16 Years Experience

Our prompt shipments of strong divisions, full count and true to name, which is our best advertisement, has increased our business to such an extent that we were compelled to grow more acreage of dahlias, therefore we have two farms which makes us the largest wholesale dahlia grower in the Central States.

Our main office is located at Indianapolis, Ind., 6800 West National Road.

All orders will be shipped out from Indianapolis.

GOOD INFORMATION

Dahlia bulbs shipped by express are rated as second class and are listed as perishable.

The express company stands all loss by freeze, or damaged otherwise, therefore do not hesitate to have orders shipped in cold weather.

Express on dahlia bulbs is very low, often it is much less than parcel post or freight.

All freight shipments travel at purchaser's risk as freight companies do not insure against freeze. Freight shipments travel slow and are handled rough. First-class freight costs about the same as express.

Be sure your express agent has given you second-class rates. If unable to get second-class, notify us and we will assist you.

Indianapolis; America's greatest inland city, located 60 miles from center of population of United States. It is the meeting place of seventeen steam railroads and fifteen interurban lines. It is the most easily accessible city in the United States from all parts of the country.

Express trains leave hourly day and night including Sundays and holidays.

Let us have your **RUSH** order.

We thank our customers for all past orders and solicit our share of your future trade.
