Mason, John James

Microscopic preparations of
the nervous system.

1879

MICROSCOPIC PREPARATIONS OF THE NERVOUS SYSTEM.

BY JOHN J. MASON, M. D., NEWPORT, R. I.

Alligator Mississippiensis - Medulla Oblongata - Cells of the Raphe

PHOTO-MICROGRAPH NO. 1 *Enamow 4/10 in.*

1879

PRINTED IN INK BY THE ARTOTYPE PROCESS FROM NEGATIVES TAKEN BY THE AUTHOR.

MICROSCOPIC PREPARATIONS OF THE NERVOUS SYSTEM.

BY JOHN J. MASON, M. D., NEWPORT, R. I.

*Rana Halicinia - Cervical Enlargement of Spinal Cord -
Inferior Root Fibres and Nerve Cells.*

PHOTO-MICROGRAPH NO. 27'

Immun 4/10

1879

PRINTED IN INK BY THE ARTOTYPE PROCESS FROM NEGATIVES TAKEN BY THE AUTHOR.

uncovered preparation.

NOT LIBRARY
HARVARD UNIVERSITY
CAMBRIDGE, MASS.

MICROSCOPIC PREPARATIONS OF THE NERVOUS SYSTEM.

BY JOHN J. MASON, M. D., NEWPORT, R. I.

*Alligator Mississippiensis - Cells, and their nuclei, of Eminentia Acustica
Exactly same amplification as nos. 43. 49. 74. 75. and from same animal*

PHOTO-MICROGRAPH NO. 39.

Granow 4/10

1880.

PRINTED IN INK BY THE ARTOTYPE PROCESS FROM NEGATIVES TAKEN BY THE AUTHOR.

MICROSCOPIC PREPARATIONS OF THE NERVOUS SYSTEM.

BY JOHN J. MASON, M. D., NEWPORT, R. I.

*Alligator Mississippiensis. Cells of the Vagus. Inferior Group.
Same Amplification and Same Animal as nos. 39.49.74.75-*

PHOTO-MICROGRAPH NO. 43. *Isnuow 4/10*

1880.

PRINTED IN INK BY THE ARTOTYPE PROCESS FROM NEGATIVES TAKEN BY THE AUTHOR.

MICROSCOPIC PREPARATIONS OF THE NERVOUS SYSTEM.

BY JOHN J. MASON, M. D., NEWPORT, R. I.

*Alligator Mississippiensis. Pars Commissuralis beneath Cerebellum.
Showing Cells of origin and fibres of the Motor Root of the Trigemini.*

PHOTO-MICROGRAPH NO. 52. Miller Bros. 2 1/2 in. 1880.

PRINTED IN INK BY THE ARTOTYPE PROCESS FROM NEGATIVES TAKEN BY THE AUTHOR.

LIBRARY

MICROSCOPIC PREPARATIONS OF THE NERVOUS SYSTEM.

BY JOHN J. MASON, M. D., NEWPORT, R. I.

Physozoma Cornutum. Nearly transverse vertical Section of
the Optic Tubercles. Optic Nerves decussating below.

PHOTO-MICROGRAPH NO. 55. Miller Bros. 2 1/2 in. 1880.

PRINTED IN INK BY THE ARTOTYPE PROCESS FROM NEGATIVES TAKEN BY THE AUTHOR.

MICROSCOPIC PREPARATIONS OF THE NERVOUS SYSTEM.

BY JOHN J. MASON, M. D., NEWPORT, R. I.

Emys floridana - Cells of the Optic Lobes. Middle of the "Roof" of the
Aqueductus Sylvii.

PHOTO-MICROGRAPH NO. 56.

Gunow 4/10

1880

PRINTED IN INK BY THE ARTOTYPE PROCESS FROM NEGATIVES TAKEN BY THE AUTHOR.

MICROSCOPIC PREPARATIONS OF THE NERVOUS SYSTEM.

BY JOHN J. MASON, M. D., NEWPORT, R. I.

Phrynosoma Cornutum. Vertical Longitudinal Section through the Cephalon.

PHOTO-MICROGRAPH NO. 57 Miller Bros. 2 1/2 1880.

PRINTED IN INK BY THE ARTOTYPE PROCESS FROM NEGATIVES TAKEN BY THE AUTHOR.

MICROSCOPIC PREPARATIONS OF THE NERVOUS SYSTEM.

BY JOHN J. MASON, M. D., NEWPORT, R. I.

Testudo Polyphemus # Lumbar Enlargement of the Spinal Cord.
Exactly the same magnifying power and same animal as No 64.

PHOTO-MICROGRAPH NO. 63. Miller Bros. 1 in. 1880

PRINTED IN INK BY THE ARTOTYPE PROCESS FROM NEGATIVES TAKEN BY THE AUTHOR.

MICROSCOPIC PREPARATIONS OF THE NERVOUS SYSTEM.

BY JOHN J. MASON, M. D., NEWPORT, R. I.

Testudo Polyphemus.[#] Cervical Enlargement of the Sp. Cord
Exactly the same Magnifying power as no. 63

PHOTO-MICROGRAPH NO. 64 Miller Bros. 1 inch

1880

PRINTED IN INK BY THE ARTOTYPE PROCESS FROM NEGATIVES TAKEN BY THE AUTHOR.

MICROSCOPIC PREPARATIONS OF THE NERVOUS SYSTEM.

BY JOHN J. MASON, M. D., NEWPORT, R. I.

*Alligator mississippiensis. Anterior (Superior) Roots, Transverse Section
of Spinal Cord. Ground 4/10*

PHOTO-MICROGRAPH NO. 65-

1880-

PRINTED IN INK BY THE ARTOTYPE PROCESS FROM NEGATIVES TAKEN BY THE AUTHOR.

MICROSCOPIC PREPARATIONS OF THE NERVOUS SYSTEM.

BY JOHN J. MASON, M. D., NEWPORT, R. I.

*Rana Pipiens. Vertical Transverse Section through Optic
Tubercles.*

PHOTO-MICROGRAPH NO. 66. *Miller Bros. 2 1/2 in 1880*

PRINTED IN INK BY THE ARTOTYPE PROCESS FROM NEGATIVES TAKEN BY THE AUTHOR.

MICROSCOPIC PREPARATIONS OF THE NERVOUS SYSTEM.

BY JOHN J. MASON, M. D., NEWPORT, R. I.

Lestudo Polyphemus. Nuclei apparently connected with the 7th. or 8th pair
of cranial nerves. Same animal and amplification as nos. 68.69.70.71.73.

PHOTO-MICROGRAPH NO. 72.

Ginnow 1/5

1880.

PRINTED IN INK BY THE ARTOTYPE PROCESS FROM NEGATIVES TAKEN BY THE AUTHOR.

MICROSCOPIC PREPARATIONS OF THE NERVOUS SYSTEM.

BY JOHN J. MASON, M. D., NEWPORT, R. I.

*Lestudo Polyphemus. Nuclei of the "Nucleus Basilaris" Stieda
Med. Oblongata. Same animal and amplification as nos. 68-72 inclusive*

PHOTO-MICROGRAPH NO. 73. Engraved $\frac{1}{5}$ 1880.

PRINTED IN INK BY THE ARTOTYPE PROCESS FROM NEGATIVES TAKEN BY THE AUTHOR.

MICROSCOPIC PREPARATIONS OF THE NERVOUS SYSTEM.

BY JOHN J. MASON, M. D., NEWPORT, R. I.

Alligator Mississippiensis - Nuclei of the cells of origin of the Third Pair. Same animal and amplification as nos. 39.43.49.50.75.

PHOTO-MICROGRAPH NO. 74.

Enunow 4/10

1880

PRINTED IN INK BY THE ARTOTYPE PROCESS FROM NEGATIVES TAKEN BY THE AUTHOR.

MICROSCOPIC PREPARATIONS OF THE NERVOUS SYSTEM.

BY JOHN J. MASON, M. D., NEWPORT, R. I.

*Alligator Mississippiensis - Upper cells of origin of the Vagus.
Same animal and amplification as nos. 39. 43. 49. 50. 74.*

PHOTO-MICROGRAPH NO. 75

Granow 4/10

1880.

PRINTED IN INK BY THE ARTOTYPE PROCESS FROM NEGATIVES TAKEN BY THE AUTHOR.

MICROSCOPIC PREPARATIONS OF THE NERVOUS SYSTEM.

BY JOHN J. MASON, M. D., NEWPORT, R. I.

Rana Pipiens - Spinal Cord. Brachial Enlargement. Nuclei of the
Large Nerve Cells. Same animal and amplification as nos. 80, 104.

PHOTO-MICROGRAPH NO. 79.

Enlarged $\frac{1}{3}$

1880.

PRINTED IN INK BY THE ARTOTYPE PROCESS FROM NEGATIVES TAKEN BY THE AUTHOR.

MICROSCOPIC PREPARATIONS OF THE NERVOUS SYSTEM.

BY JOHN J. MASON, M. D., NEWPORT, R. I.

Rana pipiens - Spinal Cord. Cerebral Enlargement. Nuclei of the large
Nerve Cells. Same animal and amplification as nos. 79.104.

PHOTO-MICROGRAPH NO. 80.

Enlarged $\frac{1}{6}$.

1880

PRINTED IN INK BY THE ARTOTYPE PROCESS FROM NEGATIVES TAKEN BY THE AUTHOR.

MICROSCOPIC PREPARATIONS OF THE NERVOUS SYSTEM.

BY JOHN J. MASON, M. D., NEWPORT, R. I.

Rana Pipiens - Nuclei of the Cells of origin of the Motor Root of the Lingualis
Same animal and amplification as nos. 79. 80.

PHOTO-MICROGRAPH NO. 104-

Enlarged $\frac{1}{5}$ -

1880.

PRINTED IN INK BY THE ARTOTYPE PROCESS FROM NEGATIVES TAKEN BY THE AUTHOR.

MICROSCOPIC PREPARATIONS OF THE NERVOUS SYSTEM.

BY JOHN J. MASON, M. D., NEWPORT, R. I.

Rana Pipiens - Roots and Cells of origin of the Third Pair of Cranial Nerves.

PHOTO-MICROGRAPH NO. 106.

Müller Bros. 1/2 in

1880

PRINTED IN INK BY THE ARTOTYPE PROCESS FROM NEGATIVES TAKEN BY THE AUTHOR.

MICROSCOPIC PREPARATIONS OF THE NERVOUS SYSTEM.

BY JOHN J. MASON, M. D., NEWPORT, R. I.

Rana Pipiens-Vertical Transverse Section through the Olfactory Lobes.

PHOTO-MICROGRAPH NO. 107

Miller Bros. $1\frac{1}{2}$ in.

1880.
