NEW BRUNSWICK NURSERIES

LINCOLN HIGHWAY, South of
NEW BRUNSWICK, N. J.

PHONE N. B. 1094-M1 and M2

FRED D. OSMAN, Prop.

First the Telephone rang—

and Mrs. ———'s voice carried this message:

"Mr. Osman, I have a triangular space by the driveway, 60 ft. long on one side, 50 ft. on the second side and 60 ft. curving along the driveway.

"Along the 60 ft. side is a 4 ft. stone wall, at the back of the 50 ft. width is an old fence line. Could you suggest something that will improve the general appearance of the entrance at this point?

"I would like to have the plants the day after tomorrow and my gardener will plant them."

At the appointed time we delivered an assortment of flowering shrubs, 108 in all, and made up of Deutzias, Forsythias, Mockoranges, Butterfly bushes, Altheas, Weigelias, red-barked Dogwood, Snowberry, Coral Berry, Spireas, Anthony Waterer and Thunbergi and Flowering Almonds, together with a rough planting plan showing the most practical arrangement for their planting.

This assortment included tall growing shrubs for the background, medium growing for the middle and dwarf growing shrubs for the front edge. It included shrubs that give a succession of bloom in varying colors from white to lavender and pink, as well as shrubs that are attractive through the winter.

Several weeks later, Mrs. ——— called at our Nurseries and said: "Your suggestion and plan were most complete. We were able to make the planting as per plan. There were just enough plants for the space, and, furthermore, everyone of the shrubs have started to grow except one."

All of which indicates that "Serving with Satisfaction" is the main object in our every-day business, and it is always a pleasure to make suggestions.

Simply give us the following information:

1. Is your soil sandy, clay or loam?
2. Is your winter temperature warm, temperate or very cold?
3. What three colors do you prefer, red, white, pink or yellow?

We will make a selection from our first quality bushes of Ever-blooming varieties that will meet all of your conditions and in addition give you this three-way enjoyment at the moderate cost of \$10.00.
