FARGO'S FAMOUS ROSES

**STRONG, STURDY,
18 to 24 inch Field Grown Plants**

To the minds of many people the name of FARGO instinctively suggests the thought of fine Roses. For many years now we have been supplying the Rose wants of a host of Rose lovers everywhere, and it is one of our great pleasures to read their appreciative letters. Our Roses as offered in this catalog are the pick of the Rose fields; grand, big, sturdy plants 18 to 24 inches high, heavily rooted; the kind that gives an abundance of Rose satisfaction. Roses are but one of MANY choice things however that you will find illustrated and described in this catalog. Read every page; preserve this book carefully for frequent future reference.

"The Roses received from you in the spring have all grown beyond expectation. Have produced flowers all summer and now (Nov. 21) are full of buds. All came true to name. Very much pleased."

William H. Brehm,
Reading, Pa.

"The ten Roses I received from you in the spring had grown so fine, and been so satisfactory that I am inclosing an order for ten more to be sent me in the spring.

D. J. Haren,
Hampton, Va.

"Will you please place my order for twenty roses? This is my third order of roses from you and I have been delighted."

Clara E. Burkholder,
Mt. Pleasant, Pa.

"Last summer I ordered a few Roses from you, and they were wonderful. Strong, healthy, and lovely. That encourages me to send you another order."

Mrs. Wm. R. Price,
Morris Heights Station, N. J.

Send Your Orders as Early as Possible

PARCELS POST. If goods ordered from this catalog are to be sent by parcels post, add 5% to amount of your order. If you live west of Ohio, in Mich., or south of Maryland, add 8% to order. (Minimum mailing charge 15 cents.) This provides for postage, packing and guarantees safe delivery. The one exception is Roses, which we will deliver prepaid anywhere.

EXPRESS. The cost of express shipment is usually much higher than by parcels post; we aim to save you the difference on such items as can be shipped by mail, therefore you should not fail to include in your remittance, the specified percentage to cover mailing.

ERRORS. Occasionally they do occur, and the customer should report any errors or omissions immediately, and not wait days or weeks before doing so.

We are as anxious to correct any actual mistake or to rectify an error as you are to have us do so, but no complaints can be entertained unless made promptly upon receipt of the goods. Address:

FARGO'S FAMOUS HYBRID TEA ROSES

STRONG 18 TO 24 INCH, 2-YR-OLD FIELD GROWN PLANTS

SENSATION

The new Rose pictured here, is all that the name implies—a SENSATION indeed. It is the heaviest blooming red hybrid tea Rose to date. An entrancing shade of red, unique in form, enormous in size, and borne on long stems. Since its introduction, until comparatively recently, this Rose has been scarce and hard to get. At first it sold readily at \$2.50. We now have a good stock of this delightful new red and can place it priced with the other standard varieties at regular prices as quoted below.

EACH \$1.00; DOZEN \$11.00

PADRE. One of the very finest of new bedding Roses. A brilliant coppery-scarlet, flushed with yellow at the base. It is a Rose that makes a very strong appeal to Rose lovers. Very free flowering. Each \$1.25.

Red Premier; large pointed buds.

Rose Marie; bright watermelon-red.

Red Letter Day; velvety scarlet crimson.

Radiance; rosy opaline pink.

Red Radiance; glowing crimson.

Sunburst; famous yellow rose.

Wellesley; soft silvery pink.

FLOREX

This new Rose came out in 1927 and we are listing it for the first time. It is a cross between Mme. Butterfly and Premier. The color is coral salmon suffused with carmine. It is a strong bloomer, strong and upright in growth, with long pointed buds of fine color. We have a specially grown stock of this new Rose that enables us to offer it this year at no advance over older standard varieties.

Each \$1. Dozen \$11.

SOUV. GEORGES PERNET. One of the famous Pernet-Ducher's most glorious introductions. Very large oriental red blooms with carmine and yellow shadings. A strong and vigorous grower. Each \$1.25.

EACH \$1. DOZEN—\$11. EXCEPT AS OTHERWISE NOTED

FARGO'S HYBRID PERPETUAL ROSES

White American Beauty, Frau Karl Rruschki, or Snow Queen
Six of the immense blooms filling a reed flower basket.

This class of Roses, known as "June Bloomers" are stronger, sturdier growers than the Hybrid Teas or "Monthly" Roses, producing an immense number of superbly gorgeous blooms during the month of June.

The average height of our stock of Hybrid Perpetuals is 24 to 36 inches.

WHITE AMERICAN BEAUTY. It is hard to say too much in favor of this glorious Rose, and although classed as a June bloomer, it frequently blooms out of its season, as well as in June. The pure white flowers are immense in size, waxy in texture, and something of their desirability may be judged from our photograph of six of these great Roses filling a reed Flower Basket.

AMERICAN BEAUTY. Very large carmine-cerise flowers, and beautiful heavy foliage. Probably the most fa-

mous rose in its class; favorably known to all flower lovers.

GEORGE AHREND'S Clear pink. Good buds and perfectly formed flowers. A strong grower.

ULRICH BRUNNER. Cherry-red in color. Very large flowers and of fine form. A good Rose.

CAPTAIN CHRISTY Large, full buds; colors delicate flesh shading deeper toward the center.

HUGH DICKSON Well shaped flowers on strong growing plants.

ANY OF THE ABOVE, \$1. EACH; DOZEN \$11.

FARGO'S HARDY CLIMBING ROSES

FOR PORCH COLUMNS, PERGOLAS, TRELLIS, ETC.

Average Height 18 to 24 Inches.

These Roses require no pruning in the Spring except the taking out of old or dead wood or pruning back to the desired shape or form, but a severe pruning of old wood in July after they have flowered, will encourage a vigorous growth and insure an abundance of bloom the following season.

Climbing American Beauty

DR. WALTER VAN FLEET. Delicate flesh pink deepening to rosy flesh at the center. Petals beautifully undulated and cupped. Large flowers.

SHOWER OF GOLD. Deep golden yellow with orange shading. Very double and lasting.

HIAWATHA—Among hardy Climbing Roses none surpass the Hiawatha. Each Summer the plants are smothered with great blooms, often fifty or more flowers to a cluster. The color is a glowing ruby-carminé, with clear white at base of petals and a mass of golden stamens at the center. This rose has been a sight worth seeing in bloom on the grounds of the Dept. of Agriculture at Washington.

PAUL'S SCARLET CLIMBER. The most vivid scarlet climber in existence. Flowers of good size, borne in clusters. Very popular, and much admired everywhere. No mistake is made in planting this grand Rose.

SILVER MOON. Beautiful half-double flowers, four inches or more across, color pure white with a mass of golden stamens at the center. Unlike other Roses; cup shaped clematis-like flower.

CL. AMERICAN BEAUTY. Fragrant rosy-crimson of strong growing habit. Thrives and blooms almost anywhere. Great bloomer, on long stems; flowers four inches across.

WHITE DOROTHY PERKINS. Same as Dorothy except color clear white. Fills a long felt want for a Hardy White Climbing Rose.

LADY GAY—Climbing Rose. A new variety of remarkable vigorous growth, with double flowers of a delicate pink.

EXCELSA. Also called the Red Dorothy Perkins. Intense deep crimson hardy white climber.

HUGONIS "The Golden Rose of China."

This Rose is not a climber, but a wonderful recent introduction from China, growing to a height and breadth of about six feet, and each graceful spray clustered full of single bright golden-yellow Roses so that the plant becomes a veritable "sheet of gold" and very early in spring before the other Roses bloom. The foliage makes an attractive display at all seasons.

ANY OF THE ABOVE—EACH \$1. DOZEN \$11.

FARGO'S CHOICE GLADIOLUS COLLECTIONS

Even a single spike of Gladiolus bloom in a vase is a bouquet in itself. A field or bed of them is a gorgeous sight indeed. Too much can hardly be said in favor of this popular flower. Coming as they do in all colors of the rainbow from white to crimson, most of them wonderously variegated, one cannot help but be delighted with them. They are one of today's most popular flowers.

POPULAR GLADIOLUS COLLECTION.

This is an excellent mixture. Even experienced growers will make no mistake in ordering this collection. It is offered so low in price as to induce thousands who have never grown Gladiolus to plant a gardenful this year. **25 Bulbs in Assorted Colors for only 90 cents; 100 Bulbs \$3.50.**

EXHIBITION GLADIOLUS COLLECTION.

For a number of years we have offered our Exhibition Mixture, and it has proven mighty popular. It contains exquisite shades and varieties in a wide range of beautiful and showy colors and color combinations, and will afford a vast amount of pleasure and satisfaction. **25 Bulbs for \$1.10, 100—\$4.00.**

20 ALL DIFFERENT \$1.25.

An assortment of fine named sorts, (unlabeled,) in a wide range of choice forms and colorings. As the various sorts bloom in 75 to 120 days after planting, this collection will bloom over a long period, and will prove immensely interesting, for from the first bloom on, one will wonder what new form or color is going to show itself forth tomorrow. This is one of our most popular collections. **20 Different \$1.25.**

15 BLUE HYBRIDS \$1.10.

There are never nearly enough Blue flowers anyway, and we are glad to offer this very popular collection for we know that it meets a very popular demand. This will make an interesting addition to your Gladioli planting; every one is a blue flower. **15 Blue Hybrids for \$1.10.**

CULTURE OF THE GLADIOLUS

Gladiolus like sun and a rich soil. Plant the bulbs four inches apart and three inches deep (6 inches deep if the soil is light and sandy.) Keep free from weeds and well hoed. If you plant some of the bulbs every ten days from middle of April to July 10th, you can have them in bloom from July to October. Largest bulbs are necessary only for forcing under glass, but even quite small bulbs, those of $\frac{1}{2}$ in. or even less, will bloom the first year planted in the garden. Above Collections consist of nice plump bulbs grading 1 to $1\frac{1}{4}$ inches in diameter, just the most economical size for outdoor planting to produce fine spikes of bloom.

THREE VERY REMARKABLE GLADIOLUS

Those who have not grown the newer types of Gladioli have not yet really tasted the full joys of Gladioli growing. Gaze upon the little Miss here pictured. Note the yardstick in her right hand; the top of it just a few inches above her fingers, and then note the comparative size of the tall spikes of Evelyn Kirtland Gladioli she is admiring. She appears enraptured at the size and beauty of the lovely blooms, and they are her namesake.

EVELYN KIRTLAND

Probably no more charmingly beautiful Gladiolus has been evolved than this popular variety, which is now priced within the reach of all. The wonderful blending of pink tints is marvelous, and really hard indeed to adequately describe. We say this however; you will make no mistake if you plant this variety liberally, and you will make a BIG mistake if you DON'T. For garden display and for bouquets you will find them hard to beat, and here is a variety that will meet with a ready sale.

4 Bulbs 25c

Dozen—65c

100—\$4.50

1,000—\$37.50

HERADA

A much wanted, unusual shade in Gladiolus, or in flowers generally. The color is a glistening mauve shade of lavender. Blooms are large and well set on tall stiff stems. You cannot fail to highly appreciate this wonderful flower. 4 Bulbs 25c; Dozen 65c.

LE MARESCHAL FOCH

For years AMERICA was the world famous pink Gladioli. This new pink is really a glorified "America." The color is a deeper pink, the flowers are much larger, and when Le Mareschal Foch made its appearance on the stage it simply "took the world by storm." 4 Bulbs 25c; Dozen 65c.

PLANTING GLADIOLI FOR PROFIT.

We suggest planting at ten days or two weeks intervals from April to July 10th, using our Popular Mixture of 1 to 1½ inch bulbs. (250 or 500 supplied at a thousand rate.) Per 1,000 by express \$17.50.

CHARMING GLADIOLUS OF MODERN TYPES

Be sure to make liberal plantings of these charming and popular sorts, and see what a wonderful revelation they really are. The older sorts, and good mixtures too, are all right, but you cannot afford to be fully contented with the older favorites no matter how pleasing and popular they have proven in the past.

MARY PICKFORD

Delicate creamy-white, with soft canary-yellow in the throat. Very dainty, like its namesake. **7 Bulbs 50c.**

CRIMSON GLOW

A perfect scarlet of deep tone. Very large flowers of finest form on tall spikes. **7 bulbs 50c.**

1910 ROSE

Lovely rose pink of extra fine shade. Narrow white line through center of lower petals. **7 bulbs 50c.**

MRS. FRANK PENDLETON

Very large, lovely flushed salmon-pink with brilliant carmine blotches in the throat, presenting a vivid contrast. **7 bulbs 50c.**

MRS. DR. NORTON

White, faintly suffused with pink. Lower petals flushed with sulphur-yellow and dotted pink. Very fine. **7 Bulbs 50c.**

DIANA

Pure, clear, rich blood-red. A very rich flower and most attractive. **7 Bulbs 50c.**

SCHWABEN

Delicate pale yellow, dark blotch in center. **7 Bulbs 50c.**

CHARM MIXTURE

An evenly balanced mixture of these seven charming sorts.

100 Bulbs \$4.75

Each One A Different
Choice Variety
A \$3 to \$5 Value For \$1.95

Here is a BARGAIN such as flower lovers can scarcely afford to miss. Think of it! Twelve all different varieties; a full \$3 to \$5 value for only \$1.95. This assortment is made up of the most popular types of Dahlias today; exquisite alike for the garden or for cutting. Sold separately, the Dahlias in these collections would be worth 25c to 50c each but they are all yours for the small sum of

ONLY \$1.95

We happen to have larger stocks of some varieties than of others, and to move a large stock quickly is the reason for this special offer; one that will make your garden glow and scintillate with color. You will be delighted with the fine display, and more especially, as you get such big value in these 12 all different Dahlias as here offered, all for only \$1.95.

English Hybrid DWARF Bedding Dahlias

Something really unique in Dahlias, and grown as readily and as easily from seed as from tubers, and will bloom abundantly the very first year from seed; germinating as easily as zinnias, asters, petunias or other quick growing annuals. Each plant quickly develops into a bouquet in itself. The plants are dwarf in their habit of growth; attaining a height of about 18 inches, and bearing myriads of bright showy single flowers about 3 inches across. Our first experience with this dwarf type of Dahlia, which has become so very popular in England and on the Continent, was in the spring of 1926. We grew a test plot from seed and had 102 plants. These plants produced in the neighborhood of twenty thousand bright flowers in twelve different colors and were in continuous and gorgeous bloom from midsummer until stopped by frosts in late fall.

They were a colorful and gorgeous sight at all times.

For beds and borders these Dahlias easily take the place of geraniums, they are useful for bouquets, and a pleasing display is easily made by lifting an entire plant in bloom and setting it in a basket or jardiniere, and can be used not only for house and porch decoration, but as excellent, appropriate and inexpensive gifts.

Give these English Hybrid Dwarf Dahlias a place in your garden this year. If you have a hardy border, use some of them for color effect; you will find them very pleasing.

Each 25 cts. 3 for 60 cts. Dozen—\$2.

FARGO'S CHOICE LARGE FLOWERING CANNAS

Cannas of the large flowering varieties set off the home surroundings and make a glorious display in beds or borders. Many of the improved sorts have flowers larger and as beautiful as the Gladiolus. The colors are brilliant and showy. Plant after danger of frost is over or, if you prefer, about March 1st line some shallow pans or boxes with damp moss, sand or sawdust $\frac{1}{2}$ inch deep on bottom and sides, put in the Cannas $\frac{1}{2}$ inch apart and fill in with the same material and keep it damp. They will begin to sprout in about two weeks. As they sprout, cut off with part of the root and plant in 4-in. pots. Give light and plenty of moisture and transplant to beds in May. We here list sorts suited to every purpose.

KING HUMBERT

One of the most famous and popular of Cannas. Large trusses of bright red flowers. Foliage rich bronze-red. Wonderful for a brilliant bedding display. Height 5 feet.

Each 20c; Dozen \$1.50; 100 \$10.

THE PRESIDENT

A "world beater" on account of its immense brilliant red flowers. One of the most popular of the newer bedders, possessing as it does, every desirable quality. The color is really penetrating and contrasts well with the bright green foliage. Height $4\frac{1}{2}$ feet.

Each 25c; Dozen \$1.75; 100 \$11.

ROSEA GIGANTEA

Deep rich rose-pink; foliage green. One of the most unusual and showiest Cannas imaginable. The coloring is BEAUTIFUL indeed. Flowers immense in size and freely produced. Height 4 feet.

Each 30c; Dozen \$2.00; 100 \$12.

MME. CROZY

Where the dwarf type Canna is required, we suggest Mme. Crozy. Color orange-scarlet bordered with golden-yellow. Height $3\frac{1}{2}$ ft.

Each 20c; Dozen \$1.50; 100 \$10.

CANNAS IN MIXTURE

Mixed colors, or separate red or yellow unnamed. This is of course the cheapest way in which to build up a stock of Cannas for a showy display.

8 for \$1. 100—\$7.50.

"I would like to say that a small order bought from you has given the most surprising and delightful results. Thank you.

Mrs. Russell Eaton, Brockton, Mass.

EUREKA

The best white type. Large flowers, freely produced. Height $4\frac{1}{2}$ feet.

Each 25c; Dozen \$1.75; 100 \$11.

YELLOW KING HUMBERT

Yellow blooms dotted with orange-scarlet. A sport of the original red flowered King Humbert; very beautiful and effective, and one that is appreciated when a yellow Canna is the object. Height 5 ft.

Each 20c; Dozen \$1.50; 100 \$10.

You Can Make A WONDERFUL Showing With Fargo's Large Flowering Cannas.

CALADIUM ESCULENTUM

(ELEPHANTS EARS)

They answer well as centerpieces or specimens in flower beds. Planted in a bed with a border of Scarlet Sage, "Dusty Miller" or other low annuals make a beautiful and pleasing contrast. The enormous leaves of this plant often measure three feet long and twenty inches wide. Very effective planted for margins to water. Do not plant outdoors before May 1st. They can be started early in pots in the house and transplanted later if you wish. Bulbs can be stored in dry sand over winter and kept from year to year.

Large Bulbs, 25c Each; Dozen, \$2.50.
Smaller size, 15c Each; Dozen, \$1.50.

EXCELSIOR PEARL TUBEROSES

Improved dwarf habit of growth and does not require staking. Flowers extremely double and very fragrant. Everyone should grow some Tuberoses for they are so lovely and so fragrant that one cannot help loving them, and then they are very easy to grow. Can be forced in pots as well as grown in the open ground. Do not plant Tuberoses outside before May. If planted too early, while the ground is cold and wet, the bulbs are apt to rot.

3 for 25c; Dozen, 75c.

THE GREAT ISMENE

Of about the same habit of growth as the Calla Lily and considered by some flower lovers as even superior to either the Calla or the Easter Lily. The flowers are of large size, odd and novel in form, snowy-white and exceedingly fragrant. Throws up tall spikes, each having several blooms. It has a peculiar grandeur which one can fully appreciate at sight, yet hard to adequately describe. It is in reality a species of white Amaryllis.

Bulbs 35c each; 3 for \$1.

Great Ismene

HARDY WATER LILIES

This is a hardy native Water Lily, suited alike to growing in ponds, lakes or in tubs. It is a very strong, vigorous grower; the flowers pure white, five to seven inches across. To plant just lay the roots in the mud at bottom and weight down one end with a flat stone. Ready for delivery after April 15th.

Each \$1, 6 for \$5.

YUCCA or Adam's Needle

Very beautiful for the hardy border, for bordering drives, and for planting in groups on the lawn. Beautiful swordlike foliage. In August the plants bear tall stiff stems, well branched, and loaded with beautiful creamy-white bell-shaped flowers that make a very pleasing and showy display.

Each 40 cts.; 3 for \$1.10.

HARDY PERENNIAL PEAS

In full bloom in the spring before the annual sorts begin to flower, and continuing thru the season. Bloom year after year; growing 8 to 10 feet high. Lovely clusters of pink, white and rose blooms. Fine for screens and fences.

Yucca

12 plants for only \$1.10.

EASTER LILIES. Grow them in your own windows for Easter, Mothers Day or to brighten and cheer up the home surroundings during the winter and spring. Started in pots they make excellent, inexpensive and much appreciated gifts. You can enjoy the double pleasure of watching them grow and seeing them bloom. There is no need whatever to pay florists a dollar or more for a single plant when you can grow them yourselves so cheaply. Pot the bulbs in 5-in. pots, moisten the soil and set away in the cellar or a cool dark closet to form roots. A little later, when growth has started, bring out a pot as required and grow the plant rather slowly in a cool room. You will be delighted with results I feel sure, and the cost is only \$1.10 for 3 nice fat bulbs or, better yet, 6 bulbs for only \$1.98.

Rubrum

RUBRUM LILY

This is one of the beautiful Japanese types and it is suitable both for growing outside and for forcing. Each spike bears a number of gorgeous reflexed blooms of glistening white, overlaid with numerous speckles or spots of bright rose-pink. The flowers are very dainty and graceful and much admired. Each 40c; 3 for \$1.10.

TIGER LILY

Well known, well liked and of extremely easy culture. Grows four to five feet tall and bears a wealth of lovely orange-red flowers well sprinkled with black spots. A few bulbs planted this Fall will multiply very rapidly and soon form a fine big clump. Each 30c; 4 for \$1.00.

THE WONDERFUL JAPANESE AURATUM LILY

Lilium Auratum

Wonder-of-wonders of the Orient, and the greatest of all Lilies. The flowers are enormous in size and marvelously beautiful, as well as deliciously fragrant, scenting the air all around them. The flowers are borne in clusters on long, stiff, erect stems, and the flowers measure up to a foot or more across, and from 5 to 20 flowers to a plant. The pure white blooms are speckled with dots of brownish-crimson, and a broad band of golden-yellow runs down the center of each petal. It is hard to imagine a more gorgeous sight than these flowers from Japan present. Plant them among Shrubbery; plant them in solid beds, interspersed with Hardy Blue Sage if you want a wonderful effect; plant them anywhere and everywhere, and do not neglect to plant a few of them in pots. Plant the bulbs 12 inches deep.

Bulbs 40c each; 3 for \$1.10.

DAY LILY

This is the Lemon Day Lily. Deep lemon yellow in color; very fragrant and blooms June-July. The plants are strong growing and robust with masses of large blooms.

30c each; 4—\$1.00.

REGAL LILY

Sensational new variety from Western China, now very popular. It grows 3 to 5 feet and flowers in July. The color is ivory-white, shaded pink, and tinged with canary-yellow at base of petals. This is spoken of as one of the finest hardy garden lilies yet introduced.

Day Lily

Each 65 cents.

BLUE Lily of the Nile or Agapanthus Lily

All other lilies offered on this page are perfectly hardy, but this beautiful BLUE Lily is for pot culture, but can be had in bloom outdoors in the summer if planted in large pots or tubs, and carried over winter in the cellar. It is truly a splendid ornamental plant, bearing clusters of bright blue flowers on stalks three feet long and remaining in bloom for a long time. Not so frequently seen, but really wanted when it is seen. Strong 4-in. pot plants. **Each \$1. 3 for \$2.50.**

GOLDEN YELLOW CALLA LILIES

The flowers are as large as the white variety, but of a rich, lustrous golden-yellow of velvety texture; dark green foliage with creamy white spots, adding much to the beauty of the plant.

Each 60 cents; 3 for \$1.50.

WHITE GODFREY CALLA LILIES

Compared to the ordinary Calla, it will give three blooms to one. Blooms even when the plants are very small; blooms all winter long. We believe it is the finest white Calla to date.

Each 50 cents, 3 for \$1.25.

OXALIS SUMMER FLOWERING

Very useful for edging purposes. Fine along walks or around beds. Set the bulbs three inches apart and you have an unbroken row or border of lovely pink and white flowers and attractive foliage all summer. They also make showy beds planted en masse.

12 bulbs 25 cts.; 60 for \$1.00.

FANCY LEAVED CALADIUMS

Glossy foliage of beautiful shape and form, oddly spotted and veined. A riot of vivid and delicate colors embracing white, yellow, pink, red, etc. Easy to grow and no foliage collection is at all complete without at least a few Fancy Leaved Caladiums. Extremely showy and to see it is to admire.

Bulbe 50 cents each. 3 for \$1.25.

ZEPHYR OR FAIRY LILIES

These beautiful pink flowers bloom in early summer, either in pots or in the open ground. You will be delighted whether you plant three bulbs in a 4-in. pot or the same as Gladioli in the garden.

Bulbs 20 cents each. 8 for \$1.25.

Gloxinias

GLOXINIAS

A most beautiful flower; tropical in appearance, it delights in a shady location on the porch, where it will bloom in great profusion, and to the delight of all who see it. Gloxinia bulbs are quite scarce.

Each 60 cents.

"Thank you so much for such beautiful Hydrangeas. They look so wonderful I am sure I must have good luck with them."

Mrs. Carolyn Armstrong,
Lake Mahopac, N. Y.

Note: The shipment above referred to consisted of 50 *Hydrangea Paniculata* and 25 *Hydrangea Arborescens*.

TUBEROUS BEGONIA

Grown in pots or bedded out, they are magnificent. Single blossoms sometimes measuring six inches across. The beautiful colors range from ivory-white and flaming scarlet, through shades of bright bronzy-yellow, light and dark crimson, orange, salmon, ruby-red, rose and pink. The flowers are perfectly reflexed, and their gorgeous effect is emphasized by the beautiful foliage.

Mixed Colors 35 cents each.

\$3.50 per Dozen.

Can be started in pots in March and transplanted later, or in beds after May 1st.

CHOICE PEONIES BY COLOR

These are not labeled with their names; simply with the color of the blooms. The same good 2 to 5 eye divisions as our varieties labeled with names. Your choice of pink, white, red, labeled with color if desired, at only 50 cents each; Dozen \$5.

"BIG 3" PEONY SPECIAL FOR \$2

Festiva Maxima, large white, 75 cents; Golden Harvest, creamy-yellow and pink, \$1 each. Fragrans, rose-red, 60c each.

Three different colors for only \$2.

CHRYSANTHEMUMS**FOR POTS**

These glorious flowers are the showiest and most popular of all for late Fall and early Winter blooming. As I write this (November) I have a fine big bushy plant in my parlor now in full and gorgeous bloom; a hundred or more fine flowers on it at one time. Just the spring before, it was a small plant from a 2-in. pot, set out in the garden, the tips pinched off occasionally during the summer to make the plant bushy, dug up and potted in September — and now in November a thing of joyous beauty. Big plants in bloom sell in florists shops for \$1.00 to \$10. or more. You can quickly grow and bloom your own as I have explained here, and all the cost will be

30 cents each or 4 for \$1.00.

Colors: Yellow, pink and white.

GIANT AMARYLLIS

Everyone should have a few of these wonderful lily-like pot plants. Their immense size, gorgeous beauty and wonderful variety of colorings, are a continual delight. Grown from seed and produced by crossing the finest named varieties obtained from the most noted specialists, producing plants and blooms of very superior size, vigor and coloring. Fine Bulbs 75c each; 3 for \$2.00.

Giant Amaryllis

SANSEVERIA

There is scarcely a decorative plant listed that is more striking in foliage and habit than this and certainly none other that will stand as much downright neglect and hardship. It will grow in a dark hall, cool bedroom, or stand on a mantle or table in a heated room. It will stand gas and dust, and will go for weeks without a drop of water, yet remain as thrifty as ever. Erect, rigid, sword-like leaves, thick and fleshy, dark green with clouded bars of white. In May or June it sometimes sends up long, plummy spikes of soft feathery whiteness. Just the plant for sunless rooms, where nothing else will grow.

Young pot grown plants, 50c each.

3 for \$1.25.

WONDERFUL GIANT LEMON PONDEROSA

This wonderful Lemon has created a great sensation, and is a true everbearing variety that you can grow in a pot or tub in the home and one that will prove to be a decided ornament, as well as bear fruit, such as you have probably never seen or heard tell of. On a plant 6 ft. high, no less than 89 of these wonderful Lemons were growing at one time. These trees are wonderful sights to see. The tree blooms and at the same time has fruit in all stages of development from the size of a pea, up to the ripe fruit. Fruits have been taken from these trees weighing over 4 pounds. It is one of the juiciest of all Lemons, makes delicious lemonade, and is fine for pies and other culinary uses. It is not uncommon to make 12 lemon pies from one Lemon. No budding or grafting is necessary. It fruits when quite small and makes a lovely house plant. Everybody can grow their own Lemons. It should fruit freely the second year. **Young Plants 35 cents, or 3 for \$1.00.**

TRITOMA

Or Red-Hot Poker Plant

This excellent Perennial when in bloom makes a striking display. A single plant will often throw 15 to 25 spikes of bloom in a season. The flowers are of various shades of red and yellow, are on stout stems 2 to 3 feet long; the flower head itself measuring 6 to 9 inches. Very bright and striking as a single specimen on the lawn, for use in borders, and very useful for cutting.

Strong roots 35 cents each; 3 for \$1.00.

BABY DOLL ROSE

Miniature Roses borne all summer long in the garden, or in pots in the house in winter. A perfect baby bud for the buttonhole and for corsage bouquets. The color is odd and unique; golden-yellow tipped with clear bright cerise. You will find Baby Doll delightful.

Each \$1. 3 for \$2.50.

Tritoma

BEAUTIFUL HARDY BEARDED IRIS

There isn't a more showy flower than the Bearded Iris, especially the newer varieties, and when planted in a group or mass; each color by itself. In the hardy border, bordering paths or drives planted in combination with Peonies, along foundation walls, and elsewhere, they are truly superb. Get the Iris "fever" and you will be an enthusiast for life. This spring we are bringing you a wide collection of truly worth while Bearded Iris that will delight you with their charm, grace and beauty.

PINK, BLUE AND RED HYDRANGEAS

Those who once see this beautiful class of Hydrangeas in riotous bloom at the New Jersey Coast resorts fall in love with them instantly and it is natural to desire some at home. As well as for hardy outdoor planting; they are also in much demand for blooming in large pots and tubs. Many are also forced into bloom for Decoration Day, Easter, Mother's Day, and make acceptable gifts.

PINK This is the Otaska or any one of various French varieties, and if planted in a row on the division line of properties, along the foundation walls, or before the porch, you will have the makings of a wonderful and pleasing display. The large trusses of delicate pink bloom truly make a magnificent showing.

BLUE These same Hydrangeas have a peculiar habit of flowering blue instead of pink if the soil happens to be sour. This condition can be artificially created by mixing $\frac{1}{4}$ lb. pulverized alum in the soil around each plant. Plants from 4-in. pots 75c. each. Dozen \$7.50.

TROPHEE Although called "red" it is not so, strictly speaking, but a very beautiful shade of bright, glowing, deep rose-pink. Very showy and bound to excite comment and draw attention anywhere. 85c. each; Dozen \$8.50.

GORGEOUS JAPANESE IRIS

They will add a touch of oriental splendor to your garden. Here is a flower that rivals the Lily in stateliness, the Peony in majestic beauty, the Orchid in delicacy of coloring, the Crysanthemum for profusion, and surpasses almost every other plant in the kingly magnificence of its bloom. Once planted in your garden they multiply rapidly and become a joy and delight for a lifetime. Fine for cutting; growing three feet or more in height, with flowers as big as saucers; often as large as dinner plates under favorable conditions. There are numerous beautiful colors and it is sure that no one makes a mistake in planting Japanese Iris. They do well under all average garden conditions, but the size of flowers are improved if they are copiously watered for a month before they come into bloom in June.

MRS. J. A. HAYDEN white ground edged and shaded pale violet. Each 50 cents.

BLUE JAY sky-blue with distinct white lines on each petal, Each 50 cents.

CHOSEIDEN Ruby-crimson, white halo surrounding the yellow blotches radiating into broad lines. Each 50 cts.

MIXTURE Very popular way to purchase at minimum cost. In mixture 5 for \$1.10; Dozen \$2.

The Wonderful Everblooming Butterfly Bush

Beautiful large Butterflies and the Humming Birds seek it out, adding vastly to the colorful picture. The gorgeous spikes of lavender colored flowers are continuously in bloom throughout the season, and they are excellent for bouquets. These plants are perfectly hardy and grow to a height of 10 feet. They should be protected in winter same as a Rose bush, and cut almost to the ground in the spring. Plant in a sunny location, and as liberally as possible, for here is a truly magnificent plant that will repay you with a wondrous and gorgeous display. **Strong 2-year-old Field Grown plants—75c; 3 for \$2.25.**

LILY-OF-THE-VALLEY

Planted once the lovely Lily-of-the-Valley, whether in sun or shade, thrives and multiplies rapidly without care or attention. The flowers make lovely corsage bouquets and are much in demand. Both flowers and foliage beautify an otherwise unsightly spot.

Dozen 60 cents; 25 for \$1.

HARDY MYRTLE

An evergreen creeping vine excellent for covering graves, or for growing in shady places where it is hard to get grass to grow. Grows rapidly; quickly covering an otherwise bare and unsightly spot.

2 for 25 cents; 12 for \$1.00.

"The Hydrangeas arrived safely and I want to say to you that they were the nicest lot of Shrubs I have ever received, and want to thank you for them."

E. Yager, Oxford, Mich.

FARGO'S HARDY CHRYSANTHEMUMS

For queens of all late flowers we must give preference to the Hardy Chrysanthemums. These are the Large Flowering Hardy sorts; **Chrysolora**, a choice early blooming type, and five other especially selected of the desirable old fashioned varieties best adapted for permanent planting amongst shrubbery and in the hardy border. The plants are literally covered with flowers from the middle of September until after the snow flies. They should be planted liberally, as the fine shades we offer are specially showy, and the plants increase in size and beauty each year. Why not make a place for a dozen, or so at least of these desirable plants?

Angelo—Beautiful bright pink.

Chrysolora—Large early yellow with petals incurved.

Lucifer—Handsome deep crimson.

Oconto—Lovely pure white.

Zelia—Orange bronze.

Comoleta—Late yellow.

Price 30 cents each. 6 Varieties; One of Each For \$1.25.

Dozen—\$2.00.

SINGLE FL. CHRYSANTHEMUMS

The daisy type of flower is always artistic and beautiful for bouquets and for the hardy border. In this class we offer **Araby**—pure white; **Golden Sun**—golden yellow; **Joyce Strowlger**—bronzy salmon pink. Each 30 cents. 5 for \$1.10.

HARDY PHLOX

Among the hardy perennial plants, no class is of more importance or more in public favor today, embracing as they do, a wider range of attractive colors than is found in any other hardy plant, while their gorgeous masses of color are unrivaled by any other summer flower.

Hardy Phlox are distinctive and effective, begin blooming the first summer, and bloom for a very long time. We have an excellent assortment of bright showy colors in mixture, also white separate, at 25 cents for each or \$2.75 per dozen.

"I have bought many shrubs in the past from others with poor results. I have always found yours what you claim for them. Your service was of the best and the plants were properly packed.

HARLAN M. GALE,
Wales, Mass.

FARGO'S CHOICE HARDY PERENNIALS

Meadow Sweet

of the lower growing sorts make acceptable borders for flower beds of Cannas, etc. We offer **Variegated Ribbon Grass**, large variegated foliage, grows to 12-15 inches high; **Zebra Grass**, marked with broad yellow bands across the leaves, grows 6 to 7 feet tall.

HARDY CARNATIONS for outdoor planting. We supply these in strong field grown plants that will provide an abundance of flowers from the garden this summer. **30 cents each; Dozen \$2.50.**

HARDY GLOXINIAS

Truly a charming plant is this one. The flowers much resemble those of the Gloxinia; pink in color with a yellow throat, and borne on tall stems. It likes a light rich soil and a sunny position. The roots however should be stored in the cellar and covered with soil during the winter as it is not perfectly hardy in the north. Hardy Gloxinias are bound to attract attention and comment wherever shown. **Each 75 cents.**

MARSHMALLOW (or Hibiscus)

They grow 5 to 6 feet high and bear enormous bell-shaped flowers in white, pink and rose. Like a moist spot but do well most anywhere. Blooms in early July to late September. Mixture of colors;

These dainty little blue flowers are famous and loved the world around. Just fine for a shaded spot, and bloom profusely over a long season.

Each 25c. 4 for \$1.

SWEET LAVENDER

Delightfully fragrant, old-fashioned blue flowers in July and August. Height about 18 inches.

Each 25c; 4 for \$1.

ARTEMISIA SILVER KING

Here you will find a plant of wonderful beauty and contrast for landscaping, as well as very useful for bouquet work. The foliage is a strikingly beautiful rich silver-white and the plant grows to a height of 3 feet. For bouquets the foliage is equally useful fresh cut or dried for winter use. You will find this plant unique, and almost in a class by itself, and will surely welcome it to your hardy border. **Each 50 cents.**

MOUNTAIN PINKS

These are the Phlox Sublata so common to the hillsides in spring, when the dwarf, mosslike foliage is covered literally with the bright pink flowers. They present a beautiful picture when used on embankments, terraces and in the rock garden. Also useful for covering graves.

Each 25 cents. 4 for \$1.

HARDY ORNAMENTAL GRASSES

They can be used with telling effect, planted individually on the lawn, planted in masses, amongst shrubbery, and some

Japanese Bullflower

FARGO'S CHOICE HARDY PERENNIALS

Improved forms of old fashioned flowers that are a pleasure and delight continually. Require but the minimum of care after planting and most every garden or lawn has a place for a group of them at least. A hardy perennial border is a thing to delight the soul.

SHASTA DAISY

Shasta Daisy

The flower that made Burbank famous. Splendid large showy flowers of pure glistening white and gold. Very hardy and bloom July to October. Height 15 to 18 inches.

DIGITALIS (or Foxglove)

As gorgeous and attractive as Gladiolus. Old fashioned, stately and dignified. Grow 3 to 6 feet tall. Foliage rich and luxuriant. Bloom from June to August.

HOLLYHOCKS (Double)

Make fine backgrounds, hide unsightly views and the tall spikes of double blooms certainly make gorgeous bouquets for big vases. A wide variety of bright and attractive colors. Height 5 to 6 feet.

BLUE SAGE—There are never enough blue flowers; and here is one that is liked exceedingly well. Blooms in profusion during August and September; the tall spikes of sky-blue flowers growing to a height of 3 or 4 feet.

COREOPSIS—One of the most popular hardy plants and very easy to grow. The flowers are rich golden-yellow, gracefully disked in form, and serrated or irregular edges to the petals. Free bloomer all thru summer and autumn. Invaluable for cutting. Height 3 feet.

DELPHINUM (or Larkspur)—The prevailing colors are blue on tall plants of fine form and neat attractive foliage. By cutting the plants down to the ground immediately after blooming and digging in a little bone meal about the plants, second and third crops of flowers can be had in one season. Height 4 feet.

PLUMBAGO—A well known favorite; valuable because it produces large trusses of beautiful light blue flowers.

SNOW-IN-SUMMER—Silver foliage, with white flowers in June; a planting very soon looks like a veritable sheet of snow in summer from a little distance. Dwarf, suitable for bordering beds, for carpeting, for covering graves, and for the rock garden.

CAMPANULA—Not only are Campanula extremely hardy for outdoor planting, but when potted up and flowered indoors they are amongst the most showy of spring flowers. Bearing spikes of lovely bell shaped flowers, either blue, white or pink, they certainly produce a lovely and charming effect. Our offering is in a mixture of colors only.

Fargo's Choice Hardy Perennials

Bleeding Heart

Digitalis

Lantern Plant

MEADOW SWEET. An excellent plant for partial shade. The fine feathery flower plumes are very attractive in June and July. Colors: white and pink. Height 3 feet.

BLEEDING HEART. An old time favorite, and now quite scarce. The beautiful silvery-green foliage, with its numerous graceful sprays of heart shaped flowers, make an attractive display. Suitable for the lawn, the hardy border and for forcing in pots. Strong roots 75 cents each; 3 for \$2.

CENTUREA. Fine for the perennial border and for cutting. Bears a wealth of lovely blue flowers in May and June. Height 2 to 3 feet.

HARDY CARNATION. Choice mixed varieties that will be much appreciated in the hardy border.

JAPANESE BELL FLOWER or Platycodon. Very similar to the Campanula family, but bearing lovely blue or white star shaped flowers from July to October. Grows 2 to 2½ feet tall. One of the most deservedly popular of hardy plants.

VERONICA is another excellent hardy plant, growing 2 to 3 feet high, bear-

ing long spikes clustered with lovely deep blue flowers from mid-July to September.

BERGAMOT. Showy red flowers in profusion; grows 2 to 3 feet high, succeeds anywhere. Blooms July-August.

CHINESE LANTERN PLANT. Bears many orange colored lanternlike fruits that are very showy. Useful for cutting and drying for winter bouquets. Much used by florists.

PHYSOSTEGIA or False Dragonhead. Grows to a height of 3 to 5 feet, and bears long spikes of delicate snapdragonlike flowers in midsummer.

PYRENTHRUM or Painted Daisies. An old fashioned plant bearing many bright flowers in June; colors, various shades of rose, pink, also white in mixture. Fine fernlike foliage. Likes lots of sun. Very attractive plant. The flowers borne on stiff stems 2 to 3 feet in length; they make wonderful bouquets. You will be delighted with it.

HARDY PINKS. Beautiful summer bedders producing masses of sweet close scented blooms borne on long stems and suitable for cutting.

EXCEPT AS OTHERWISE NOTED—25 CENTS EACH. 4 FOR \$1.

HARDY CINNAMON FERNS FOR OUT-DOOR PLANTING

For shady or partially shaded locations these Ferns are ideal, and have the added advantage of being inexpensive. In groves, parks and private gardens they usually do well, and they are very useful for planting along house foundations and in corners that are too shady for other plants. These ferns are not suited for pots indoors as, in the Fall, the leaves ripen off and the plants remain dormant for the Winter. They are for outdoor planting only. Each, 35 cents. Doz. by express, \$3.50.

HARDY JAPANESE AZALEAS

Undoubtedly, at some time, you have seen these gorgeous plants in full bloom, massed in front of porch, or foundation walls, or banked in front of a planting of evergreens. In May the plants are a veritable sheet of bloom, bright and colorful in the extreme, the foliage almost entirely hidden by the bright, gay flowers.

Probably the most popular of these is *Hinorigiri*, a bright, glowing fiery red. The plants are of the broad-leaved evergreen type, grow to a height of about three feet, and make attractive plants at all times, but particularly in the spring, when in full bloom; then they are a sight before which one pauses to drink in the rare beauty, charm and loveliness of the display. If you wish something bright and showy, and yet in good taste, plant the Hardy Japanese Azalea *Hinodigiri*, setting the plants about

two feet apart, and you will eventually have a display worth traveling a great way to see. Nice young plants, balled and burlaped, already in bud and having a spread of 8 to 10 inches at

Each \$3.00

Dozen—\$35.00.

JAPANESE KURUME AZALEAS FOR POTS

This type is not hardy north of Washington but is very useful anywhere for pot culture, the plants beginning to bloom while yet very small. They come in a number of choice colors, and we offer small plants in assortment that, after a few shiftings to larger pots, will soon become fine specimens that will be a delight. Each 35 cents; 3 for \$1.00.

"I have been using your Plants for the last eight years, and have been well pleased. Also many of my friends have sent for your plants."

Connie Mayer, Ocean City, N. J.

WISTERIA

What a perfect bower of beauty a single plant of **WISTERIA** becomes. For a porch screen, for arbors, trellis, pergolas, summer houses, fences or the side of a house, and for completely covering outbuildings, it is difficult to find a better suited plant. It is one of the very best, sturdy and rapid climbers that we have, and during the month of May it becomes loaded with a wealth of enormous trusses of gorgeous bloom. It grows easily anywhere, but when first planted it is advisable to feed it well in order to give it a vigorous start. 2-yr. plants 75 cents each or 3 for \$2.00.

BOSTON IVY

Our very best vine for growing on brick or stone walls. Clings tight; perfectly hardy; beautiful summer and fall. 2-yr. plants 60c.

JAPANESE KUDZU VINE

The most rapid growing vine we know of. Has been known to grow twenty feet in a week. Foliage large and tropical. Dies down in the winter and starts new growth from the roots in early spring. Try to stop this plant from growing, and see if you don't run into a snag. You will like this vine.

35 cents each; 3 for \$1.00.

CLEMATIS PANICULATA

Another excellent and very popular climber for porches and screens. Rapid grower; perfectly hardy, and in August the plant becomes a fragrant sheet of white, covered by myriads of small star-like flowers. Foliage is dense, and a pleasing shade of green.

Each 30 cents; 4 for \$1.00.

CHINESE CINNAMON VINE

Beautiful heart shaped foliage and fragrant blossoms. Grows well in even the poorest soil. Quickly surrounds windows, doorways, arches, etc., with its pretty foliage. 6 Tubers of this Vine for Only \$1.00.

JAPANESE BITTERSWEET

An ornamental vine for some odd corner. Large foliage, yellow flowers succeeded by clusters of orange-red berries which are ornamental on the vines and desirable for winter house decoration.

2-yr. old plants 75 cents each.

Clematis Paniculata

YOU CAN BEAUTIFY THE HOME

AT SMALL COST, IF YOU

PLANT FARGO'S FLOWERING SHRUBS

AND AS OUR PHOTO SHOWS: SUCH A PLANTING WILL ADD MANY DOLLARS
TO THE APPEARANCE AND VALUE OF YOUR HOME.

CYDONIA (or Japan Quince). (Tall). Often those who see its brilliant scarlet flowers, blooming in great profusion in early spring before the foliage appears; they are delighted with its vivid beauty and eagerly inquire its name. The foliage, appearing after the flowers, is a bright glossy green. You will value this plant, either as an individual specimen, or amongst your massed shrubbery. **Each 75 cents.**

MOCK ORANGE (Tall). This popular old fashioned Shrub does well in sun or in partial shade; no insects bother it, and the creamy-white flowers are deliciously fragrant. Blooms in May, True name *Philadelphus Coronarius*. **Each 50 cents.**

RED BRANCH DOGWOOD (Tall). Particularly fine for its winter effect, as the branches turn a bright coral-red. Tiny white flowers in clusters at tips of branches. Attractive green foliage. Does well in sun or shade. **Each 50 cents.**

DEUTZIA (*Pride of Rochester*,) (Tall). Blooms in June. The pinkish-white flowers borne in long graceful sprays. The Deutzias, both tall and dwarf, are amongst our most valuable flowering shrubs, and this variety is one of the best for background planting.

Each 50 cents.

DEUTZIA (*Gracilis*) (Dwarf). Usually blooms for Decoration Day. Bears a profusion of chaste, pure white, bell shaped flowers, carried in graceful sprays. One of the most useful for foreground planting. Fine also for forcing in pots. **Each 75 cents.**

GOLDEN PRIVET, used as individual specimens, trained to formal shape or in the border, it adds a bright contrasting color that is much desired. **Each 30c; Doz., \$3.**

FARGO'S CHOICE FLOWERING SHRUBS

HYDRANGEA PANICULATA (Medium).

The flowers are white, formed in great pyramidal panicles often a foot or more in length, color changing to a pinkish tint. Begins blooming early in August. This is the bush type. (We do not handle tree Hydrangeas.) 75 cents.

HYDRANGEA ARBORESCENS (Medium)

This is the popular white Hydrangea, "Hills of Snow." The flower heads are immense in size and flat in shape. Blooms in June, the flowers staying on the bushes nearly all summer. Young plants quickly become large thrifty bushes. Each 75 cents.

SWEET PEA BUSH (Medium).

One of the very beautiful native shrubs; comparatively scarce, not so well known as many others, but highly appreciated by all who see it in bloom. Wonderfully beautiful; the bush becomes an immense bouquet. Just loaded with sprays of beautiful rose-pink flowers, borne in clusters, the flowers resembling lovely sweet peas. An attractive flowering shrub that is almost a flower garden in itself. Don't miss having it. Each \$1.00.

FORSYTHIA or Golden Bell. (Medium).

Very popular for use as individual specimens, for mass planting or in a row on the dividing line or as a screen planting. Early in April the bare branches become one mass of golden bell-shaped flowers; the foliage not appearing until later. The graceful sprays are fine for cutting. Even very early in spring the bare branches may be cut and forced into bloom in a warm room by simply placing them in a vase of water. Each 50 cts.

SPIREA ANTHONY WATERER (Dwarf).

Low growing type of Spirea bearing a wealth of deep rose flower heads during the summer. Very useful for foreground planting and for spacing at even distances along walks or driveways.

Each 60 cents.

WEIGELA (Low). Of a spreading, drooping habit; low but not dwarf. Bears a wealth of fluted trumpet-like flowers in June and July. Makes a great showing when aglow with its wealth of blooms.

Each 50 cents.

Flowering 10 For Only \$3.50 Shrubs

**A Massed Planting of Graceful Spireas As Pictured
Above or Lovely Assorted Shrubs Will Add Many
Dollars to the Appearance and Value of The Home**

Our photo, shown above, is convincing evidence as to what a nice planting of Flowering Shrubs means in the beautification of the home and its surroundings, and in order to help in greatly increasing the planting of Shrubbery around homes everywhere, we make this attractive special offer. For the small investment of \$3.50 you may now purchase ten of our regular fifty cent varieties of Flowering Shrubs, and you may choose all Spirea Van Houtti as shown in the above picture, you may have any one of the other sorts mentioned below, you may have them all different or assorted in any way you wish from the following list. Spirea Van Houtti as first mentioned, Spirea Aurea Golden, Forsythia, Snowberry, Bush Honeysuckle, *Deutzia Pride of Rochester, *Althea, Weigelia, *Red Branched Dogwood or Cornus Siberica, and *Philadelphus or Mock Orange. For your information the varieties marked with * are tall growing; those not so marked grow to medium height. These are all nice 2-yr. old plants, regular value 50c each, and specially priced in this sale at 10 for only \$3.50. This is surely an opportunity to beautify the home ground at almost no cost at all.

PINK Double-Flowering ALMONDS

People "rave" over the beauty of this gorgeous Flowering shrub. In May before the leaves appear, the branches are covered with a mass of lovely deep pink flowers resembling miniature roses. Each bush becomes an immense outdoor bouquet. Planted in groups they give a wonderful effect. **Each \$1.00. 3 for \$2.75.**

CALIFORNIA PRIVET FOR HEDGES

Generally speaking, there is nothing so satisfactory for a Hedge as California Privet. In the first place, the first cost is the only cost, while a fence constructed of wood or metal is a continual expense for upkeep and repairs, and unsightly in most positions, in the bargain, while a good Hedge is "A Thing of Beauty and a Joy Forever."

Privet is easily trimmed, and needs almost no other attention. You can have a low hedge or a tall one; a plain type or fancy and elaborate designs, just as your fancy and skill may

dictate. A Privet Hedge will certainly add dollars to the appearance and value of your home.

Buying your Privet of us, you can expect strong, uniform, well rooted plants, 12 to 18 or more inches tall, all at a reasonable figure. Set out the plants in a double row, with the plants a foot apart. By starting the second row six inches below the starting point of the first row, a front view shows one plant for each half-foot of Hedge and insures a thick dense growth. The price of our California Privet is \$5.00 for each 100 plants, shipped by express.

JAPANESE BARBERRY HEDGES

or *Berberis Thunbergii*. This Hedge requires but little attention, and is a thing of grace, charm and beauty always. Two shades to the foliage; the old a dark green and the new growth in spring a beautiful light green. In the fall a

wealth of bright red berries that stay on the plants nearly all winter makes the planting doubly attractive. Plants 12 to 15 inches tall. Should be planted one foot apart in a single row. Each 30 cts.; 25—\$3.50; 100—\$12. By Express.

DOUBLE FLOWERING LILACS

The old fashioned Lilacs, with their pleasing fragrance, were prime favorites for many years, but the newer named sorts with double flowers far exceed the old types in worth and beauty. The individual flowers of the double sorts, resembling miniature tuberoses, carried by the plants in immense trusses, are delicately perfumed. The fine, well branched stock we offer stands 1½ to 2 feet in height. The varieties are as follows: Charles Joly, dark violet purple; Mme. Casimer Perier, a free blooming white; Michael Buchner, pale lilac, and President Grevy, one of the best blue shades. Lilacs are particularly effective when planted in groups or masses.

Each \$1.25. Dozen—\$12.50.

GRASS SEED THAT INSURES A FINE LAWN

Other things are essential in beautifying the home surroundings, but the first and prime requisite is to have a fine velvety lawn. Flowers and Shrubbery in abundance may surround the home, but, without a well kept lawn, the picture is far from its best.

There is cheaper Grass Seed than ours, but cheaper only in first cost, and not in results. We don't and won't handle cheap Lawn Grass Seed. It would pay neither you nor us. The best is by far the cheapest.

HOW TO SOW GRASS SEED

You cannot sow too much, the more the better. It

means quicker, surer, more lasting results. 1 qt. will sow 250 sq. ft. (25x10); 4 qts. 1000 sq. ft. and so on. The Spring and Early Summer months are ideal for sowing lawn grass seed, as are the days of October and November.

EVERGREEN LAWN GRASS SEED

Is the result of years of untiring study and experimenting, it has stood the test in every part of the United States and it will stand wear and tear, outliving the severest winter, retaining at all times its lustrous green color. We class this as the best general purpose lawn grass. Price $\frac{1}{2}$ lb. (about one quart), 40c.

SHADED LAWN GRASS SEED

After much experimenting a mixture of seed has been found that will produce a perfect sward in the dense shade caused by trees, shrubbery, buildings, etc. Price $\frac{1}{2}$ lb., 45c.

Shade causes sour soil and about every three years you should apply lime to sweeten up the soil. Use about one bushel to each 1000 sq. ft.

SEASHORE LAWN GRASS SEED

A good lawn at the seashore is frequently a problem and this mixture is a result. It will produce a good lawn in 6 to 8 weeks if 3 to 4 inches of top soil is spread over the surface, seeded and well firmed down. If soil is very poor and no top soil to be had, white clover sown with the grass will help wonderfully. Price: $\frac{1}{2}$ lb., 50c.

WHITE CLOVER

Used along with any grass seed insures a richer, greener, and more velvety lawn. 1 lb. \$1.00; $\frac{1}{2}$ lb., 60 cents.

CHRISTMAS CACTUS

An old fashioned plant once again very popular. The end of each drooping leaf bearing beautiful large red flowers in December and January. Very showy and easy to grow successfully. This is a plant well worth having. Each 35 cents.

MOON FLOWER VINES

Very rapid grower. Flowers pure white in color, very fragrant and almost as large as saucers. Quickly cover a trellis, fence or summerhouse and will bloom delightfully this summer. We will supply 5 pot-grown plants of Moonflower for only \$1.10.

Use
Fargo's
Plant
Food

½ lb. 25c

5 pkgs. \$1

If you desire better, larger, brighter flowers, and more of them, with longer, stiffer stems and deeper green foliage; use Fargo's Plant Food at planting time, and at intervals during the growing season. Particularly, use it on your Rose beds, your Asters, Sweet Peas, Gladioli, Hardy Perennials, Tender Bedding Plants, Potted House Plants and your Porch and Window Boxes. A ½ lb. pkg. of Fargo's Plant Food, (water added), makes 2 gals. of quick acting liquid plant food. It is also used in its dry form, in which instance it is used in proportion to the size and nature of the plant. For instance, in planting your Roses, mix a third to half package of plant food thoroughly with the soil around the plant. Liquid applications again in mid-summer and in early spring are also desirable. In planting bulbs place a little of the plant food in the bottom of each hole or furrow and mix it with the soil. In fact, using Fargo's Plant Food whether dry or liquid, is optional with the user. Particularly, however, for use on potted house plants, window boxes, potted ferns, etc., we recommend using it in liquid form and giving regular applications every ten days or so until desired results are had.

WONDERFUL NEW RED-LEAVED BARBERRY

It is only once in a lifetime that a really worthwhile novelty in hardy shrubs is introduced, but we surely have it in this gorgeous plant. The foliage of the new Red-Leaved Barberry, particularly when planted to a full sunny exposure, is a rich, lustrous bronzy-red, similar in coloring to the Red-Leaved Japanese Maples. The high coloring of this plant is unequalled by that of any other shrub. Its richly colored foliage, with the green of other plants for a background, stands it out in bold relief. It will provide a wonderful addition to any massed shrubbery planting, it will add a brilliant splash of color in the hardy border, and is excellent for individual planting.

Except in its color it is similar to the green Barberry, but the rich red of this new plant becomes even more brilliant as the summer advances, and in the

fall changes to vivid orange, scarlet and red shades, followed of course by the brilliant scarlet berries that remain to add a touch to the winter landscape. Offered this year in the following sizes:

One year plants 8 to 10 in. high, Each 75c., Dozen, \$ 7.50

Two year plants 15 to 18 in. high, Each \$1.; Dozen, \$10.00

GRAPE VINES

You will surely enjoy rich, sweet, luscious Grapes of your own growing each year, gathered right from the home garden. You will make no mistake in planting these four excellent well-known sorts.

Niagara: The finest white Grape for the home. Bunches large, fruits sweet and fine flavored.

Brighton: A large beautiful red grape of most exquisite flavor.

Worden: Immense black grapes of superb quality.

Concord: An old standby. The best known purple grape.

PULVERIZED SHEEP MANURE

A 100 lb. Bag Equals A Whole Wagonload Of Barnyard Manure.

Also, it contains no weed seeds to become a pest and nuisance later on. Lawns, gardens and flower beds are all brighter and better for the liberal use of **Pulverized Sheep Manure**. It is prepared by special drying, screening and grinding process which destroys every weed and eliminates every bit of worthless foreign matter. Only the pure fertilizer in most concentrated form is packed in bags for convenient and economical use. Only requires one-half ton to the acre, so a 100 lb. bag will be sufficient for a good size lawn. If you would have the finest greenest lawn in your neighborhood, the brightest flowers and the most productive garden you may do so at very small expense by using Pulverized Sheep Manure. It makes grass, plants and flowers all "fairly sing for joy." Bag of 100 lbs. by either freight or express, \$4.00. 500 lbs., \$17.50; 1,000 lbs., \$30.00.

A Weedless, Velvety Lawn

Use **Sulphate of Ammonia** and you can have a lawn to rival the velvety weedless green of a well-kept golf course—easily. **Sulphate of Ammonia** sets up a condition of the soil which encourages the growth of grass and discourages the growth of weeds. Use it and your sod will show a wonderful improvement—much healthier grass, much less weeds. Continue its use and you can have a lawn free from weeds. In **Sulphate of Ammonia** we have the best single chemical fertilizer that can be used on a lawn. It is easy to apply; looks like fine, dry sand, just scatter it evenly when the grass is dry, then give a thorough soaking with the hose, or if you prefer, you can dissolve it in water and apply with the sprinkler. It is economical to use; equal to forty times its weight in stable manure, odorless and 10 lbs. will treat 2500 sq. ft. (or in other words it is enough to treat a plot 25 x 20 five times. 10-lb. bag of **Sulphate of Ammonia** for \$2. or 25 lbs. for \$4. Both on this item, and on F. & I. Tobacco Dust, we send to points within the first two postal zones by prepaid parcels post. Further away points by express, charges collect.

Tobacco Mulch

This material has the triple advantage of being an excellent mulch, a fertilizer and an insecticide. It is actually worth six to eight times as much as stable manure as a fertilizer alone. Its high potash content gives to your plants just the food element needed to make strong healthy stalks. Wonderful for roses and other plants requiring long strong stems. Destroys and controls insect pests, such as rose midge, root aphids, etc. Give your rose beds a winter mulch two inches deep and note the great benefit. (Not to be raked off in the spring.) Strew it over your lawn for excellent effect. 100 lb. bag by freight or express, only \$3.75.

the tender young shoots of your Roses, and other plants, sprinkle them, and while wet, apply **Tobacco Dust** to the plants, and these pests are done. 10 lb. bag only \$1.25.

Fargo's Flowers From Seed and How to Grow Them

Our Flower Seeds are produced under the best of conditions and with the most painstaking care. Positively, they are **THE BEST SEEDS MONEY CAN BUY.**

Some seeds are much easier to germinate than others. Growers will have failures as well as successes. Some classes of seeds are unreliable even in the hands of professionals. Others could hardly fail with any sort of treatment.

Tender seeds should not be planted outdoors before May and expected to grow; many, however, may be started in the house from Feb. to Apr. and transplanted out in May. Neither should the seed be planted like corn and expected to do well. Sow about twice in depth the thickness of the seed. Very fine seed can be sowed from a salt shaker and pressed down with a flat block or board.

Seeds started indoors should be sowed in cigar boxes or shallow pans, in good soil and covered with glass until the young plants appear, when one side of the glass should be raised for ventilation. Keep moist, but not soaked, so as to provide the needed moisture and yet not "damp off" the young plants.

Do not transplant until after the two seed leaves have been succeeded by the regular leaves.

Flat seeds such as Ricinis, Gourds, Wild Cucumber, Coboea, &c., should be planted edgewise the same as you plant Lima Beans. Planted flat they would have a tendency to rot.

By following out these few and simple suggestions you should have more than the average of success.

THE ENTIRE 11 SEED PACKETS

Of choice Annuals as pictured on this page, and described elsewhere in this catalog, (a \$1.10 value), all mailed for only 85 cents.

PLANT FARGO'S FLOWER SEEDS

THE CHOICEST SWEET PEAS OBTAINABLE

Our re-selected Spencers are as far superior to the usual Spencer mixtures as the latter are to the old Grandiflora type. They are the "last word" in daintiness and beauty and are amongst the Queens

of Annual Flowers. Their popularity is justly deserved and is due to their increasing size, exquisite colors, many of which beggar description, and added charms of its new waved type. True "Spencers" can never be sold as cheaply as others, yet the great number and wonderful beauty of the flowers more than makes up for the small extra cost.

FLUFFY RUFFLES

The New Giant Ruffled Sweet Pea

This new, big flowered Sweet Pea is the first of a ruffled type. It is a distinct new type, duplexed and frilled, with long stemmed sprays. Twelve sprays make a more massive bouquet than eighteen of the ordinary type. The color is a lovely rich rose-pink, a gleam of soft salmon and a bright creamy undertone blend into a harmonious creamy-pink shade that must be seen to be fully appreciated. It is a flower of excellent texture and fragrance. The plants are sturdy growing, bear sprays of flowers in great profusion. Each spray carries four fully developed flowers artistically arranged. Here is the very best yet achieved in Sweet Peas.

This variety is new, and of course the seed is consequently quite scarce, however we are able this spring to offer this great novelty to our patrons at the following prices:

Packet 25 cts.; ½ Oz. \$1.25; Oz. \$2.00

RE-SELECTED BLEND

For those who desire a showy row of choice types and many colors at a moderate price, this blend is ideal. It is the very best blend possible to produce for the money, and always delights with its grand variety of shades and colorings.

Packet 10c; Oz., 30c; Lb. \$2.50

MIXTURES OF LIGHT SHADES

Some do not care for the deeper colors, so this special mixture is made up of only the lighter shades such as white, cream, pink, lavender, salmon, etc.

Packet 10c; Oz. 35c; Lb. \$3.50

CHOICE NOVELTY MIXTURE

Made up from the latest and finest varieties of recent introduction. It also contains a number of new and choice California seedling varieties. All the leading shades and colors are represented in this superb mixture.

THE SEVEN PACKETS. This will give you a variety and multiplicity of shades and colors in the choicest varieties. All 7 Pkts. for 60 cts. All 7 ounce Packets for \$2.50.

FIERY CROSS IMPROVED

A sensational variety. It's color is a deep cherry-red with orange-scarlet suffusion. The wings are a harmonious cherry-orange. The flowers scintillate and glitter in the bright sunlight with a fire like sheen that is enchantingly beautiful.

Packet 10c.; Oz. 35cts.; lb. \$3.

DWARF CUPID SWEET PEAS.

The plants grow about six inches high and form a dense mass of foliage. The flowers are generally as large as those of the tall varieties, but more closely together, three or four flowers at the end of a short stiff stem. **Cupid Sweet Peas** give satisfaction and for a light dry soil where the tall varieties do not do well, the Cupid will thrive. Also they are nice for borders or in pots. Mixed colors: 10 cts. per Packet; Oz. 30c.

SUPERB NEW BEAUTY ASTERS

This entirely new type of aster was first introduced in 1917. The type is similar to the American Late Branching Aster but the flowers are larger, stems longer, and blooms later. Grows 3 ft. high and bears immense flowers measuring 4 to 5 inches across. The plants make well rounded bushes and bear a profusion of gorgeous flowers.

To those who think they know Asters, and yet have not seen the New Beauty Aster in bloom we would say that here is a true revelation of beauty, embracing all the fine showy colors.

Immense in size, of good substance and long keeping qualities and on long stiff stems, the Beauty Asters are unexcelled for cutting.

We offer packets of the following colors:

American Beauty—The original of this new type. A rich rosy-carmine or American Beauty shade.

White Beauty—Very large.

Lavender Beauty—Extremely fine.

Packet 10 cents.

September Beauty—Lovely shell-pink

Purple Beauty—A deep rich shade of purple.

Happiness—A real good blue.

All 6 Packets for 50 cents

AMERICAN LATE BRANCHING ASTERS

The standard American Bedding Asters grow to a height of 2 to 3 feet. Form much like the New Beauty Asters blooming somewhat earlier. Plants of a branching habit of growth, making them ideal bedders. We offer this type of Asters in the following shades:

Heart of France

Here is the very first fine red Aster; opens as red as the ruby, deepens with age, and retains its pristine beauty to the very end.

Packet 10 cents.

Other Colors

White, Lavender, Purple, Shell-Pink, Azure-blue, Crimson.

All 7 Packets 60 cents.

QUEEN OF THE MARKET EARLY ASTERS

The first to come into bloom; double, but not so large as the later sorts. Height 15 inches. Very popular for early bedding and for cut flowers. **Mixed Pkt. 10c.**

ASTER GARDEN SPECIAL

The entire 30 packets listed on these two pages, \$3.00 value, all for only \$2.35. This collection will afford you a wonderful variety and grand display at small cost.

SINGLE ASTERS

This flower has gained much popular favor in recent years with appreciative flower lovers, as single flowers of many sorts lend themselves wonderfully to artistic bouquet arrangement. Mixed colors. **Packet 10 cents.**

FARGO'S GIANT CREGO ASTERS

Crego

This is one of the most beautiful of the newer types. The flowers are of very graceful form, of immense size and borne on long slender stems. Blooms of this new variety frequently measure 4 to 5 in. in diameter. The petals are peculiarly twisted and curled, presenting a very beautiful appearance. Bloom in profusion during mid-season. Fine also for beds and for cutting. Colors: Pink, White, Azure-Blue, Purple, Lavender, Crimson.

Packet 10c; 6 Pkts. 50c.

COMET ASTERS

The flowers are made up of loose fluffy, ostrich-like petals, resembling the Crego. The flowers are large and double and the plants grow about one foot in height. A choice bedding variety. Mixed colors.

FARGO'S GORGEOUS NASTURTIUMS

Certainly they make lovely bouquets for the table, and they can be had so long, and at almost no cost of either time, trouble or money. So easy to grow that a child can plant and take care of them, not troubled by drought or insects, bloom all season long, and one of the choicest and most widely grown annuals. Admired alike for their brilliant flowers and attractive foliage. The seeds are much used for putting up with mixed pickles. The tall sorts are much used for planting inside privet hedges. The vines climb upon the hedge, producing a very pretty effect. The dwarf sorts are very effective for beds or borders.

GIANT CLIMBING NASTURTIUMS

Very showy planted on embankments and allowed to run down, or planted inside a hedge fence and allowed to climb up. Easily trained to grow on strings or a wire fence. Our mixture of these is of many bright colors with both light and dark foliage, and very effective.

Packet, 10 cents; Ounce, 20 cents.

TRAILING NASTURTIUMS

Running stems closely set with small, neat leaves and bright little flowers in great profusion. The flowers are orange shaded with carmine.

Packet 10 cents; Ounce 25 cents.

ORNAMENTAL LEAVED—CLIMBING.

The leaves of this Climber are variegated, white, yellow and green, causing the plants, with their showy colored flowers, to present a pleasing aspect.

The Unique New Red Sunflower

This odd variety, like the one listed below, throw out many side branches and produces an abundance of blooms. The flowers vary greatly in size and are of several shades of color; chestnut-red, red tipped with yellow, others washed with red.

As a hedge or border, along the back or side fence, in front of the garden, or as single specimens they are very attractive and interesting. The flowers are useful and desirable also for bouquets.

Try this novelty this year. Packet, 10 cents; 3 packets, 25 cents.

Note:—Look for purple in stem or leaf of your seedlings and destroy those not showing this color. Occasionally they will still produce plants throwing yellow flowers but such plants can be cast out by selecting those of purple cast in stem or leaf.

DOUBLE CHRYSANTHEMUM SUNFLOWER

The flowers are perfectly double, a bright golden yellow and are borne on many side branches of the plant, thus giving the plant an attractive appearance that draws much attention. The form of these flowers is so perfect as to resemble giant asters on long slender stems. A porch jardiniere filled with these flowers adds a wonderful bright spot to the landscape.

Per packet, 10 cents.
3 packets 25 cents.

NEW MINIATURE SUNFLOWERS

They are delightful for cutting; borne on long stiff stems, the flowers slightly larger than Brown Eyed Susans, and come in various shades, amongst which are pale yellow, golden yellow and creamy white, and many of them with curiously curved and twisted petals. These are of the very easiest and quickest of annuals to grow, and they are indispensable for backgrounds and for cutting.

Packet 10 cents. 3 Pkts. 25 cents.

SUNFLOWER COLLECTION

MAMMOTH VERBENAS.

Verbenas grown from seed are not only much cheaper than those grown from cuttings, but are more vigorous. Single plants in rich soil, will cover a space 3 feet or more across. This fine variety produces magnificent trusses of bloom in a wide range of colors, some individual blossoms being larger than a silver quarter-dollar. Seed from superior selected stock.

Per packet, 10 cents.

BLUE MAMMOTH.

In this strain there are found various shades of purple and bright blue. Under favorable conditions the size of the individual flowers of all these MAMMOTH Verbenas is as large as a quarter dollar.

Packet 15 cents.

Shizanthus.

NEW CACTUS FLOWERED ZINNIA—Entirely different from any other Zinnia. The petals are quilled and tubular, stand out straight from the center of the flower, and as the back and front of petals are differently shaded it gives a bi-colored effect to the flower. The flowers are borne in profusion, often 4 to 5 inches across, and in a wide range of beautiful colors. This lovely new Zinnia, much resembling a fine petaled Cactus Dahlia, is one you will be delighted to become acquainted with. **Packet 15 cents.**

GIANT PURPLE ZINNIA—A showy color, in great demand. Immense, rich light purple blooms.

Packet 10 cents.

CURLED AND CRESTED ZINNIAS—Were it not for the foliage one would hardly recognize this superb Zinnia as belonging to the Zinnia family at all. Its lovely curled and twisted petals cause it to somewhat resemble the Cactus Dahlia in shape. The riot of colors runs thru cream and orange to orange or old gold, pink, rose and on to deep crimson. Make lovely beds; blooming continuously from July until frosts in November. **Packet 10 cents.**

MAMMOTH OLD FASHIONED ZINNIA. Magnificent large flowers of the old fashioned types, the flowers, often measuring 3 to 4 inches across and coming in many colors. Like the Zinnias of grandmother's garden except that they are larger in size and brighter in color. **Packet, 10 cents.**

NEW DAHLIA FLOWERED ZINNIA. These wonderful new creations are of the size and type of Giant Show Dahlias, under favorable conditions measuring up to 6 or 8 inches in diameter and coming in a variety of beautiful shades altogether new to the Zinnias. The cut flowers mixed in with Dahlia bouquets are readily taken as Dahlias unless a close examination is made. Don't miss a fine big showing this year of the new Dahlia-Flowered Zinnia. **Packet, 15 cents.**

Have A Perennial Garden for \$1.

Perennials, the old fashioned varieties, are more popular and beloved than ever before. They are so very easy to have at small cost, sowing the seed in May, June or July; setting out the young plants in their permanent place a little later. Perennials require so little attention, and increase in beauty each season. For only \$1.00 we will mail 12 Perennial Packets—one packet each of the following:

SWEET WILLIAM
DELPHINUM
CAMPANULA
HOLLYHOCKS
ICELAND POPPY
WALLFLOWER

DIGITALIS
SHASTA DAISY

WINDOW OR HOUSE PLANTS FROM SEED

CYCLAMEN

Produces graceful orchid-like flowers during fall, winter and spring. The young plants develop a bulb from which spring the round glossy leaves and the slender flower, stalks which bear the brilliant hued flowers, airily posed above the foliage. Colors range from white to crimson with all intermediate shades. **Packet, 50 cents.**

PERIWINKLE

In addition to being a fine bedding plant the Periwinkle or Madagascar Vinca makes an excellent pot plant, blooming throughout the winter. The abundant foliage back of the myriads of bright flowers. The colors are rose with dark eye, white, and crimson eye, and pure white, mixed. **Pkt., 10 cents.**

ASPARAGUS FERN

Its long drooping branches make it very popular as a pot plant or for hanging baskets. **Packet 10 cents.**

CARNATION

Everyone is familiar with this popular flower, and it does well in home or greenhouse. Easy to grow.

Packet 10 cents.

AGERATUM

In addition to being one of the best bedding plants, blooming outdoors from early summer until frost, it also makes a fine house plant. Myriads of blue flowers that are attractive indeed.
