THE PHILADELPHIA SEED CO.

INCORPORATED
WHOLESALE

FIELD THE FINEST OF THE CROP SEEDS

103-105 ARCH STREET

PHILADELPHIA, MARCH 23, 1928.

TRADE CONDITIONS: Conditions are now more favorable for seeding, demand increasing in all lines of the seed trade. Busy farmers will not be delayed in securing supplies. We offer our best in service to cooperate with our dealers in making quick deliveries. Our stocks cover practically everything in the field seed line and are carried in our warehouse ready for immediate shipment.

NEW QUAKER SIGNS: The photograph will give you some idea of the very striking sign which we now have ready for distribution. The signs are paraffin coated on heavy cardboard, beautifully lithographed in red, green and white colors. They are suitable for both inside and outside display. Please tell us at once how many of these signs you can use to advantage.

RED CLOVER: Market on Domestic seed is firm, lower on imported seed, demand is expected.

ALFALFA: Market continues strong, demand increasing. Prices are reasonable and farmer should be encouraged to use Certified stock of known origin.

LAWN GRASS SEED: Demand increases from year to year. Merchants should be careful not to lose their proportion of this profitable business. We supply folder for mailing as well as attractive poster signs.

SEED POTATOES: The market is very strong and some varieties are scarce. Suggest you place orders now while stocks are complete. Prices are not quoted below due to sharp fluctuations in the market. Quotations will be mailed on request.

Prices quoted below are today's values f. o. b. Philadelphia. Samples sent promptly upon request. Bags not returnable. Upon request we can supply our seeds packed in 1 bu. bags made of towelling material of first quality. Each bag will make two single towels or one double towel. Seed so packed is invoiced at an advance of 50 cts. per 100 lbs., net weight, bags free.

Choice		25.00	15.00

Quotations above are for No. European Red Clover seed re-cleaned over various processes to remove impurities peculiar to foreign grown seeds. Imported Clover seed may be sold at much lower prices in original heavy burlap sacks. It has always been our policy, however, to oppose the distribution to the farmer of foreign grown Clover seed from original imported packages account of the danger of losing valuable seed.

Their seed is sold in bulk and by us in bulk in accordance with a plan approved by the U. S. Department of Agriculture and are guaranteed under the supervision of that Department.

Under this system and by special arrangement with that Department we are authorized to issue verified origin seed certificates for such seed, the locality of production of which has been verified by a Federal seed inspector.
