish flesh is extra fine eating and wonderful for preserves and jam. Bears the year after planting. A sure annual producer and a favorite everywhere.

Hanska Plum

The superb plum of apricot flavor and fragrance. Very hardy and productive. Many claim Hanska makes the best jam of any of the Hansen Plums. It has a highly colored firm flesh.

Prices: Large Size Plum Trees, \$1.00 each; Ten Trees, \$8.50; Small Size, 60c each; Ten Trees, \$5.00.

Bargain Assortment Plums and Apples

Many people ordering fruit trees from us request a good assortment and so do not order any special varieties as long as we select good kinds we believe adaptable to their locality. Because of quantity production, supply, and demand we are able to offer these assortments at the greatly reduced prices as shown. Be assured of good varieties and of choice selection of stock.

6 Small Assorted Plums and Apples—\$2.00; 12 for \$3.50.

6 Medium Assorted Plums and Apples—\$3.00; 12 for \$5.00.

6 Large Assorted Plums and Apples—\$4.00; 12 for \$7.50.

Select Native Plums

Should be in every plum orchard to insure good pollination of the blossoms of other plums and thus assure a good crop of fruit. These are offered as choice selections and should all produce a fair quantity of good sized fruit and an abundance of pollen to assure good pollination of your other plum trees. As all our varieties come from seed it is possible that some of these may prove worthy of naming and introduction.

Large Trees, Each, 60c; 10 Trees, \$3.50; 25 Trees, \$7.50; 100 Trees, \$25.00.

Small Trees, Each, 25c; 10 Trees, \$2.00; 25 Trees, \$3.50; 100 Trees, \$12.50.

Asparagus

The earliest and best green of the garden. Contains these proper vitamins one needs to remain in good health. Fine, large succulent stalks can be cut from early spring till late fall if the bed is properly mulched and cared for.

Prices: Heavy Roots, 25 for \$1.00; 100 roots \$2.50; 250 roots, \$3.50; 1,000 roots, \$12.50.

Beta Grape

HARDEST AND BEST

The culture of grapes is a rapidly growing enterprise in the northwest, not only for the home garden but for the market garden as well. This widespread growing approval of grapes is well merited and a continuous further extension is very desirable. Their care and culture is easy and when a hardy variety like Beta is selected the rest is easy. Beta produces amazing fine crops of fine large fruits which are good eating, but are best when used in jelly and most appreciated when used in grape juice and other beverages.

Prices for Large Plants, Each 40c; 5 for \$1.80; 10 for \$3.50; 25 for \$7.50; 100 for \$25.00.

Prices for Small Plants, Each, 25c; 5 for \$1.00; 10 for \$1.75; 25 for \$3.00; 100 for \$10.00.

Professor N. E. Hansen And The May Day Tree

THE BEAUTIFUL FLOWERING LAWN TREE

For years I have been propagating and offering the new fruit trees, shrubs and other plants originated or imported by my father, Professor N. E. Hansen of the South Dakota State College. This is because I believe they are the best for the prairie Northwest. Professor N. E. Hansen has no commercial interest in my Nursery. Reports of the great success with the Hansen Hybrid Plums and other fruits come from many states, from Texas into Canada. So this supports my personal opinion.

In all fairness, I believe that great honor is due from State and nation to Professor N. E. Hansen for all his wonderful introductions in plants and seeds; also for the new breed of sheep from Siberia. While he is unexcelled in total number of introductions, yet in many ways his great work in plant improvement has just begun. My father impressed this upon my mind many times in following him around from boyhood through many states and provinces.

Luther Burbank recognized him as a great co-worker, specializing in developing plants for winter hardiness. "Some of this work I hope you will complete, my son," my father said.

Better fruits and plants must come to permit of larger crops on smaller acres of land. It is surely up to South Dakota and the nation to aid in every way with equipment and land to make possible more rapid progress while there is yet time.

I have been stressing the commercial side of plant introduction because, like any other invention, the manufacturing is also necessary. Yet I have been interested from the beginning in Plant Breeding. The Red Silver Crab offered elsewhere in this catalog is the first of many other plant introductions I hope to make. There is a certain pride in this, my first introduction, but I believe the Red Silver Crab will in the coming years add greatly to the beauty of the lawns and parks of the United States and other countries.

Hardy Plants for the Northwest

Brookings, South Dakota

Ornamentals

SIBERIAN FLOWERING ALMOND

SOMETHING NEW AND DIFFERENT

A wonderful, flowering Dwarf Almond which was introduced from the colder parts of Siberia by Prof. N. E. Hansen and is perfectly hardy everywhere. It will bloom for days, way ahead of any Spiraea or any other shrub.

Has profuse masses of lovely pink and white flowers in early spring which completely cover the shrub and form a lovely bouquet of many fine flowers. A shrub to wonder and marvel at when once seen. It is destined to great popularity.

Besides the lovely pink and white flowers, the shrub has a fine green foliage which turns to a pretty red and gold in the fall. The shrub is of dwarf habit rarely growing over three feet tall, thus making a fine shrub for border work or mixed shrub plantings and an ideal low hedge as its dwarf, bushy growth can be severely pruned which tends to make it produce an even finer foliage and more and better flowers after trimming.

Large Plants, \$1.25; Per 10, \$10.00; Per 25, \$25.00.

Medium Plants, 75c; Per 10, \$6.50; Per 25, \$12.50.

Small Plants, 50c; Per 10, \$3.50; Per 25, \$7.50.

Hedging Stock, \$17.50 per 100.

To many, there is no flower in the garden lovelier than a rose, yet, contrary to the opinion of many, they are easy to grow and their culture can be very successful if the proper simple care and attention is given them. We shall be glad to send full directions with each shipment for their successful culture.

Hardy Double Red, White, Pink, or Yellow Rose—Each, 75c; Three, \$2.00; Six, \$3.50.

HARDY ROSES

MAY DAY

The Beautiful Flowering Lawn Tree

For superb flowering beauty on the lawn or boulevard none excels May Day. Its long fine white flowers early in spring creates a massive bouquet of loveliness that is alluringly wonderful and altogether lovely.

It is the first tree to show green in spring and is practically in full leaf long before many of the common trees begin to leaf. This extreme earliness of leaf is of very fine value in spring when are long for leaves on trees and other signs of spring to appear.

The flowers are a wonderment in themselves, blooming early in spring, in April or early May and always bloom several weeks earlier than any of the other flowering trees.

The flowers are large, pure white and very fragrant. Their mass like clusters are a beautiful sight and are well adapted to cutting for the house or early spring lawn festivals.

The fruit of the trees are small and though edible and make good jelly are soon eliminated by the birds in preference to what we consider better fruit. Thus, our good fruit is saved, yet the birds are fed.

May Day may be trimmed up for a street or lawn shade tree or left in hush form as shown. It grows rapidly. It's perfectly hardy far north into Canada as it came from the colder parts of Siberia.

By planting a May Day on your lawn you have the assurance from some of the best authorities of the country in Horticulture and Landscape beautifying of the home grounds that in May Day tree, you have a plant that is of true worth while ornamental value in the beautifying of your home.

Specimen Trees, 4 to 5 ft., \$1.75 each; 10 for \$15.00.

Specimen Trees, 3 to 4 ft., \$1.25 each; 10 for \$10.00.

Specimen Trees, 2 to 3 ft., \$0.75 each; 10 for \$ 6.50.

CUT LEAF WEEPING BIRCH

One of the prettiest specimen ornamental trees grown, with fancy cut leaf foliage, and gracefully drooping limbs. Prices: Heavy, 4 to 6 ft., \$2.50 Each; Five, \$11.00; Ten, \$20.00.

NIOBE WEEPING WILLOW

The superb, graceful beauty of the Niobe Weeping Willow is near to the utmost in distinctive specimen ornamental planting. Its beauty is a continual joy. In winter and summer its graceful branches sway in the slightest breeze and wave their beauty to all. Professor N. E. Hansen introduced Niobe Weeping Willow from the colder parts of Europe and so it is perfectly hardy far north in Canada. Prices: Per Tree, \$1.25; Five, \$5.50; Ten, \$10.00.

Landscape Work Free

If you have a problem in the outdoor planning of your home, a planting problem to solve, or any advice in regard to your plants, write us and we shall be glad to help you all we can.

We have a very competent and complete landscape department and shall be glad of any opportunity to help plan your place. Drawing sketches or complete blue-prints if you wish.

We make no charge for this but ask a deposit of \$2.50 which we keep till we receive your order for the necessary plant material to carry out the plan we have drawn for you.

Other Ornamentals

For a complete list of all ornamental shrubs as well as other plants we have to offer. Send for our regular large retail catalog, a copy of which we shall be very glad to send you on request.

MOCK ORANGE—Lovely, fragrant white blossoms in June. Each, \$1.25; Three, \$3.50.

SNOWBALL—Has fine white flowers in snowball-like clusters. Each, \$1.00; Three, \$2.50.

ENGLEMANN—The best hardy climbing vine needing no trellis. Each, 75c; Three, \$2.00.

PERSIA LILAC — Very fragrant, hardy and non-suckering. Each, \$1.25; Three, \$2.00.

CUT LEAF ELDER—Just the shrub for planting in the shade. Each, \$1.00; Three, \$2.50.

SPirea VAN HOUTTE — The most popular of spring blooming shrubs. A wonderful wealth of fine white flowers in early spring which are ideal in shrub planting and make a beautiful flowering hedge.

Prices of Large Size Bushes: Each, \$1.00; Three, \$2.50; Six, \$4.00; Twelve, \$7.50.

Prices of Small Size Bushes: Each, 50c; Three, \$1.25; Six, \$2.00; Twelve, \$3.50.

Hedging Stock: 25 For \$5.00; 100 For \$15.00.

SPirea ANTHONY WATERER—A Dwarf Red Flowering, summer blooming Spirea. Very fine for border work and low hedge.

Large Size, Each, \$1.25; Three, \$3.50; Small Size, 75c each; Three, \$2.00; Hedging Stock, \$20.00 per 100.

Lawn Trees and Hedges

HARDY BUSH ROSE HEDGES

For something new and distinctive in hedging, try the hardy bush rose. They make a fine dense hedge, are absolutely hardy and are a rare treat in a flowering hedge. Blooming abundantly all during June, and more or less all summer long. Plant in hedge formation 8 to 12 inches apart. Price Large Bushes: Ten, \$2.00; 25 For \$5.00; 100 For \$15.00.

Caragana—Siberian Pea Tree

By far the hardest and best windbreak and hedge plant for the most exposed prairies, and one which will endure severe drought. Has fine feathery, beautiful green foliage and abundant yellow blossoms. Forms a splendid dense hedge from a low height to a tall windbreak snow fence. Highly recommended by the government. Plant 8 to 12 inches apart. Prices: Per 100, \$5.00; Per 500, \$20.00.

Siberian Bush Honeysuckle

A fine tall hedge plant which is of added value because of its pretty pink and white flowers in early spring followed by masses of bright red and orange fruit that are of great attraction to the birds. A fine specimen plant for both lawn and group planting. Prices: Large Plants, \$25.00 per 100; Small Plants, \$15.00 per 100; Select Specimen Shrubs, \$1.00 Each; Three, \$2.50.

RED SILVER CRAB

Something New and Entirely Different

My First Plant Introduction
By Carl A. Hansen

A lawn tree, red from top to bottom, in bark, trunk and leaf. The silver refers to the delicate silver on the underside of the leaves. This blending of beautiful rich maroon red and silver, make a remarkable combination throughout the season. The somewhat cut leaf character of the leaves add to the striking beauty of this unique tree. The red leaves fade but slightly during the heat of summer. I have but very few trees to offer this year.

Price: \$10.00 Each; One Year Old Buds. Limit, one tree to each customer, so as to give as wide an introduction as possible with the few trees available.

SIBERIAN FLOWERING CRAB

The Beautiful Windbreak Ornamental

FRUIT TREE—SHADE TREE

The new and improved Siberian Flowering Crab or *Pyrus Baccata* from the cold dry regions of Siberia is a striking tree for ornament and utility. It must be seen and used to be fully appreciated.

Its glorious, early spring loveliness adorned in an avalanche of large pink and white flowers of superb fragrance begins its alluring attractiveness. This unquestionably makes it both a fine specimen tree for the lawn and a wonderful novelty as a street and lawn tree. Used in a windbreak, it gives the whole place a living frame of beauty.

The blossoming is followed by a mass of dense bright green foliage covering heavily shouldered branches making it a fine shade tree for the street or lawn and affording ample space under its large spreading boughs for many lawn parties beneath the canopy of green.

In All Its Springtime Glory

Per each, 3 to 4 ft., 50c; Per 10, \$3.50; Per 25, \$7.50; Per 100, \$25.00.
Per each, 4 to 5 ft., 75c; Per 10, \$5.00; Per 25, \$7.50; Per 100, \$35.00.
Per each, 5 to 6 ft., \$1.00; Per 10, \$7.50; Per 25, \$15.00; Per 100, \$50.00.

Then comes the bright red and yellow fruits which can be used as pickles or are best pressed out and then the juice used as the desired added flavor in other fruit jams and in jellies to bring out their full value. The juice also makes good cider.

The tree itself grows to a good height and lives long. Its growth is rapid, sturdy and vigorous. It is very drouth and disease resistant and because of its origin is absolutely hardy everywhere. Its strong sturdy growth with extra well branched limbs and strong crotches makes it especially fine as a windbreak stock.

For a beautiful specimen ornamental lawn tree, a boulevard street tree, fruit tree—Siberian Flowering Crab should be extensively planted everywhere, yet, because of its very low price, may be used as needed protection and abundant beauty in one or two rows of your windbreak.

Windbreak Stock That It Will Pay You to Get

Let Us Save You Money on Farm Seeds

COSSACK ALFALFA—The Greatest Of All!

Prof. N. E. Hansen's Wonder Plant

This marvel of all Alfalfas is absolutely hardy on our most exposed prairies. Does well and produces abundant forage and seed in the driest of years.

It was introduced from Siberia by the Plant Wizard, Prof. N. E. Hansen, and will withstand our severest winters and give a wealth of forage and hay every summer.

Cossack is harder and will produce more good forage year after year than any other alfalfa. Even in the driest of years Cossack will produce a crop of forage and seed where other less vigorous sorts will not, and often die out, as Cossack is native of an eight inch rainfall country which often gets 60 degrees below zero in the winter with little or no snow. An Alfalfa that will stand up and produce under conditions like those can be proclaimed, King of the Alfalfa Kingdom. Price:

1 lb. \$1.00; 10 lbs. \$7.50; 25 lbs. \$12.50; 100 lbs. \$42.50.

HANSEN PROSO—The Grain Of The Age!

The Best Catch Crop For The Northwest

Hansen Proso is destined to a great future and the time is not far off when it will be one of the major grains of commerce. It is easy to grow, does well on poor soil, is a good weed killer, as it should be sown in late June for the best results.

The grain head of the plant resembles oats but the kernel is round, hard and about the size of wheat. The inner color of the grain is pure white and should not be confused with the colored Proso or so-called hog millets of commerce as Hansen Proso is superior in every way, size, color and production and in addition can be used as a breakfast food and ground into flour for bread and pastry. Prices:

1 lb. 35c; 10 lbs. \$1.50; 25 lbs. \$2.50; 100 lbs. \$5.00

All Prices Subject to Change Without Notice. Sack Free

White Blossom Sweet Clover

50 lbs. \$7.50; 100 lbs. \$12.50

SELECTED SEED CORN

Selected and tested for early maturity, high yield and good germination.

Early Yellow Dent, per bu.....\$3.50
