DARWIN TULIP

Bartigon

DARWIN TULIPS

THESE long-stemmed, giant-flowered Tulips are unsurpassed for their richness and their delicacy of coloring as well as the peculiar fascinating texture of the petals; they are late bloomers and are borne on tall, straight stems. They occur in a wide range of colors, every color of the rainbow being obtainable except yellow. We offer the choice varieties of Darwin Tulips and urge that you plant these beautiful, stately, early spring flowers in large quantities.

Special Bargain Prices—Doz., 45c; 100, \$2.50; 1000, \$22.50.

NARCISSUS

(American Grown)

NARCISSUS

NARCISSUS are one of the most beautiful and satisfactory of bulbs for fall planting. They are perfectly hardy and thrive in any situation, outdoors or indoors, and need no further attention after planting, increasing in numbers and beauty from year to year. They are also excellent for pot culture and may be forced indoors for winter bloom if desired. As cut flowers they will last in water for a week.

Emperor, deep yellow; Empress, bicolor; Orange Phoenix, golden yellow. Double-Nose (Mother) Bulbs, each, 15c; doz., \$1.50; 100, \$12.00.

HYACINTH

HYACINTHS

HYACINTHS are among the most popular of fall bulbs and their beauty and fragrance make them worthy of a place in every home and garden. They are excellent for forcing, and a succession of bloom may be obtained in the house from January until April by planting and bringing to heat and light at suitable intervals.

First Size Named Varieties — each, 25c; doz., \$2.25; 100, \$17.50.

Bedding Size Hyacinths by Color—Each, 15c; doz., \$1.50; 100, \$12.00.

VERS NEXT SPRING. DON'T MISS THIS OPPORTU

CROCUS

CROCUS

THE earliest of all spring flowers. The bright, cheerful little cup-shaped flowers appear as soon as the ground is free from frost. They bloom in a variety of colors,—blue, purple, white, yellow and orange.

Special Bargain Prices—Doz., 35c; 100, \$2.50;
1000, \$22.50.

Mammoth Yellow, extra size; Choice Mixture, all colors.

CULTURAL DIRECTIONS

PLANTING TIME

ALL bulbs should be planted in the autumn for spring flowering. Bulbs may be planted from September until the ground freezes; the earlier the better. Bulbs should be planted so that the roots can get started before cold weather sets in.

HOW TO PLANT

Tulips should be planted approximately four inches below the surface, Hyacinths five inches below the surface, Narcissus five inches below the surface and Crocus two inches. In light and sandy soil bulbs should be planted a little deeper. A covering of straw will make the plants bear earlier and the flowers larger, and a good supply of well rotted manure worked in the soil before the bulbs are planted will aid very materially in producing beautiful blooms.

FOR INDOOR CULTURE

For indoor planting bulbs should be potted as soon as possible and then left out in the open, covered with a few inches of soil until freezing weather, and then brought into the cellar or other sheltered place where the temperature is not over 50 degrees, but, of course, not freezing. Keep in the dark until the roots are well established and then they may be brought to the light and will flower from time to time until Easter.

Poeticus Ornatus Narcissus, white, with yellow cup edged scarlet. Each, 10c; doz., \$1.00; 100, \$7.00.

BULBS FOR INDOOR FORCING

Especially suited for quick blooming in the house; offer continuous supply of beautiful, fragrant flowers indoors from December to March.

Giant Paper White Narcissus, grandiflora selected, each, 8c; doz., 65c; 100, \$5.00.

Grand Soleil d'Or Narcissus, yellow paper white, each, 15c; doz., \$1.50; 100, \$12.00.

White French Roman Hyacinth, quick and fragrant, each, 15c; doz., \$1.50; 100, \$12.00.

Purity Freesia, purest white, very fragrant, for pot culture only, each, 5c; doz., 30c; 100, \$2.00.
