EXTRA FINE MIXTURE —Medium and small -----		1.00

All bulbs offered are grown in our own fields. The quality producing soil that makes central Indiana the home of the Corn Kings of the world, likewise puts the "B" in Bulbs.

We could take up a lot of space telling what others say about our fine bulbs, but would you read it? Brevity is a good word in this age of speed. If one man in Wisconsin who was kind enough to write us, is truthful, you have some good evidence. He said he purchased from fifteen different growers last year and our bulbs were the best. That made us feel good and we hope you believe he is right.

TERMS: Cash with order or 25 per cent until shipment. Where not otherwise listed, you may have 100 at 9 times the 10 price and 1,000 at 9 times the 100 price. We would rather not ship C. O. D. Please state time of shipment. Prices are postpaid.

DISCOUNT: When cash accompanies orders of \$1.00 or over, you may select extra stock to the amount of 10 per cent of your order.

GUARANTEE: We can not guarantee the results you will obtain. Plant as you would expect to raise a good hill of potatoes or corn. In fact, if your space is limited, you can plant a bulb each two feet or so in a row of potatoes or beans and have fine flowers for which you might otherwise feel you did not have space. Along a wall or walk is not a good place to plant.

We guarantee bulbs true to name or money refunded.

As we receive many orders for single bulbs, it is necessary to make the each price high enough to cover cost of mailing. For those wishing a number of single varieties, we make the following offer:

One each of 41 single varieties in this list for \$4.25. Omitting Mr. W. H. Phipps and Mrs. Leon Douglas, \$2.70.

In the Field at Digging Time, the Soft, Sweet Note of the Bluebird, Unseen, in His Migratory Flight, Is Payment for All One Pays for Bulbs.
