GLADIOLUS, DAHLIAS, CANNAS

The Necessities for Summer Bloom

Wahoo Lodge Gardens bring in this the very best for our summer gardens.

The Gladiolus better than any other meets the need for a dependable, easily grown, sure blooming summer flower in the Northwest. It also gives the finest bloom, a great wealth of dainty or bold colors, as you select, along a spike which lasts as a cut flower for a week at least.

The Dahlias give real happiness with their richly colored striking blooms ranging from the miniature pom poms to those as large as a saucer either for garden display or the house bouquet. Our many years of growing dahlias show these we list are the best varieties adapted to our conditions which may be purchased at a reasonable price.

The Cannas are the greatest bedding plants for our sunny summers and will light our yards with the high colors of the flower world.

THE SYMPOSIUM RATING

Wahoo Gardens use the rating system because it gives the best possible valuation of a flower. Each member of the flower society is asked to rate the varieties he grows. These hundreds of reports averaged fixes the rating of a variety. Our list was the first published using the Gladiolus and Dahlia ratings and we have seen no other which lists the best 85 Gladiolus or the best 50 Dahlias in the order of their values. This rating makes your selection easy and dependable.

Terms Cash unless credit is arranged. If we should be out of goods ordered your money will be returned. We guarantee you will receive healthy, vigorous stock. That is the quality we ship. If the bulbs are not in condition to make us friends will you please notify us at once. At prices quoted in this list all goods are sent to you prepaid on orders amounting to 50 cents or over. On smaller orders please send sufficient postage and any balance will be returned to you.

Our Gardens are 2½ miles south of the Y. M. C. A. corner in Sioux Falls and a half mile east over a private marked road. Visitors are invited.

HARDY STOCK FOR OUR GARDENS

The Wahoo Lodge Gardens were started to test and to prove plants for dependability. They have developed into a commercial venture with a large stock of the best for our section. The ideal of a real service to horticulture has been retained. It is to improve the homes and public grounds with those plantings which gives a life time of satisfaction.

These gardens grow a general nursery stock of the plants suited to our Northwest conditions. We specialize in perennials, the best roses, specimen evergreens and the flowers listed here. For any information as to varieties, planting or care please write or phone
