Quality Seeds

THE essential point about seeds is quality; the first is, of course, that they will grow but far more important than the growing is that they will produce a first class crop when planted and not an inferior crop that cannot be used or marketed. It would be better that the seed did not grow than to grow and produce a crop of no value.

Of course, all our seeds are tested for germination but the main point is that our seeds are grown by the best growers; growers who have a long reputation of producing the best seeds obtainable.

This is the point that you as a grower are interested in as it means the difference between success and failure in your crops.

The price of seeds means very little but the quality means all.

Our prices are based on Quality Seeds and you will find them as low as seeds of equal quality can be sold for, if not lower, but we make no effort to compete on price alone with some cheap mail order house but try to give you the best seeds obtainable.

With our many years of experience in the seed business, we believe that we are in a position to offer you seeds that will give you the best results.

All our other merchandise is handled on the same basis, quality always first.

We are always glad to advise you in your selections at any time.

Yours very truly,

D. A. WHITE & SONS

NOTICE

On account of the various market changes in prices, we quote subject to the following statement:

We guarantee that we will give full value for the money sent, whether the price at the time you order be higher or lower, or if the difference is very great, will notify you before shipment.

DISCLAIMER

D. A. White & Sons give no warranty, expressed or implied, as to the description, quality, productiveness, or any other matter of any seeds, bulbs or plants that they send out, and will not be in any way responsible for the crop.

SEED GRAINS

Write for prices when in the market.

Recleaned Marquis Spring Wheat. The heaviest yielding spring wheat grown in the Northwest. Heads are beardless, chaff smooth and kernel dark amber in color. Very heavy and grades as hard wheat.

Kinney Wheat. An old standard wheat that has been grown for years here and always produces a good crop. May be sown either fall or spring.

White Winter Wheat. This is the favorite variety for this section of the valley especially for the prairie and lower lands. Planted in fall and early winter.

Gray Oats. Sown both fall and early spring and the standard oat for this valley and western Washington and Oregon.

White Oats. Have some very choice seed oats of this well known variety, clean and fine quality.

Spring Rye. Makes a good crop sown in the spring.

Fall Rye. Always makes a crop and can be sown on poor land that will not raise other grain. Makes an abundance of pasture and green feed and also a fine cover crop or orchards and berries.

Hanchean Spring Barley. Usually does best on light land but is grown nearly everywhere.

Fall Barley. Barley is being planted in the fall and has proven very productive. The acreage has increased several hundred percent the last year and farmers are well satisfied with the results.

Cheat Seed. Recleaned. This is used as a hay crop especially on wet lands and when cut and taken care of at the right time makes a good hay.

Canada Field Peas. Field peas are becoming more popular every year. They make a good hay; make a great hog feed and are used for silos. Lb. postpaid, 20c; not postpaid, 1b. 10c; 100 lbs. market price.

VETCHES

Oregon Vetch (Common Vetch). One of the best forage plants grown on the Pacific Coast. It furnishes an abundance of green, makes a fine hay; used for silos, pasture, and is unexcelled as a cover crop. **Price, per 100 lbs. \$4.00.**

SPRAY MATERIAL

We carry the largest stock of the most reliable spray materials in the city. You will find that our prices are the lowest that can be made on first class goods. You do not want to use anything but the best as it is money thrown away to use poor spray material. Spare the Spray and Spoil the Fruit. Never before has it been so necessary to protect fruit and vegetables crop against the ravages of insects and fungous diseases. This applies to commercial plantations and to the small orchard or garden. The question as to whether spraying pays has been answered. The real problem is one of improving sprays and their methods of application.

S W. Spray Oil, or Spray Mulsion. For Scale, Thrip, etc. From experiments we have made the past ten years, we find that for Scale on Fruit trees, there is no spray that has the killing effect of the oil spray. Should be applied as a dormant spray for this purpose. Spray-Oil, so far has been the only remedy for thrips; should be used with Black Leaf 40 and applied as soon as the thrip shows. Do not delay as the damage is done within a day or so and crop ruined. 5 gal. can, \$2.50; 50 gal. bbl. \$15.00.

S W. Lime Dry Sulfur. This is taking the place of the old Lime-Sulphur Solution as it has all the advantages and none of the disadvantages of this spray. A 100 lb. drum makes as much spray as a 600 lb. bbl. of the old spray. From tests made the last few years, it has surpassed all other sulphur sprays in various tests. Used for San Jose Scale, Apple Scab, Peach Curl Leaf, Brown Rot, Pear Psylla, Leaf Blister, Mite, etc. Lb. 30c; 5 lbs. \$1.15; 10 lbs. \$2.00; 25 lbs. \$3.25; 50 lbs. \$5.50; 100 lbs. market price.

Lime Sulphur Solution. We carry the well known and very reliable Dependable Brand of Lime-Sulphur Solution manufactured by G. Stolz Co. They have manufactured this well known brand for many years and it has proven very satisfactory. We carry stock at all times and have a very convenient place to load it. We sell at factory price. Price, 50 gallon barrel, \$9.00 Allowance of \$1.00 for barrel when returned.

S W. Arsenate of Lead, Dry Powdered. This has supplanted the paste form and is now used in all sections of the U. S. Much more convenient to use, only takes half as much, much more easy to mix, does not freeze, always good, no matter how old. Arsenic and Lead thoroughly combined, eliminating danger from burning. All hives and supers are made from the finest cedar and are dovetailed. The mill work is extra good and by far the best line we have been able to find on the market, regardless of price. You may be able to buy cheaper hives and supers but you will find it will pay to buy the best as they last much longer than the average stock.

SECTION HONEY BOXES

Our No. 1 Sections are made of the choicest white basswood lumber and are perfect in finish, and free from defects. They are not all snow white, but vary from that to a light cream color. Choice honey shows to best advantage in a section not too white, as it is the honey rather than the wood that the consumer looks to. 100, \$1.50; 500, \$7.00.

SECTION HOLDERS

Six sections holder, with separators, one follower and wedge, are put in each super, and each holder holds four 1-lb. honey boxes. The bottom strip is ¼-inch thick, and is cut to fit in sets of sections, 1 7⁄8 x 8 ½ inches, slotted. Each, 6c; 100, \$5.00.

COMB FOUNDATION

Packed in 1, 2, 3, and 5-pound paper boxes, of 25 pounds in a case. Light standard brood grade, 6 to 7 square feet per lb. Price per lb. 75c. Light section grade 11 to 12 square feet per lb. Price per lb. 85c. If foundation is wanted by mail, add 8c per lb up to two lbs., and 2c per lb. over 2 lbs.

BEE SUPPLIES

HOFFMAN BROOD FRAMES

The Hoffman Improved Foundation Fastening Frames are the latest and best brood frames out. The top bar is made with a beveled strip which holds the foundation absolutely in place, perfectly straight and exactly in center of top bar. Anyone can put foundation in these new frames very rapidly. **Price Hoffman Frames, per 10, 75c; per 100, \$6.50.**

Extracting Frames. For extracting supers. **Per 10, 75c; per 100, \$6.50.**

SEPARATORS

One separator should always be placed between each section holder so that the bees will build the honey comb even in each section. Slotted wood separator, $4\frac{1}{4} \times 18$, **per doz. 15c; per 100, \$1.00.**

BEE VEILS

Hat Veils. These veils have a rubber band around the top so as to fit the hat snugly. The lower end is bound, to prevent fraying. The kinds of material are given below. **Price list, postpaid, No. 3 Veil, cotton tulle throughout, \$1.25 Globe Veils, each \$1.50.**

BEE ENTRANCE GUARDS

Root's or Tinker's. These are to admit workers and exclude drones. After the drones are all out, fix the guards over the entrance, and at night the drones can be destroyed. **Price, 35c; by mail, 45c.**

TINNED WIRE

No. 30. Per spool, 10c, postpaid; $\frac{1}{2}$ lb. spool, 25c; postpaid, 30c; $\frac{1}{2}$ spool, 40c; 1 lb. spool, 65c.

BEE SMOKERS

Clark's Cold Blast. Probably the most popular smoker in use today is the Cold Blast, although many are now changing to the hot blast, claiming that they are more effective. The Clark is the best low-price smoker. **Price, \$1.25; by mail, \$1.35.**

Standard Smoker. It is neat in appearance and does not topple over easy. Makes a good strong blast, with little work. Very substantial. **Price, Standard, $3\frac{1}{4}$ inch, \$1.50; by mail, \$1.60.**

The Little Putnam Stove

Patented Dec. 11, 1917

USES OF THE LITTLE PUTNAM STOVE

Used under the drinking vessels of the poultry house to keep the water from freezing in the coldest winter weather.

Used as the heat element for a Putnam home-made-oat-sprouter.

DESCRIPTION OF THE LITTLE PUTNAM STOVE

A Little Putnam Stove is nine inches in diameter and four inches high; made of galvanized iron and equipped with a burner which embodies an **entirely new principle** in oil combustion. Combustion is complete and perfect, doubling the heat value of the oil. **The oil tank holds three pints of oil and burns three to four weeks without refilling or any other attention.** The wick never needs trimming. The stove with any kind of fair usage will last a life-time.

Price of Little Putnam Stove, \$1.95 postpaid.

Putnam Brooder Heater

Easy to make a home-made brooder that will handle 50 to 60 chicks. Fill but once a week. Safe and durable. Free directions how to make your own brooder.

Price, only \$4.75 postpaid.

Soiltex

TEST FOR ACID SOIL

Tells how much lime your soil requires. Very easy to use and accurate and inexpensive. Enough for about 50 tests in one package.

\$1.00 per package postpaid.

B-K Disinfectant

DISINFECTANT, DEODORANT, CLEANSER

Note These Remarkable Qualities

Powerful. By Government Method of test B-K has over ten times greater germ-killing strength than carbolic acid. Much stronger than coal tar disinfectants—much safer.

Safe. B-K contains no poison, acid nor oil.

Clean. B-K is colorless, leaves no stain on floors, walls or utensils. Does not soil animal's hair.

Deodorant. B-K destroys foul odors—leaves no odor of itself.

Cheap to Use. B-K is so strong that much water is used in diluting. One gallon B-K makes 200 to 500 gallons of dilution ready for use according to the purpose.
