1928 TRADE LIST

Our Oregon Grown "Dutch Bulbs"

We have been successfully growing and offering these bulbs to the American public for the past five years during which time we have proven beyond any question or doubt that our Willamette Valley grown bulbs are the equal of the finest Holland or English product. Beginning in the fall of 1923 with one acre of tulip and narcissi bulbs we have made steady progress until we expect to plant approximately twenty acres of these bulbs the coming fall. With twelve acres of tulips approximating two million bulbs planted and involving nearly two hundred separate varieties, we undoubtedly have the largest and most varied planting of these bulbs in America. The particular merit of our tulip and narcissi bulbs aside from the possibilities of early delivery lies in their extreme earliness of blooming; the bulbs ripening fully three weeks ahead of the imported stock, assures a corresponding gain in time of blooming the following spring. Narcissi bulbs grow to the finest degree of perfection here in the Pacific Northwest, absolutely the very cream of the American product both as to size and quality. This is readily attested to by the fact that four of Holland's largest firms are now growing their total stocks of narcissi for the American trade here, involving over three hundred acres.

All stock offered and orders accepted subject to prior sale.

MINIMUM ORDER—No order accepted from this Trade List for less than \$3.00 and no single items for less than 50 cents.

TERMS—Cash with order or 25% deposit, balance to be paid before bulbs are forwarded or C. O. D. On large orders where credit has been previously established our terms are 3% 10 days from date of invoice or 60 days net. **All bulbs listed herein are sold F. O. B. Portland.**

SHIPMENTS—Our normal period of forwarding bulbs begins about September 1st and continues until November 15th. By Special arrangement we can make shipments as early as August 1st or as late as January 1st. Bulbs will be forwarded by express unless otherwise provided for. Safe arrival guaranteed.

DISCOUNTS—25 or more bulbs will be sold at the 100 rate except that no single item will be accepted for less than 50 cents. On 250 or more bulbs of the same variety and size a discount of 10% will be allowed. We will be glad to make special prices on large orders, especially on planting stock by the bushel.

REFERENCES—R. G. Dun & Co., or First National Bank, Portland.

GUARANTEE—We guarantee our stock to be true to name and free from disease, all shipments being certified to as to the latter by government inspectors who carefully check our stocks both when in bloom and later in storage. We want only satisfied customers and will guarantee satisfaction.

La Merveille

TULIP CLASSIFICATIONS

EARLY SINGLE—These tulips bloom from two to four weeks earlier than the other types and are especially fine for either forcing or bedding. The flowers vary in height from 8 to 15 inches and are obtainable in a great variety of shades of which we grow the more popular sorts.

EARLY DOUBLE—Especially showy for bedding, blooming at the same time as the Early Singles. Vary in height from 8 to 12 inches.

LATE SINGLE—Often called "Cottage" or May Flowering. These are especially good for cut flowers as they have good stems and keep well. Vary in height from 15 to 30 inches.

DARWIN—These are the cream of the whole tulip family and are unquestionably one of the finest flowers for cutting purposes as they grow from 20 to 36 inches in height, have sturdy stems and keep well in water. For planting in the border they are unsurpassed and many varieties force to perfection.

BREEDER—These are the unbroken or self-colored forms of the old Florists tulips. They are characterized by flowers of enormous size and of exceptionally vigorous growth. Far more of these tulips should be grown in America than there are at the present time as they always attract instant attention by their unusual shades.

EARLY SINGLE TULIPS

	—Per 100 Bulbs—			Per Qt. Plant- ing
	(1½ Up) Inch No. I	(1-1½) Inch No. II	(¾-1) Inch No. III

Turenne, purplish brown with broad margin of soft yellow. Very early.....	5.50			
Velvet King, dark glossy purple with white base. Immense flower.....	5.00	4.00	3.00	

SIZES OF BULBS

Commencing with this fall we are inaugurating an entirely new policy in Dutch Bulb merchandising in offering tulip and narcissi bulbs in several sizes and planting stock by measure. This should prove to be very popular especially among small growers, the same as with gladioli bulbs, and it is our earnest desire to be the means of greatly stimulating the interest among thousands of bulb growers thruout the country that these bulbs merit.

All tulip bulbs of sizes I and II should bloom the same year as planted and in many sorts the No. III size will throw substantial blooms. With Narcissi the Single Nose will throw one bloom and the Double Nose two blooms the same year as planted. In many varieties the larger sized "splits" will throw a bloom the first season. Normally the Round bulbs will furnish Double bulbs the following season and the large "splits" will make Round or Single Nosed bulbs the first season.

"THE PRODUCTION OF TULIP BULBS"

by David Griffiths, Horticulturist of the U. S. Bureau of Plant Industry, a 48-page bulletin covering in detail every phase of the subject with many illustrations. The best work of its kind that we know of and invaluable to anybody growing tulip bulbs either for pleasure or profit. Send 25 cents to the Supt. of Documents, Govt. Printing Office, Washington, D. C., and ask for Bulletin No. 1082 of the U. S. Dept. of Agriculture.

Tigridia Pannonia

We will have several thousand bulbs to offer the trade next spring. If interested write for description and prices.

NARCISSI

NARCISSI CLASSIFICATIONS

Lucifer

TRUMPET DAFFODILS (Daf)—Has a trumpet as long or longer than the petals or perianth segments. The old fashioned "Daffodil" so popular with everybody.

BARRI (Bar)—Cup or crown measuring less than one-third the length of the perianth segments. Perianth yellow or white, cup yellow or yellow, stained red. Some of the very choicest of recent novelties belong to this type.

INCOMPARABILIS (Inc)—Large chalice cupped flowers with cup measuring one-third to nearly the length of the perianth segments. Perianth yellow or white, cup yellow or stained red.

LEEDSI (Leed)—Eucharis Flowered or Silver-white fragrant Star Narcissi, comprising all the Star Narcissi, large chalice cupped and short cupped with pure white or silvery white perianth, and cup or crown of white, cream, buff-orange, apricot or pale lemon.

POETAZ—This unique class of Narcissi produce several flowers on a single stem, the individual flowers strongly resembling the Ornatus florets and characterized by extreme fragrance. They were produced by crossing the Poeticus Ornatus with several of the Polyanthus or bunch flowered type. They are fine for forcing and very hardy for outdoor planting.

POETICUS (Poet)—Pure show white perianth with extra short, flattened cups of a yellow or lemon color with dainty edging of scarlet or crimson. All are extremely fragrant and extra choice for cutting purposes.

	—Per 100 Bulbs—			
	Single Nose	Double Nose	Small Splits	Large Splits
Albatross (Bar)—White perianth, pale yellow cup. Fine for cutting. Tall.....	\$ 5.75	\$ 8.00	\$1.25	\$2.50
Barri Conspicuous —Large soft yellow perianth, cup edged scarlet. Tall.....	5.00	7.00	1.00	2.00
Blood Orange (Bar)—Pale sulphur perianth, orange red cup, fluted edges.....	5.75	8.00	1.25	2.50
Elvira (Poetaz)—White petals, yellow cup. Fragrant. Profuse bloomer.....	5.75	8.00	1.50	2.75
Emperor (Daf)—Enormous golden trumpet with primrose perianth.....	5.75	8.00	1.25	2.50
Empress (Daf)—Snow white perianth with rich yellow cup or trumpet.....	5.75	8.00	1.25	2.50
Evangeline (Leed)—Pure white perianth and lemon yellow cup. Extra large.....	5.00	7.50	1.00	2.00
Gem (Leed)—Pure white petals and cup. Medium sized flower.....	4.00	5.50	1.00	2.00
Glory of Sassenheim (Daf)—Large white blooms with yellow cup. Fine.....	6.00	8.00	1.50	3.00
Golden Spur (Daf)—Most popular variety. Rich yellow cup and petals.....	5.75	8.00	1.25	2.50
Homespun (Inc)—Perfectly shaped flower of soft primrose yellow.....	6.00	8.00	1.50	3.00
King Alfred (Daf)—Truly the aristocrat of all. Large golden yellow.....	13.50	16.75	3.00	5.50
Laurens Koster (Poetaz)—Pure white perianth, delicate orange cup.....	5.75	8.00	1.50	2.75
Lord Kitchener (Leed)—Large white flower with primrose cup. Extra fine.....	13.50	16.75	3.00	5.50
Lucifer (Inc)—Creamy perianth with fiery orange red cup. Very showy.....	5.00	7.50	1.00	2.00
Mme de Graaff (Daf)—Pure white perianth, pale primrose trumpet. Unique.....	5.75	8.00	1.50	2.75
Mrs. Langtry (Leed)—Broad white perianth, large white cup edged yellow.....	3.50	4.50	.75	1.25
Phaesants Eye (Poet)—Snow white petals, scarlet cup. Very fragrant. Late.....	3.50	4.50	.75	1.25
Poeticus Ornatus —Pure white petals, scarlet cup. Old reliable sort.....	4.50	6.00	1.00	2.00
Queen Bess (Inc)—Very early. Perianth pure white, cup light yellow.....	5.00	7.00	1.00	2.00
Queen of the North (Leed)—Extra fine white flower with lemon cup.....	6.00	8.00	1.50	3.00
Red Beacon (Bar)—Ivory white petals, fluted cup of intense orange red.....	15.00	20.00	3.50	6.50
Seagull (Bar)—Pure white perianth, canary yellow cup edged apricot.....	6.00	8.00	1.50	3.00
