INTRODUCTION

We have been interested in the growing and hybridization of the gladiolus for many years. Each year growing thousands of seedlings from hand pollinated crosses of the best varieties obtainable and selecting only a very few for further testing.

Located, as we are, in the GENESEE COUNTRY (The Valley of the Genesee), famous for over a hundred years for the quality of its agricultural products; our gladiolus bulbs are of a quality seldom attained elsewhere. Hundreds of customers, who depend upon us each year for their gladiolus bulbs, know of the high quality of our bulbs. To those, who have never grown our bulbs, we solicit a trial order and we know you will be pleased with the results.

We guarantee you will be pleased with all bulbs bought of us and we will replace with other bulbs or return all money sent us for stock which does not come up to your expectation.

Terms and Discounts

Remittance should accompany all orders.

We pay delivery charges to all points in the U. S. and Canada.

MARY FREY

The first Gladiolus to win the \$500 Trial Ground Challenge Trophy of the American Gladiolus Society.

Winner of Vaughan's Silver Medal for the best commercial seedling at the A. G. S. show in Rochester, 1925.

First prize winner in its color class, Rochester, 1926.

Mary Frey, our first introduction is a beautiful, lavender-pink with a ruby blotch on the lower petal; resembles a cattleya orchid in color and as beautiful.

Flowers are of large size, perfectly placed on a long, straight slender stem, with six to nine wide open florets of very lasting quality, open at a time. Blooms extra early, vigorous grower and very prolific.

It will be grown by the million as soon as stock is available.

The cut on inside of cover gives but a faint idea of the beauty of this variety.

A prominent grower of New England wrote us: "The one bulb (Mary Frey) which you sent me last spring, produced, without exception, the finest spike that I ever hope to see."

Large bulbs, \$15.00 each.

Half size bulbs, \$10.00 each.

Small bulbs, \$6.00 each.

No cormels for sale this year.

New Introductions For 1928
