PLEASE NOTICE

Orders at prices in this catalog will be filled only for those engaged in the florist, landscape gardening and market gardening business, or others entitled to such prices. We reserve the right to refuse to fill orders for others not entitled to these prices.

As a protection to our customers who are entitled to wholesale or florists' prices we ask that they do not lend this catalog to persons not entitled thereto. It will save us considerable embarrassment. Tell them to send for our "Seed Book"—Free upon request.

NOTICE TO CUSTOMERS OUTSIDE OF THE UNITED STATES

In remitting for purchases at the time of ordering, or when paying accounts, by reason of the Exchange we ask that you please send P. O. Money order in U. S. Funds or a check or draft on a New York or Philadelphia Bank in par U. S. Funds.

WE ESPECIALLY INVITE CHARGE ACCOUNTS

A charge account is more convenient than to remit for each order at the time it is sent us; you pay no more for your goods by reason of this accommodation. As to our responsibility, we refer you to **Dun's or Bradstreet's Mercantile Agency** or any bank or trust company.

When sending your first charge order, refer preferably to someone in either your own or our line of business with whom you have a charge account. This frequently saves delay.

DISCOUNTS

On bills for Flower Seeds, Vegetable Seeds and Bulbs, a discount of 2 per cent. for payment 10 days from date of bill may be deducted; 5% cash discount is allowed on all orders of Flower Seeds and 3% cash discount on all orders of Vegetable Seeds and Bulbs when remittance accompanies the order, unless on items specially quoted or priced. Cash discount above does not apply to dealers orders, unless so stated in quotations or otherwise. All other goods are strictly net, as are also bills for goods supplied under special quotations unless otherwise agreed upon.

SPECIAL NOTICE.—We prepay postage free on all Flower and Vegetable Seeds offered in this Catalog, except on Peas, Beans, Corn and such other items as may be noted. We do not prepay free postage on Plants, Bulbs, Sundries, Tools, etc. nor do we prepay free any items on which we may have quoted special prices. All postage is charged on dealers orders regardless of items ordered.

PARCEL POST RATES.—On Seeds, Bulbs, Plants or Roots not exceeding eight (8) ounces in weight, the postage charge is 1c. for each two (2) ounces or fraction thereof; on sundries or other merchandise not exceeding eight (8) ounces in weight, the postage charge is 1½c. for each two (2) ounces or fraction thereof. Seeds, Bulbs, Plants, Roots, Sundries, etc., weighing over eight (8) ounces, are sent at zone rates.

If Special Delivery is wanted an additional 10c. is required on packages weighing up to two (2) pounds—15c. on packages weighing more than two (2) pounds and up to ten (10) pounds—20c. on packages weighing more than ten (10) pounds.

If it is desired that a package be given the same dispatch as first class mail it requires an additional 25 cents to the amounts as stated above, which is called a "Special Handling" rate.

If remittance accompanies order, a sufficient amount should be included to cover the extra charges—if ordered to be sent by either of the methods as stated above.

We do not make shipments of Plants or Cold Storage Bulbs C. O. D., and shipments of goods C. O. D. outside of our automobile delivery limits can only be made that way provided a partial remittance is sent with the order to guarantee that the goods will be accepted on arrival.

IMPORTANT NOTICE.—All shipments of plants, perishable stock and cold storage bulbs are made at buyers' risk only.

If such shipments arrive in bad condition, accept them and receipt for them accordingly, and make claim for your loss on the transportation company. We, of course, will hold ourselves ready to assist you in any possible way. It has been found that claims can be collected more readily by the person receiving the goods than by the shipper.

Our custom to guarantee the **actual arrival** of goods (except at points where there is no freight or express agent), will still be continued, and claims for loss or **non-arrival** of merchandise **not perishable** will, as in the past, be cared for by us, so you run no risk of having to make claims for lost goods.

CONDITIONS OF SALES

All contracts, sales and acknowledgments of orders are contingent upon crop failures, partial deliveries by growers or manufacturers, strikes, or other unavoidable causes beyond our control, clerical errors included: also unsatisfactory credit standing. All quotations are subject to market changes and goods being unsold on receipt of order. **Henry F. Michell Co.** give no warranty, expressed or implied, as to the description, purity or productiveness of any seeds, plants or bulbs they send out, and they cannot be in any way responsible for the crop. If the customer does not accept the goods on these terms, he must notify us at once, and we will give instructions for disposition of goods. No responsible seedsman can give a warranty.

Please note parcel post charges quoted by us are for delivery in the United States only.

MICHELL'S SUPERB ASTERS

We wish to emphasize the fact that our Asters are grown for us by specialists, and nearly all varieties under our own supervision. Michell's "Distinctive" Quality is nowhere more prominent than with our Asters, and we can recommend them with the utmost confidence to produce the very best results. Our seed is grown from plants which are free from disease.

SPECIAL NOTE.—In growing Asters, old soil and flats should never be used the second time without thoroughly sterilizing, to avoid the numerous diseases to which Asters are so susceptible; barnyard manure should never be employed as a fertilizer; we recommend the use of finely ground bone meal. Asters should not be grown in the same location two years in succession.

Michell's "Distinctive" Stocks

Stocks are one of the most profitable flowers to raise, provided you sow the right strains. For years we have made a specialty of supplying "Distinctive" strains, which are easily distinguished by their superior quality, strong germination and a remarkably small percentage of single flowers.

We are pleased to offer this variety to the tomato growers and feel safe in saying that it is the greatest addition so far to the tomato family. Time and money has been spent on this new variety and we now have a sort that is immune from the nail head rust and tomato blight, which is so prevalent, especially in the Southern States. Marglobe inherits the good qualities of both the parent varieties. Early Market. Retains its dark green color and is without doubt one of the best cukes for those who plant for profit; uniform in shape and size, averaging 8 inches in length and dark green in color. If you want a real fancy cucumber that will bring top prices, plant this one. See illustration, page 28. 20c. per oz.; ¼ lb., 60c.; \$2.00 per lb.

ENGLISH FORCING CUCUMBERS

These are splendid for growing in hotbed frame during the summer months, in preference to the open garden ground. They can thus be started earlier and protected during cool nights, as they are more tender than the regular variety; they may also be grown under glass in green houses during the winter. They produce fruits generally 18 to 24 inches long and 3 inches in diameter. They have a delicate flavor and possess very few seeds; for slicing no other sorts can approach them.

COS, ROMAINE, OR CELERY LETTUCE

Of French origin, this type differs greatly from the American varieties by its peculiar upright growth. To have it real tender the heads must be tied together at the top so that the inner leaves blanch; it has a decided flavor. It is best adapted to outdoor planting and stands the heat well. The Romaine lettuces sell readily to most all trade and should be grown more generally by market gardeners.

Kingsholm Cos. The largest and best heading variety of this type. The inner leaves blanch almost pure white and have little or no rib; the heads are very full throughout and therefore contain more edible part. 20c. per oz.; $\frac{1}{4}$ lb., 45c.; \$1.50 per lb.

MICHELL'S MUSHROOM SPAWN

PURE SPORE CULTURE SPAWN

This spawn is made in quart milk jars under absolutely sterile conditions. The bottle and materials are sterilized under steam pressure of twelve pounds, so that every mold, weed seed or insect is destroyed and each bottle contains nothing but the pure spawn. The cost is not much more than brick spawn considering how much further it goes; each jar contains enough for 30 to 40 square feet. The sterile spawn is dried thoroughly and each piece wrapped in tissue paper and contains full instructions. There is a rapidly increasing demand for fresh mushrooms, just as there is for hot-house tomatoes and other greenhouse products; the price is always good and markets are usually nearby.

About 15 years ago we began trading with your firm, and were always well satisfied. In the meantime we bought some seeds elsewhere, sometimes with success, at other times the reverse. We have finally decided to place our orders with the old reliable firm that we have felt handled the top in quality; so here we are with our entire list of seeds required for this time.

W. F. Co.

Watermelon, Kleckley Sweets

Kleckley Sweets. One of the sweetest of melons; fine grained and of excellent flavor. It is not a shipping variety, as the rind sets too close to the ripe, fluffy, rich red meat, when in condition to use. The melons average about 20 inches long and ripen quite early. 10c. per oz.; $\frac{1}{4}$ lb., 30c.; \$1.00 per lb.; 5 lbs., \$4.75.

Tom Watson. A handsome large fruit, frequently 2 feet long and 12 inches in diameter; dark green rind and bright scarlet flesh which by the way is of splendid texture and flavor; the sugary meat melts in your mouth. Nothing can touch it in the melon line for shipping qualities. The rind being tough, it will resist plenty of abuse. 10c. per oz.; $\frac{1}{4}$ lb., 30c.; \$1.00 per lb.; 5 lbs., \$4.75.

Spinach, New Zealand

Testimonial

Bloomington, Ont.

I tried some of your seeds last year with good results, especially the Market Gardeners Spinach; you sure gave it the right name, for that's the kind we market gardeners want, the kind that doesn't go to seed quickly.

M. W. M.

Spinach, Market Gardeners

Market Gardeners. This new variety is the highest perfection of the spinach family, being a decided improvement on all other kinds; leaves broad, heavy and of a dark green glossy color; very heavily blistered compared to Long Season; it will stand a week or ten days longer without shooting to seed than any other variety we know of, which is an important factor. The plants are large and require a less number to fill a basket than other varieties. 10c. per oz.; $\frac{1}{4}$ lb., 25c.; 45c. per lb.; 5 lbs., \$2.00; \$3.60 per 10 lbs.; 25 lbs., \$8.00; \$28.00 per 100 lbs.

New Zealand. This variety endures heat and drought; excellent for summer use; the leaves are small and thick. Enormous yielder, growing upright; one sowing can be picked from the entire summer. A distinct variety. Do not confuse this with other varieties of spinach, as the seed should be sown about May 15th. In order to get a successful germination of the seed, it should be soaked in warm water for about 12 hours before sowing. 15c. per oz.; $\frac{1}{4}$ lb., 30c.; 80c. per lb.; 5 lbs., \$3.75; \$7.00 per 10 lbs.

MICHELL'S RECLEANED GRASS SEEDS

Our connections with the best grass seed producers in America and Europe place us in a position of advantage for our supplies, chiefly because of the great volume of grass seeds we contract for. Some people have an idea that price is the only factor to consider in grass seed buying; while this has its place, it should be an after thought. "Quality is paramount." We are always pleased to submit samples with prices for comparison and let our customers be the judge.

QUANTITY OF LAWN SEED REQUIRED FOR A GIVEN SPACE

To secure best results we advise sowing on new ground with no sod on, 6 to 8 bushels of 20 lbs. per bushel to an acre; on established lawns or grass plots usually one half the quantity is sufficient. On a smaller scale, 1 quart per 100 square feet; 1 peck for 1000 square feet; $\frac{1}{2}$ bushel for 2000 square feet; 1 bushel for 4000 square feet; for putting greens we advise 100 lbs. of seed to a green 100 x 100 feet; for fairways 8 to 10 bushels (20 lbs. per bu.) to the acre; for pastures and hayfields 80 to 100 lbs. per acre.

If Mixed Grass Seeds are wanted by Parcel Post, add for postage as follows: 5c. for 1 pt.; 10c. for 1 qt.; 10c. for 2 qts.; 15c. for 4 qts.; 20c. per peck; 30c. per $\frac{1}{2}$ bu.; 50c. per bu.; larger quantities by express or freight.

Lily Auratum

Suggestions in Connection with the Growing of Hardy Lilies Under Glass

Hardy lilies should be grown cool and given 16 to 18 weeks from time of planting to bring them into bloom, so the best results can be obtained. In fact if you can give them longer to come into flower it is better. Where they are forced with plenty of heat, the result is that you get good foliage with not so many blooms early. We have particular reference to *Lilium Magnificum*, *Melpomene*, *Rubrum* and *Album*.

HARDY JAPANESE LILIES

These are a splendid proposition for the florist, they force readily in a moderate temperature, as described above. Prices are for shipment up to May 1st, after which new prices will prevail.

KIFT'S PREMIER PLANT STAND

Patent Pending

The Strongest, Most Durable and Practical Plant Stand for the Decorator

Premier Plant Stand

The Premier Plant Stand is made of steel in three sections, which, when set up, are securely held together with a bolt and wing nut, making a symmetrical triangular stand with basket top. This is capable of holding plants in from six to eight inch pots in the 12-18-24 inch heights, and 9 to 10 inch pots and tubs in the 30 to 36 inch sizes. Plants are stood erect or held securely at any desired angle. The stands are not heavy or cumbersome yet rigid and will support any decorative plants. Among other advantages to the decorator, is, that for transportation they may be stacked together, a dozen taking up no more room in the car, or truck, than two ordinary wooden pedestals. On arrival these require no setting up, being at once ready

for use. All are heavily coated with palm green enamel. Sizes and prices are as follows:

12 inch.....	\$1.00 Each	30 inch.....	\$1.75 Each
18 inch.....	1.25 Each	36 inch.....	2.00 Each
24 inch.....	1.50 Each		

KIFT'S PREMIER GREENHOUSE STAND

A somewhat different pattern is made for elevating plants on greenhouse benches. These are heavily galvanized and firmly held together with a brass bolt and wing nut. The use of these will add 10 per cent. to the bench space; the plants elevated making more symmetrical specimens, while the others with additional space for light and air finish in better form. In their light construction they can be placed anywhere on the bench, between plants, take up no room, cast no shadow or obstruct the view as do the heavy wooden pedestals so commonly used.

Adjustable Greenhouse Stand

This stand is adjustable to hold 8, 9 or 10 inch pots, pans or tubs. There is but one size, elevating plants bottom of pots, 28 inches above the bench. Price, \$1.50 each; doz., \$17.00; \$125.00 per 100.
