I am offering this year Entire lots of unnamed seedling glads grown from one to four years under observation at from \$1.00 to \$5.00 per lot according to amount of stock (bulbs with their increase) in each lot. Each purchaser will receive absolutely the entire stock of each variety purchased. I do not retain even a single bulblet. I sold more than twice as many seedlings the past two years as all other orders together, and nearly every purchaser comes back for more. I am also offering hand crossed selected plump seed at \$1.00 per packet of 100 seeds.

My novelties are much lower in price than you would have to pay for the same quality of certain Western specialists. I have paid outrageous prices for some of the recent years World Beaters, and I suppose some of you have had the same experience.

NOTICE—CHOICE IRISES WANTED IN EXCHANGE FOR GLADS

If you are interested in Irises send for my list which will be ready to mail early in the spring. I have over 200 of the "FINEST IN THE WORLD" including the best of the Novelties.

All Orders Sent Pre-Paid.

N. B.—A membership in the American Gladiolus Society brings you every month The Gladiolus Review, a most interesting 32-page Magazine devoted to Gladiolus news and information. Send \$2.00 to Roscoe Huff, Secretary, Goshen, Indiana.

The Flower Grower published by Madison Cooper, Calcium, New York, (\$2.00 a year) is, in my opinion, the best Floral Magazine published.
