JANUARY BULLETIN of FORESTRY and LINING OUT STOCK

SPRING 1928

THIS is a special advance list, several weeks before our regular mailing. It will enable you to order now and avoid disappointment. Many of the more popular varieties we can furnish by the hundreds of thousands, but even here first come first served—advance orders get shipped out first. Many varieties are not listed here. We carry them, but the demand is small, comparatively. We will gladly quote anything you want—or for large quantities we make special prices.

We furnish the following grades:-

Tree Seeds (List on request)

Seedlings & Transplants (Listed herein)

Large transplants for Screens (Listed herein)

Small specimens (Price list mailed shortly)

Large specimens (Quoted on request)

PRICES:—Net, packing at cost. Orders for 250 at thousand rate and 50 at hundred rate. Prices subject to change without notice. No order for small seedlings less than 100.

TERMS:—Any claims for errors or shortages to be rendered within ten days after receipt of stock. Half cash in advance, or acceptable references.

Large Transplants for Hedges, Screens and Mass Plantings

IT is not necessary to use specimen grades for mass planting, screens, hedges, etc. We have a special grade for this purpose in fine Nursery grown Evergreens—perfectly healthy and hardy and all twice or more times transplanted (except where noted)—These trees have good fibrous roots and are shipped without ball of earth, carefully packed in wet moss, unless otherwise requested.
