**DERRING-DO
DAHLIAS**

FREDERICK E. DIXON

**"DERRING-DO"
SCOTCH PLAINS
NEW JERSEY**

*One mile east of town center, along Springfield
Road to Glenside Avenue, first left driveway*

Special Information

Visitors Always Welcome To Our Gardens

Orders are filled in rotation: ordering early will insure the reservation of varieties that may be sold out.

Terms: Cash
(Stamps not accepted)

All tubers and plants are GUARANTEED true to name, and their arrival in good growing condition.

Time of Shipment

Tubers will be shipped after April 1st, earlier if requested. Plants will be shipped after May 15th to June 30th. All retail orders shipped prepaid.

DR. JOHN H. CARMAN

A large, deep, broad-petaled tyrian-rose flower tipped petunia and silver on stiff and heavy stem 11 to 22 inches long with neck of equal strength. Flowering habit very good and lasting. A large-leaf variety, crown-out and grow to 6 canes.

AWARDED CERTIFICATE of MERIT this year by the American Dahlia Society at Storrs trial ground.

I am informed that no dahlia seedling there elicited more favorable comment. Correspondence to date seems to verify that statement.

It is well praised in The 1928 Dahlia Honor Roll of the American Home Mag. for December which states:

"It was our privilege to grow this flower and it gave us a real thrill. The blooms are like Elite Glory in Shape."

Derrill W. Hart on October 16th wrote the following: "It gives me real pleasure to feature what I consider a fine Dahlia. Dr. John H. Carman has been good right thru the season."

Tubers, \$10.00 Net

Plants, \$5.00 Net

CONVENTIONALIZED DAHLIAS

For the purpose of instruction in growing various varieties (according to size of leaf) satisfactorily. This is the reason for including leaf size in the list of dahlia descriptions.

Curved lines—Leaves.

Straight lines—Stalks or laterals.

NO. 1.

This represents a small-leaf variety growing "hedgey" forming an excellent housing place for leaf-hoppers and a difficult plant to spray. The blooms of this plant will be small and probably weak-stemmed, due to excess foliage growth.

NO. 2.

This is No. 1 disbranched and disbudded and trained to one cane (stalk). Start disbranching at the ground or lowest pair of laterals, and every other pair until within three pairs of leaves or determined length of

stem from the terminal flower bud. Laterals in a young state look like sprouts appearing between leaf and stalk. Should the laterals become "hedgely," use same treatment as is used on the cane. One bloom per cane or lateral is a good rule.

NO. 3.

This is a large-leaf variety, pinched, or crowned, or headed-out. When size of leaf is not known at crowning-out time (3 to 4 pairs of leaf stage of growth) use the small-leaf method of No. 2 until leaf size has been determined, then follow No. 4 or No. 2 as leaf size warrants.

NO. 4.

Represents a large-leaf variety crowned-out early in growth when four pair of leaves had formed as at No. 3. With large-leaf sort the idea is to train the laterals to canes as low down as possible; some varieties will stand 6 cane, others only 4, due to their ruggedness. Successive bloom is provided for by permitting only one lateral to mature on the flower-cane just below the determined length of flower-stem or cane, and this in turn will replace the bloom that is to be cut. In general large-leaf sort do not grow as fast as the smaller leaf. This might be questioned because most all of the "runts" happen to the small-leaf variety and so, seemingly cause one to believe the larger leaf the faster grower.

The contention is that the small-leaf variety either contains better "leaf-hopper-food," (possibly more sugar) or are easier to suck from. This may be because the leaf lacks the heavy fuzz, on the underneath side, of the large-leaf variety.

REASON FOR LEAF CLASSIFICATION IN DAHLIA LIST

The contention is that the small-leaf varieties are more susceptible to the leaf-hopper than the larger leaf sort. Some success has been obtained by growing the small-leaf variety faster than the pest can eat. This has been accomplished by having a loose humus soil that is neutral-plus (peat and enough lime-stone to offset the acidity of the peat); by growing the plant not too bushy (hedgy) so that spray and air can reach all parts of plant and hiding places of pests.

Large-leaf varieties have been found to be less susceptible to the leaf-hopper, possibly because of smaller sugar content or of the heavier fuzz on underside of leaf.

With these two extremes (small small-leaf and large large-leaf) as a guide it is hoped that dahlia enthusiasts will be further encouraged to watch this suggestion and feel at liberty to send their inquiries here. An attempt will be made to prove this contention at the next New York Show.

From the Florist Exchange of October 6th, 1928:
"The exhibit conclusively proved his contention regarding the so-called stunt."

PEAT

Should it be used in the soil for dahlias?

Yes. Because it has been sterilized, it is free from germs, it expands and contracts by atmospheric conditions thereby permitting air to root system, it is acid only, and therefore a neutralizer to over rich soil, it lessens the number of times to cultivate, it prevents the soil from packing so that very little weight is required on the cultivating tool, its water-retaining properties means less watering, it does not become "soggy" for as soon as its water-cells are full the surplus drains through, it makes clump-digging easier, it makes stake driving and pulling easier.

Two double-hand-fuls of loose peat plus 1 teaspoon full of drug store powdered chalk (CaCo_3) per hole well mixed into the soil is a good quantity to use. One bale of peat will supply 320 dahlias. One pound of drug store chalk (CaCo_3) costs about 25c and will supply 140 dahlias.

Peat can be ordered from "Derring-Do."

The above is the experience of "Derring-Do" before ever having had the privilege of selling it.

A better plan is to have it on hand in the fall for winter storage of tubers thereby making it serve another purpose.

For the Purpose of Cultivation:

SOIL TEXTURE TEST

(That all gardeners should make)

When a sample of soil taken from the bulb depth of garden settles thru water in a parallel walled transparent glass bottle like accompanying drawing the texture is ideal.

FOR PURPOSE OF GROWTH

INSTRUCTIONS

Place soil in bottle dry to determine volume, then pour in larger bottle with water for thorough shaking. While agitated pour back in test bottle. When settled: humus, clay and sand will have separated so that proportions can be measured.

NOTE—This test does not determine “richness” or “poorness,” simply texture.

SOIL

Many people do not realize that soil of poor texture and over fertilized retard dahlia growth. Each season I am called to test soil that grew dahlias poorly the past season, when formally it grew them well, and I have yet to test a soil that has shown “Neutral” (meaning equal acid and equal alkali). The common idea is—“If it don’t grow, give it another dose,” and in nearly every case the “dose” is alkaline when it should have been acid. One does not start growth or force it in a baby with “beefsteak” and for the same reason it should not be tried on a dahlia sprout.

The time for fertilizing depends on how much the soil is out of neutral, and in which direction over-rich or over-poor, just before plowing time:

If neutral not until dahlia is half grown possibly, depending on plant appearance.

If under-neutral (acid) at plowing time, with fertilizer of lime content (Alkali).

If over-neutral, also at plowing time but of an acid content only.

It is well to keep in mind that a dahlia sprouting is a baby-dahlia and while such the soil should be neutral and if necessary stimulate the plant as per growth allowing due time for fertilizer to dissolve.

Probably the best answer to the above is the Fertilizer Chart on opposite page.

SOIL TESTED

FREE on all orders of \$20 or more; but the following instructions must be rigidly adhered to:

1. Soil to be tested must not have been in contact with anything but glass (bottle) and cork.
2. Total weight of soil (and container) to be tested should not exceed 10 oz. First-class postage rate 20c.
3. Type of bottle, wide-mouthed (Bromo Seltzer).
4. No soil will be received if postage is not fully pre-paid.
5. No soil is permitted to be returned by the Department of Agriculture.
6. Record of test will be returned with recommendations. SOIL-TESTING CHARGE except AS ABOVE, \$5.00.

PLANTING

One should pay little attention to the phrase, “dahlias grow anywhere.” Remember that “DAHLIAS BLOOM BEST IN THE FIRST THREE-QUARTERS OF THE FULL DAY’S SUN.”

In planting one should keep in mind the texture of his soil. If it dries out quickly then plant the maximum depth, covering lightly, and more as the growth increases. Six to eight inches is the recommended depth. If stakes are not ready at planting time, substitute a short stick that can be withdrawn for stake later.

TUBER (Bulb) HARVESTING

1. After killing frost permit tubers to remain in ground with stalks bent over until such time as weather threatens to freeze the ground.

2. Cut stalk hand-width above ground for handling. Drill hole about 1 inch from tubers for labeling.

3. Place clump in sun for drying with dirt left on until mid-afternoon, with stalk turned to drain.

4. Carry clumps in-doors for further drying and place on floor with top down allowing air to circulate and dry further until plumpness of bulb shows signs of wrinkling. This some times takes 1, 2 or 3 weeks; it is wise to break dirt away weekly to test dryness.

5. When dry recut stalk flush with dirt or 2 inches above clump-crown (preventing crown-rot). If too "sappy" allow more time for drying. Recutting the stalk also lessens stain at crown.

6. The place of storage should be a temperature of 40 to 50 degrees. A butter tub of water centrally placed keeps humidity about correct. In such a place storage of tubers will be almost 100 per cent perfect, providing your floor is dry. In storing clumps away keep them up-side down and cover them over 6 to 12 inches deep with either dry peat or dry sand (peat being less work).

Add Paterson (Kemp, 1926)\$1.25 \$2.50

A white that is a real white, and a white that will grow, good stem, good neck. Score 87, small-leaf, do not crown out, grow to one cane, tall.

Aibonita (Seal, 1919) Dec.75

Pink, small-leaf, do not crown out; grow to one cane.

Alex. Pope (Montrose, 1926) H. C. 1.00 2.00

Rich red, medium-large-leaf, slow; do not crown-out; grow to one cane. Tall.

Alice Green (? , 1927) Dec. 1.00 2.00

Flowers of large orange, perfect stem and with dark green foliage. Large leaf variety, crown-out and grow to four canes.

Alice Whittier (Reed, 1925) H.C. 1.25 2.50

Deep flower, primrose-yellow, stiff stem, good growth habit, medium-leaf; do not crown-out, grow to one cane.

**Amarillo Grande (Broomall, 1926)
Dec.** 1.00 2.00

Very large light yellow, produced in quantity, good stem, medium-leaf; crown-out; grow to four canes.

Ambassador (Broomall, 1922) C...... .75

Justly named; color soft yellow-buff, shaded salmon-pink, erect strong stem, excellent keeper, 11 inch blooms, medium-leaf; do no crown-out; grow to one cane.

Aztec Glory (Broomal, 1927) Dec 2.50 5.00

Picric-yellow, large exhibition variety, deep shaggy flower, excellent stem. Low growing plant.

**Barbra Redfern (Redfern, 1928)
Dec.** 2.00 4.00

A burnished-copper shading to old gold suffused salmon, flowers large and well formed, Stems good and is a free bloomer. Medium-leaf, crown-out and grow to four canes.

Beatrice Suggs () 1.00 2.00

Beau Ideal (Boston, 1927) Dec. 2.00 4.00

Flowers resemble Mariposa in color. Pinkish-lavender. Long stiff stems, large-leaf, crown-out, grow to 4 canes.

**Betty Ivins (Fisher & Masson,
1928) Dec.** 4.00 7.50

Rich salmon overlaid with amber-glow; rosy-pink reverse. A very full flower, medium-tall plant with thick green foliage. Large-leaf variety, crown-out and grow to four canes.

	Plant	Tuber
Black Jack (Dressler, 1926) Dec.....		1.50
Flowers are large, long stiff stem, color very dark maroon, almost black, does not burn; fine keeper; medium-small-leaf, do not crown-out; grow to 1 cane.		
Black Knight (Dixon, 1925) Dec. ...	1.25	2.50
This was passed over for 2 years, but did so well in 1927 that I am listing it; new medium-leaf, do not crown-out; grow to one cane.		
Bonifin (Kemp, 1925) Dec.	1.25	2.50
Flower rounding in form, color picric-yellow, tall, long stiff stem, small-leaf; do not crown-out, grow to one cane.		
Breezelawn (Dreer, 1912) Dec.		.75
This flower is still the brightest in the dahlia-garden. A very fiery shade of scarlet, height 4 ft; large-leaf; crown-out, grow to four canes.		
Calizona, (Broomall) 1927, Dec. ...	1.75	3.50
Deep rich yellow, large flower, splendid stem, tall grower, a decidedly new coloring. Medium leaf, do not crown-out, grow to one cane.		
Caruso (Stillman, 1920) Dec.....		.75
Mammoth flower, yellow, pink and salmon well blended. Very heavy on long stem. Height, 6 ft., large-leaf; crown-out; grow to four canes.		
Casper G. Ware (Maytrott) 1926, Dec.	1.25	2.50
Color a bright, silvery, violet rose; clear pink late in season, prolific bloomer, growing to 3 to 4 ft. Large leaf, crown out, grow to six canes.		
Catherin Wilcox (Harding, 1919) Dec.		.75
White, heavily tipped cerise, free bloomer. Height, 5 ft. Do not crown-out; grow to one cane.		
Charm (Harding, 1920) Dec.		.75
An autumn color of pleasing combination, burnt orange shading yellow. Height, 5 ft., medium-leaf; do not crown-out; grow to one cane.		
Chas. E. Hughes (Brock, 1926) Dec.		.75
Immense flower, color a lemon yellow shading to burnt orange, fair stem, medium-large-leaf; crown-out; grow to four canes.		
Champagne (Boston, 1920) Dec.		1.25
This flower is well named, burnished copper, champagne, chamois. Height, 5 ft., slow, medium-large-leaf; crown-out, grow to four canes.		

Cigarette (Boston, 1920) H. C.		.75
Vividly colored, creamy-white, heavily edged orange, good substance and stem; height, 5 ft., very fine bi-color, medium-leaf; crown-out; grow to four canes.		
City of Trenton (Prentice-F&M, 1928) Dec.	4.00	7.50
An autumn colored flower, face of petals rich tangerine, reverse crushed-strawberry, curled giving two-tone effect. Large leaf, crown-out, grow to four canes.		
Cohasset, Supreme (Marshall-Suggs, 1927) Dec.	1.25	2.50
Very large lavender, shading to white at center, rugged, good bloomer, large leaf, crown out, grow to four canes.		
Col. Chas. A. Lindbergh (Fisher & Masson, 1928) Dec.	4.00	7.50
An improved Wiz of Oz. The color is rose "du Barry," shading off to old gold at center. Reverse of petals light carmine-pink. Large leaf, crown-out, grow to six canes.		
Color Sargent (Lyndora Gardens, Hall, 1927)	5.00	10.00
A striking flower, both in form and color being a rich deep salmon. Splendid habits very large with perfect stem. Crown-out, grow to 6 canes, large leaf.		
Conowingo (Vincent, 1921) C.		.75
Color is salmon-pink and yellow, medium-leaf; crown-out; grow to 4 canes.		
Copper King (Harding, 1922) Dec.	1.00	2.00
A wonderful flower held erect on straight strong stem, copper and yellow in color, reverse of petals light red; height 5 ft. Large-leaf; crown-out; grow to six canes. Do not plant tubers in soggy ground (late).		
Countess of Lounsdale (Cannel, 1912) C.		.50
Red-salmon, changing to fawn; old but worth while; very good cut-flower; good for perennial-bed back-ground. Medium height, small-leaf, do not crown-out, grow to one cane.		
Daddy Butler (Boston) H.C.		1.00
American-beauty rose, reverse lighter tint. Stem perfect, profuse bloomer, fine keeper, small leaf, do not crown-out, grow to one cane.		
Dakota (Harding, 1920) Dec.		.50
Coppery red and salmon, very good even though old, large leaf, crown-out, grow to six canes.		

	Plant	Tuber
Dr. Joseph K. Van Denburg (Dixon 1928) Dec.	1.25	2.50
Color is Capucine orange; with a little orange buff shading at center into grenadine; large-leaf; crown-out, grow to four canes.		
Dr. Tevis (Pelicano, 1915) Dec.		.75
Old rose shaded copper and bronze, large flower on a splendid stiff stem. Height 6 ft. med. leaf; crown-out; grow to four canes.		
Eagle Rock Beauty (Broomall, 1926) Dec.	2.50	5.00
This splendid variety is a beauty, combination pink and cream, flower large; attracts immediate attention; free bloomer, medium leaf, crown-out; grow to four canes.		
Eagle Rock Jewel (Broomall, 1928)	5.00	10.00
Especially suitable for exhibition, flower is creamy yellow suffused cameo-pink. Medium leaf, do not crown-out. Grow to one cane.		
Eagle Rock Sunshine (Broomall, 1926) C.	1.25	2.50
Beautiful deep yellow, excellent stem, goes well with Ambassador; plant early; water freely; medium leaf; do not crown-out; grow to one cane.		
Eastern Star (Maytrott, 1925) Dec.	1.00	2.00
Score 87, soft saffron yellow, old-gold shading, good substance, good keeper, strong stem, free bloomer; medium leaf, crown-out; grow to four canes.		
Edna Ferber (Fisher & Masson, 1927) H. C.	2.00	4.00
Color is glistening coral old gold at base of petal, very good stem; it should score very high, large leaf; crown-out; grow to six canes.		
Elberon Beauty (Fisher & Masson)		.75
Large exhibition flower; soft apricot, shading darker at center, fair stem, good keeper; medium-leaf, do not crown-out; grow to one cane.		
El Dorado (Boston, 1923)		1.00
Golden blooms; good depth, difficult to grow. Medium leaf; do not crown-out, grow to one cane.		
Elite Glory (Kennedy, 1926) Dec.	1.25	2.50
The one giant flower that is structurally perfect, plant included, a brilliant rich red of distinction. Height 6 ft., large leaf. Score 92. Large leaf; crown-out; grow to six canes.		
Elite Peach (Kennedy, 1926) Dec.	1.00	2.00
Exhibition bloom, salmon buff, vigorous grower, strong stems, medium leaf, do not crown-out; grow to one cane.		

	Plant	Tuber
Elite Surprise (Kennedy, 1927) H.C.		1.25
Elite Glory color, beautiful red, medium size, long, rigid stem, free bloomer, medium leaf; crown-out; grow to 4 canes.		
Eliza Clark Bull (Boston, 1924)		
Dec.	1.00	2.00
Demand greater than supply. A beautiful white with a slight coral tint; excellent stem; free bloomer, medium height; medium leaf, crown-out, grow to four canes.		
El Granada (Boston, 1923)		1.00
Vivid orange, petals twisted and tipped on reverse creamy yellow, long stem, deep flower, must be grown fast, small leaf, do not crown-out, grow to 1 cane.		
Elkridge (Griffith, 1927) Dec.	1.25	2.50
A splendid new white, flower good size, excellent stem, good keeper and shipper, free bloomer. Sweep-stake winner A.D.S., 1926. Large leaf; crown-out; grow to four canes.		
Elkridge Beauty (Griffith, 1927)		
Dec.	2.00	4.00
Waxy petalled flower, cream and tan tinted rose; has distinction and warmth; medium leaf, do not crown-out, grow to one cane.		
Elkridge Gem (Griffith, 1926) Dec.	2.00	4.00
Lavendar purple tone; very good stem, large leaf; crown-out; grow to 6 canes.		
Elkridge Queen (Griffith, 1926)		
Dec.	2.00	4.00
Color, silvery rose lilac, good stem, good flower; large leaf; crown-out; grow to six canes.		
Ellinor Vandever (Seal, 1925)		
Dec.		1.25
Flower satiny rose pink; good quality, large. Ideal stem, large leaf, crown-out; grow to four canes.		
Elsie Daniels (Meachen & Sherman, 1925) H. C.		1.50
Flowers are long and shaggy with outer petals of pale orchid shading to white at center. Height 5 ft. Medium large leaf; crown-out; grow to four canes.		
Emma Marie (Maytrott, 1924)		
H. C.		1.00
Bright pink, white center, flower large, great substance; good stem, good cut flower; score 89. Medium leaf; crown-out; grow to four canes.		
E. T. Bedford (Harding, 1924)		
Dec.		1.00
Fine exhibition flower, purple with lighter shading to silver purple tone, large leaf; crown-out; grow to 6 canes.		

Etendard De Lyon (Rivoire, 1912)**H. C.75**

Rich royal purple. Height 5 ft. medium leaf. This flower is not quite as good as Violetta, but if one has trouble growing Violetta, substitute this one. Medium leaf; crown-out; grow to four canes.

Esther Hunt (Boston, 1921) H.C..... 1.00

Bright orange, very large center, full, form excellent, stem perfect, a very striking flower. Height 5 ft., small leaf. Do not crown-out; grow to one cane.

Esther Nelson (Fisher & Masson, 1928) H. C. 2.50 5.00

A beautiful exhibition flower, fluffy curled and twisted petals, deep yellow, faintly touched carmine. Rigid black stems well above dark-green foliage. Large-leaf, crown-out, grow to 4 canes.

Elizabeth Glendening (Hall, 1928) Dec. 1.00

A very satisfactory grower with excellent stem. Highly recommended for Cut-Flower trade. Flower having several shades of copper. Medium-leaf, crown-out, grow to four canes.

Eva Williams (Fisher & Masson, 1923) Dec. 1.00

Amethyst color, silver shadings; very full center; very good stem; free bloomer, large leaf; crown-out, grow to six canes.

F. T. D. (Fisher & Masson, 1928) Dec. (Florist Telegraph Del.) 2.00 4.00

A sport of trentonian, but has a bluish tyrian-rose color. Will be a great flower for the Cut Flower trade for some time to come. Large-leaf, crown-out, grow to six canes.

Faith Garabaldi (Boston, 1925) Dec. 1.00 2.00

A superb rose pink shading lighter, exceptionally strong. Blooms profusely, tight center of great depth. Height 5 ft., medium leaf. Do not crown-out; grow to one cane.

Fandango (Dixon, 1927) H. C. 2.00 4.00

Spectrum red, back of petals flesh pink and maize yellow. Stems 8-11 in. upright. Size of flowers 7-8 in., depth 3-3½ in., height 5 ft., large leaf. Score 87. Crown-out; grow to 4 canes.

Firelight (Harding, 1924) Dec..... 1.00

A beautiful large flower with base of petals yellow, rouged red to tip. Very much liked. Height 5 ft., large leaf. Crown-out; grow to four canes.

	Plant	Tuber
Fort Monmouth (Kemp, 1928) H.C.	2.50	5.00
Giant flower of rich wine color with underlying tone of crimson-maroon. Medium-large leaf, crown-out, grow to four canes.		
Fort Washington (Rindfleisch, 1926) Dec.	1.25	2.50
Maroon red, robust grower, stiff and long stems, large flower, tall, medium leaf; crown-out; grow to six canes.		
Francis Lobdell (Waite, 1920) H.C.		.75
Well known and a favorite; profuse bloomer, with a very stiff stem, mal-low pink shading white in center. Height 6 ft., medium leaf. Crown-out; grow to six canes.		
F. W. Fellows (Stredwick, 1913) C.		.75
Orange color, large blooms and deep. Indispensable, medium leaf; do not crown-out, grow to one cane.		
Galli-Curic (Lyndora Gardens, Hall 1927) H. C.	5.00	10.00
Mme. Galli-Curic's selection, a really wonderful flower. Bright salmon orange with brilliant luster, golden, suffused. Large leaf, crown-out, grow to four canes.		
Giantess (Harding, 1922) Dec.		.75
A very pleasing shade of amber, fair stem, neck slightly turned, immense thick bloom. Height 5 ft., small leaf. Do not crown-out; grow to one cane.		
Giant Ruby (Greinberg, 1922) Dec.		.75
Very large vivid red, good stem, tall. Certificate A.D.S. Small leaf; do not crown-out; grow to one cane.		
Gladys Sherwood (Broomall, Eagle Rock, 1918) H. C.		1.00
Very deep cream white, full to center, long satiny pointed petals, stiff stem, sun-proof. Height 5 ft., small leaf. Do not crown-out; grow to one cane, plant early.		
Glory of Monmouth (Kemp, 1926) Dec.	1.25	2.50
Eosine pink, shading strawberry pink at center, base of petals orange, medium height, long stem, flower 6-8 in. and 4 in. deep. Score 86, medium leaf, crown-out; grow to four canes.		
Golden Emblem (White, 1926) Dec.	1.25	2.50
Splendid yellow, fine formation flower, very best of stem; medium leaf. Do not crown-out; grow to one cane.		
Golden West (Broomall, Eagle Rock, 1911) C.		.50
Deep rich yellow. This is a very old flower and yet no yellow cactus thus far has compared with it. Height 5 ft., small leaf. Do not crown-out; grow to one cane.		

	Plant	Tuber
Goringa (Broomall-Success, 1928)		Plants
H. C.	4.00	only
Clear orange color of great depth. and unusual beauty. An ideal flower to go with Edna Ferber. Large-leaf, crown-out, grow to six canes.		
Griffith's No.2 (Griffith, 1926) Dec.	2.00	4.00
Much of the color of Margaret Masson, but more ball shape, extremely long stem, very heavy flower well carried. Large leaf, crown-out, grow to 4 canes.		
Harry Mayer (Reid, 1927)	2.50	5.00
A choice pale roseline purple, large blooms; good stiff stem; very attractive and pleasing; large leaf, crown-out; grow to four canes.		
Harvest Moon (Marean, 1922) Dec.		.75
Yellow, large, fair stem, small leaf. Do not crown-out; grow to one cane.		
His Majesty (Boston, 1925) Dec.		1.00
Large flower, free bloomer, bright scarlet, medium leaf. Do not crown-out; grow to one cane.		
Ian (Boston, 1926) C.	1.25	2.50
Emphatically a good formed flower; in-cured petals; clear yellow shading, red pink, free bloomer, medium small leaf. Do not crown-out; grow to one cane.		
Ida Perkins (Perkins, 1928) Dec.....	2.50	5.00
This clear white won the Garden & Home Builder Medal, Boston, 1927, for best New England Dahlia of the year. Very dependable. Large-leaf variety, crown-out, grow to four canes.		
Insulinde (Mornsveld, 1914) Dec....		1.00
Rich golden orange; flower all that could be desired; no collection complete without it. Height 6 ft. Medium large leaf. Do not crown-out; grow to one cane.		
Islam Patrol (Davies, 1924) H.C.....		1.25
Very dark velvety scarlet, tipped and flushed gold. Wonderful long stem, fine cut flower; medium leaf; crown-out; grow to four canes.		
Jane Cowl (Downs, 1928) Dec.....	5.00	10.00
A large deep flower with warm buff and gold blending to bright salmon. A perfect flower, stem, plant and clump. Large leaf, crown out, grow to 6 canes.		
Jean Hare (Fisher & Masson, 1928)	4.00	7.50
A distinctive exhibition flower of golden-yellow, apricot buff and golden-bronze, large leaf, crown-out, grow to six canes.		

	Plant	Tuber
Jean Roosevelt (Darwell, 1925).....		1.00
Amber buff center, shading through salmon pink to light pink, light rose reverse, medium leaf; do not crown-out; grow to one cane.		
Jersey's Beauty (Waite, 1923) Dec.		.75
This flower is a standard. It is very doubtful if it will ever be surpassed. The color is the most pleasing pink on record. Height 7 ft., large leaf. Score 91. Crown-out; grow to six canes.		
Jersey's Beacon (Waite, 1925) Dec.		1.25
A two toned effect of Chinese scarlet with paler reverse; a prolific bloomer. Height 6 ft., large leaf; crown-out; grow to six canes.

Silvery white shaded phlox-purple, ef- fect light lavender, very large flower. _____ leaf.		
Lavendula (Broomall, 1927) Dec.	1.50	3.00
A pleasing shade of lavender thru- out. Probably the best lavender to date. Large leaf, crown-out, grow to four canes.		
Lillian Baldwin (Danker, 1926)		
Dec.	1.25	2.50
A shade between rose pink and crushed strawberry; winner of Darnell cup for keeping qualities. Score 86, medium large leaf; crown-out; grow to four canes.		

	Plant	Tuber
Lolita Velasco (1923) H. C.		1.00
Beautiful large white, excellent center and a long stiff stem. Height 6 ft., medium leaf. Do not crown-out; grow to one cane.		
Lucky Strike (Hodgen, 1927) H.C.	1.00	2.00
Really a fine white, but finicky. Perfect stem, incurled petals, small leaf, do not crown out, grow to one cane.		
Marjorie Hennessey () Dec.	1.25	2.50
An exceptional dahlia with every quality, extra long stiff stem. The color is most attractive amber, heavily suffused rose, lightening at center. Tips of peals rose-pink producing a very beautiful effect. Small-leaf, do not crown-out, grow to one cane.		
May Trower (Seal, 1928) Dec.	4.00	7.50
Excellent garden, exhibition and cut flower. Unusual formation.		
Marmion (Tyler, 1927) Dec.	1.25	2.50
Flower very large; has few if any equal. The flower has great depth; color is golden-yellow slightly suffused bronze on reverse of petals, florets long and wavy, excellent in every way. Crown-out, large-leaf, grow to either four or six canes.		
Margaret Masson (Fisher & Masson, 1924) Dec.		1.25
Flower of silvery rose pink, great depth and size, free bloomer and good cut flower. Height 5-6 ft. Never grows wrong. Large leaf; crown-out; grow to six canes.		
Miro Flora (Broomall, 1927) C.		1.50
White-tinted, violet-pink, petals long. Flowers are 8 to 10 inches in dia., profuse bloomer, first class stems. Medium large leaf, crown-out, grow to four canes.		
My Maryland (Downs, 1928) H.C.	5.00	10.00
An exhibition flower of unique coloring. Delicate pink with faint suggestions of lavender. This flower is in a color class of its own, excellent, large leaf with leathery foliage. Medium large leaf, crown-out, grow to 4 canes.		
Miss Cape Ann (Lufkin, 1928)		
H. C.	2.50	5.00
A snow-white flower with serated or forked petals. Medium-small leaf, do not crown-out, grow to one cane.		
Monmouth Jewel (Kemp, 1927)		
Dec.	2.00	4.00
Flowers of bitter-sweet-orange, shading to lemon yellow at base of petals held high above foliage. Large leaf, crown-out, grow to six canes.		

	Plant	Tuber
Margaret Woodrow Wilson (Fisher & Masson, 1926) Dec.	1.00	2.00
A large and beautiful exhibition type; the color of opalescent pink with a powerful stem. Height 5 ft., large leaf. Score 86. Crown-out; grow to four canes. Medium height.		
Marion Broomall (Broomall, 1926) H. C.	1.25	2.50
Large light pink and white, good stem, splendid habit, large leaf; crown-out; grow to four canes.		
Myra Valentine (Mills, 1921) Dec.		.75
Golden-bronze, fine stem, profuse bloomer and much admired. Large-leaf; crown-out; grow to four canes.		
M. F. Heaphy (Murphy, 1925) Dec.		.75
Blooms, 6-8 inches 5 inches deep, magenta, wine, maroon and royal purple; small-leaf, do not crown-out; grow to one cane.		
Mr. Alex. Waldie (Broomall, 1922) Dec.		1.00
Creamy, overlaid with delicate salmon-pink. Height, 5 ft., small-leaf, do not crown-out; grow to one cane. Very satisfactory, when properly grown.		
Mr. Geo. Castleton (Darnell, 1920) H. C.		.75
Dark maroon, excellent stem, excellent cut flower, quite tall, medium-leaf; crown-out; grow to four canes. Similar to a Jack-Rose in color.		
Mr. Crowley (Broomall, 1921) Dec		.75
Brightest salmon-pink and yellow. Very good cut-flower, and popular; artificial light makes it exquisite. Height 5 ft., medium-leaf; crown-out; grow to four canes.		
Mrs. Carl Salbach (Salbach, 1914) Dec.		.75
Lavender-pink. This flower, at the time of introduction, won the California Society Gold Medal. Height, 5 ft., large-leaf; crown-out; grow to four canes.		
Mrs. Edwards (Harding, 1926) H.C.	1.25	
Color, orchid, vigorous grower, free bloomer, strong straight stem. Medium-leaf; crown-out; grow to four canes.		
Mrs. E. L. Lindsey (Broomall, 1920) Dec.		1.00
Scarlet and gold, flower, 7 to 9 inches, strong stem, good keeper, medium-leaf, do not crown-out; grow to one cane.		
Mrs. Ed. Taylor (Brock, 1925) Dec.	1.25	2.50
A most beautiful cerise old rose, rigid stem and good foliage. Height 7 ft., large-leaf; crown-out; grow to six canes; exquisite.		

Mrs. E. F. T. Smith (Broomall, 1922) H. C.		.75
Creamy white; tinted lemon at center, medium-leaf, do not crown-out, grow to good stem and large flower. Height 5 ft., medium leaf, do not crown-out; grow to one cane.		
Mrs. Eleonar Martin (Pellicano, 1924) Dec.		1.00
A California variety of exceptional merit. The color is mulberry with violet reverse. Flower large on good stems. Large-leaf, crown-out, grow to four canes.		
Mrs. F. A. C. Perrine (Fisher & Masson, 1925) Dec.	1.00	1.75
Lovely shade of lilace with pale "Cattleya" reverse, petals slightly twisted; highly admired; stiff stem, flower 8 to 10 inches. Medium-leaf; crown-out; grow to four canes.		
Mrs. Happie Bedford (Brock, 1926) H. C.		1.00
Enormous flower; perfect form, canary yellow; rather weak at neck. Medium leaf; do not crown-out; grow to one cane.		
Mrs. Frances E. Bullard (Broomall, 1926) Dec.	1.50	3.00
Immense flower, beautiful light pink, lighter at center; long stiff stem; medium-leaf; do not crown-out; grow to one cane.		
Mrs. I. de Ver Warner (Harding, 1920) Dec.		.75
Exquisite shade of refined deep mauve-pink; an admitted standard; height 6 ft., large-leaf; crown-out; grow to six canes.		
Mariposa (Boston, 1922) H.C.		1.00
Beautiful, large flower of true hybrid cactus form. A delicate shade of lavender pink, shading deeper at center with a violet suffusion. A universal favorite and in great demand.		
Nancy Sue Lang (Broomall, 1926) Dec.	2.00	3.75
Very large flowered variety, bright red tipped gold, conspicuous and attractive. Dwarf, but good; stiff stem; large-leaf; crown-out; grow to four canes.		
Newport Wonder (Badetty, 1925) Sing.		1.00
Beautiful rose pink flower for table decoration; small-leaf, do not crown-out; grow to one cane.		

	Plant	Tuber
Nichu (Boston, 1925) H. C.		1.00
Blooms large yellow, incurved petals, flower held erect, cheerful-bloomer, medium-leaf; do not crown-out, grow to one cane.		
Nagel's Room (Nagel, 1926) H.C.	1.00	2.00
An importation from Holland. The color is chamois overlaid with salmon; petals curled and twisted, making up a flower of great beauty, free bloomer, small-leaf, do not crown out, grow to one cane.		
Nagel's Glory	2.00	4.00
Nature's Masterpiece (White, 1927) Dec.	4.00	7.50
An unusual blending of old-rose, cinnamon and a metallic bronze suffused mulberry. Sturdy habit, crown-out, grow to four canes, large-leaf variety.		
Olive Reed (Seal, 1926)	1.25	2.50
This is considered to be the best real yellow to date. Beautiful deep color and flower, splendid form, large, good stem, large-leaf; crown-out; grow to four canes.		
Papillion (Boston, 1922) H.C.		1.00
Old-rose color with golden shades; fine stem and a much needed color; medium-leaf; crown-out; grow to four canes.		
Paradise (Boston, 1923) H. C.		.75
A bold, massive flower. Geo. Walters type. Color, creamy old-rose suffused gold; blended to brown tone. Small-leaf; do not crown-out; grow to one cane.		
Parkersburg (Fisher & Masson, 1927) Dec.		1.00
Glistening white, twisted and pointed petals, early, stems straight, wiry, excellent cut-flower. Medium-leaf; do not crown-out; grow to one cane.		
Paul Revere (Bissell, 1926) Dec.	1.00	2.00
Very large crimson, heavy full flower, good stem, large-leaf; do not crown-out; grow to one cane.		
Primula Rex (Broomall, 1926) Dec.	1.25	2.50
Light cream and primrose color; flower immense; good quality, one of the best, medium-leaf; crown-out; grow to four canes.		
Queens of the Garden Beautiful (Burns, 1926) Dec.	1.25	2.50
A great and beautiful bloom; score 94; medium-leaf; do not crown-out; grow to four canes, light primrose yellow.		
Radio (Sampson, 1924) Dec.		1.00
Very large flower; blood-red edged and tipped yellow; stem excellent; medium-leaf; do not crown-out; grow to one cane.		

Red Cross (Anderson, 1916) H.C....	.75	
Yellow with a little red; height 6 ft., medium-leaf; do not crown-out; grow to one cane.		
Regal (Boston, 1928) Dec.	7.50	Plants only
A most delightful and different combination of autumn shades. Bronze heavily suffused with dull old-rose shading to gold at the base of petals giving the effect of burnished-copper.		
Robert Scott (Brock, 1926) Dec.....	1.25	2.50
Color of apricot-yellow, rose shading; large bold flower, excellent stem, medium-leaf; crown-out; grow to four canes.		
Robert Treat (Mueller, Kemp, 1925) Dec.		1.00
A brilliant American-Beauty-Rose shade, stiff stem; Sweepstake prize 1924. Should be shaded to hold its color; height 5 ft., medium-leaf; do not crown-out; grow to one cane.		
Rockwood (Boston, 1923) Dec.....		1.00
Color resembling Mrs. Chas. Russel's rose; a new shade of pink; stiff stem, height 4 ft. Very good cut flower. Medium-leaf; crown-out; grow to 4 canes.		
Rollo Boy (Pelicano, 1925) H.C.....		1.00
Delicate shade of amber, shading to old gold; fine stem and flower of great size; height 4 ft. Medium-leaf; do not crown-out.		
Roman Eagle (Fisher & Masson, 1925) Dec.		1.50
Brilliant burnished copper in color, foliage dark green, stem somewhat crotchky, but this does not lessen its demand. Height 4 ft. Score 89; medium-leaf; do not crown-out; grow to one cane.		
Rosa Nell (Broomall, 1920) Dec.....		.75
Rich rose-pink, large flower, good stem, old but still greatly admired; height 4 ft., small-leaf; do not crown-out; grow to one cane.		
Rose Fallon (Harding, 1926) Dec... 	1.25	2.50
Most beautiful type and color of old gold to date. Height 7 ft. Large-leaf; crown-out; grow to six canes.		
Roslie Styles (Peacock, 1923) P.....		.75
Tyrian-pink; worth while; good stem, large-leaf; do not crown-out; grow to one cane.		

R. T. Edwards (Harding, 1927)

Dec.	1.25	2.50
-------------------	-------------	-------------

A pleasing shade of pink with plum reverse; stout stem; large flower, large-leaf; crown-out; grow to 6 canes.

Sagamore (Badetty, 1924) Dec...... **1.00**

Wonderful as a cut flower; good golden color, medium size, height 5 ft. Medium leaf; do not crown-out; grow to one cane.

Sanhican's Blue Bird (Fisher & Masson, 1925) Dec...... **1.25**

Bloom gigantic; perfect in form, outer petals bright violet-blue to violet at center; small-leaf; do not crown-out; grow to one cane.

Sanhican's Gem (Fisher & Masson, 1925) Dec...... **1.25**

A very welcomed color, salmon and old-rose, large petaled flower; score 87; medium-large-leaf; crown-out; grow to six canes.

Sanhican's Monarch (Fisher & Masson, 1925) Dec...... **1.50**

Deep tyrian-rose at center shading out. Deep flower, free bloomer, dark green foliage; good keeper; large-leaf; crown-out; grow to six canes.

Sanhican's Nymph (Fisher & Masson, 1928) Dec...... **2.50 5.00**

Very large primrose yellow with reverse of petals faintly touched fawn-rose. Perfect stem, large-leaf, crown-out, grow to six canes.

Sanhican's Princess (Fisher & Masson, 1926) Dec...... **1.25**

True shrimp-pink, profuse bloomer, medium size flower, stiff stem; very fine for table decoration. Medium-leaf; crown-out; grow to six canes.

Sanhican's Ruby (Fisher & Masson, 1925) Dec...... **1.00**

This flower was introduced at \$2.50; worth much more. Scored 89. Large-leaf; crown-out; grow to six canes.

Sanhican's Rose (Fisher & Masson, 1925) Dec...... **1.00**

A clear deep rose-pink flower on erect stem, good habit of growth, medium size, large leaf, crown-out, grow to four canes.

Sea Shell (Dixon, 1928) Dec...... **1.25 2.50**

Center petals cream to rose-pink toward outer, later in the season all petals are cream with a narrow selvage. The foliage is excellent, good stem; large-leaf; crown-out; grow to 6 canes.

Senorita (Lohrman, 1919) Dec.		.50
Crimson, fair, small-leaf; do not crown-out; grow to one cane.		
Sheila Ward (Stredwick, 1927) Dec.	1.75	3.50
A most artistic and beautiful flower. Light primrose-yellow, heavily tipped white. Stem excellent. Medium-small leaf, do not crown-out, grow to one cane.		
Silverado (Seal, 1927) H. C.	2.50	5.00
This new variety is a splendid acquisition to this class. The flowers are large and a fine type. The color is silvery-white, small-leaf, do not crown-out, grow to one cane.		
Snowdrift (Broomall, 1919) Dec.		.75
A white classic with broad waxy petals. It is doubtful whether it has been beaten in its class. Height 3 ft., large-leaf; crown-out; grow to four canes.		
Spotswood Beauty (Kemp, 1928) Dec.	4.00	7.50
The color is clear chatenay-pink with slight shading of lemon yellow at base of petal. Medium large leaf, crown-out, grow to four canes.		
Starlight (Boston, 1928) C.	7.50	Plants only
This is a pure unshaded gold. It is a gold shade which combines with everything in house decoration. The flower is huge.		
Techachepi (Broomall, 1923) H.C.		.75
Type of flower similar to Gladys Sherwood, but yellow, medium height, small leaf; do not crown-out; grow to one cane.		
Tillamook (Broomall, 1924) Dec.		1.00
A magnificent canary-yellow, strong with a fair and stiff stem. Height 5 ft., medium-small leaf; do not crown-out; grow to one cane.		
Tommy Atkins (Boston, 1922) Dec.		1.00
Color, flaming scarlet with metallic lustre; small-leaf; do not crown-out; grow to one cane.		
The Bandit (Reed, 1926) H.C.	1.25	2.50
Mahogany-red and gold. Narrow petals; twisted, gold reverse, A.D.S. C. of M. Medium-large-leaf; do not crown-out; grow to one cane.		
The Emperor (Harding, 1921) Dec.		.75
A maroon of the finest. Excellent in every point; height 6 ft. Large-leaf; crown-out; grow to six canes.		

The Bay State (Marshall, 1926)		
Dec.		1.25
Cream-yellow suffused strawberry; good stem, profuse bloomer, small-leaf; do not crown-out; grow to one cane.		
The Lemonade (Ward, 1927) Dec.		
1.75	3.50	
A lemon-yellow flower that is not finicky, this and Primula Rex are the best to date in this shade and class. Stiff stem, upright, good habits, large-leaf, crown-out, grow to six canes.		
The Surprise (Marshall, 1926) Dec.		
		1.00
A shade of rosy-wine, best of stem, very deep and large flower. Small-leaf, do not crown-out; grow to one cane.		
The Telegram (Marshall, 1926)		
Dec.	1.25	2.50
Orange and white bi-color, very striking, tall, medium-leaf; do not crown-out; grow to one cane.		
Trentonian (Fisher & Masson, 1925) Dec.		
		1.00
The flower is symbolic of autumn; Indian's skin, old gold, and amber and coppery bronze; splendid stem; wonderful cut-flower; height 5 ft. Score 89. Medium-large-leaf; crown-out; grow to four canes.		
Valentino (Boston, 1928) Dec.		
5.00	Plants only	
True salmon-pink shading to cream at the center. The flower is of enormous size and of attractive form.		
Violetta (Waite, 1922) H.C.		
		1.00
Petunia violet; demand exceeds supply. Best of its class to date, height 5 ft., medium-small leaf; do not crown-out; grow to one cane.		
Violet Wonder (Kemp, 1928) Dec.		
5.00	10.00	
The best violet colored dahlia to date, rich nophthaline violet with underlying tone of violet-purple. Medium leaf, crown-out; grow to four canes.		
Watchung Maroon (Smith, 1929)		
Dec.	7.50	Net Plants only
A very large maroon flower, almost black, resembling Fort Washington but much darker. Recommended for either garden or exhibition due to its size, stem and rich color. Large-leaf variety, crown-out and grow to 4 canes.		
Watchung Prince (Smith, 1929)		
Dec.	5.00	Plants only
The originator claims this to be the largest and best yellow dahlia on the market. It can be grown to 12 inches in dia., is a free bloomer and strong grower having wonderful keeping qualities and unsurpassed for garden and exhibition.		

Watchung Sunset (Smith, 1929)

Dec.	7.50	Net
A flower highly recommended for exhibition. Wonderful keeper and sturdy lavender-pink.		Plants only

Watchung Wonder (Smith, 1929)

Dec.	5.00	Plants only
This spectacular dahlia created a sensation in New York and Newark. It is a royal-red with a touch of gold at center enhancing its beauty. Probably one of the largest flowers ever grown.		

Watchung Sunrise (Smith, 1927)

Dec.	2.50	5.00
A golden amber flower, reverse of petal rose-pink; each petal has a narrow clear margin of rose-pink, huge flower, distinctive, tall. Large-leaf; crown-out; grow to six canes.		

White Court (Murphy, 1925) H.C.

1.25

Wavy waxy pure white flower; fine for exhibition. Height 6 ft. Medium-leaf; do not crown-out; grow to one cane.

White Empress (Jost-Alling, 1929)

Dec.	5.00	10.00
A clear, clean white of interesting formation. Winner of "Darnell Cup" as BEST KEEPING VARIETY at 1928 N. Y. Show. Not a large flower but a thrifty grower with plenty of substance.		

Winfield Slocombe (Slocombe, 1919) Dec.

1.00

Gold shading to burnt orange at center, abundance of bloom and alluring. Stem is long and fair for such a heavy flower. Indispensable. Height 5 ft., medium-leaf; crown-out; grow to six canes.

W. J. Erwin (Brock, 1926) Dec.

1.00 2.00

One of the best lavender-purples. Flower has size, depth, and a free bloomer. Large-leaf, crown-out; grow to four canes; low grower.

World's Best White (Murphy, 1924) Dec.

1.00

Very large white blooms with extra long stems, profuse and good cut-flower, height 6 ft. Small-leaf; do not crown-out; grow to one cane.

Y. W. C. A. (Dixon, 1928) H.C.

1.25 2.50

Base of petal picric-yellow, running to coral-pink at tips; flowering habit profuse, stiff stem. Medium-large-leaf; crown-out; grow to four canes.

Zante (Boston, 1925) H.C.

1.50

Very deep and large bloom, stiff stem, color gold suffused apricot-pink, small-leaf, do not crown-out; grow to one cane.

No. 1

COLOR COLLECTION, Dec.

Dahlias listed in this collection are either medium-large or large leaf varieties and have proven the most insect repellent and therefore dependable. This offer is not made to close out these varieties, but to encourage those that are not professionals. They are standards and will be listed in catalogs for many years.
