Wichita Nurseries & Seed House
Wichita, Kansas

Growers and Distributors of high grade Nursery Stock

The Elberta Peach should be in every orchard. Propagated best by us.

The Delicious Apple is truly "Delicious," as there is nothing like it for a health-giving fruit the year around.
To Our Friends and Customers

We are with you again for another year with the same low prices and quality goods but in a new dress. We wish to thank our customers for the fine patronage of the past year and we hope we have satisfied your every want.

We are sending to you this year our new catalogue with the prices where you can find them. We think that we have anticipated your wants and that we are giving you a new, easily understood catalogue containing only those varieties of plants that we would personally plant ourselves.

Our slogan is the same: "Quality nursery stock to the public at the lowest possible prices." We are the pioneer mail-order nursery of this section and we set the standard for good stock and low prices. Do not be deceived by prices quoted by smaller nurserymen and dealers who continue in business by furnishing you with inferior stock.

We, besides reducing our prices on a large number of items, are continuing our remarkable premium offer. If you have not seen any of our premiums, ask your friends if they are not fine and just as we represent them. This premium offer is our method of letting you share our profits.

We consider your good will our strongest asset. This is our thirty-seventh year in business and we have grown and prospered because we have satisfied your wants. We will welcome your further business, and will try just as hard as ever to please you. Thanking you for your past patronage, and with kindest regards, we are

Gratefully yours,

W. F. SCHELL, President.

History

Mr. W. F. Schell, the president, came to Wichita in 1890 from Caldwell to form the Wichita Nurseries Association. In association with several of the most influential men of the town, Mr. Schell planted out several acres of nursery stock and from this small development our firm has through the years increased in acreage and business until we are rated as one of the largest and most complete nurseries in the middle west.

During the years 1915, 1917 and 1918, Mr. Schell was Commissioner of Parks, City of Wichita, and much of the credit for the excellent park system of Wichita goes to him as he was very active as Commissioner. In 1925, we started a new nursery at Tulsa which is known as the Tulsa-Wichita Nurseries. This new nursery is now one of the best and most complete nurseries in Oklahoma. We have built new packing houses on the grounds of our Oklahoma Nursery.

We have equipped both of our nurseries with modern equipment and efficient workmen and we would welcome a chance to serve you with our quality plants.

Personnel

Mr. W. F. Schell, president of our firm, started as an apprentice in the nursery business for the Brackett Nursery Company, fifty-nine years ago. Mr. Schell has continued actively in the nursery business since that time and is the oldest nurseryman in Kansas. Mr. Schell is acknowledged as one of the best orchard men in the state. His long experience in the growing of fruit trees and small fruits, and his additional experience of orchard work fits him as an orchard expert. Mr. Schell was Kansas Commissioner of Horticulture at the World's Fair in St. Louis in 1904 where his efficient and painstaking efforts won much reward and glory for the products of the Kansas orchards and winning two grand prizes for the State. He will assist you in starting your orchard and will be glad to advise you on your problems at any time. Is also a life member of the Kansas State Horticultural Society and a former vice-president as well as a member of the Luther Burbank Arboretum Association.

Mr. Albert L. Schell, our secretary and head of our Landscape Department, is a graduate of the Kansas State Agricultural College at Manhattan and also the possessor of a Master's Degree from the University of Chicago at Chicago, Illinois. Mr. Schell was in the landscape business in Chicago for six years before coming back to Wichita. Since his return to Wichita, Mr. Schell has been very busy with his landscape work, specializing upon the decoration of homes, cemeteries, subdivisions, parks, and industrial plants. Our friends and our customers should feel free to place their landscape problems in Mr. Schell's hands.

Mr. W. Robert Schell, our treasurer and Oklahoma manager, is a graduate of the Kansas State Agricultural College at Manhattan and also pursued a post-graduate course in Landscape Gardening at the University of Illinois. Mr. Schell resides in Tulsa, Oklahoma, where we have a new nursery in the making. Mr. Schell is not only an orchard specialist but one of the best landscape architects in this part of the country. His landscape development on large estates, cemeteries, parks and industrial plants is attracting the attention of numerous influential people of Oklahoma.

For nearly sixty years Mr. W. F. Schell has served you well. The above photo is how he looks today, on the job, as usual.
Wichita is a center of a network of railroads which can serve you promptly and well. We have the Santa Fe, Rock Island, Frisco, Missouri Pacific, Orient, Midland Valley and Arkansas Valley Interurban roads. You will find the freight and express shipments on these roads of the best.

PACKING AND SHIPPING
Our large packing houses, finely equipped cellars and new equipment, place us in a position to protect and furnish to you the best of quality plants. We use every precaution to protect all plants so that they will reach you in fresh and growable condition. Our packers are all experienced men and our method of packing, so that your plants will keep fine and fresh, has caused us to receive many compliments from our customers.

SAFE DELIVERY GUARANTEED
We take every precaution to protect your nursery stock in transit. Any stock that is damaged in transit will be replaced free of charge, f. o. b. packing station. We receive accurate accounts daily of the weather conditions in your locality. We protect you by shipping at the right time—when the weather conditions are favorable at our nurseries and in your locality.

CERTIFICATE OF GENUINENESS
We exercise the greatest care in having our trees true to label. We agree, on proper proof, to replace all trees, plants, etc., that may be found untrue, free of charge or refund the amount paid for said stock but will not be liable further. Complaints, if any, must be made immediately after the delivery of the stock.

GUARANTEE OF GROWTH
We use the greatest care possible to furnish you with live, fresh dug, plants. Any plants that fail to leaf out the first spring following the planting will be replaced at one-half price, providing the proper proof is furnished. The customer agrees to pay transportation charges on these replaced plants.

FINANCIAL
Remittances must accompany the order. Remittances may be made by postal or express money order, personal check, bank draft, or stamps if your order is small. We will not be responsible for currency sent by mail.

REFERENCE
To new customers and people not knowing us, we refer you to the First National Bank of Wichita, Industrial State Bank of Wichita, Dun Company, Chamber of Commerce of Wichita, or any business house in this city.

PROGRAM
Prices quoted herein means that the specified stock will be packed free of charge and delivered in good condition to the transportation company. Our quality plants are priced low, so get your order in early while they are favorable at our nurseries and in your locality.

HOW TO SHIP
Orders will be shipped freight, express or parcel post, as you indicate. If the orders are not too large we recommend express shipment as this service is prompt and satisfactory. Those desiring parcel post shipment, PLEASE ADD 10% TO THE AMOUNT OF THEIR ORDER FOR POSTAGE. If you have sent too much the balance will be returned and if you have not sent enough, we will write you for the balance. Remember, we do not pay transportation charges of any kind. Roses, shrubs, vines, perennials, bulbs, and 2 to 3-foot fruit trees may be sent parcel post.

Page of Information

GENERAL

HEALTH CERTIFICATE
The following health certificate accompanies all orders and guarantees to you healthy stock which is free from disease:

KANSAS ENTOMOLOGIST COMMISSION
Office of State Entomologist, University of Kansas
No. A 1531
Lawrence, June 14, 1927.

CERTIFICATE OF NURSERY INSPECTION
This is to certify, That in accordance with Section 2-703 of the Revised Statutes of 1923, the nursery stock now growing for sale by Wichita Nurseries and Seed House, of Wichita, Kansas, has been inspected by a duly authorized inspector, and found apparently free from dangerously injurious insects or plant diseases.

H. B. Hungerford, State Entomologist.
Invalid after June 1, 1928.

PREMIUMS
Orders of over $10.00 are entitled to receive the nice premiums as listed in this catalogue, pages 22 to 25. If your order fails to reach this figure club the same with your neighbor and get your premium. We guarantee these premiums to be just as indicated and of fine quality. Those customers taking advantage of this fine premium offer are really getting a discount of from 10 to 15% off their bill. All premiums except nursery stock are shipped f. o. b. Kansas City, Mo.

SPECIAL RATES AND PRICES
Note at the bottom of each group of prices the special rate given for a number of plants of this group. For example, you can buy five pears at the 10 rate—that is one pear would cost you in the standard 3 to 4-foot size 50 cents, but you can buy five of these trees (in this size only) for only 45 cents each. If you want as many as 30 pears in this same grade you can buy them at the 100 rate or for 40 cents apiece. The same rate proposition is given at the foot of each group of prices. Write us if you do not understand this rate system. Customers may mix the varieties as much as they wish but must keep the one size.

LARGE ORDERS
Those parties wanting us to furnish you with landscape sketches must send in your preliminary sketches and pictures of your home so as we will have a working background. Also you must deposit $5.00 with us to cover cost of labor and materials. Upon the receipt of this $5.00 we will issue you a credit memorandum good for $5.00 worth of nursery stock which is good a year from the date of issue. Our landscape department is the best in the middle west and will gladly help you design your grounds properly.

LANDSCAPE DESIGNS
Those parties wanting us to furnish you with landscape designs must send in your preliminary sketches and pictures of your home so as we will have a working background. Also you must deposit $5.00 with us to cover cost of labor and materials. Upon the receipt of this $5.00 we will issue you a credit memorandum good for $5.00 worth of nursery stock which is good a year from the date of issue. Our landscape department is the best in the middle west and will gladly help you design your grounds properly.

SERVICE DEPARTMENT
Our service department is composed of experts in gardening, landscape designing, and orcharding. These men will gladly answer all correspondence free of charge and we trust that you will let us help you solve your problems.

TIME OF SHIPMENT
Kindly indicate the approximate time that you want your order shipped. We will ship your order as nearly as possible on the date that you indicate. You must remember that we are governed in this matter by weather conditions. To those that do not indicate the time of shipment, we will use our best judgment.
Fruit Tree Department

Our fruit trees have been the standard of quality for years. People from all parts of this section of the country have been buying our trees for this period. Our growers know how to produce these quality trees and we use the latest methods of growing. The carefully selected scions are budded or grafted on "whole roots," thus producing a sturdy tree that will stand transplanting, grow and produce the maximum crops. Our growing methods are more expensive than the average nursery because we take more pains with the details of each process. Our trees, as we price them, cost you no more than the ordinary trees and are worth nearly twice as much.

We use the same care for digging and packing our trees that we use in growing them. We use every modern method for protecting the tree after it is dug up to the time that you receive the same. Our large warehouses and cellars afford us ample space for our men to grade and pack the trees. Trained men look after the stock in the warehouses and keep the same moist and in good condition. One of our hobbies is our good packing. We strive to pack every plant for shipment so that it will go a great distance safely, and even more we pack so that you may keep the bundle of trees in the bale or box a week after you receive them and they will still be in good shape for planting after this time. We have hundreds of testimonials each season complimenting us on our fine fruit trees. They not only grow, but they produce fine crops.

APPLE TREES

The most select stock grown anywhere, none better. We grade our plants strong and give good values for your money. We recommend in the summer apples the Early Harvest, Red June and Yellow Transparent. In the fall apples we recommend Maiden Blush, Wealthy, Grimes Golden, Jonathan. In the winter varieties we recommend the Delicious, Winesap, Stayman’s Winesap and York Imperial.

Summer or Early Varieties

Early Harvest.—Medium to large, flat, pale yellow; good. Tree a fair grower and bearer. July.
Red June.—Medium size, red; flesh white, tender, juicy, sub-acid; an abundant bearer. July.
Yellow Transparent (Russian).—Skin clear white, changing to pale yellow when fully ripe; flesh white, tender, slightly sub-acid; good early bearer. July.

Autumn Varieties

Maiden Blush.—Large, flat, pale yellow; beautiful blush; mild, sub-acid, valuable for market, cooking and drying... September.
Wealthy.—Fruit medium, oblate, skin smooth, whitish-yellow, shaded with deep red in the sun, splashed and spotted in the shade. Flesh white, tender, juicy, sub-acid, very good. August to September.

Early Winter Varieties

Grimes.—Medium to large, roundish, oblate, slightly conical; large specimens oblong. Skin yellowish-white, with a mild vinous flavor. September to December.
Jonathan.—Medium size, unless thinned on tree, when it becomes a fair size; form roundish, conical; skin thin and smooth, the ground clear, light yellow, nearly covered with lively red stripes and deepening into brilliant or dark red in the sun; flesh white, rarely a little pinkish; very tender and juicy; mild, sprightly vinous flavor. September to December.

Winter Varieties

Arkansas Black.—Large, very dark red, smooth, roundish flat, lightly dotted white; flesh yellow, sub-acid; long keeper. November to April.
Delicious.—This variety should be in every orchard. Fruit large, almost covered with beautiful dark red, blending to yellow at the blossom end. Sweet, pleasant flavor, only enough acid to make it pleasing. Flesh crisp, juicy, fine grained, melting. September to February.
Ben Davis.—Large, roundish, oblong, red striped, very handsome. Mild, sub-acid, not rich. Tree very vigorous, hardy and productive. This is one of the safest and most profitable market apples grown in this country at present. October to March.
Gano.—Tree very healthy, vigorous, hardy, having stood 32 degrees below zero without injury. A rapid grower, large and spreading in orchard. Color bright red without stripes or blotches. Similar but superior to Ben Davis. Large and even in size. Fruitlet bearer and a good Keeper. October to April.
Rome Beauty.—Large, roundish flat; bright red, mild, sub-acid, very good. A good grower and early bearer. November to March.
Stayman Winesap.—Tree is a vigorous grower, drooping in habit and adapts itself to soils and situations; fruit large size, bright red color and produced in large quantities. A profitable market variety. October to March.
Winesap.—Medium, conical, dark red; very smooth. Acid to sub-acid, juicy and rich, very valuable for both family and market. Tree very hardy and an early and constant bearer. December to April.
Yellow Bellflower.—Large to very large; oblong, pale yellow, sometimes blushed; acid to sub-acid, rich and good. Tree a fine spreading grower and hardy. October to January.
York Imperial.—Medium to large, oblate; color white, shaded with crimson; flesh firm, crisp, juicy and sub-acid; a good bearer of large size fruit. A very hardy tree. November to April.

CRAB APPLE TREES

These fine fruit trees should be on every home lot. The fruits are tart, juicy, and are used exclusively for jelly, preserves and for canning. We recommend for all-around use the Hyslop, Transcendent and Whitney varieties.

2-year, 3 to 4 feet, branched... \$ .50 \$ .55 \$ 1.00
2-year, 4 to 6 feet, choice...... \$ .55 \$ 1.50 \$ 4.00
2-year, 5 to 6 feet, select..... \$ .75 \$ 6.00 \$ 10.00

Florence.—Originated in Minnesota. Fruit medium in size; color crimson when well colored; flesh yellowish, fine, acid. Excellent for cooking and for jelly. Valuable for early market. Tree hardy and spreading; bears when young and inclined to overbear.

Transcendent.—Medium size; flavor pleasant and agreeable; extremely hardy.

Hyslop.—Large size, beautiful dark crimson. Hangs in clusters. September.
Whitney.—Large, averaging 1½ to 2 inches in diameter; skin smooth, glossy green, splashed with carmine; flesh firm, juicy and rich. Very hardy, vigorous, handsome.
PEACH TREES

We make a specialty of selecting scions from trees that have been producing maximum crops. We promote a strong root development in the peach by use of fertilizers. Also all your trees are kept properly pruned in the nursery rows. We recommend in the freestone class, Elberta, Champion, J. H. Hale, Crawford's Early and Late, Mayflower, Stump and Early Wheeler. In the clings, we recommend the Heath Cling, Chinese Cling and Indian Blood Cling.

Peach trees are in exceedingly heavy demand and stock is limited. Place your order early while our stock is complete.

APRICOT TREES

Note.—We are introducing our new variety, “The Late Moorpark,” an apricot that bears fruit from ten days to two weeks later than the fine Moorpark, thereby escaping the early frosts. Disregarding the custom of charging more for specialties, we are offering this fine new variety at the same price as the others. Order before these are all gone, as we have only a limited number for sale.

NECTARINE

Choice, Budded, Whole Root

All Budded, 2-year, 3 to 4 feet, branched Each 10 100

The nectarine has a smooth skin like the plum and is much like the peach in other ways. It requires the same culture as the peach. Quality very good.
PEAR TREES

The pear is the most delicious of our modern fruits because of its fine juicy texture, exquisite flavor and aroma. The pear is also a very decorative tree and is used in landscape work because of its beauty. We recommend in the dwarf sorts the Seckel, Duchess and Anjou. In the dwarf sorts, we recommend the Seckel, Duchess and Anjou.

<tr>
<th>PEAR TREES</th>
</tr>
</thead>
</table>

Bartlett.—One of the most popular pears; large, buttery and melting, with rich flavor. Tree a vigorous and erect grower; bears young and abundantly.

Garber.—One of the Japan Hybrids; the best and handsomest of its class. Earlier than Kieffer, larger and much better quality; tree from slight; very hardy. Immensely productive; bears a large harvest of excellent for canning or preserving.

Howell.—One of the finest American pears. Large, handsome, sweet and melting; tree very vigorous, hardy and productive.

Kieffer.—This is a seedling raised from the Chinese Sand Pear crossed with the Bartlett. Skin rather rough. Color yellow, with red cheek in the sun. Flesh white, juicy, buttery and rich. Tree a very strong, upright grower. Very profitable for market. Duchess.—See description below.

Dwarf Pears

Seckel.—The standard of excellence in pears. Small but of highest quality; tree a strong, slow, erect grower; very hardy and bears abundantly.

Anjou.—A large, fine pear, buttery and melting, with sprightly vinous flavor. Tree a vigorous grower and good bearer. Dest on quince.

PLUM TREES

The plum is one of our best fruit trees. These trees are very hardy, sturdy, and disease-resistant. They respond readily to good cultivation and care. We recommend especially the Japanese Hybrid sorts of which the Burbank, Abundance, Wickson and Red June are the best. In the domestic varieties, we recommend the Shropshire Damson and German Prune. There are some good plums in the domestic varieties, including the Bradshaw, Green Gage, America, Gold and Lombard. See full color illustration on second cover page

America.—One of the hardiest. 

Gold.—Fruit clear, light golden yellow, later nearly covered with a hazy carmine blush. When fully ripe a light cherry-red. Tree deep test in chicken yards and on thin and clay soils; strong, healthy and one of the hardiest.

Japanese or Oriental Varieties

Abundance.—Medium if allowed to mature as the fruit sets on tree, but large when fruit is properly thinned. As this variety is inclined to overbear, it is best that the fruit be thinned by taking at least one-half to two-thirds the fruit off when size of small marbles: the remaining fruit will be of extra size to more than make the same yield. Roundish, skin yellow, washed with purple with a bloom; flesh yellow, juicy, sub-acid with apricot flavor, quality superb.

Burbank.—Large, nearly globular; clear cherry-red, with a thin blue bloom; flesh a deep yellow, very sweet and agreeable flavor. Hardy; one of the best for both garden and market shipping. August.

Wickson.—A sturdy, upright grower, productive almost to a fault; fruit remarkably handsome, deep maroon; stone small; flesh fine texture, firm, sugary and delicious. Excellent keeper and fine shipper. August.

Red June.—It is the most satisfactory pure Japanese variety. Dark cherry-red, very showy, good size, good quality, and sets less than any other Japanese variety. An ideal early plum.

Our Extra Heavy, Rooted Plums Will Please—Choice Selected Stock
**CHERRY TREES**

**Sweet Varieties**

We recommend in the sweet cherry the Black Tartarian, Lambert, Governor Wood and Windsor. These varieties are fine for Colorado, New Mexico, and to a lesser degree in Kansas, Oklahoma and Nebraska.

**Bing**—Very large; dark brown—almost black; flesh firm, sweet, and delicious. A noted western sort. Late.

**Tartarian (Black)**—Very large, black, juicy, rich. End of June.

**Governor Wood**—Large, light red, juicy, rich, delicious. June.

**Windsor**—Fruit large; heavy bearer; beautiful dark color, almost black.

Lambert.—Largest of all; dark red; flesh firm and sweet. An excellent shipping cherry. Late.

**Sour Varieties**

We recommend the sour cherry, including the Early Richmond, Montmorency and English Morello, for results in Kansas, Oklahoma, Missouri, Nebraska and Arkansas. They produce well and are very hardy.

**Early Richmond**—Medium size, light red; melting, juicy, sprightly acid flavor. Tree healthy and productive. One of the most popular early cherries.

**Montmorency**—Large red cherry, ripening ten to fourteen days after Early Richmond. Tree a slow but still grower; very profitable bearer; valuable late sour cherry.

**English Morello**—Good size, very dark red when fully ripe, rich, acid, juicy, excellent for canning. Later than Montmorency.

**Wragg**—Originated in Iowa. Medium to large in size, long stem, dark purple when fully ripe. A very suitable variety adapted for the prairie regions of the Northwest. Appears identical in tree and fruit with English Morello, but is claimed to be a new variety. Valuable late cherry. July.

**Duke Varieties**

May Duke.—Medium, dark red, melting, rich, juicy, excellent. A reliable early cherry, nearly sweet.

**CHERRY-PLUM**

Compass.—This is a hybrid of a plum and cherry. In size larger than the largest cherry but rather a small plum. Shape of plum with cherry quality. It will succeed where the true cherries will not and thus afford one with the best possible substitute for the cherry. The tree is vigorous, bears young. The fruit is red, rather tart. Fine for jellies and preserves. Ripens early in June.

**MULBERRY TREES**

These include the improved bearing Mulberries in the varieties of Hicks, Downing and New American.

**Berries and Small Fruits**

We are selling more small-fruit plants each season. People are beginning to appreciate the true worth of these plants. Every home gardener should contain some of these productive plants. If you are small enough to grow, and you are more than well repaid for your efforts. Our small-fruit plants are produced on the rich bottom lands which give the plants that wonderful massed root system. We recommend the sour cherry, including the Early Richmond, Lambert, Governor Wood and Windsor. These varieties are fine for Colorado, New Mexico, and to a lesser degree in Kansas, Oklahoma and Nebraska.

Quince Trees

Downing Mulberries

Large Montmorency

Sour Varieties

We recommend in the sweet cherry the Black Tartarian, Lambert, Governor Wood and Windsor. These varieties are fine for Colorado, New Mexico, and to a lesser degree in Kansas, Oklahoma and Nebraska.
CURRANTS

One of the hardwood and most easily cultivated of the small fruits. Excellent bearer of quality fruit with a small amount of care. Indispensable for table use, jellies, etc. We recommend the Perfection and Fay in the red groups and the Win. Grape in the white group. We recommend the Champion in the black group.

These are tested varieties and will please you.

50 at 100 rates; 500 at 1,000 rates.

Fay.—The best currant yet introduced; berries are large, uniform in size, with long stems, good flavor, and is very productive and prolific.

Perfection.—The color is a beautiful bright red. Size as large or larger than Fay, the clusters averaging larger. The Perfection has a long stem from the point of attachment to the bush to the first berry, making it easy to pick without crushing any of the berries. It is a great bearer, and on account of its great productivity the plants should be kept well fertilized and fertilized, as should all heavy bearers. The Perfection ripens about the same time as the Fay. Quality rich, mild, sub-acid, plenty of pulp, with few seeds.

Mastodon.—The Berry—Very large from beginning to end of season. Never "run" small. Medium to dark red, evenly colored all over. Flesh red to core, firm—irregular cone to wedge-shape. Seed yellow. Prominent. Flavor mild sub-acid; good. The Plant—Large, vigorous, thrifty grower; leaves dark green, large; crowns big, sending out numerous strong, fruiting stems supporting as high as 30 berries each. Runners medium to numerous, making a good fruiting row. Roots numerous, fibrous, well branched, long. Has perfect blossoms, bears when planted alone.

Price. $1.00 $2.75 $15.00

STRAWBERRIES

Note.—Strawberry plants are packed 25 in a bunch. We do not break bunches. Plants should be ordered sent by express or parcel post at your expense. It is conceded that we have the best rooted plants in the country.

Spring-Bearing Varieties

Senator Dunlap.—This berry is of the Warfield type, has a perfect blossom, is hardy, productive, a splendid keeper and able to hold its own under any "rough and tumble" methods of culture to which it is likely to be subjected. It is a very heavy bearer of good size, even fruit, of a very beautiful dark red color. It is a berry to grow for either home use or market.

Klondike.—One of the most successful mid-season varieties for the Southwest. Bright red with prominent golden seeds. Large and prolific.

Aroma.—Is a very dependable, late variety. Grown and liked everywhere. Berries are very firm, dark red throughout, medium to large, and their good flavor and color hold well after cooking. It is the best all-around late berry.

Spring-Bearing Varieties

Progressive Everbearing.—The best of all everbearing varieties. The new runner plants produce a nice lot of berries in good quality. The fruit of Progressive is of good color and appearance. Very strong plants; heavy bearers.

Superb.—Fruit is large, sharply red, excellent quality; it fruits lightly in spring and heavier in summer and fall; needs good support as high as 30 berries each. Runners numerous, making a good fruiting row. Roots numerous, holding up well. Everything considered, we believe Superb in the white group.

Champion.—In reasonably rich soil it sends out many runners when set early in spring. The berry is red, bearing when set, and perfect blossoms. Next to the Mastodon we find it the best everbearer.

See color illustration on back cover.

Everbearing Varieties

Mastodon.—The Berry—Very large from beginning to end of season. Never "run" small. Medium to dark red, evenly colored all over. Flesh red to core, firm—irregular cone to wedge-shape. Seed yellow. Prominent. Flavor mild sub-acid; good. The Plant—Large, vigorous, thrifty grower; leaves dark green, large; crowns big, sending out numerous strong, fruiting stems supporting as high as 30 berries each. Runners medium to numerous, making a good fruiting row. Roots numerous, fibrous, well branched, long. Has perfect blossoms, bears when planted alone.

Price. $1.00 $2.75 $15.00

BLACKBERRIES

Our blackberries are all produced from strong cuttings. Our plants are sturdy, well rooted and capable of making a good start. We handle all the old favorites and some of the new tested sorts. We recommend the new Blowers, hardy and productive, berries jet black and of large size. Has produced 2,720 quarts on one-third of an acre. Do not miss this excellent blackberry.

</table>

50 at 100 rates; 500 at 1,000 rates.

Mersereau.—Mid-season. Beautiful, glossy black. Resembles Snyder, but larger, better quality, and less likely to turn red after picked. Cares rather spreading first season, becoming upright following year. Fruit large, rather round, good quality and holds up well. Everything considered, we believe Mersereau the best blackberry for general planting. Our best seller.

Eating, cooking, canning, market.

Blowers.—Originated in Chautauqua county, New York. Claimed to be the hardest, most productive and largest of all the blackberries. Large size, jet black, good shipper. We believe this variety has special merit.

Eldorado.—Very vigorous and hardy, enduring the winters of the far Northwest without injury, and their yield is enormous. The berries are large, jet black, borne in clusters, and ripen well together; they are very sweet, melting and pleasing to the taste; have no hard core.

Snyder.—Very productive and hardy; fruit sweet and juicy. Ripens early.
**RASPBERRIES**

Will grow on any soil that will produce corn. These plants are very hardy and productive. Patches should be well cultivated and fertilized once a year. Mulch during the winter and prune out all old canes. We recommend in the black raspberry group the Centennial and the Plum Farmer. The Plum Farmer has especially a fine fruit of large size and excellent flavor. In the red raspberry group we recommend the St. Regis Everbearing and the King. We recommend the two-year transplants in the St. Regis, Cumberland and Kansas. They are heavy plants, strongly rooted and will bear sooner.

**ST. REGIS RASPBERRIES**

Cuthbert.—A remarkably strong, hardy variety; berries very large, rich crimson, very handsome, sweet, rich and juicy; highly flavored.

King.—Said by many to be the best early red raspberry. Plant a 2-year-old transplants.

Cardinal.—A very large, dark red raspberry of best quality. Large and compact, sometimes shouldered; berries large; light greenish-white; semi-transparent; slightly ambered in the sun; skin thin but tough, and does not crack; quality good; very little pulp; melting and sweet to the center.

Niagara.—Vine remarkably hardy; strong grower; bunches very large and compact, sometimes shouldered; berries large; light greenish-white; semi-transparent; slightly ambered in the sun; skin thin but tough, and does not crack; quality good; very little pulp; melting and sweet to the center.

Worden.—A splendid large grape, of the Concord type, but earlier than the Concord. Bunches large, round, heavy; flesh firm; melting and sweet to the center.

Catawba.—Bunches of good size, rather loose; berries large, round; when fully ripe of a dark copper color, with a sweet, rich musky flavor.

**MOORE'S DIAMOND**

Grape from Concord seed, fertilized with Jena. In vigor of growth, color and texture of foliage and hardness of vine it partakes of the nature of its parent Concord, while in quality the fruit is equal to many of the best tender sorts, and ripens two weeks earlier than the Concord.

**DEWBERRIES**

Each 10 100 1,000

Lucereta, Goo. No. 1 $1.15 $1.25 $4.00 $25.00

Cuthbert, tips .15 .15 .25 .25

Cardinal, tips .20 .25 .30 .30

St. Regis, Everbearing, sucker plants .25 .30 .35 .35

St. Regis, 2-year-old transplants .25 .25 .30 .30

Lucereta.—One of the few-growing, trailing blackberries, in size and quality it equals any of the tall-growing sorts. Perfectly hardy, healthy and remarkably productive, with large showy flowers. The fruit, which ripens early, is often one and one-half inches long by one inch in diameter; soft, sweet and juicy throughout, with no hard core; ripe before late raspberries are gone. Should be mulched to keep berries from the ground.

Austin.—Very large, acid, vigorous, very prolific and the most valuable of dewberries.

**RASPBERRIES ARE MONEY MAKERS**

Our grapevines are grown in the rich river bottom lands where we can produce those “wonderful root systems.” Our cuttings are grown in a rich, highly charged fertilized soil, and will bear sooner than any of the blacks. The most profitable market variety.

**GRAPES**

Our grapevines are grown in the rich river bottom lands where we can produce those “wonderful root systems.” Our cuttings are grown in a rich, highly charged fertilized soil, and will bear sooner than any of the blacks. The most profitable market variety.

Ornamental Flowering Shrubs

These plants are the hardiest of the ornamentals. Shrubs can be rightly used in almost any position of the landscape. We recommend them for foundation plantings, corner groupings, screenings, and for individual plantings. We carry the most complete line of shrubs in the Middle West and have the kind you want for every purpose. Our plants are grown in rich soils, kept carefully pruned, and carefully cultivated so that every shrub is really a specimen plant. If in doubt about shrub placement or any other landscape work, write us at once.

Deutzia used as a hedge

Upon investigation myself, I find that the trees were all O. K.

Yours very truly,

R. D. Matheson, Colorado.
FLOWERING SHRUBS—Continued

**Snowberry (Red Berries).**—18 to 24 inches.

- **S. callosa alba.**—Of compact growth, with upright branches, crowded with large, flat clusters of red berries. A fine, medium growing shrub, blooms throughout the growing season. 12 to 18 inches...
- **S. Billardi.**—Medium sized shrub, producing spiked panicles of flowers, bright rose color. A fine, medium growing shrub, blooms throughout the growing season. 18 to 24 inches...
- **S. callosa alba.**—Of compact growth, with upright branches, crowded with large, flat clusters of red berries. A fine, medium growing shrub, blooms throughout the growing season. 12 to 18 inches...

**Russian Olive (Elaeagnus).**—A large shrub, some¬times of tree form, with long, narrow, silvery green foliage. The flowers are yellow followed by yellow fruit. 2 to 3 feet...

**Snowball (Common).**—An old and well-known shrub, bearing large balls of pure white flowers. 2 to 3 feet...

**Mock Orange (Philadelphus).**—Fragrant pure white flowers, in dense clusters so numerous as to bear the branches down when flowering. One of the best. 2 to 3 feet...

**Crepe Myrtle.**—This is a Southern plant, much esteemed, very effective both as a single specimen or in groups as a large shrub. Blooms throughout the entire summer, producing great masses of beautifully fragrant flowers in immense panicles. A single shrub on the lawn is most effective, or a mass of them produces a most magnificent background. The crimson is a beautiful bright red. The light pink is very distinct. We have four colors in stock—red, pink, purple or white. 2 to 3 feet...

**Snowball (Japanese).**—A rare and exceedingly beau¬tiful species of Japanese flowers. A compact shrub, bearing large balls of pure white flowers. 2 to 3 feet...

**Spirea Van Houtti (Bridal Wreath).**—The grandest of Each 10

S. Van Houtti (Bridal Wreath).—The grandest of Each 10

**Lilac (Purple).**—Large shrub with large leaves and flowers. Be one shrub blue-purple. Fine for spec¬imen planting or for screenings. 2 to 3 feet...

White Lilac (Syringa Alba).—Flowers in slender panicles, pure white and fragrant. 2 to 3 feet...

Lilac (Named Varieties).—The French named lilacs offer a superb combination of new gorgeous colors. We recommend them, as they will please...
HEDGE PLANTS

Hedges for every use are becoming more popular every day. Hedges may be planted for security, for comfort, for landscape effect, or for hiding undesirable views. Lattice fences are far more expensive than the plant hedges and do not compare in good looks. We recommend for front and side yard the California and Amoor River privet and for the back yard the Russian Mulberry or Russian Olive. We have hedge stocks in Russian Olive, Spirea Van Houtii, Low Bush Honeysuckle, Tamarix, and other hard-leaf plants. Write for prices.

HARDY CLIMBING VINES

A graceful, clinging vine is always an asset to a porch or to a trellis. Vines are not only ornamental and restful to the eye but afford the quickest shade obtainable. For quick growth, we recommend the Japanese Honeysuckle and Clematis Paniculata are fast growers and produce exquisite, fragrant blooms. The ivys will cling to stone, brick or stucco and give a very pleasing effect. We recommend the Boston Ivy and the Engelmann's Ivy for hardness and ornamental effects. The Wisterias, white and purple, are fast growers and have a nice foliage and fragrant flowers.

2-YEAR, STRONG, WELL ROOTED

Ampelopsis Veitchii (Boston Ivy or Japan' Ivy).—The most popular climbing plant for covering brick, stone or wooden walls, trees, etc.; when it becomes established it is of rapid growth, and clings to the smoothest surface; the foliage is a rich olive-green during the summer, changing to various shades of bright crimson and scarlet in the fall. $1.00 $9.00

Bignonia Radicans (Trumpet Vine).—Dark red-orange flowers; free blooming. Very hardy and rapid grower. Useful for covering unsightly places, stumps, or wherever a showy flowering vine is desired. $1.25 $10.00

Honeysuckle Halliana (Woodbine).—Flowers pure white, turning to yellow; fragrant, hardy and almost evergreen; flowers freely. $1.50 $15.00

Honeysuckle Sempervirens (Scarlet Trumpet Honeysuckle).—Trumpet-shaped flowers of bright scarlet. $1.50 $15.00

Wisteria Sinensis.—The favorite variety producing thousands of pendulous clusters of delicate violet-like blossoms. One of the best hardy climbers, producing their great trusses of flowers during the month of May. $0.60 $5.50

Wisteria Sinensis Alba (White Chinese Wisteria).—A choice variety with white flowers. Both this and the preceding may be grown as bushes for the lawn or只是为了其美丽的花束。 $0.75 $7.00

Pueraia Thunbergiana (Kudzu Vine).—Large foliage and dense shade, growing 50 feet in one season. Flowers plentiful in August; rosy-purple, pea-shaped, in small racemes. $0.75 $7.00

Aristolochia Siphó (Dutchman's Pipe).—A hearty rapid-growing climber, bearing brownish-colored flowers resembling a Dutchman's pipe. While the flowers are ornamental, the vine is most desirable for the bright green foliage which retains the same color from spring until late fall. $0.75 $7.00
Shade Trees

We have one of the best shade tree blocks in the country. We are trimming, cultivating and growing these trees to make the best possible specimens. You will like the root systems of these trees, also the straight stems and the symmetrical heads. Give us a trial order and be convinced of the quality of our trees. Our prices have been greatly reduced to move this fine block of trees. We recommend that you try some of our nice American White Elms and Soft Maples for your shade and ornamental purposes.

5 at 10 rates: 50 at 100 rates.

**American Elm.**—The noble, drooping, spreading tree of our woods. One of the grandest of park and street trees. Select specimens.

**Sycamore.**—The Sycamore is probably the hardiest of all street trees for our larger cities. It can stand more abuse than any other tree we know of, is not affected with many of the injurious insect pests that infect other varieties of trees; it can stand the smoke and gases better than can most other ornamental street trees.

ORNAMENTAL TREES

Your landscape, whether large or small, will be more correctly planted if you add a few of these charming ornamental trees. They, by their peculiar bark and exquisite flowers, add a very fitting touch to the landscape.

5 at 10 rates.

Russian Olive.—4 to 5 feet. Each 10 100
1.75 15.00

Bechtel’s Flowering Crab.—The beauty and delicate fragrance of the bloom of the sweet-scented crab is a theme for poets and this new variety is a gem among hardy plants. The flowers are sometimes mistaken for small pink roses, and the perfume tends to increase rather than correct the delusion. 4 to 5 feet.

2.00 18.00

Tree Althea.—4 to 5 feet. Pink or red. Each 10

2.00 18.00

Ailanthus (Tree of Heaven).—A rapid-growing, lofty tree, long, elegant foliage. A distinct ornamental tree with pinnate foliage, exempt from diseases and insects. Useful in producing tropical effects. 5 to 6 feet.

1.50 14.00

Tree Hydrangea.—2 to 3 feet. Each 10

2.00 18.00

Purple Fringe (Smoke Tree).—A small native tree, with ash-like leaves and clusters of purple flowers, resembling an elegant fringe. 3 to 4 feet.

2.00 18.00

Tree Lilac.—4 to 5 feet. Each 10

1.75 16.00

Prunus Pissardi (Flowering Plum).—A class of ornamental shrub or small tree introduced from the mountains of Asia Minor, and succeeding well in common garden soil. The flowers are very showy, produced in great abundance, and useful for their earliness. Fine plants to use in grouping or for lawns. 4 to 5 feet.

2.00 18.00

WEEPING TREES

The Weeping Trees lend grace and beauty to ornamental grounds and may be planted singly in open situations where they will fully develop. The following list contains the most hardy and desirable of this class of trees.

5 at 10 rates.

Thurlow Willow.—Larger, harder and more spreading than the Babylonica. A fine variety where a large size tree is desired. 5 to 6 feet.

$1.00 $8.00

American Willow.—Of drooping habit and beautiful form. The most hardy of all Weeping Willows. 5 to 6 feet.

1.00 8.00

Golden Willow.—4 5 feet.

1.50 12.00

Mountain Ash.—5 to 6 feet.

Coniferous Evergreens

ARBORVITAE (White Cedar) AND RED CEDARS

The Chinese Arborvitae and the Red Cedar are two of the best evergreens for use in this middle west. They both are large-growing trees and will grow in almost any situation. The Red Cedar grows more pyramidal in form while the Chinese Arborvitae grows more globe-shaped. We offer these trees in many sizes and you will be more than pleased with the quality of our plants. Use them for specimen planting, foundation planting, screening effects, windbreaks, or hedges. Both of these trees can be trimmed to make the desired shape that you want. Trim any time during the growing season.

THE JUNIPERS

Represent a very large and varied family and grow in a great many shapes and forms, from an upright like the Irish Juniper to low, trailing kinds like the Savin or Ground Juniper. The different kinds vary in color of foliage, all shades of green, steel-blue, bronze and yellow being represented, which, when planted in groups or masses, give a very striking and pleasing effect. The dwarf kinds are fine for bedding or planting around the foundation of dwellings, instead of shrubs.

THE PINES

Are more striking and diverse in character than any other of the Evergreen family. The leaves of the Pines are needle-shape and the branches are borne in whorls or tiers, each whorl representing a season’s growth. This group includes varieties from the tall, upright forms to the dwarf and spreading kinds, making them available for planting on the smallest lawn or largest estate as individual specimens.

HOW TO PLANT EVERGREENS

Dig the hole very much larger than the ball of earth which comes with the young tree, and loosen the surrounding soil. Mix some leaf mold with the soil or use some rich mountain dirt to fill in the hole. Submerge the earth ball in a tub of water for half an hour or more before planting. Do not remove the burlap from the roots, but cut the string after the tree is in the hole; the burlap helps to anchor the tree and soon rots away. Evergreens require considerable water; a thorough wetting three times a week is better than a light daily watering.
Evergreens growing in our nurseries—all are specimen trees

We are selling more and more evergreens for landscape planting. The people are beginning to appreciate the "all-year-around" color of these plants. Also their splendid forms and excellent foliage. We have an evergreen for every purpose—some dwarf, some tall, some ground coverers, some columnar, some globose. Our evergreens are shipped to you with their roots puddled or balled; this method protecting the tender fibrous roots. The below prices are for selected plants that we would want to place on any first-class landscape job. We recommend any of the following varieties for your purpose.

Price Each—Height in Feet........................................ 1-1½ 1½-2 2-3 3-4 4-5

ARBORVITAE

CHINESE ARBORVITAE.—A tall fast-growing tree but not so compact. $1.35 $1.75 $3.00 $4.50 $6.50

BAKER'S.—Pyramidal growth, densely clothed with fresh, lively green foliage; very hardy; one of the best. 2.00 4.00 6.00 8.00 10.00

ORIENTALIS COMPACTA.—A compact form of Chinese Arborvitae. Foliage very dark green. 2.00 4.00 6.00 7.00 9.00

BERCKMAN'S GOLDEN ARBORVITAE.—The most popular Biota grown. This conifer is of dwarf, compact and symmetrical habit. A perfect gem for small gardens, cemetery lots or formal planting. For window boxes and vases this variety is most effective. 3.50 5.00 6.00 7.50 9.00

JUNIPER OR CEDAR

RED CEDAR.—One of the most valuable trees for screens and windbreaks; perfectly hardy; too well known to need description. Our trees are all extra well shaped and have been several times transplanted. Light green (untrimmed)...

Light green (trimmed)...

IRISH JUNIPER.—One of the most popular Junipers known. Rigidly upright and formal in character, resembling a green column.

SAVIN JUNIPER.—Compact, bushy, low-growing form with branches of beautiful deep green, standing semi-erect. Fine for massing.

PINE

AUSTRIAN PINE.—From Central Europe. Leaves or needles stiff and dark green. Hardy everywhere and one of the most valuable conifers for windbreaks, belts, etc. 3.00 3.75 4.75 6.00 7.50

MUHGO (Dwarf Mountain Pine).—Very distinct, leaves short, stiff, a little twisted and thickly distributed over the branches; does not grow tall, but spreads over the ground, generally assuming a globular form; very dense. 4.00 5.00 6.00 7.50 9.00

SCOTCH PINE.—A rapid grower, very hardy, from the central portion of Europe, with short, rigid, light green leaves. Very valuable for screens and for masses. 2.00 2.75 3.75 5.00 6.00

SPRUCE

BLACK HILLS.—Of compact pyramidal form, very symmetrical; foliage is of a bluish-green. A very pretty, compact growing evergreen. 3.00 4.00 5.00 6.00

Our third cover page is composed of recommended Evergreens—all are shown in natural colors and will enhance the value of your home; making a cooler appearance in summer and giving the effect of warmth in winter. We invite you to come and make your own selection.
Landscape Department

Our Landscape Service has grown to be a very important branch of the business, and we are able to point with pride to a large number of private estates, parks, cemeteries, factory grounds, etc., which we have designed and executed the past few years.

With our large list of Ornamentals, such as Evergreens, Shrubs, Trees and Plants, we are able to execute any planting either large or small in a most satisfactory manner. We do everything from start to finish.

To us one pleased customer is worth a whole yardful of dissatisfied ones.

A judicious planting about the home indicates refinement as well as increased selling value.

We grow our stock and know its merits when we catalog it.

There is nothing that adds as much beauty or gives such a degree of refinement to a home for as little outlay of work and money as a proper planting of trees, shrubs, vines, flowers and evergreens.

Mr. Schell's 59 years of experience is your guaranty.
Plans and Estimates

It is just as important in planting the home grounds to have a definite plan, furnished by a competent landscape architect, as to have a plan for building a modern dwelling. Attractive landscape effects are not made by guesswork but are the result of careful study and thinking.

Before making extensive plantings you should have this department make a survey of your grounds and furnish you with a properly worked-out design for beautifying them, with an estimate cost of planting.

Remember, we visit grounds, either public or private, and give suggestions for beautifying with shrubs and plants.

Owing to our immense stock of ornamentals we are able to make very low prices on a quantity.

Your correspondence is invited.

Evergreens carry their beauty and charm the year 'round and perhaps are even more appreciated in winter; their warm, green foliage contrasts so sharply with the barren winter landscape and their graceful branches bend under a mantle of newly fallen snow.
What Others Say—

Wichita Nurseries, Wichita, Kansas.
Dear Sirs:
Your letter and card at hand but am not in need of anything this fall but take the opportunity to mention that all the trees and grapevines that I got from you last spring are growing and look good.
Respectfully yours.
Robert Karte, Kansas.

Wichita Nurseries Co., Wichita, Kansas.
Dear Sirs: I have 100 of your apple trees that are two years old this spring and they are sure dandy ones. I wish you would advise me how they should be pruned this spring and do they need spray?
Yours very truly,
L. L. Swearingin, Missouri.

Wichita Nurseries, Wichita, Kansas.
Dear Sirs:
I ordered and received over 200 trees from your nursery last spring which have proved very satisfactory. Am making a small order at this time, which ship as soon as possible. Thanking you for past favors,
Very respectfully,
W. D. Priddy, Oklahoma.

Wichita Nurseries Co., Wichita, Kansas.
Gentlemen: Will that I purchased trees from you two years ago and I have had the greatest success with them.
Very truly yours,
E. E. Moss, California.

Wichita Nurseries Co., Wichita, Kansas.
The grapes we got of you were the best I ever saw and in good condition. I will advertise your nursery.
Very truly yours,
C. J. Bruce, Kansas.

Wichita Nurseries, Wichita, Kansas.
Dear Sirs:
We got some fruit trees of you a few years ago and these are so nice that we want to get some more.
Respectfully yours,
W. F. Schell, Wichita, Kansas.

Wichita Nurseries, Wichita, Kansas.
Dear Sirs: While it has been quite a while since I ordered trees from you, all of those I have used have been satisfactory. With best wishes, I am.
Yours very truly,
J. M. Basset, Texas.

Wichita Nurseries, Wichita, Kansas.
Gentlemen: Please enclosed find 10 cents for postage due you on gooseberries. We received our trees and were well pleased with them.
Yours truly,
L. H. Henry, Oklahoma.

Wichita Nurseries, Wichita, Kansas.
Gentlemen: Am enclosing 8 cents in stamps due you for extra postage on the Spirea sent me. We are thoroughly pleased with the plants. Several have asked us about them and we have given your address to those inquiring. Thank you kindly,
Yours truly,
R. E. Crabbs, Kansas.

Wichita Nurseries, Wichita, Kansas.
Gentlemen: The trees and vines I got from you in the spring have done wonderfully.
Yours truly,
Mrs. Chas. Barrows, Oklahoma.

Wichita Nurseries, Wichita, Kansas.
The Family List gives you the premium in high grade nursery stock and we think that a number of our patrons will want these premiums. Then we have the Children's List and the articles herein described are all fine and made by the best manufacturers in this country. You boys and girls better get busy and help yourselves to these fine premiums. Thirdly, we have the Men's List, offering a fine lot of garden tools, garden equipment, mowers, and other valuable materials. We guarantee the quality of these articles and know they will please you. Last, but not least, we offer for the Ladies the genuine Tudor 25-year guarantee silverware. These high grade knives, spoons and forks will give you good service and they are nice looking.

We wish to thank you for your consideration of this premium list, our new effort, and we trust that you will take advantage of these fine offers. This is only another way that we have of showing you that we appreciate your business and further, that we are actually taking you in on the profits. We know that the offering of these costly premiums will cut down our profits but if we can make more friends and create more good will we will be amply repaid.

Gratefully yours,
W. F. SChell, President.

Special Premium List

To My Many Friends and Customers:

We are pleased to offer this BIG premium list for your approval. We know that you need some of these useful articles and we have created this new idea because we want to give our customers the very best buys and the very best of treatment.

You will note that we are offering four big lists of premiums. The Family List gives you the premium in high grade nursery stock and we think that a number of our patrons will want these premiums. Then we have the Children's List and these articles herein described are all fine and made by the best manufacturers in this country. You boys and girls better get busy and help yourselves to these fine premiums. Thirdly, we have the Men's List, offering a fine lot of garden tools, garden equipment, mowers, and other valuable materials. We guarantee the quality of these articles and know they will please you. Last, but not least, we offer for the Ladies the genuine Tudor 25-year guarantee silverware. These high grade knives, spoons and forks will give you good service and they are nice looking.

We wish to thank you for your consideration of this premium list, our new effort, and we trust that you will take advantage of these fine offers. We know that the offering of these costly premiums will cut down our profits but if we can make more friends and create more good will we will be amply repaid.

Gratefully yours,

W. F. SChell, President.

FACTS ABOUT THIS PREMIUM LIST

READ CAREFULLY—

1—Customers are only entitled to receive one premium, according to the size of your order. For example, if you take a nursery stock premium from the family list, you are not entitled to any other premiums from the other lists. These four lists are submitted to give our customer a greater choice.

2—The amount of your purchase applies only to NURSERY STOCK. Seed purchases do not count in on these free premiums.

3—All premiums are packed and delivered free of charge to the transportation companies but the customer must pay transportation charges.

4—We have a large stock of all these premiums but, in case that the stock of one item is exhausted, then we reserve the right to have you make a second choice.

5—We guarantee that every item listed here is exactly as represented and first class in material and workmanship.

6—All premiums will be forwarded to you as soon as possible after your order has been received.

7—Customers kindly designate how they wish their premiums shipped. You will find a place for this on the order blank in the premium section.

8—Here is an excellent chance for several people to go together and club your orders and get a real nice premium.

9—Nursery stock premiums will be shipped from Wichita, Kansas, and all other premiums from Kansas City, Mo. Since all of these premiums are of light weight, the transportation charges will be small.
HOW TO USE THIS PREMIUM LIST

Every premium is numbered, having a class number and an individual number. For example, if you send us an order for over $15.00 in nursery stock, and you want the 12 Tudor Teaspoons in the Ladies’ List, your number would be “16a.” You write this “16a” on the bottom of the front page of the order sheet and give a short description if you wish. If your boy or girl wants the Cannon Ball Play Boy Pedal Car, your number would be “11,” there being no individual number in this group. We trust that this brief explanation is clear; if not, write us a letter and we will gladly answer questions.

FAMILY LIST

No. 1—Nursery Stock orders of $10.00 or over and less than $15.00 are entitled to receive any one of the following groups of plants:

(1) 10 New Strain Concord Grapes.
(2) 4 Spirea Van Houteii (Bridal Wreath).
(3) 4 J. H. Hale Peach, 3 to 4 feet.
(4) 4 Japan Blood Dwarf Peach, 3 to 4 feet.
(5) 2 Purple Wistaria Vines, 2-year-old.
(6) 6 Yellow Coreopsis, a fine perennial flower.
(7) 4 Stayman Winesap Apple, 3 to 4 feet.
(8) 2 “Messionier” named variety of Red Peony.
(9) 4 Carrie Gooseberry, largest grown, 2-year-old.
(10) 3 Late Moorpark Apricot, 3 to 4, genuine Tudor Plate, 2-year-old.
(11) 25 Blower Blackberries.

No. 2—Nursery Stock orders of $15.00 or over and less than $20.00 are entitled to receive any two of the above groups, or two of any one group.

No. 3—Nursery Stock orders of $20.00 or over and less than $30.00 are entitled to receive any three of the above groups, or three of any one group.

No. 4—Nursery Stock orders of $30.00 or over and less than $50.00 are entitled to receive any four of the above groups, or four of any one group.

No. 5—Nursery Stock orders of $50.00 or over and less than $75.00 are entitled to receive any seven of the above groups, or seven of any one group.

No. 6—Nursery Stock orders of $75.00 or over and less than $100.00 are entitled to receive any eight of the above groups, or eight of any one group.

No. 7—Nursery Stock orders of $100.00 or over receive a straight cash discount of ten per cent.

LADIES’ LIST

No. 15—Nursery Stock orders of $10.00 or over and less than $15.00 are entitled to receive one of the following groups:

(a) 6 Teaspoons, genuine Tudor Plate, 25-year guarantee, or
(b) 1 Sugar Spoon and 1 Butter Knife, genuine Tudor Plate, 25-year guarantee.

Retail value of either of these groups, $2.00.

No. 16—Nursery Stock orders of $15.00 or over and less than $20.00 are entitled to receive one of the following groups:

(a) 12 Teaspoons, genuine Tudor Plate, 25-year guarantee, or
(b) 6 Dinner Forks, genuine Tudor Plate, 25-year guarantee.

Retail value of either of these groups, $3.50.

No. 17—Nursery Stock orders of $20.00 or over and less than $30.00 are entitled to receive one of the following groups:

(a) 6 Teaspoons and 6 Soup Spoons (round bowl), or
(b) 6 Tablespoons and 1 Sugar Spoon and 1 Butter Knife, all genuine Tudor Plate, 23-year guarantee.

Retail value of either of these groups, $5.00.

No. 18—Nursery Stock orders of $30.00 or over and less than $50.00 are entitled to receive one of the following groups:

(a) 6 Dinner Forks, genuine Tudor Plate, 25-year guarantee, and 6 embossed handle Dinner Knives, genuine Tudor Plate, 23-year guarantee, or
(b) 12 Teaspoons, genuine Tudor Plate, 25-year guarantee, and 6 Soup Spoons (round bowl), genuine Tudor Plate, 23-year guarantee.

Retail value of either of these groups, $7.00.

No. 19—Nursery Stock orders of $50.00 or over and less than $75.00 are entitled to receive one of the following groups:

(a) 6 Teaspoons, 6 Forks, and 6 embossed handle Knives, all genuine Tudor Plate, 23-year guarantee, or
(b) 6 Teaspoons, 6 Tablespoons and 6 Soup Spoons (round bowl), all genuine Tudor Plate, 23-year guarantee.

Retail value of either of these groups, $8.50.

No. 20—Nursery Stock orders of $75.00 or over and less than $100.00 are entitled to receive one of the following groups:

CHILDREN'S LIST

No. 8—Nursery Stock orders of $10.00 or over and less than $15.00 are entitled to receive:
One (No. 1053) Cannon Ball Scooter, rubber tires, roller bearings, painted red and yellow; length, 29 inches, and height, 27 1/2 inches. A fine, fast, easy riding scooter.
Retail value of this article, $3.00.

No. 9—Nursery Stock orders of $15.00 or over and less than $20.00 are entitled to receive:
One (No. 4 S. C.) pair of Roller Skates, made of the finest grade of cold rolled steel, roller bearings, strong leather straps.
Retail value of this article, $4.00.

No. 10—Nursery Stock orders of $20.00 or over and less than $30.00 are entitled to receive:
One (No. 301 C) Cannon Ball Junior Wagon with rubber tires and strong body. Size of body, 9 1/4x19 inches, five-inch wheels, weight 9 pounds. A fine wagon that is built right.
Retail value of this article, $5.00.

No. 11—Nursery Stock orders of $30.00 or over and less than $50.00 are entitled to receive:
One (No. 2 C) Cannon Ball Play Boy, a strongly constructed play car with ball-bearing front wheels and roller-bearing rear wheels. Wheels, rubber tired. Car is 17 inches high, 20 inches long and weight 8 1/2 pounds.
Retail value of this article, $7.00.

No. 12—Nursery Stock orders of $50.00 or over and less than $75.00 are entitled to receive:
One (No. 201 C) Cannon Ball Junior Wagon, large size. Size of body, 12x28 inches; 7-inch wheels; weight, 15 pounds. Equipped with rubber tires and is a strongly built wagon.
Retail value of this article is $8.00.

No. 13—Nursery Stock orders of $75.00 or over and less than $100.00 are entitled to receive:
One (No. 5 C) Cannon Ball Pedal Car. This strongly constructed rubber tired, steel built car is equipped with pedals and bell. Height of seat is 12 inches and length of car 29 inches. Weight 12 pounds.
Retail value of this article is $10.00.

No. 14—Nursery Stock orders of $100.00 or over receive a straight cash discount of ten per cent.
MEN'S LIST

No. 22—Nursery Stock orders of $10.00 or over and less than $15.00 or entitled to receive:
(a) One (No. 133-B) D Handle Square Point Steel Spade, with reinforced handle, or
(b) One (No. 123-B) D Handle Square Point Shovel, best steel pattern.
Retail value of each of these groups, $2.00.

No. 23—Nursery Stock orders of $15.00 or over and less than $20.00 are entitled to receive:
(a) One (No. 133-B) D Handle Square Point Steel Spade with reinforced handle, and one (No. B-14) Solid Bow Steel Rake with curved teeth, 5½-foot handle, or
(b) One (No. 133-B) D Handle Square Point Steel Spade with reinforced handle and one (No. G. O.) Solid Socket Hoe, 6½ to 7½-inch blade, 4 1/3-foot handle, or
(c) One (123-B) D Handle Square Point Shovel, best steel pattern, and one (No. B-14) Solid Bow Steel Rake, with curved teeth, 5½-foot handle, or
(d) One (No. 123-B) D Handle Square Point Shovel, best steel pattern and one (No. G. O.) Solid Socket Hoe, 6½ to 7½-inch blade, 4 1/3-foot handle.
Retail value of each of these groups is $3.25.

No. 24—Nursery Stock orders of $20.00 or over and less than $30.00 are entitled to receive:
(a) One Rival Garden Plow. Wheel is 24 inches high, steel wire spokes, 1 11/8-inch steel tire. Excellent garden plow of strong structure, or
(b) One pair of Hedge Shears, 14 3/4 inches long, forged steel shears, or
(c) One D B 3½-Gallon Pressure Sprayer, complete with tank and nozzle.
Retail value of each of these groups, $4.50.

No. 25—Nursery Stock orders of $30.00 or over and less than $50.00 are entitled to receive:
(a) 50 feet molded 5/8-inch Garden Rubber Hose, or
(b) One New Stowe plain bearing 16-inch Lawn Mower, or
Retail value of either of these groups, $9.00.

No. 26—Nursery Stock orders of $50.00 or over and less than $75.00 are entitled to receive:
(a) One New Stowe plain bearing 16-inch Lawn Mower, or
(b) 75 feet of 5/8-inch garden molded Rubber Hose.
Retail value of either of these groups, $12.00.

No. 27—Nursery Stock orders of $75.00 or over and less than $100.00 are entitled to receive:
(a) One Paragon Lawn Mower, 16-inch ball bearing, nicely finished, strongly constructed, or
(b) One Sisco 5-toothed Steel Cultivator, with lever and wheel.
Retail value of each of these groups, $12.00.

No. 28—Nursery Stock orders of $100.00 or over receive a straight cash discount of ten per cent.
Hardy Perennial Plants

These are the most beautiful of flowering plants. The roots of these plants live over from season to season and give forth stems that produce the best blooms in the plant kingdom. The following listed species are all adapted to this section of the country. Perennials should be found on all home grounds to add the necessary color to the landscape. Our plants are strong, extra well rooted specimens.

Achillea Ptarmica (The Pearl).—Pure white flowers, double. Blooms all summer. Fine for cutting. $ .25 $2.00

Aster, Hardy (Michaelmas Daisies).—Showiest of our late-flowering plants, giving a wealth of bloom during September and October, a season when most other hardy flowers are past. Plant in masses for best effect. Mixed colors. $ .50 $2.50

Aquilegia (Columbine).—One of the most elegant and beautiful of hardy plants producing their graceful and spurred flowers on stems rising two feet or more above the beautifully divided foliage. $ .35 $3.00

Boltonia Asteroides.—Bushy plants; five feet high with aster-like flowers; profusely covering the entire plant during the late fall. $ .25 $2.00

Bleeding Heart.—An old-fashioned favorite. Its arching stems bear drooping heart-shaped flowers of white and old rose. It is perfectly at home in any part of the hardy border, and especially valuable for planting in the shade. $ .75 $7.00

Chrysanthemums.—One of the best of border plants coming in with a grand display of color and cut flowers when other plants are on the wane. We can supply these in red, white, pink, yellow, and all colors mixed. $ .30 $2.50

Coreopsis Lanceolata.—A very showy summer-blooming plant with masses of flowers like golden Marguerites. Splendid for cutting. $ .25 $2.00

Digitalis (Foxglove).—Old-fashioned, dignified and stately; are wholesome company in any garden and dominate the whole garden when in flower. $ .30 $2.75

Funkia Subcordata (White Day Lily).—White flowers, 4 to 6 inches long, borne in large clusters. $ .25 $2.75

Gaillardia (Blanket Flower).—One of the showiest hardy plants, growing about two feet high. The large flowers are of gorgeous coloring, center dark red-brown, while the petals are marked with rings of brilliant crimson, orange and vermilion. $ .25 $2.35

Rudbeckia (Golden Glow).—Fine, double golden-yellow; blooms summer and fall. $ .30 $2.75

Gypsophila (Baby’s Breath).—A beautiful old-fashioned plant, possessing a grace not found in any other perennial. When in bloom during July and August it forms a symmetrical mass 2 to 3 feet in height, and as much through, of minute pure white flowers, forming a beautiful gauze-like appearance. When cut it is exquisite in combination with other flowers. $ .30 $2.50

Hollyhocks.—We have a popular list of these flowers grown in pots and will bloom this year. Double varieties in maroon, red, white and yellow. Also in the beautiful shade of Newport Pink. $ .25 $2.25

Iris (Fleur-de-lis or the Poor Man’s Orchid).—These beautiful Irises bloom in the spring when the other bulbs have just finished blooming, and because of their great variety of colors make a magnificent show and are perfectly hardy. No home garden is complete without a few clumps scattered about.

Iris (Royal Purple).—Deep purple.

Iris (Sans Souci).—Yellowish-bronze, beautifully marked.

Iris (Lady Frances).—Light blue.

Iris (Silver King).—Silvery-white. Prices above Irises. $ .20 $1.75

Iris (Japanese).— $ .25 $2.00

Lily of the Valley.—The popular little spring flower, for shady places. $ .30 $2.50

DELPHINIUM—Larkspur

D. Belladonna.—Free bloomer, June to frost. Flowers turquoise-blue. A fine summer cut-flower plant.

D. Bellamosum.—The dark blue form of the popular light blue Belladonna with which it is identical in habit of growth, freedom of bloom, but with intensely rich, deep blue flowers.

D. Gold Medal Hybrids.—A fine strain of mixed hybrids from England. Very fine. Prices above varieties. $ .30 $2.50
HARDY PERENNIAL PLANTS—Continued

Hibiscus (Mallow).—Mallow Marvels, a robust type of upright habit, producing an abundance of flowers of enormous size in all the richest shades................... 8.25 2.00

Lathyrus Latifolius.— These everlasting Peas are but little known in this country, but are great favorites in England. They are extremely showy and fine. Charming climbers for covering trellises, arbors, etc. .......... 8.25 2.25

Phlox Decussata (Hardy Phlox).—Perennial phloxes succeed in almost any soil, enriched with manure in spring, and in hot weather an occasional soaking of water. If the first spikes of bloom are removed as soon as over, they will produce a second supply of flowers, continuing the display until late in autumn.

Phlox (Von Lassburg).—White.

Phlox (R. P. Struthers).—Rose-carmine, with claret-red eye.

Phlox (Mrs. Jenkins).—Pure white.

Phlox (Champs Elysees).—Clear pink, dark eye.

Phlox, hardy (mixed colors).

Phlox, named varieties.

Dianthus (Hardy Grass Pinks).—Old favorite, bearing their sweet clove-scented flowers in the greatest profusion during May and June. They are indispensable for the edge of a hardy border and for cutting. One foot high.................. 8.25 2.25

Platycodon (Balloon Flower).—Large, showy, deep blue flowers, good for the rock garden and border.

Papaver (Oriental Poppy).—Tremendous scarlet, cup-shaped, blooms of brightest crimson-scarlet with large purplish-black blotches at base of petals. Chunks of these throughout the border give a brilliancy that no other flower can provide........ 4.0 3.75

Sedum (Stone Crop) (Rose Live-forever).—One of the best rock plants suitable in the border, etc. Richly and light green foliage. ............... 3.0 2.50

Shasta Daisy (Burbank's).—Blooms 4 to 6 inches across; white.

Rhubarb, Pie Plant, No. 1 roots.................. 6.00 5.00

Conover's Colossal Asparagus.................. 7.00 9.00

Columbian Mammoth White.—It produces shoots which are white and remain so as long as fit for use. In addition to the marvelous advantage of its white color, the Columbian Mammoth White Asparagus is even more robust and vigorous in habit, and throws larger shoots and fully as many of them as the Conover's Colossal.

Conover.—A mammoth variety of vigorous growth; an old and well-tried sort; very popular.

Palmetto.—Of Southern origin. It is earlier, a better yielder, more even and regular in its growth, and in quality equal to that old favorite, Conover's Colossal.

Rhubarb or Pie Plant

Linnaeus.—Large, early, tender and fine; the very best of all.
FRAGRANT PEONIES

Note.—We sell only the first grade peony roots which are large in size, and which have from 3 to 5 eyes. We have by means of careful selection produced peonies that will bloom and satisfy.

BEAUTIFUL GLADIOLUS

These bulbs produce the brightest colored flowers of the summer. Plant the bulb about two inches deep in moderately rich soil. The application of well-rotted manure to the soil during the growing and blooming periods is advisable. If the early summer is dry, water the plants at intervals of once a week. Gladioli are much used for supplying cut flowers for the table and other occasions during the summer months. Gladioli multiply rapidly and these new bulbs will increase volume of your cut flowers each year.

CANNAS

These beautiful flowering plants are the easiest to grow of all home flowers. Most people think of cannas as the common small flowering plants that grew years ago. Only those people that have tried the new named sorts know how beautiful these plants have become. We are introducing this year some real new varieties that will surely please you. They are very fine and very best on the market. The new varieties are marked with the star.

Spring Planting Bulbs

Gladiolus are most desirable of summer flowers for cutting; they are exceedingly beautiful. We recommend Dahlias to anyone wanting attractive bedding plants and fine cut flowers. Cannas, with their flaming flowers and noble foliage, are wonderful bedding plants. Peonies are universal favorites; most magnificent and easy to grow.
Schell's Roses

There is nothing in flowers that takes the place of Roses. There is nothing in flowers that can compare with them in beauty, grace, and ornamentation. It is surely the Queen of Flowers. There is no other flower that is quite as appropriate for decoration.

Roses

Roses Ever Blooming—Roses Ever Beautiful
Our Sturdy Field-Grown Roses Will Please You.

We feel free to say that our roses this year will please our most fastidious customers. They are all grafted to variety, and have good strong roots and a well balanced top. They are guaranteed free from disease and in good healthy condition. We solicit trial orders to patrons that contemplate rose gardens, rose hedges, specimen planting or trellis plantings.

ROSE CULTURE

Arrival of Roses.—Cut the bundle and place roots in water for a few minutes, then bury the plants deep in the soil until ready for planting.

Planting.—Select a site for the rose garden which has access to plenty of sun. The location should also be well drained as roses do not do well in soggy-wet or cold soils. Design your bed and mark lines on the soil. Remove about two feet of the soil, then fill the trench with mixture of good rich soil mixed with well-rotted barnyard manure. Real fresh manure should not be used as it may burn up the roots of the roses. Plant the roses deep and see that the soil is pressed firmly around the roots. Water the plants well at the time of setting and keep the bed fairly moist in case of lack of rainfall. Mulch the bed with well-rottcd barnyard manure at the time of setting or shortly thereafter. Weak manure water and soap pads are excellent fertilizers.

Pruning.—Hybrid Perpetuals should be trimmed at the planting time by removing all branches that extend beyond six to eight inches from the ground. Hybrid Teas are trimmed only slightly so that they have a free bloomer and very hardy. Produces exquisite perfume and flowers of deep color. Beds are set wide enough to allow for the easy care of the plants. The plant is trimmed very little as the bloom comes on the wood made the year previous. Suckers from the wild-rose stock should be cut off at once. Bush roses should be trimmed severely each March as this trimming will give larger and better blooms and the bush will grow more sightly. Rose beds should be cleaned and mulched well in the fall to help protect them through the dry season.

Spacing.—Hybrid Teas and Everbloomers are set from 12 inches to two feet apart. Hybrid Perpetuals are set from two feet to 30 inches apart.

Designing.—Always look best in some design or hedges. Rose beds may be in straight lines, oval, circular or in irregular curves.

Selection of Plants.—Plant only the best stock and from reliable nurseries. Select 2-year-old budded roses. Do not buy cheap greenhouse roses as they are weaklings and cannot give you satisfaction.

GROUP A—BUSH ROSES

TWO-YEAR NO. 1 ROSES

Each 60c: 6 for $3.80: 12 for $8.00: 100 for $42.00.

GROUP D The Very Latest and the Very Best

Each $1.50; 6 for $8.00; 12 for $15.00.

We are offering the following new varieties of roses to the trade. These are absolutely the latest roses on the market and especially fine. They are all recommended by the American Rose Association. They are all prize winners at the various rose carnivals and very choice.

Size 2-Year No. 1

1—Earl of Warwick.—Salmon-pink with vermilion-red shadings.
2—Eldorado.—Deep yellow with copper-bronze shadings.
3—Mrs. Calvin Coolidge.—A fine deep golden yellow bud-shaded rose.
4—Mrs. Wemys Quin.—Canary-yellow, shaded with crimson-orange.
5—Rayon d’Orr.—Coppery-orange, streaked with brilliant scarlet bars.
6—Rose Marie.—A clear rose-pink center, shading to blush-pink on tips of petals.
7—Sensation.—A deep red rose showing same color throughout.
8—Souvenir de Claudius Pernet.—An exquisite bud-shaped rose of sunflower-yellow color.
9—Souvenir de Georges Pernet.—An excellent bloomer of brick-red buds, opening to term cotta-pink.
10—Templar.—A new shade of crimson-red that will not shade to blue with age. A very large rose.
11—Willowmere.—A new bud-shaped rose, introducing a new color in roses—a shrimp pink.
12—Padre.—Beautiful large rose of copper-scarlet and yellow at the base of the petals.

Supply is Limited

GROUP E—RAMBLER

TWO-YEAR NO. 1 ROSES

Each 60c; 6 for $3.30; 12 for $6.00; 100 for $42.00.

1—Crimson Rambler.—Well known crimson-clustered climber. Makes a rapid growth each season. Excellent rose where quick growth is required.
2—Dorothy Perkins.—Pink and white. Magnificent cluster rose of strong variety and climbing habit. A favorite in every garden.
3—Yellow or White Rambler.—A counterpart of the crimson rambler except the bloom is of a different color. Other roses in this group include Seven Sisters, Mrs. R. Perry, Baltimore Belle, Marechal Nell, Prairie Queen.

GROUP F—CLIMBING ROSES

TWO-YEAR NO. 1

Each 70c; 6 for $3.80; 12 for $7.20; 100 for $55.00.

1—Flower of Fairfield.—The everblooming crimson rambler. Blooms throughout the season. Flowers rich crimson and clusters are massive.
2—Climbing Meteor.—Flowers dark crimson on single stem. Sturdy variety, and full blooming.
5—Excelsa.—A red cluster rose which produces double flowers. The clusters are large and massive. A very fast grower and immune to many diseases that attack most climbing roses.
6—Dr. Van Fleet.—One of the newest climbers. Flowers are borne on single stems which are quite long. Color delicate flesh-pink. Very fine for cutting and house decoration.
7—Tausendschoen (Thousand Beauty).—A red cluster climber which produces double flowers. The clusters are large and massive. A very fast grower and immune to many diseases that attack most climbing roses.

GROUP G—CLIMBING ROSES

TWO-YEAR NO. 1 ROSES

Each 80c; 6 for $4.20; 12 for $8.00.

1—Paul’s Scarlet Climber.—A wonderful brilliant scarlet climber, shading to shaded crimson. Blooms for a long period; flowers well formed.
2—Veilchenblau (Blue Rambler).—Unique novelty and a remarkable blue climber. Flowers large and clusters massive. Foliage glossy green. Should be in every garden.

GROUP H—DWARF POLYANTHA, or BABY RAMBLERS

Price per Each 85c; 6 for $4.75; 12 for $8.00.

1—Baby Crimson Rambler (Mme. Norbert Levavasseur).—Brilliant ruby-red.
2—Baby Tausendschoen (Louise Welter).—Rose, veined with soft clear pink.
3—Erna Teschendorff.—Carmine-red.

GROUP J—RUGOSA AND MISCELLANEOUS ROSES

Price per Each 75c; 6 for $4.20; 12 for $7.20.

1—Rugosa Shrub Rose.—Extremely hardy and robust types of roses which are always desirable. Rugosa means “wrinkled,” which refers to the rich and distinct foliage of this group. While they bloom almost the entire season they are equally desirable in the fall as the single sweet flowers are followed by large bright red seed pods which are ornamental in any planting.
2—Rosa Setigera.
3—Moss Roses.—The delicate fragrance, beautiful buds, and perfect hardness make this type very popular. To prune, merely cut back the wood of the previous year together with dead branches.
4—Wichuriana Rose.—Single white, trailing habit. Fine for ground covering.

GROUP J—RUGOSA AND MISCELLANEOUS ROSES

Price per Each 75c; 6 for $4.20; 12 for $7.20.

1—Rugosa Shrub Rose.—Extremely hardy and robust types of roses which are always desirable. Rugosa means "wrinkled," which refers to the rich and distinct foliage of this group. While they bloom almost the entire season they are equally desirable in the fall as the single sweet flowers are followed by large bright red seed pods which are ornamental in any planting.
2—Rosa Setigera.—Single, deep rose-colored flower.
3—Moss Roses.—The delicate fragrance, beautiful buds, and perfect hardness make this type very popular. To prune, merely cut back the wood of the previous year together with dead branches.
4—Wichuriana Rose.—Single white, trailing habit. Fine for ground covering.
Imported Dutch Flowering Bulbs
(For Fall Planting Only)

We are pleased to quote our patrons on the following high grade bulbs. They are the best that Holland can produce and we import them each year. We recommend these bulbs to our patrons knowing that they cannot help but give you satisfaction. To our patrons that have not grown these exquisite flowers, we solicit your trial order.

We are also making a specialty on the named varieties of Paeonies and Iris. These remarkable perennials are easy to grow and produce the richest flowers in the garden. Those interested kindly write us for a list of our tested varieties and our prices on same.

TULIPS

The early flowering tulips add a brightness and a color to the garden at a time when there are no other flowers. They are fine for lining walks and drives. Tulips may be planted in beds or groups or may be grouped with the shrubbery plantings. We recommend the Darwin Tulips, as they are very large, brilliantly colored, and last longer than the other sorts.

A Bed of Darwin Tulips
Scillas and Crocus bloom in March. The Hyacinths, Tulips and Narcissus bloom in April. The late Tulips, late Hyacinths and late Narcissus bloom the first part of May. By planting a variety of these bulbs you may have exquisite flowers the greater part of the three months.

If bulbs are to be planted in beds then spade up the beds and grade from the center out as this allows for drainage. Water the plants in the spring after they start but do not let the water stand on any part of the bed. Fertilize with well-rotted manures or bone meal if soil is poor. In this section it is not necessary to dig the bulbs up each year and store them, but a light mulching over the bulbs will insure them against hard freezing.

We carry the Oxalis, Ranunculus, Scillas, Snowdrop, Chionodoxa, Amaryllis, Aconite, Anemone, Calla Lily, Japanese Lily, and other bulbs, and will be glad to quote these on application.

## HYACINTHES

A bed of Hyacinths is one of the choicest bits of flower decoration around the home. The colors are brilliant, and the bloom is delightfully fragrant. Hyacinths may be flowered in the house from January to April. Hyacinths grow in any kind of soil and in most any location on the home grounds. They may for themselves the first season, but come up every year. Do not fail to order some of these fine bulbs.

We recommend the following varieties:

## MISCELLANEOUS FALL BULBS

Crocus.—These little bulbs produce the first blooms in spring. The blooms are very rich in color and design. They mix well with the other bulbs or they may be planted as a border line. They are frequently planted in the lawn proper. In any method of planting they are fine and well worth the money.

## PLANTING INSTRUCTIONS

If bulbs are to be planted in beds then spade up the beds and grade from the center out as this allows for drainage. Water the plants in the spring after they start but do not let the water stand on any part of the bed. Fertilize with well-rotted manures or bone meal if soil is poor. In this section it is not necessary to dig the bulbs up each year and store them, but a light mulching over the bulbs will insure them against hard freezing.

Plant Anemone and Crocus from one to two inches deep and about four inches apart. Plant Jonquils, Narcissus and Tulips from three to three and one-half inches deep and about six inches apart. Plant Hyacinths four inches deep and about seven inches apart. Plant outdoor Lilies five inches deep and about twelve inches apart. If you are planting any of the above bulbs in sand or soil inside, plant just one-half as deep as for outdoor planting.

Plant of these above bulbs from October to January in the fall and they will bloom the next spring. The Snowdrops, Chionodoxas, Scillas and Crocus bloom in March. The Hyacinths, Tulips and Narcissus bloom in April. The late Tulips, late Hyacinths and late Narcissus bloom the first part of May. By planting a variety of these bulbs you may have exquisite flowers the greater part of the three months.
"PEERLESS BRANDS" VEGETABLE SEEDS

Fully Tested Seeds Showing Good Germination

IMPORTANT NOTICE

We guarantee that our seeds are all of fresh stock, that they are clean and of the highest quality that money can buy. Truck growers or gardeners contemplating planting a considerable quantity of acreage are requested to send in their list for special quotations. Do not forget to fertilize your gardens for good results. We list some fertilizers on the back page of this price list that are sure to give you satisfaction.

LEONARD'S SEEDS

We are handling this year, as in former years, the Leonard Seeds, grown by the Leonard Seed Company of Chicago. Any seedman or gardener knows the high quality of these seeds. The Leonard Seed Company is one of the oldest seed companies in this country and employs the most skilled growers to look after the growing and rigging of their seeds. Their large equipment, numerous warehouses and efficient machinery enable them to produce the highest quality in flower and garden seeds. A trial order with us will convince you as to the quality of these seeds and you will be back next year for more.

CONDITIONS OF SALE

Delivery of Seeds.—We forward all vegetable and flower seeds, all sets and bulbs mentioned in quantities contained in this price list FREE BY PARCEL POST OR MAIL, providing shipments are within the third zone (three hundred mile radius from Wichita). Shipments going beyond the third zone (three hundred mile radius) will be forwarded at the customer's expense. Shipments in larger weights than mentioned in price list will be forwarded by express or parcel post at the customer's expense.

As to Crops.—We give no warranty, express or implied, as to description, quality, productiveness or any other matter of any seeds, plants or bulbs: we will not be in any way responsible for the crop. If the purchaser does not accept the goods on these terms they are at his own risk; but we do guarantee that we will use every effort to send you the best seeds, plants or bulbs procurable of such varieties as you may order.

How to Order.—In making out your order, write NAME, POSTOFFICE, COUNTY and STATE and the varieties you want, quantities required, and add the price after each one, enclosing the amount in any convenient form of remittance, to us by mail. Use our Order Blank if you have it.

Terms.—Our terms are strictly cash with the order. We must decline to ship C. O. D.

Select list of Garden Seeds we know are right.

FRESH VEGETABLES

A great many of our customers live in suburban districts where they cannot have access to the fresh vegetable market. Vegetables must be fresh to be good. The only solution is to grow your own. Deal "Old Man Hi Cost" a killing blow and plant our seeds for fresh vegetables. Practice real economy—have a garden—eat fresh vegetables and reduce your meat diet.

Asparagus and Rhubarb Roots listed on page 27

BEANS

Beans should be in every garden. Beans should be planted at intervals throughout the growing season. You can have one crop growing while you harvest the previous one. We recommend the Golden Wax, Black Wax, Red Valentine, Long Yellow Six Weeks, Burgundy Wax, Green Pod, Webber Wax and Davis White Wax in the bush bean class. In the pole beans we recommend the Kentucky Wonder, Cutsouth, and Lazy Wife for good production.

Green-Podded Bush Beans

*Burpee’s Stringless Green-Pod.—33 days. Pkt. 10c: ½ lb. 20c: 1 lb. 30c: 5 lbs. $1.25: postpaid.
*Xtra Red Valentine.—35 days. Pkt. 10c: ½ lb. 45c: 1 lb. 75c: 5 lbs. $1.20: postpaid.
*Early Six Weeks.—Pkt. 10c: ½ lb. 20c: 1 lb. 30c: 5 lbs. $1.25: postpaid.

Yellow-Pod Bush Beans

*Improved Golden Wax.—32 days. Pkt. 10c: ½ lb. 15c: 1 lb. 26c: 5 lbs. $1.20: postpaid.
*Wardwell’s Kidney Wax.—35 days. Pkt. 10c: ½ lb. 30c: 1 lb. 52c: 5 lbs. $1.40: postpaid.
*Mexican Pinto.—Pkt. 10c: ½ lb. 15c: 1 lb. 26c: 5 lbs. $1.20: postpaid.
*Black Wax.—Pkt. 10c: ½ lb. 15c: 1 lb. 26c: 5 lbs. $1.20: postpaid.

Pole Beans

*Green-Pod Kentucky Wonder or Old Homestead.—45 days. Pkt. 10c: ½ lb. 20c: 1 lb. 30c: 5 lbs. $1.20: postpaid.
*Speer’s Wonder.—Pkt. 10c: ½ lb. 20c: 1 lb. 30c: 5 lbs. $1.25: postpaid.
*Lazy Wife.—Pkt. 10c: ½ lb. 20c: 1 lb. 30c: 5 lbs. $1.20: postpaid.

Bush Limas—50 Days

*Burpee’s Bush Lima.—Pkt. 10c: ½ lb. 25c: 1 lb. 40c: 5 lbs. $1.75: postpaid.

*Denotes varieties we recommend for general planting in the garden.

Ornamental Beans

Giant Zanzibar (Castor Bean).—Pkt. 10c: 1 oz. 20c.

GOOD BEETS

The beet is one of the best crops for the table. Stock beets make one of the finest feeds for stock and also are of untold importance in conditioning stock. Beets may be kept in pits or in sand in your cellar and used during the winter. For health and saving, plant more beets.

GARDEN BEETS

*Extra Early Egyptian.—42 days. Pkt. 5c: 1 oz. 10c: ½ lb. 25c: 1 lb. 90c: postpaid.
*Eclipse.—42 days. Pkt. 5c: 1 oz. 10c: ½ lb. 25c: 1 lb. 90c: postpaid.
*Detroit Dark Red Turnip.—45 days. Pkt. 5c: 1 oz. 10c: ½ lb. 25c: 1 lb. 90c: postpaid.
*Improved Early Blood Turnip.—45 days. Pkt. 5c: 1 oz. 10c: ½ lb. 25c: 1 lb. 90c: postpaid.
*Swiss Chard for Greens.—Pkt. 10c: ½ lb. 30c: 1 lb. 1.00: postpaid.
*Long Blood.—Pkt. 5c: 1 oz. 10c: ½ lb. 25c: 1 lb. 90c: postpaid.

Mangels and Sugar Beets

Mammoth Long Red.—32 days. Pkt. 10c: 1 oz. 15c: ¼ lb. 20c: 1 lb. 65c: 5 lbs. 2.75: postpaid.
*Vilmorin Improved Sugar.—Pkt. 10c: 1 oz. 15c: ¼ lb. 25c: 1 lb. 65c: 5 lbs. 2.75: postpaid.
*Golden Tankard.—1 oz. 10c: ¼ lb. 25c: 1 lb. 60c: 5 lbs. 2.75: postpaid.

BRUSSELS SPROUTS

Pkt. 10c: 1 oz. 15c: ¼ lb. 25c: 1 lb. 75c: postpaid.

CABBAGE

Extra Early Jersey Wakefield.—70 days. Pkt. 10c: 1 oz. 15c: ¼ lb. 50c: postpaid.
*Early Flat Dutch.—75 days. Pkt. 10c: 1 oz. 15c: ¼ lb. 50c: 1 lb. 90c: postpaid.
All Season.—90 days. Pkt. 10c: 1 oz. 15c: ¼ lb. 50c: postpaid.
Early Winningstad.—75 days. Pkt. 10c: 1 oz. 15c: ¼ lb. 50c: postpaid.
*Imp. Late Flat Dutch.—Pkt. 10c: 1 oz. 15c: ¼ lb. 50c: postpaid.
*Copenhagen Market.—Pkt. 10c: 1 oz. 25c: ¼ lb. 85c: postpaid.
CARROTS
*Oxheart.—48 days. Pkt. 5c; 1 oz. 10c; ½ lb. 35c; 1 lb. $1.20; postpaid.
Danvers Half Long.—50 days. Pkt. 5c; 1 oz. 10c; ½ lb. 35c; 1 lb. $1.20; postpaid.

CAULIFLOWER
Cauliflower-Earli.—Pkt. 20c; ¼ oz. 50c; 1 oz. $1.50; postpaid.
Cauliflower-Snowball.—Pkt. 20c; ¼ oz. 50c; 1 oz. $1.50; postpaid.

CELERY
Golden Self-Blanching.—100 days. Pkt. 10c; ½ lb. 35c; 1 lb. $1.00; postpaid.
White Plume.—110 days. Pkt. 10c; 1 oz. 30c; ½ lb. 45c; postpaid.

SWEET CORN
Sweet Corn is one of the easiest of garden crops to grow. It is quick to mature and gardeners should plant at least two crops each year. One can be planted in early spring and the other in early summer. Market gardeners inform us that they make more on their second crop than on the first crop. Our corn seed is fully tested and fresh each year. Gardeners wanting a large number of pounds should write us for quotations.

CORN—Sugar Corn
Golden Bantam.—75 days. Dwarf, 4½ feet. Pkt. 5c; ½ lb. 12c; 1 lb. 20c; 5 lbs. 90c; 10 lbs. $1.75; postpaid.

POP CORN
Japanese Huskless.—53 days. F. b. s. Pkt. 10c; 1 lb. 15c; 5 lbs. 75c; 10 lbs. $1.80; postpaid.

CUCUMBERS
Early Green Cluster.—52 days. Pkt. 5c; 1 oz. 15c; ½ lb. 35c; 1 lb. $1.20; postpaid.
Long White Spine.—60 days. Pkt. 5c; 1 oz. 15c; ¼ lb. 35c; 1 lb. $1.20; postpaid.
Improved Long Green.—82 days. Pkt. 5c; 1 oz. 15c; ¼ lb. 35c; 1 lb. $1.20; postpaid.
Chicago Pickle.—Pkt. 5c; 1 oz. 15c; ¼ lb. 35c; 1 lb. $1.25; postpaid.

Eggplant
Pkt. 10c; 1 oz. 35c; ½ lb. 60c; 1 lb. $2.50; postpaid.

Garlic
Garlic Bulbs
Per lb. 65c, postpaid.

KALE
Pkt. 10c; 1 oz. 20c; ½ lb. 60c; postpaid.

Kohl-Rabi
Pkt. 10c; 1 oz. 15c; ¼ lb. 75c; postpaid.

LEEK
London Broad Flag.—Pkt. 10c; 1 oz. 25c; ½ lb. 80c; postpaid.

LETUCE

PEAS THAT PLEASE
Peas are one of the best of garden crops. They are easy to grow and are highly valued as a meat substitute. By the right cultural methods the plants can be made to produce abundantly. Our pea seed is grown in Wisconsin and the seed is selected from the plants that bear the maximum crops. We have the small bush peas, the medium height ones, and the vine peas. They are all fine and will repay all your earnest efforts.

GARDEN PEAS
Dwarf Bush Sorts
*American Wonder.—62 days. Dwarf bush: about 12 inches. Pkt. 10c; ½ lb. 15c; 1 lb. 30c; 5 lbs. $1.35; postpaid.
