What Some of Our Customers Think of Our Plants

THE JEFFERSON FARMS
Albany, Georgia.

I want 50,000 sweet potato slips. I want them here by the 20th of April or sooner. I have prices from several, but I prefer yours if we can get together I have used your plants a long time and know them to be all right. The Cabbage plants that I got from you are just fine and really the best in Blenndale Parish. I hope to hear from you at once.

O. W. GRAY, Local Agent.

WE COULD GIVE HUNDREDS OF OTHERS

OPEN FIELD GROWN TOMATO PLANTS

Grown from seed selected for big crops. Open field grown tomato plants are strong and hardy, short jointed, and well rooted. We supply some of the largest United States. Plants ready for shipment about April 1st. Book your order in advance if possible.

To all Buyers

The writer takes great pleasure in stating that he has known the proprietors of The Jefferson Farms for several years and they are absolutely reliable and trustworthy in every respect. Their business methods are square and honorable and they enjoy the confidence and esteem of the business men of Albany. They enjoy the patronage of a large and satisfied list of customers and I unhesitatingly recommend them to any prospective buyers.

THE ALBANY CHAMBER OF COMMERCE.
Aug. 17, 1915. (Signed) John Mock, Gen. Secretary

Dear Sirs:

Received the plants ordered from you, and they were in fine shape, the onion plants were better than any I have seen shipped in here this year.

Thanking you for your promptness in shipping the same, I am,
Very Respectfully,
Margaret C. Willard.

California, Ohio, May 14.

Received tomato plants and want to say they were in a splendid condition.

Thanking you for your service rendered and the quality of goods you have sent me.
I will recommend you to any one I may have the chance.

(Signed) JOE KOEHLER, Jr.

Cabbage Plants ready now. Send Order at once.

YOU CAN PRODUCE A CROP OF CABBAGE FOUR WEEKS EARLIER THAN YOU ARE NOW!

Our plants are grown in the open field and hardened through frost and freezing weather, and will mature four weeks earlier than home grown or hot bed plants. After going through this frost and freezing weather they have been known to survive 10 above zero without injury to the plants.

Our Guarantee

All plants are guaranteed to reach you in good condition. Should there be any damaged plants, select the good ones and notify us at once.

Non-warranty—We send plants that to the best of our belief will give entire satisfaction. The best plants sometimes fail thru improper cultivation or weather conditions, therefore we give no warranty, expressed or implied and will not be responsible in any way for the crop.

The Jefferson Farms

Albany, Georgia.

White Bermuda Onion Plants

White Bermuda Onions are noted for their earliness, heavy yields and mildness of flavor. We plant our seed in October, and the plants root growth during the months, and will grow very strongly recommend them for more Northern Sections of the South where it gets too cold for this variety to live during the winter. Prices: Same as for cabbage plants.

Double the Profits of Your Entire Crop

You can produce a uniform field of cabbage like these by using our field grown cabbage plants.

Field Grown Frost Proof Cabbage Plants

A Crop of Cabbage Four Weeks Earlier Than You Are Now!
To Our Friends, Our Customers:

Albany, Ga., Jan. 15, 1928.

The recent freeze killed about 75% of the Cabbage plants in the South generally speaking. We happened to be more fortunate than a good many growers in that about thirty acres of our plants were large enough to stand the severe freeze, which was the worst in years.

We are prepared to make prompt shipment of your orders, and you can send them to us with the assurance that we will give the same prompt and careful attention. We grow our own plants and know just what we can do.

Please do not be deceived into sending your orders to cut price concerns who will get your orders and no doubt hold them until they grow the plants for shipment in the Spring time.

You will receive fair treatment if you send your orders to us, and we will appreciate your telling your friends and neighbors that they can get their plants now by sending their orders to us.

If you are interested in Cotton Seed, Field peas, Velvet Beans and Seed corn we will thank you to write us for prices naming the quantities you will need.

We have a large nursery of Paper Shell Pecan trees and if you want to add $50.00 per acre to the value of your land put in a pecan grove this year. Write us for prices advising the number of acres you wish to put out in trees.

Very truly yours,

(signed) W. F. Jefferson, Mgr.
An Additional Profit of $150.00 an Acre

An Acre of Cabbage well taken care of in an ordinary season will produce 15,000 heads, or thirty thousand pounds of good, wholesome food for man or beast.

If you can realize the small sum of one cent per head you would realize $150.00 an Acre

and at one cent per pound would sell for $300. At the time this is written cabbage is selling for three and one-half cents per pound here wholesale. Ask your local grocer the market quotations on cabbage. You can follow this same acre of land with cotton, corn or potatoes and make a good crop without additional fertilizer.
