"NONE BETTER GROWN"

We Sell 6 Bulbs at the Dozen Rate, 25 at the 100 Rate, 250 at the 1,000 Rate

Gladiolus From Our Long Island Farms

THE chief gladiolus producing sections of the country were not favored with good growing weather this past season. Here in the East we had too much rain while through the Middle West the growers experienced severe droughts. The supply of large bulbs, therefore, is smaller than it has been in many years and the shortage is more pronounced because growers have gradually been discarding some of the old popular kinds in favor of the newer and better things until the available quantities are now much below normal.

Buyers, therefore, are confronted with the necessity of switching

from the older varieties to those which have taken their places with the further possibility of having to accept the smaller size bulbs.

But all this is not so alarming to experienced buyers who are aware that the better kinds invariably show a greater net return and that the second size bulbs, except for forcing, are superior to the larger ones.

We have extended our gladiolus cultures, in both quantity and variety, considerably, and have a nice lot of bulbs to offer but we ask our customers to order early and to act in accordance with the above suggestions.

ALICE TIPLADY. (Primulinus). Beautiful saffron color and one of the best known and finest of the Primulinus types. Its attractive color is not approached in any other variety. Splendid for forcing or outside planting.

1 1/2 100	and up 1000	1 1/4" to 1 1/2" 100	1000
\$4.20	\$35.00	\$3.65	\$28.00

AMERICA. Soft lavender pink. An old favorite and still popular, although there are many finer kinds of the same color. Stocks are now much depleted and only in all quantities available.

3.00	25.00	2.40	20.00
------	-------	------	-------

ANNA EBERIUS. Dark velvety purple and an extra fine variety in this color.

4.20	35.00	3.65	28.00
------	-------	------	-------

BARON JOS. HULOT. Deep violet blue and still the finest of this color.

6.00	50.00	4.80	40.00
------	-------	------	-------

BEAUTY. (Primulinus). Deep salmon pink, slightly frilled. Exceptionally beautiful color.

4.20	35.00	3.35	28.00
------	-------	------	-------

BYRON L. SMITH. An orchid color Gladiolus with blendings of blue, yellow and white. A good grower and well liked.

5.40	45.00	4.20	35.00
------	-------	------	-------

CAPTAIN BOYNTON. Delicate lavender with deeper blotch on lower petal. Well formed spike on long, strong stem.

25.00	225.00	21.00	190.00
-------	--------	-------	--------

CATHARINA. A combination of lavender and lilac colors, with violet throat. With the present demand for light blue Gladiolus, "Catharina" is selling well and is very popular.

7.00	60.00	5.75	48.00
------	-------	------	-------

CHICAGO WHITE. A popular early white variety with small lilac blotch on lower petals.

3.00	25.00	2.50	20.00
------	-------	------	-------

CRIMSON GLOW. This variety is considered the finest deep crimson. It is a tall, strong grower with flowers well placed.

4.80	40.00	3.90	32.00
------	-------	------	-------

DEUTSCHLAND. Shell pink, slightly darker than America. A well formed spike showing as many as eight perfect flowers open at the same time. A very fine variety.

7.00	60.00	5.75	48.00
------	-------	------	-------

DR. F. E. BENNETT. This is among the finest of the new reds. Tall, sturdy grower with well arranged flower formation and highly regarded by all who see it.

50.00	40.00
-------	-------

DUCHESS OF YORK. The finest of the new blues. We are glad that our larger stock of this fine variety enables us to lower the price considerably this season.

9.60	80.00	7.80	65.00
------	-------	------	-------

EARLY SUNRISE. This is our choice as the finest and the most profitable of the early varieties of Gladiolus. It makes a large, heavy spike which has an appeal to the average buyer and invariably brings the top price. The color is flame red overlaid with silver stripes and streaks. Extra fine for forcing and outside planting.

GLADIOLUS FOR STORE TRADE

Large, plump bulbs that will make a fine appearance on your counters (we have attractive color cards that will be supplied free).

Pink Shades, Red Shades, Yellow Shades, White Shades and Salmon Shades.

1½ inch and up, per 100, \$2.65 per 1000, \$22.00

1¼ inch to 1½ inch, per 100, \$2.15; per 1000, \$18.00

All Shades (Special Counter Mixture).

1½ inch and up, per 100, \$2.40; per 1000, \$20.00

1¼ inch to 1½ inch, per 100, \$1.90; per 1000, \$16.00

We can also supply 1-inch bulbs (third size) of any variety listed here at 20% below 1¼-inch prices.

YELLOW CALLAS (*Elliotiana*)

Prices of these beautiful yellow Callas are considerably cheaper this year. We urge growers to plant them liberally, as they command a good price either in pots or cut. They also make a fine bedding plant.

The Two Outstanding Varieties

“JERSEY’S BEAUTY”

AND

“MRS. I. DE VER WARNER”

(Both shown in colors on front page)

JERSEY’S BEAUTY

JERSEY’S BEAUTY. The sensational dahlia of a decade. A grand color, a beauty for cutting. A real dahlia for florists. This wonderful flower, introduced in 1923, created a sensation, and still heads a class of its own. It is a large, perfectly formed flower, of a clear eosine pink, held upright on a long wiry stem over a well-branched bushy plant.

It is a real clear florist’s color, a wonderful keeper and good shipper. The awards it has gained all over the country surpass, in number, all past records of Dahlia Novelties.

Strong Divisions per doz., \$5.00; per 100, \$35.00; per 1000, \$300.00.

MRS. I. DE VER WARNER. This exquisitely beautiful blossom of soft orchid, or rich rosy mauve, is one of the most admired and best of all cut-flower dahlias that we have grown. This extra large refined, lovely flower with its long stiff stem, is a prolific bloomer and one of the very best for florist’s use as well as exhibition purposes. A fitting combination for Jersey’s Beauty.

Strong Divisions per doz., \$3.50; per 100, \$25.00; per 1000, \$200.00.

Of the thousands of new Dahlias that have been introduced and offered for sale in the past few years these two kinds have, by practical demonstration over varied growing conditions and locations, shown that they possess unusual merit in combining all of the attractive features demanded of a first class commercial Dahlia.

Long strong stems—which are essential for marketing purposes.

Attractive colors—for everybody likes pink and lavender.

Good keeping qualities—which are lacking in so many other kinds.

Prolific bloomers—flowering in great profusion throughout the season.

Easily grown anywhere—adapting themselves readily to all conditions.

We are glad that our large stock of these two fine kinds (and we probably have the biggest blocks in the country) enable us to offer them at the very special prices quoted below.

MRS. I. DE VER WARNER

The Finest Florist's ^{CUT} FLOWER Dahlias

In continuing our list of select Dahlias we have exercised great care in confining it to varieties suitable for commercial cut flower purposes.

We handle possibly more Dahlias than any other firm in the country, and our experience, coupled with our observation at the large flower markets, enables us to make a selection based on actual demonstrated value.

GIANT HYBRID AMARYLLIS (Hippeastrum)

The World's Choicest Strain

WE HAVE recently purchased the entire stock of the famous Glen Saint Mary collection of Hybrid Amaryllis and moved it to our own farms at Jacksonville, Florida. The foremost hybridists of the country have combined to make this strain the last word in beautiful Amaryllis.

A re-selected strain of the very largest-flowered sorts, ranging in color from almost pure white, through various shades of pink, to the deepest scarlet, some with beautiful markings and mottled throats.

An easily-grown plant of wondrous beauty; a quick seller in a dry state to those who love an unusual and attractive pot-plant for the living-room or sun parlor. Makes a charming and lasting cut-flower.

ARUM CORNUTUM

(Monarch of the East)

THIS unique bulb was becoming very popular when the embargo went into effect. In a dry state it will, in any ordinary living room temperature, throw up an odd growth of mottled gray foliage and stalk with a semblance of flower. This is accomplished without planting. The same bulb can then be put outdoors when the weather warms up and will produce a beautiful green foliage plant.

TRITOMA PFITZERI

TRITOMAS

"Red Hot Poker" or "Flame Flower"

These are very showy decorative plants and are being profitably grown for cut flowers. They seem to do particularly well at our Long Island farm. We offer strong divisions of the most popular varieties.

PFITZERI. This is the leading variety. It is a prolific bloomer and the flowers are a beautiful flame red color. Per dozen, \$1.75; per 100, \$12.00.

RUFA. Dainty free flowering variety. Flowers of orange yellow. Slender foliage. Blooms all summer. Per dozen, \$3.00; per 100, \$20.00.

HYBRIDS. These flower earlier than Pfitzeri and make a glorious showing throughout the whole fall and summer season. The flowers are large and range in color from light orange to deep red. Per dozen, \$1.75; per 100, \$12.00.

Don't Fail to Make a Planting of the Graceful Montbretias

GLORIOUS MONTBRETIAS

MONTBRETIAS

We have been paying special attention to these beautiful bulbous plants and have now developed nice stocks in several fine varieties covering the usual range of colors. The flowers attracted much favorable comment wherever shown by us last summer and we are sure that florists will not go wrong in making a planting, for their gracefulness permits of lighter decorations than possible with Gladiolus. Many of the varieties produce three and four flowers to each bulb, thus reducing the cost per flower to a nominal sum. We are considered as American headquarters for Montbretias.

We Have a Good Supply of Begonias and Gloxinias for This Season

FANCY LEAVED CALADIUMS

Florida has made wonderful progress in the production of these beautiful foliage plants, and the availability of the bulbs in substantial quantities at most reasonable prices is appreciated by the trade, for it is aware of the many valuable uses to which the plants can be put. While the former scarceness of the stock limited its use practically to conservatory and florist summer window decoration, it can now be used extensively for bedding and window boxes, and there is not a more worthy subject for the purpose. In addition to our own stock in Florida, we are offering the product of several of the leading specialists.

FANCY LEAVED CALADIUMS IN CHOICEST NAMED VARIETIES

A collection of the finest varieties combining only the most desirable shades. We know that there is no better assortment in the country. Bulbs range from 1" to 1½", depending upon variety. Names and descriptions of varieties upon request.

CALADIUMS

(ELEPHANT'S EARS)

There is always a popular demand for these highly decorative tropical plants, and florists should arrange to have a good supply already started in pots for summer bedding. These bulbs also are quick sellers for store trade. Our stock is clean, healthy and carefully graded. It is well to order early as the larger sizes are usually exhausted early in the planting season.

DOUBLE BEGONIA

Tuberous Rooted Begonias

With a dependable supply of satisfactory stock now being produced in California, these bulbs are once again assuming their old popularity. In addition to making a very fine pot plant, they are most beautiful for outdoor bedding especially in semi-shaded locations. For an early showing it is desirable to start the bulbs under glass before planting, but they will come along nicely a little later in the season if planted in a dormant state. We offer large first-size bulbs as follows:

We Have Provided an Extra Supply of the Beautiful Regale Lilies

HARDY LILIES

LILIUM REGALE

LILIUM REGALE (Myriophyllum)

The beauty of this fine Lily is well known and it stands unequalled among those which will thrive in this country. The trade has long awaited a supply of these bulbs at reasonable prices, and we are now glad to have a stock sufficiently large to enable us to make a general offer.

In this latitude the Regale Lilies bloom in early June and about the same time as *Lilium Candidum*. They have white trumpet flowers with slight pink and other colored stripes on the lower petals and are very fragrant. The bulbs we offer are good flowering size and we suggest that they be left undisturbed for several years as they will then enlarge annually and throw much larger flower spikes.

LILIUM GIGANTEUM

RANUNCULUS

RANUNCULUS

We have started many greenhouse men in the growing of Ranunculus and they are making money on them. The Domestic bulbs are larger than those formerly imported and seem to force better. If your trade can use "something different" we suggest that you try them.

This year we have added a group of named varieties to our list.

The giant French Ranunculus resemble in form a miniature pompon Dahlia but are as brilliant and varied in coloring as the Poppies and Anemones. In forcing them, give the same treatment as Anemones, but they do not mature quite as early.

GIANT FRENCH MIXED. The Californian grown bulbs are giving splendid results, and we have several letters from customers telling us of the fine flowers produced. Beautiful rosette flowers in a wide range of colors. Force well and are money makers.

ANEMONES

Anemones are becoming a leading market flower—not in quantity because there are never enough to meet the demand, but they are decidedly popular, and those who have been successful in forcing them have been amply repaid. They are invariably sold quickly at a good price. They provide color effects that are unsurpassable in intensity, and a prolonged marketable season for the flowers can be maintained by planting successive batches.

Culture. Anemones like cool moisture and leafy loam, and above all, good drainage to prevent stagnation which rots the bulbs. The best potting or benching mixture is made with equal parts of rich well-manured loam, leaf mold, and clean fresh sand. Deep pans are better than pots, but whether grown this way or in benches avoid all chance of sour accumulation of moisture by providing good drainage. Give a cool shady position at first until roots are formed, then place near the glass with never more than 55 degrees to 60 degrees temperature.

Our Anemones have been giving splendid results for the past 3 years or more, and we have a splendid crop to offer this year.

LIBERAL TERMS TO RESPONSIBLE PARTIES

Our regular terms of sale are as follows: 5% off for cash with order, 2% off for cash within 10 days: final payment to be made within 60 days. These terms still apply in all sales to customers who in turn resell the bulbs.

To the grower and florist, however, we have inaugurated the "GROWERS' TERMS" of sale. They are as follows: invoices for bulbs are payable from responsible florists and growers 10 days after the normal flowering period of the particular bulbs sold, with final payment on late bulbs due 10 days after Easter. We, in this way, endeavor to assist the florist and grower during the period that the stocks are in growth.

WHAT WE GUARANTEE. We guarantee that all bulbs leave our farms and warehouses in good condition, packed in boxes or packages substantially secure and sufficiently strong to insure delivery in good condition with reasonable handling. The risk of transportation is one which the customer must absorb.

WHAT WE DO NOT GUARANTEE. We give no warranty, expressed or implied, as to description, quality, productiveness or any other matter of any seeds, bulbs or plants we send out, nor will we be in any way responsible for the crop. If the customer does not accept the bulbs, roots or seeds under these conditions, they must at once be returned to us and any money paid will be promptly refunded. Positively no claims allowed unless made within five days after the receipt of merchandise.

We Recommend Our "Outdoor Valley" for Counter Sales

LILY OF THE VALLEY

For Florists' Forcing

LILY OF THE VALLEY NEWPORT BRAND

LILY OF THE VALLEY

for outdoor planting

This is a special grade that we import especially for the purpose—not seconds, culls or carried over stock—but full size pips of the new crop each of which will throw a large spike. We have developed a nice business in this item and every florist will find that a planting will bring a good early return. It is a splendid item for counter trade.

DIELYTRA SPECTABILIS

(BLEEDING HEART)

We have been advocating the more extensive use of this beautiful decorative plant for several years and those of our customers who have availed themselves of our suggestion have profited. It is used extensively as an early spring pot plant and is a fine specialty for St. Valentine's day. The cut sprays are also useful. It is perfectly hardy and makes a splendid showing in the perennial border or when planted with early bulb stocks.

PEONIES

We are growing a nice block of Peonies on our Long Island farm and the plants look particularly well this season after very favorable growing weather. No flowers are cut from this stock and thus the full strength of the plants is reflected in the roots we send out.

We list below the most important kinds of which we have good quantities but we are also growing many other kinds that will be quoted upon application.

Shipments—All varieties are offered in 3 to 5 eye divisions for September and later delivery.

WINTER & SPRING BULBS

for Summer and early Fall delivery

THREE SPLENDID FREESIAS

THERE are many varieties of Early Fall Bulbs, (prices of which cannot be fixed for publication in this catalogue) entire crops of which will be harvested and possibly sold before the next edition (Fall 1928) is issued.

We refer particularly to the following:—

Early Dutch Bulbs.
Prepared Hyacinths.
Paper White Narcissus.
Soleil d'Or Narcissus.

Freesias.
Lilium Candidum.
Lilium Harrisii.
Colchicums, Etc.

We will be glad to quote prices as soon as crop reports and probable quantities available, reach us. We urge the necessity of placing orders for these early,—indeed we are glad to state that many have already booked with us, knowing that we can and will meet the market both in **quality** and **prices**, when the deliveries are due.

Without any obligation on their part, these early buyers help us to help them. They get the advantage of the best prices on early orders, get their stocks delivered on time, direct from our growing stations, obviating extra handling and freight charges. They also avoid all possible risk of disappointment.

One must remember that bulbs are *produced* not *manufactured* and that when the crops are harvested and distributed, there are no “looms” running overtime to accommodate the late buyers.

Just look over your 1927 diary now, and see what bulbs you will need for Early Summer and Fall delivery, 1928—you'll have them when you want them if you write us now.
