Hunt's *Perfection* Bulbs

1929

D. N. Shoemaker

How to Grow Bulbs

Daffodils and Crocuses may be planted in the garden between the first of September and the middle of October; Tulips the latter part of October, but should not be delayed too long if best results are desired. Early-planted bulbs come up more evenly, earlier, and develop finer flowers than those put in later. Hyacinths may be planted any time from September to December.

When grown in beds, Hyacinth and Tulip bulbs should be planted at a uniform depth. The easiest way to do this is to remove all soil from the bed to the depth required, set the bulbs as far apart as the planting-table indicates, and carefully replace the soil. Many people do not think this is worth while; they prefer to plant with a trowel or dibble. Where this practice is followed, great care should be taken to see that the base of the bulb is pressed firmly into the soil.

After the ground is frozen to a depth of 4 to 5 inches, it is well to put on a cover of straw or leaves. This should be removed rather early in the spring. Tulips and Hyacinths should be taken up each year. Let the foliage mature, either where they have flowered or in another location. After drying, the bulbs should be kept in a cool, dry place.

Daffodils may remain in the same place for three to four years at a time. The clumps may then be taken up and divided for replanting.

Crocuses give a delightful effect in early spring, but, like Narcissi, should not be planted where grass is kept clipped. They are extremely desirable in naturalistic plantings, but to obtain good effects it is essential that they be used in large quantities; plan to use several thousand in each 50-foot square of woodland or meadow.

Lilies demand good drainage. This may be secured by placing a quantity of sand below each bulb, or by mixing peat or humus with the soil. The tall varieties should be planted in a location where they receive protection from high winds; all of them enjoy partial shade.

CULTURE INDOORS.—Paper-White Narcissi and the Chinese Sacred Lilies are the easiest to grow. A bowl of pebbles and water is the "garden." Hyacinths likewise present little difficulty. Place each bulb in a glass so that the base barely touches the water, and leave them in a cool, dark

Many of our customers are frequently puzzled to know proper depth and distance apart at which bulbs should be planted. The accompanying diagram conveys the information very clearly. The chart will bear careful study.

place until the roots develop. They may then be brought into the light, and will produce just as fine flowers as if they were grown in pots or outdoors. Start the bulbs any time between September and January; for succession of bloom bring them into the light at intervals of several weeks.

To Our Friends and Customers

AS ANNOUNCED in our Seed, Bulb, and Plant Catalogue for 1928, the business of J. M. Thorburn & Co. was united with William M. Hunt & Co., Inc., on January 1, 1928. We believe that this consolidation has been and will continue to be of material benefit to the customers of both firms, and marks a distinct step forward in the progress of American horticulture.

We thank you for the kindly support which you have given us in past years, and bespeak the continuance of your friendship in this and coming seasons.

Please notice particularly that the Federal Quarantine Act, now in effect, prohibits the importation of all **Narcissi**. Our list of American-grown bulbs of Narcissi is fairly representative of the leading popular sorts, and though somewhat higher in price, may be relied upon to give satisfactory results. As the demand usually exceeds the supply, early buying is suggested.

Early Ordering. Your coöperation is invited. By placing orders early, you will aid us in preparing for the summer and autumn trade and facilitate delivery at proper time.

Rush Orders may be telegraphed or telephoned at our expense.

Prices on Bulbs, Seeds, Plants, and Supplies are subject to market and tariff changes.

Terms. Prices quoted are net and do not include free transit, except for seeds in packets, ounces, or quarter-pounds, on which we prepay postage or expressage to any point in the United States.

Upon delivery of goods by us to the carrier, ownership passes to the purchaser; when the carrier issues a receipt our responsibility ceases. Claims for damage should be made to the agent at point of delivery.

Non-Warranty. William M. Hunt & Company, Inc., give no warranty, express or implied, as to description, quality, productiveness, or any other matter of any seeds, bulbs, or plants they send out, and they will not be in any way responsible for the crop. If the purchaser does not accept the goods on these terms, they are to be returned at once.

First Prize Collection of Narcissi and Daffodils, over 75 varieties, Detroit Flower Show, April, 1929
Grown and exhibited by J. B. Schlottman, Esq. (James Hopton, Supt.), from bulbs supplied by William M. Hunt & Co., Inc., New York City

New Varieties of Dutch Bulbs

New Darwin Tulips

Among the following will be found the newest varieties of "Yellow Darwins." Up to a few years ago this color had to be provided from the Cottage varieties, in which yellows are plentiful. These new yellows and blends of yellow will be found both valuable and extremely interesting to those who desire the complete color range of this race. The much-desired blue and yellow combination may be secured by planting these new yellow shades among forget-me-nots, and the paler, creamy sorts are exquisite if flanked by well-grown clumps of *Centaurea montana*. Certain soft lavender tulips like Rev. Ewbank, Euterpe, and Dal Ongaro are beautiful with them, too, but avoid placing them near reds or pinks of any shade.

	Each	Doz.	100
Aviator Hawkes. 30 in. Very large, dark rose flower; strong stem.	\$1 00	\$7 50	
Bene Est. 32 in. A delicate tint of pure creamy yellow. Quite new as a Darwin shade.	1 00	10 00	
Golden Fleece. 30 in. Huge blooms of intense deep golden yellow, tipped with bronze on the outside. One of the outstanding Darwin novelties.	75	5 50	\$40 00
Kathleen Parlow. 28 in. Silvery rose, with lighter edge.	1 00	10 00	
Picador. 30 in. Glossy deep purple, with white center.	50	2 50	16 00
President Harding. Glossy purple with lighter edge.	50	2 50	18 00
Sulphur Queen. 30 in. Extremely large, pure light yellow flower of perfect outline, on a tall stiff stem.	50	3 00	20 00

NEW DARWIN TULIPS, continued

	Each	Doz.	100
Turner. 30 in. Beautiful shade of carmine-rose; very large flower.	\$3 00	\$20 00	
Venus. 28 in. Large; glossy rose.	50	3 50	\$24 00
Yellow Giant. 30 in. Huge, clear canary-yellow flower of massive open form, held on a stout tall stem. Splendid exhibition variety.	1 75	17 50	
Zwanenburg. 32 in. Large; pure white; tall stem.	50	3 50	24 00

The Mendel Tulips

A NEW EARLY-FLOWERING RACE OF DARWINS

By crossing the Darwins with the old-fashioned early Duc Van Thol Tulip, this new race has been produced, carrying the stem, size, color, and shape of the Darwins, with the early blooming properties of the other parent.

	Each	Doz.	100
Alsace. Bright rosy carmine with a white center.	\$0 50	\$2 50	\$16 00
Early Beauty. Bright pink.	3 00		
Favorite. Large; bright rose.	2 00		
Ovidius. Rosy red with lighter center.	3 00		
Oranja. An extremely brilliant Tulip of bright orange-scarlet.	50	2 50	16 00
Paula. Bright carmine-rose, with white center.	2 00		
Schubert. Flesh-pink.	50	1 75	12 00
Zeppelin. Deep red; tall stem; medium-sized flower.	50	4 50	35 00

New Cottage Tulips

The wonderful size, brilliant colors, and wide variation of shape of the flowers give the Cottage Tulips interest and beauty which are not found in other classes. We find that connoisseurs, and those who like their colors fresh and clear, prefer the Cottages to other late Tulips.

	Each	Doz.	100
Anatole France. Soft creamy yellow; large flowers.	\$1 75		
General French. Satiny rose; exceedingly large.	50	\$4 50	\$30 00
Jeannes Desor. Large; orange-yellow, with scarlet; very late.	75	5 50	40 00
Marchioness of Londonderry. Amber-colored, with soft yellow and light violet.	1 00	7 50	
Mongolia. Deep yellow; enormous flower.	3 00		
Vindictive. Fiery red with dark orange shadings.	1 00	8 00	

Triumph Tulips

We were very fortunate in being able to offer some of these to our numerous friends last year, but only in Collection form, as the supply of named sorts was not nearly sufficient to sell in quantity.

We are pleased to be able to present named varieties of this delightful class for the first time.

Triumph Tulips are Darwin hybrids, having the stem and stately stature of this parent but the colors are most unusual, both in self shades and delicate blendings. They bloom from two to three weeks earlier than the Darwins.

	Each	Doz.	100
Dakota. Very large; brilliant red; medium tall.	\$1 00	\$5 00	
Lord Carnarvon. Pointed flower; color a combination of white and bright pink.	50	2 50	\$16 00
Mr. Zimmerman. Rosy pink with white base; enormous flower.	2 50		
Ohio. Rosy pink, medium-sized flower.	50	2 50	16 00
Pollux. Magenta-purple; large flower.	75	4 50	30 00
Sagittarius. White, shaded cream, soft rose toward end of petals.	1 00	7 50	
Tucana. Bright orange, overlaid with carmine-orange—a most beautiful shade.	75	4 50	30 00
Ursa Minor. Pure golden yellow.	3 00

Early Bulbs for Forcing and House Culture

Early Roman Hyacinths

The early Roman Hyacinth, with its graceful spike of fragrant bells is one of the earliest of all winter-flowering bulbs.

New-crop bulbs will be ready in September, when they may be planted in pots or pans of a compost containing two-thirds fibrous loam and one-third sand. They may also be placed in the more artistic ornamental bowls now available in any china store, using our prepared Bulb Fibre as a filler, which only needs to be kept continually moist, requires no additional fertilizer, and in which the bulbs thrive and bloom luxuriantly. Bulbs planted in September will bloom in December.

Prepared Dutch Hyacinths

These bulbs are only intended for indoor planting and have, both in growing and harvesting, been submitted to a treatment that insures early ripening and leaves them in a condition to respond to intense forcing methods for early bloom. Planted in September, they bloom about the same time as the Roman Hyacinths, or soon after them. We offer miniature sizes only.

Paper-White Narcissus

Of all the bulbs one can plant, none gives such real satisfaction in the home or conservatory as the Paper-White Narcissus. Grow them in pebbles and water. There are bowls for this purpose which can be got in many artistic patterns, but special bowls are not needed; anything broad and shallow which will hold water will do. Kept a few weeks in the dark after setting, to develop root action, then brought to a light, airy room, temperature about 60 degrees, the white, fragrant trusses will open in about six to seven weeks.

Large Bulbs. 13-14 cm. cir.....	1 25	9 00	80 00

Freesia, Purity. See page 8

Freeseias

New-crop bulbs will be ready in July and if potted at once and kept in a coldframe until leaves are well developed and then brought in and not forced, they can be bloomed early for Christmas.

Purity, the Peer of White Freeseias

Snowy white flowers of large size, borne in great profusion on stems 2 to 2½ feet long, which grow upright and stiff.

Largest Bulbs. XXX. \$1 per doz., \$7 per 100, \$60 per 1,000.

Second Size. XX. 75 cts. per doz., \$5.50 per 100, \$50 per 1,000.

FISCHERI. (True.) Mammoth pure white flowers. \$1.25 per doz., \$8 per 100, \$75 per 1,000.

Two New Yellow Freeseias

GOLDEN DAFFODIL. Without a doubt the largest and best Freesia yet introduced. The large, deep golden-yellow flowers, with a strong orange blotch inside on lower leaf, are borne on long, strong stems. Color holds well throughout the life of the flower. \$2.50 per doz., \$15 per 100.

GOLDEN TREASURE. Extremely large and graceful flowers. The luminous canary-yellow petals are lightly tinged with lavender on back of petals. Strong, long stems. Very attractive and distinct. \$2.50 per doz., \$15 per 100.

Japanese and Native Lilies for autumn planting listed on pages 31 and 32

Dream

City of Haarlem

Darwin Tulips

N. B.—OUR TULIP BULBS ARE ALL TOP-SIZE

Undoubtedly Darwin Tulips are increasing in popularity every season. The colors range from white to purplish black, including shades of crimson, violet, brown, rose, etc. Very effective for planting in shrubbery or in hardy plant borders. The flowers are large, deeply cupped, and are borne on lofty stems which are ideal for cutting and vase use. Gorgeous combinations of color can be made by planting them in broad masses or long, narrow borders. To avoid striking contrasts, use tones of bronze and pale violet with the lavenders—and soft pinks and lavenders, shades which merge into each other and do not clash as violently as the usual red and yellow. If striking effects are desired, try Bleu Aimable in front of City of Haarlem, a vivid, odd, *French* combination of blue and scarlet; or an even more effective combination of some pale yellow, like Flava (a Cottage Tulip) with a deep red-purple variety, Philippe de Comines or Zulu. The new pale yellows are also good with dark mahogany-red varieties like King Harold. Brilliant reds like Pride of Haarlem and Farncombe Sanders, are best used alone, or against an evergreen background. Dark pinks are good with light pinks and white varieties, like the Cottage Picotee. Forget-me-nots are especially good to associate with pink Tulips. Those marked with * are best for forcing.

Owing to unfavorable weather in Holland this spring, Tulip Bulbs are, in almost all cases, very scarce.

	28 in.	30 in.	Doz.	100	1,000
Afterglow.	28 in. Deep rosy orange, with salmon-tinted edges.				
	Splendid flower.		\$1 50	\$8 00	\$75 00
Anton Mauve.	28 in. An enormous deep bluish lilac flower with lighter edge.		1 50	8 50	80 00

Glow (Claude Gillot). 24 in. Brilliant crimson-red, inside currant-red. For beds or borders.....	1 00	5 00	45 00
* Gretchen (Margaret). 22 in. Silvery lilac-rose flushed white, inside rosy pink, white base, starred blue. Globular flower. For forcing or bedding.....	1 00	5 00	45 00

King Harold

La Tulipe Noire

DARWIN TULIPS, continued

* Gustave Dore. 28 in. Bright cerise-pink edged pale lilac-rose, white base with violet ring. A long-stemmed flower of oblong shape. Good alike for indoors or bedding.	Doz.	100	1,000
King George V. 30 in. Cherry-red; large and handsome.	\$1 00	\$5 50	\$50 00
King Harold. 24 in. Dark purple-garnet, inside reddish purple. Splendid among shrubbery.	2 00	16 00	
La Candeur (White Queen). 24 in. Pale light lilac, passing to lilac-white as the flower ages. Extra-fine, variety for planting outside.	1 00	6 50	60 00
* La Tristesse. 24 in. Dull slate-violet, with lighter edges. White base. Excellent for forcing.	1 00	5 50	50 00
* La Tulipe Noire (The Black Tulip). 30 in. Very dark reddish black with velvety flush, white starred base. Very attractive in a border.	1 00	6 50	60 00
* Le Notre. 26 in. Bright pink, white base with blue halo. Well-shaped flower on strong stem. One of the earliest for forcing.	1 00	6 00	55 00
Louis de la Valliere. 28 in. Bright rosy pink with blue base; extremely large flower.	1 00	5 50	50 00
* Loveliness. 26 in. Soft lilac-purple, with paler margin. Pleases both inside or outdoors.	2 00	12 00	
* Madame Krelage. 28 in. Bright lilac-rose, margined pale silvery rose, inside deep peach-blossom pink. One of the leading varieties for early forcing.	1 00	6 00	55 00
Massachusetts. 28 in. Splendid pale rosy carmine, bordered rosy white, with white base marked pale blue. For planting in beds or borders.	1 00	5 50	50 00
Mrs. Potter Palmer. 28 in. Bright purplish violet. Very attractive for border.	1 00	5 50	50 00
* Nauticus. 30 in. Large, dark rose flower, center clear violet. Equally good outdoors and for forcing.	1 00	5 50	50 00
Nora Ware. 26 in. Fine heliotrope.	1 00	5 00	45 00
* Painted Lady. 26 in. Lilac-white, turning to cream-white as the flower ages. Fine egg-shaped flower on dark stem.	1 00	5 50	50 00
Petrus Hondius. 28 in. Bright carmine-rose with dull blue base, starred white.	1 00	5 50	50 00
Philippe de Comines. 26 in. Velvety purple, with white base. Large flower on stiff stem.	1 00	5 50	50 00
* Pride of Haarlem. 30 in. Brilliant crimson-red, with blue base. Extra-fine for planting outside and one of the leading varieties for forcing. Very fragrant.	1 00	4 50	40 00

Hunt's PERFECTION Bulbs

Princess Elizabeth

Mrs. Potter Palmer

DARWIN TULIPS, continued

*Prince of the Netherlands. 32 in. Soft carmine, edged silvery pink. Inside cerise-scarlet, with white and blue base. A well-formed flower on strong stem. Very good forcer.	Doz.	100	1,000
*Princess Elizabeth (Julie Vinot). 28 in. Dull crimson-pink, edged soft rose-pink, white base. Well-formed flower of great substance. Good forcer and one of the best pinks for outdoors.	\$1 00	\$5 50	\$50 00
*Professor Rauwenhof. 28 in. Bright cherry-red with scarlet glow, and brilliant, blue base. Beautiful flower on strong stem. Very good forcer.	1 00	5 50	50 00
Psyche. 26 in. Silvery rose, edged soft rose, inside shaded soft pink, beautiful pale blue center. Well-shaped flower on a somewhat drooping stem, most effective for bedding.	1 00	5 50	50 00
*Reverend Ewbank. 26 in. Bright violet, edges of petals soft heliotrope, with silvery grey bloom, white base. Attractive color. Forces splendidly.	1 00	5 50	50 00
*Ronald Gunn. 26 in. Violet, edged pale lavender with white base. Especially recommended for pot-culture.	1 00	6 50	55 00
*Sieraad Van Flora (Queen Flora). 26 in. Soft lilac-rose, white base with blue mark. Splendid for early forcing. One of the best pinks.	1 00	5 00	45 00
Sir Trevor Lawrence. 33 in. Violet-maroon, tinted light purple. Very large cup-shaped flower on long stem.	1 25	7 50	65 00
The Bishop. 28 in. Soft bluish violet inside paler, and with white base.	3 00		
The Sultan. 26 in. Glossy maroon-black. Large, egg-shaped flower.	1 00	6 00	55 00
*William Copeland (Sweet Lavender). 26 in. Reddish lilac. When forced the color is of beautiful lavender, with white base marked blue. The best variety for early forcing.	1 00	5 50	50 00

Inglescombe Pink

Panorama

Cottage or May-flowering Tulips in Many Colors

The largest flowers of any Tulips are found in this class, and contains many long-pointed and lily-shaped flowers. All colors imaginable are available among them, except good blues. Many have long stems and some are shorter and some gracefully drooping so that they are excellent in front of taller sorts. They are splendid for cut-flowers and are unsurpassed for garden decoration.

Special Offer. One dozen each of 5 splendid and distinct varieties of Cottage Tulips (60 bulbs), our selection, for \$4. Postpaid to any address east of the Mississippi River for cash with order.

Reverend Ewbank

Clusiana

Bybloem and Bizarre Tulips

These Tulips are an old race which has been grown in France and Holland for many years. Bybloem Tulips are striped and feathered rose or violet on a white ground. The Bizarre Tulips have dark brown stripes and feathering on a yellow ground. While not growing so tall as the Breeder and Darwin Tulips, they flower at the same time, and they are very useful for planting in the herbaceous border, etc.

	Doz.	100
Bizarre, Mixed. An excellent mixture of the choicest named sorts.....	\$1 00	\$7 00
Rose Bybloem, Mixed	1 00	7 00
Violet Bybloem, Mixed	1 00	7 00

Lily-flowered Tulips (May-flowering)

This handsome and distinct new race of Tulips has been obtained by crossing *Tulipa retroflexa* with a pink Darwin variety, and the result is a sturdy growing form with large, substantial flowers that still retain the form and elegance of *Retroflexa*, all segments reflexing a little at the tips. Certain of the finer Cottage Tulips, like Grenadier, Miss Ellen Willmott, Picotee, etc., really belong to this group.

	Doz.	100
Adonis. Long-shaped flower, reflexed petals; vivid rosy red.....	\$1 00	\$6 00
Artemis. Long-stemmed; elegantly reflexed petals; bright carmine-rose, with pure white base.....	1 00	7 50
Fulgens. Rich deep crimson. Very attractive.....	1 00	7 00
Marvel. Very distinct, sweet-scented variety, inside old gold, outside salmon-rose, edged yellow.....	1 00	7 00
Sirene. (First-Class Certificate, R. H. S., London.) A very beautiful flower. Rich cerise-pink, with pale pink at the margins of the segments, and a white base.....	1 00	7 00
Solfatare. Pale primrose with long reflexing petals. Very distinct.....	1 00	7 00

Botanical Tulips

These should be planted in generous clumps in good soil, preferably at the base of a fairly large sheltering rock which will serve both as protection and as a background when they are in flower.

Clusiana. Carmine-rose, with white edge. The most popular of Doz. 100 1,000 this class. It is sometimes known as the "Candy-stick" Tulip because of its delicately red and white striped effect when partly open.....	\$1 00	\$6 50	\$60 00
Cornuta Stenopetala. Crimson, with points of petals rich yellow..	1 50	10 00	90 00

Hunt's PERFECTION Bulbs

MIXTURE. All the above varieties.....	1 00	6 00	

Collection of Rembrandt Tulips, 12 each of 7 varieties, for \$8, postpaid

Parrot Tulips

Very large varieties with drooping, parrot-like buds and wide-spreading, fringed and frilled petals with curious markings. Unusual and striking as cut-flowers but not good for bedding or mass display.

	Doz.	100	1,000
Admiral de Constantinople. Red and orange.....	\$0 75	\$5 00	\$40 00
Cramoisi Brilliant. Brilliant crimson.....	75	5 00	40 00
FANTASY. Beautiful salmon-rose with ragged edges and fantastically shaped petals with erect, long, strong stems.....	10 00	75 00	
Lutea Major. Yellow, with crimson and green stripes.....	75	5 00	40 00
Perfecta. Bright yellow, scarlet and green.....	75	5 00	40 00
SPLENDID MIXTURE. All the above varieties.....	60	4 00	35 00

Bronze Queen

Godet Parfait

Breeder Tulips in Tints and Tones of Royal Loveliness

These are the old Dutch self-colored Tulips neglected for many years, which modern taste for unusual colors has called into prominence once more. Nature's happiest color combinations of purple and bronze, grey and lilac, brown and orange, are revealed to us in this group. The flowers are mostly large, of perfect form, and are borne on tall, strong stems. They may be successfully brought into bloom in the greenhouse by the first week of April. In the garden they combine well with the Darwins, and, except in range of color, are indistinguishable from them.

Annie McGregor. 24 in. Deep rose with white base. Fine for Doz.	100	1,000
planting in borders.....	\$1 50	\$10 00
Attraction. 26 in. Bluish violet-purple outside, glowing purple inside on a white base.....	1 50	9 00
Bacchus. 32 in. Deep violet-blue, with darker bloom, inside light violet-blue, with white star at base.....	1 75	12 00
Bronze Queen (Clio; Biscuit). 28 in. Buff-yellow, inside shaded golden bronze, yellow base. For borders, and a good forcer.....	1 00	5 00
Cardinal Manning (Goliath; Kingscourt). 28 in. Claret, flushed rosy bronze, changing to rosy violet.....	1 00	5 50
Copernicus. 24 in. Dark coppery bronze shaded with old-rose....	1 25	7 50
Dom Pedro. 24 in. Coffee-brown, with narrow edge of yellow-tan, inside dark mahogany with olive base.....	1 50	10 00
Feu Ardent. 26 in. Crimson-red, shaded mahogany. A brilliant flower with yellow base.....	1 50	10 00
Garibaldi. 32 in. One of the finest Breeder Tulips ever offered. Lilac-bronze edged primrose-yellow. Beautifully shaped flower borne on long stem.....	6 50	50 00
Godet Parfait. 30 in. Dark plum-violet, with white base and blue halo. Large flower of attractive color.....	1 50	9 00
Golden Bronze (Toison d'Or). 24 in. Light brownish yellow, flushed soft heliotrope, inside golden brown and chrome-yellow base. One of the best bronze sorts for forcing.....	1 00	6 00
Goldfinch. 30 in. Elegantly formed, large, pointed flower of rich golden chestnut, inside mahogany-brown.....	1 50	11 00
Indian Chief. 34 in. Coppery red, flushed purple. Long and artistic flower carried on long strong stem.....	10 00

Bed of Single Early Tulips

Single Early Tulips

The old-fashioned Single Early Tulips are unsurpassed for bedding and with few exceptions, excellent for forcing. Gardeners are learning that the wholesale discarding of this class, which took place a few years back, was a mistake. The monotony of the solid beds of red and yellow, and the acres of Keizerskroon which used to make our parks and gardens offensive, will never return, but such lovely things as Diana, De Wet, Lady Boreel, Pink Beauty, President Lincoln, and Rose Luisante are indispensable in any well-planned garden. Blooming with the narcissus, at a time when bright color is sorely needed, they are treasures indeed. And the handsome thing about them is that they are gone by the time the space is needed for Annuals and bedding plants, so that there is no blank interval in the effective use of the ground. The following are the cream of the best varieties.

	Doz.	100	1,000
Artus. 9 in. Crimson-scarlet; fine for bedding.....	\$0 60	\$3 50	\$30 00
Belle Alliance (Waterloo). 15 in. Cherry-red. Very good for forcing and bedding.....	80	5 50	50 00
Brilliant Star. 12 in. Scarlet, with black center. Early.....	1 00	6 00	55 00
Calypso. 12 in. Sulphur-yellow, inside clear yellow. A very handsome Tulip.....	80	5 00	45 00
Cerise Grisdelin. 13 in. Violet-lilac, white edged, yellow base. Handsome bedder.....	1 00	6 00	55 00
Chrysolora. 14 in. Golden yellow. Splendid for planting outside.	1 25	7 00	65 00
Cottage Maid (La Précieuse). 11 in. Creamy white, with broad margin of crimson-pink.....	75	5 00	45 00
Cramoisi Brillant. 12 in. Glowing scarlet. Recommended for forcing.....	75	4 50	40 00
Diana. 11 in. Pure snow-white flowers on very long stems; unexcelled for forcing.....	75	4 50	40 00
Duchesse de Parma. 15 in. Dull blood-red, edged deep yellow. Excellent for bedding.....	1 00	5 50	50 00

**Single Tulip,
General de Wet**

Golden yellow, flushed and veined deep orange; sweet-scented flowers. The only Tulip of this particular color. Extra good for forcing and bedding. Height 16 in. \$2 per doz., \$12 per 100, \$115 per 1,000.

William M. Hunt & Company

INCORPORATED

SINGLE EARLY TULIPS, continued

Wouverman. 12 in. Claret-purple.....	1 00	7 00	60 00
Yellow Prince (Golden Prince). 13 in. Chrome-yellow, streaked with dull red, deepens with age. Sweet-scented. The most popular yellow.....	1 00	6 50	60 00
EARLY TULIPS MIXED. A fine selection of all the above varieties. Splendid and economical for cutting.....	75	4 50	40 00

Double Tulips, Murillo

Double Early Tulips

Very showy and lasting; splendid for beds and borders and for culture in pots. Double Early Tulips have been much maligned but for long-lasting color early in the season, nothing is better, and some of the best have really lovely form.

	Doz.	100	1,000
Boule de Neige. 12 in. Sulphury white. Enormous, double flower, resembling a white peony. Extra good bedder and forcer	\$1 00	\$6 00	\$55 00
Couronne d'Or. 13 in. Buttercup-yellow, shaded orange-red. Splendid for early forcing; good bedder	1 00	6 50	60 00
El Toreador. 13 in. Raspberry-red, edged buff-yellow. Splendid color; attractive for forcing or bedding	1 50	10 00	90 00
Golden King. 13 in. Soft canary-yellow, shaded deeper yellow. Large and handsome; for bedding	1 25	8 00	70 00
Imperator rubrorum. 14 in. Blood-red. Recommended for forcing and a good bedder	1 00	7 00	65 00
Lord Rosebery. 12 in. Delicate light pink flower on a strong stem.	1 00	7 00	65 00
Mr. Van der Hoeff. 12 in. Deep pure yellow. The best pure yellow Tulip. Extra good bedder and forcer	1 25	8 00	70 00
Murillo. 12 in. Delicate rose-pink, flushed cream-white. The best double for forcing or bedding	75	4 50	40 00
Peach Blossom. 12 in. Bright rose-pink, flushed white. Large, double flower and very handsome color. A sport of the well-known Murillo	1 00	7 00	65 00
Rose d'Amour. 12 in. Very soft rose, deepening with age to peach-blossom rose. A beautifully shaped flower and a very lovely color. Very good bedder	1 25	8 00	70 00
Rubra maxima. 11 in. Deep carmine-red. Very attractive when forced	1 00	6 00	55 00
Salvator rosa. 11 in. Carmine-purple, with broad margin of crimson-pink. For early forcing	1 00	6 00	55 00
Schoonoord. 12 in. Cream-white. Extra good for forcing and bedding. A sport of Murillo	1 00	6 00	55 00
Tea-rose (Safrano; Brimstone Beauty). 12 in. Soft, pale yellow, beautifully tinged flesh-rose as the flower ages. Very good bedder and splendid forcer	1 00	5 00	45 00
Tournesol Yellow. 11 in. Buttercup-yellow, tinged deep orange-yellow. Very early forcing variety	1 25	7 00	60 00
Vuurbaak. 12 in. Fiery vermilion-red, shaded orange when fully opened. For beds and good for late forcing	1 25	7 00	60 00
DOUBLE MIXED TULIPS	75	4 50	40 00

Gigantea	Bismarck	

Hyacinths for Garden and Home Flowers

Hyacinths may be put to several uses. They may be grown in beds, borders, forced in pots or pans, or grown in water, and are very easy of cultivation. They possess a wonderful perfume, and there are many shades ranging from Pure White, Pale Blue, Lavender, Mauve, Purple, Red, Pink, Blush-White, and Yellow. Suitable alike to the amateur and professional grower.

	Each	Doz.	100
Selected Top-size Bulbs.....	\$0 50	\$4 00	\$27 50
Second-size Bulbs.....	35	3 00	20 00
Miniature Bulbs.....	20	1 75	12 00

Single Blue

Bismarck. Sky-blue; very large spike; excellent for forcing.

Dr. Lieber. Lavender-blue, tinged violet; large, perfect spike.

Electra. Pale blue, white eye; very large flower, a long truss of perfect bells.

Duke of Westminster. Large deep purplish blue bells with white center.

Grand Maitre. Deep lavender-blue; large and compact truss; old popular variety.

King of the Blues. Compact truss of dark blue bells; late variety.

Lord Balfour. Lilac-rose, tinged violet; a very pretty combination.

SINGLE BLUE HYACINTHS, continued

Menelik. Purplish black; very distinct; large compact truss.

Queen of the Blues. Pale azure-blue; large spike; beautiful.

Schotel. Light blue; good forcer; long, perfect spike.

Sir William Mansfield. Bright purple; good truss.

Single Yellow

City of Haarlem. Pure yellow; large truss; extra fine exhibition variety.

Yellow Hammer. Rich yellow; beautiful truss.

Single Red and Rose

Garibaldi. Glowing crimson-red; very early.

General de Wet. Light rose; fine broad spike.

Gertrude. Rosy pink; large, compact truss; old and still popular.

Gigantea. Blush-pink; compact spike.

Lady Derby. Rose-pink; large spike; excellent for pots.

La Victoire. Deep carmine-rose; very fine spike; splendid for exhibition.

Marconi. Bright rose; large compact truss.

Queen of the Pinks. Rosy pink; extra-large bells; perhaps the best of this shade.

Roi des Belges. Deep red; compact spike.

Victor Emanuel. Rosy red; fine broad spike; early; a charming red variety.

Single White

Arentine Arendsen. Pure white; extra early.

Correggio. Pure snow-white; large truss.

General Vetter. Creamy white; large spike.

Hein Roozen. Pure white; very fine flower.

L'Innocence. Pure white; the best white for all purposes.

La Grandesse. Pure white; fine bells; best exhibition white variety.

Madame Kruger. Pure white; large bells and spike.

Queen of the Whites. Snow-white; very heavy spike.

White Lady. Pure white; very large truss.

See prices on preceding page

Narcissi That Flower from March to May

Narcissi, or Daffodils, vie with early tulips for popularity in spring gardens. They bloom from March into the middle of May. Many varieties may be forced in green-houses or grown in pots or dishes in the home, for they are very easy to cultivate.

Large Trumpet (Ajax)

	Ajax Bicolor			
	Doz.	100	1,000	
Cervantes. Very early. Primrose trumpet, with creamy perianth.	\$2 25	\$15 00		
Empress. Sulphur-white perianth, with chrome-yellow trumpet; very good for late forcing variety.				
Mother Bulbs. XXX.....	2 50	16 00	\$150 00	
First-size Bulbs. XX.....	2 00	13 00	120 00	
Glory of Sassenheim. White perianth; golden yellow trumpet. Large flower of good substance.....	2 50	18 00	170 00	
Princeps. Primrose perianth and yellow trumpet. Very free blooming and an excellent variety for forcing.				
Mother Bulbs. XXX.....	2 25	14 00	130 00	
First-size Bulbs. XX.....	2 00	12 00	110 00	
Spring Glory. Clear white perianth with long petals of fine form; trumpet deep yellow. One of the best of the newer types for pot culture.....	3 00	20 00		
Van Waveren's Giant. The largest of all Bicolor Daffodils. Perianth primrose, bright yellow trumpet. Splendid forcer and vigorous grower.....	4 50	30 00		
Victoria. Broad, creamy white perianth, with large yellow trumpet. Recommended for forcing.				
Mother Bulbs. XXX.....	2 50	16 00	150 00	
First-size Bulbs. XX.....	2 00	13 00	120 00	
Weardale Perfection. Perianth white with broad petals; long rich yellow trumpet. A good grower and very free-flowering.....	4 50	30 00		

Ajax Yellow

Cleopatra. Very sturdy and of great substance. Perianth and trumpet deep yellow.....	4 50	30 00		
Emperor. Primrose perianth, with golden yellow trumpet. Good forcer.				
Mother Bulbs. XXX.....	2 50	16 00	150 00	
First-size Bulbs. XX.....	2 00	13 00	120 00	
Golden Spur. Self-colored deep golden yellow. Well-known va- riety for early forcing.				
Mother Bulbs. XXX.....	3 00	18 00	170 00	
First-size Bulbs. XX.....	2 00	14 00	130 00	
Herbert Smith. Immense, deep yellow trumpet of noble form; large perianth of fine substance.....	3 00	20 00		
King Alfred. Golden yellow perianth and trumpet; deeply frilled mouth, elegantly recurved. Gigantic flower. Truly the King of Daffodils.				
Mother Bulbs. XXX.....	4 00	27 50		
First-size Bulbs. XX.....	3 00	20 00		
Olympia. The trumpet is yellow with perianth of a slightly paler shade. This is a remarkably fine Daffodil; one of the best.....	3 50	25 00		
Robert Sydenham. One of the sturdy broad-leaved varieties of Emperor parentage. Larger than the famous Van Waveren's Giant. Very hardy; easy to force into bloom about February 20. Strong bulbs produce two perfect flowers without fail. Petals sulphur-yellow, trumpet golden yellow.....	4 50	30 00		
Treserve. Large yellow trumpet; pale yellow perianth.....	5 00	35 00

Short Trumpet Daffodils

Barri

	Doz.	100	1,000
Albatross. Perianth white; pale lemon cup frilled and edged with glowing orange-red.	\$2 00	\$13 50	
Barri conspicuus. Yellow perianth, with bright orange cup; very free bloomer; excellent for forcing.	1 50	11 00	\$100 00
Firebrand. A combination of creamy white petals and glowing red, fluted cups.	2 00	12 00	110 00
Lady Moore. Snow-white perianth; yellow cup with deep orange edge. Good stems. Bulbs very free-flowering and easy to force.	4 50	36 00	
Masterpiece. Creamy white rounded perianth; flattened crown, heavily stained orange-scarlet.	4 00	30 00	
Red Chief. White, with large flat cup and broad edge of crimson-scarlet.	3 00	20 00	
Sea Gull. Large spreading pure white perianth, cup canary-yellow edged apricot; charming variety.	2 50	16 00	
Sunrise. White with primrose bar down the center of each petal; large, open crown of orange-yellow with scarlet margin.	5 50	40 00	

Incomparabilis

Autocrat. Clear golden yellow, with broad perianth. Very fine variety for border or pots.	2 50	16 00	
Bernardino. Perianth creamy yellow; the cup is nicely frilled, and stained deep orange and apricot. A handsome addition to this class.	3 50	25 00	
Cræsus. Round, imbricated primrose perianth of great size; widely expanded deep red crown. Show variety.	\$3 each		
Diadem. Creamy white perianth; very broad yellow crown.	1 50	10 00	95 00
Dosoris. Round, pure white perianth; large, flat, orange-red crown. Striking.	\$1 each		
Frank Miles. One of the finest of the yellow Incomparabilis. Particularly good for naturalizing.	3 00	17 50	
Homespun. Perianth soft pale yellow with finely expanded cup of same color.	3 00	17 50	
Lucifer. White perianth, with glowing orange-red cup; very attractive.	1 75	11 00	
Red Star. White, wavy perianth; unusually long red cup.	5 00	30 00	
Sir Watkin. Sulphur petals, with deep yellow cup; very handsome, large flower. First-size Bulbs. XX.	2 50	14 00	130 00
Whitewell. Petals pure creamy white; bold open crown of orange-yellow. Excellent size and texture.	3 50	20 00	
Will Scarlett. Creamy white perianth with large fiery orange-red cup.	3 00	20 00	

Leedsi

Crystal Queen. Pure white perianth; pale primrose cup, passing to white. Flowers 3½ inches across.	4 50	35 00	
Evangeline. Large, pure white perianth; soft lemon cup. Strong grower.	2 00	12 00	
Mermaid. White, pointed petals; creamy white crown. Charming free-flowering variety.	3 50	20 00	
Mrs. Langtry. Perianth white, cup white, primrose edge; very free-flowering and showy.	1 50	10 00	90 00
Salmonetta. Very pretty white with salmon-tinted cup.	2 00	12 00	
Southern Gem. A giant Leedsi with pure white petals and large lemon-yellow crown, which becomes cream-colored as the flower develops. Splendid size and texture; fine stems.	1 75	11 00	95 00
White Lady. Cup pale canary-yellow, perianth white; very fine.	1 75	11 00

Hunt's PERFECTION Bulbs

Narcissus, Poetaz Hybrids

Cheerfulness. Finest of the new double Poetaz. Cream and orange. Perfectly hardy.....	Doz.	100	1,000
	\$7 00	\$50 00	
Early Perfection. Handsome white and yellow Poetaz.....	2 50	17 00	
Elvira. Pure white with yellow eye; very large and free-flowering.	2 00	12 50	
Helios. Creamy yellow; pure yellow cups. Fine, very floriferous, and excellent cut-flower variety.....	3 00	17 50	
Joconde. Pale yellow petals; deep golden yellow cup. Four to five large flowers on long stems, ideal cut-flower and exquisite show variety.....	3 00	20 00	
Laurens Koster. Pure white perianth, large orange-yellow cup...	2 00	12 50	
Lucrece. Pure white; orange cup. Four to six large florets per stem.....	3 00	17 50	
Mignon. White perianth, cup creamy white with deep orange-scarlet edge.....	3 00	20 00	
Orange Cup. Creamy white; conspicuous orange cups. A most delightful color combination.....	2 50	15 00	

Poeticus

Horace. White with conspicuous red eye, a splendid forcing variety.....	1 75	12 50	
Ornatus. Pure white perianth, with cup margined scarlet; very early.....	1 25	9 50	\$90 00
Recurvus (Common Poeticus). Pure white perianth, deep orange-red cup.....	1 25	8 00	75 00

Jonquils

Campernelli, Orange Queen. This form is of that tint of yellow which, although not an orange, strongly suggests that shade....	2 50	16 00	
Campernelli rugulosus. Rich yellow, broad perianth and cup....	1 75	9 50	90 00
Jonquilla. Single, sweet-scented Jonquil. Rich yellow.....	1 50	8 50	80 00
Triandrus, Thalia. Produces three to four fine white flowers per stem. Very distinct and charming introduction.....	\$3 each..		
Twin Sisters. White; sulphur-yellow cups. Very pretty and the latest of all the Narcissus family.....	1 50	11 00	

Narcissi, Double Varieties

Albo-pleno odorata. Double pure white; excellent for cutting.....	1 75	11 00	100 00
Orange Phœnix (Bacon and Eggs). Large, double white flowers, with orange base.....	2 75	16 00	
Sulphur Phœnix (Codlins and Cream). Large, double white flowers, with sulphur center.....	2 50	15 00	
Von Sion. The popular double Daffodil. Rich golden yellow; excellent for forcing or bedding.			
Mother Bulbs. XXX.....	2 50	16 00	150 00
First-size Bulbs. XX.....	1 75	12 00	110 00

Narcissi and Daffodils Mixed for Naturalizing

This mixture contains many varieties of Narcissi and Daffodils that are most suitable for planting in borders, lawns, and woodlands, and comprise sorts which will give an abundance of flowers and continue to thrive indefinitely. \$1.75 per doz., \$10 per 100, \$95 per 1,000.

Hardy Bulbs for Naturalizing

NATURE never plants her flowers in beds and borders. She uses a wide brush and plenty of color, and makes broad sweeps across the big outdoors. To imitate Nature and to surpass her in coloring is no small achievement, but it can be done by liberal planting of Hardy Bulbs suitable for naturalizing.

In naturalizing bulbs, plant them irregularly. Fill a basket with them and spill it on the ground. Plant the bulbs where they fall—close together in places, far apart in others. Take a quantity of bulbs and dribble them over the ground as you walk. Plant them where they fall. Make no attempt to be systematic or symmetrical. Nature does not work that way. Plant the bulbs with a dibble, making sure that there is no air-space beneath them, then leave to the care of the great mother in her own outdoors.

CROCUSES. Large, trumpet-like flowers which come in February and March, before their leaves. About 6 inches high. Splendid on hillsides and banks among some low ground-cover or leaves. They may be had in shades of Blue, White, Striped, and Yellow. Extra-large bulbs, mixed colors, \$2.50 per 100, \$20 per 1,000. For separate colors, see page 24.

CHIONODOXA (*G l o r y - o f - t h e - S n o w*). Charming flowers somewhat like scillas, except that the blooms are held erect and are in many variations of blue and lavender. For prices and varieties, see page 33.

FRITILLARIA. There are two kinds: the checkered Guinea-Hen Flower for meadows and stream-sides, and the Crown Imperial for showy spots in neglected corners. See page 34.

HELLEBORUS (*The Christmas Rose*). Under trees or sheltering shrubs, with a slightly sunny exposure, these evergreen plants will produce their large, anemone-like flowers from November until March. See page 34.

LEUCOJUM (*Spring Snowflake*). Charming, bell-like flowers somewhat like a snowdrop, but larger and flowers later. See page 35.

LILY-OF-THE-VALLEY. Beautiful foliage for a ground-cover. Likes shade. Flowers sweet and fragrant. See page 35.

MUSCARI (*Grape Hyacinth*). Charming blue flowers like clusters of beads. 6 to 12 in. Plant in meadows. See page 35.

NARCISSI. Plant them under trees, in meadows, beside brooks, on hillsides—wherever a sweep of gold and creamy colors is desired in early spring. Combined with scillas and muscari, they make a lovely picture. See page 29 for prices.

SCILLAS. Lovely blue flowers of the most exquisite tint. They bloom very early, covering the ground with sheets of blue, and spread quickly, soon taking possession of the space allotted them. *Sibirica* is best for naturalizing. The *Campanulata* varieties are taller and later. See page 35.

SNOWDROPS (*Galanthus*). Earliest flower of spring, with green and white bells peeping above the later snows. Plant on a sunny slope. See page 35.

SPECIES TULIPS. Charming, showy flowers in a wide variety of color. See pages 16 and 17 for varieties and prices.

WINTER ACONITES. Brilliant yellow flowers which appear in late winter and early spring. Fine under trees and among stones. See page 35.

Lilium regale (myriophyllum)

Hardy Garden Lilies for Fall and Spring Planting

Hardy Lilies are among the most gorgeous subjects for the herbaceous border, and, without crowding other plants, throw up their sturdy stems with an eager desire to unfold their wonderful blooms over the heads of nearby companions, and hold the admiring gaze of all who pass. Lilies thrive in partial shade, that is, the lower stem and bulb are better shaded by the foliage of other plants. Their stem roots, which feed almost on the surface of the soil, need plenty of food and moisture. They revel in the "peaty" soil of a rhododendron bed, but thrive equally well in a rich sandy loam. The most beautiful forms are *Lilium auratum*, *L. speciosum*, vars. *Melpomene* and *Rubrum*, *L. regale*, *L. tigrinum*, and *L. Henryi*. Plant from 4 to 6 inches deep.

*Ordinarily Japanese Lilies arrive in November. When bulbs come to hand too late for fall planting, orders booked are carried over for spring delivery.

***Auratum** (The Golden-banded Lily of Japan). One of the stateliest of all the hardy Lilies; grows 3 to 6 feet high and bears twenty or more large and fragrant flowers 8 to 10 inches in diameter. Planted in clumps of six or so, they make an attractive sight. Flowers white, spotted deep red, with bright yellow band running through the center of each petal, in August.

William M. Hunt & Company

INCORPORATED

HARDY GARDEN LILIES, continued

Candidum (Madonna or Annunciation Lily). The bulbs we offer are the true, hardy, Northern French-grown; arriving here in September, they should be planted at once, in groups of from 3 to 6 dotted among the taller-growing perennial plants in the herbaceous border. They make their leaf growth in October, then die down and bloom late the following June—stately spikes of large white, fragrant flowers with yellow anthers. The new Hybrid Delphiniums (Wrexham strain), *Campanula Pyramidalis*, and tall growing pink *Gladiolus*, planted in proximity make a border of exquisite charm in June and July.

	Doz.	100
Mammoth Bulbs. XX.....	\$4 50	\$35 00
Specially selected top-size Bulbs. XXX.....	6 50	45 00

Batemanniae. Beautiful Japanese variety, growing 3 feet high, with six to eight apricot-colored flowers held erect on a stem. Blooms in July and August..... 4 00 30 00

Canadense (Canadian Bellflower Lily). Flowers vary in color—red and yellow. 2 to 5 feet high. Flowers in June and July..... 2 50 18 00

Croceum. 3 to 4 ft. Golden yellow flowers in June and July. Very reliable and hardy..... 6 50 45 00

***Henryi** (Yellow Speciosum). 4 to 5 ft. In form and habit resembles *L. speciosum*. Flowers shaded yellow, slightly varying in color, with a distinct and waxy green center. Blooms during August and September. 10 00 80 00

Regale (*Myriophyllum*). 3 to 4 ft. Of comparatively recent introduction, this variety has come to be regarded as one of the best garden Lilies. White flowers, trumpet-shaped, slightly suffused pink with yellow center; very fragrant. Plant is slender and takes very little room when out of flower. Will thrive in any good soil if not too wet.

Mammoth Bulbs. XXX.....	10 00	75 00
Large Bulbs.....	8 00	60 00

***Speciosum album**. 3 to 4 ft. This is a very dainty white Lily. It flowers in the border or amongst the shrubbery at the same time as *L. auratum*, and is one of the most popular varieties. Used extensively in pots for greenhouses.

Extra-large Bulbs.....	10 00	75 00

Lily-of-the-Valley

Extra-strong Berlin pips, for forcing, from cold storage. \$9 per case of 100, \$18 for case of 250, \$70 per 1,000.

Bulb Fibre. A natural peat fibre, full of nutritious properties for the growing of flower bulbs indoors. This compost acts as a moisture-retainer, which promotes the growth of roots on the bulbs, at the same time releasing its organic fertilizing elements in soluble form, developing and maintaining a steady and sturdy growth on the bulbs until the flowers have matured. Peck \$1.75, bus. \$6.50.

Chionodoxa

Fritillaria Meleagris

Miscellaneous Bulbs for Flowering in the Spring

Anemone

Gorgeous, whirled flowers of brilliant colors—scarlet, blue, pink, white, etc.—with strongly contrasted centers. They are splendid cut-flowers and make a fine showy bed. In most sections the bulbs need about the same protection afforded pansies. They can be kept in a frame over winter and be moved into the garden when in bud or bloom.

Lawns like this produced by sowing Hunt's Prospect Park Lawn Seed Mixture

Grass Seed Mixtures

Hunt's Perfection Lawn Seed

This mixture is well worthy the name we have bestowed upon it, and we firmly believe is destined to become the favorite Grass Seed for use where a fine lawn is of importance. It is the result of careful study and trials made during the past few years under varied conditions. Those who have tried out this seed tell us that "we have got the real goods for a perfect lawn." Lb. 80 cts., 20 lbs. \$12.50, 100 lbs. \$60.

Hunt's Perfection Lawn Seed contains 10 per cent South German Mixed Bent (Creeping Bent).

Prospect Park Lawn Seed

With proper care of the soil before sowing it will produce a rich, velvety lawn in six to eight weeks, which will remain green throughout the year. For making new lawns we recommend 5 bushels to the acre; 1 pound of seed will sow 250 square feet; for renovating use one-half this quantity. Lb. 55 cts., 20 lbs. \$8.50, 100 lbs. \$40, 1,000 lbs. \$375.

Hunt's Lawn Dressing Seed

Unsurpassed for Restoring Old Lawns

Our **Lawn Dressing Seed** is a scientific blending of the **Finest Lawn Seeds** with those fertilizing elements that give nourishment to the rootlets, thus insuring perfect growth, fine texture, and deep, rich coloring. Germination and rapid growth are stimulated by its free use.

100-lb. bag, \$40; 50-lb. bag, \$21; 25-lb. bag, \$11; 5-lb. bag, \$3

MIXTURE FOR SHADY LAWNS AND UNDER TREES. A combination of dwarf-growing grasses which thrive in shaded places. It quickly produces an abundant and even growth of lovely green grass where ordinary lawn seed mixtures fail. Lb. 80 cts. 20 lbs. (bus.) \$12.50, 100 lbs. \$60.

TERRACE LAWN SEED. A mixture of fine stoloniferous grasses specially suited to terraces. Will produce a rich and lasting turf. Sow at the rate of 2 pounds per 100 square feet. This mixture is a combination of such grasses as will make a quick, strong growth taking a firm hold of the soil and prevent washing away by heavy rains. Lb. 80 cts., 20 lbs. \$12.50, 100 lbs. \$60.

TENNIS-COURT MIXTURE. Will make a firm, green and lasting turf in the shortest possible time, that will improve with trampling. Lb. 90 cts., 20 lbs. \$13.50, 100 lbs. \$65.

SEASHORE MIXTURE. This mixture is peculiarly suited to seaside lawns, etc. Lb. 80 cts., 20 lbs. \$12.50, 100 lbs. \$60.

POLO FIELD MIXTURE. A mixture of specially selected grasses for heavy trampling that will quickly recover from hard usage. 100 lbs. \$60, 500 lbs. \$275.

Unusual Plants for House and Gardens

Spiraea (Astilbe)

Extra-Large Clumps

We recommend the following varieties for forcing or outdoor culture. The clumps we offer are very large and cannot fail to give satisfaction.

CULTURE.—They require a compost of equal parts of loam and leaf-mold and should be potted singly in 6 or 7-inch pots, in October or November. Place in coldframe until required for forcing; water freely when growth begins. Remove to coldframe after flowering and plant out in sunny position in June.

America. Lilac-rose—a beautiful orchid color with large, feathery flower-spikes and beautiful foliage. This variety is one of the very finest and holds its color well. Medium height. (13 weeks).....	Doz. \$11 00
Ceres. Delicate lavender-pink. Magnificent plumes, frequently measuring over 1½ feet, and altogether one of the showiest of all Spiræas. The foliage is light green; plant very graceful and tall. (13 weeks).....	17 00
Cassandra. Dense, very double flowers of rosy red—the deepest color yet developed. Graceful foliage. (15 weeks).....	24 00
Gladstone. Well known and best white variety. Flower-spikes are cream-white, large, full, and feathery. Foliage is compact and deep green. Earlier than the pink kinds. We have a fine stock. (10 weeks).....	11 00
Juno. Deep lilac-rose. Graceful, spreading foliage. Slender flower-spikes of good shape. Tall grower and latest of all. (14 weeks).....	13 00
Kriemhilde. A pleasing and peculiar shade of soft creamy salmon with red flower-stems. Heavy, well-shaped plumes and graceful foliage. Medium height. (14 weeks).....	13 00
Mont Blanc. Clear milk-white flowers. Deep-green foliage; of dwarf habit. Free flowering. (14 weeks).....	13 00
Peach Blossom. True peach-blossom color with red stamens. Full light green foliage. Holds color well. Very fine. (13 weeks).....	13 00
Philadelphia. Deep lavender-rose. Tall and sturdy grower with abundance of graceful foliage. Heads are full and feathery and the whole plant is large. (14 weeks).....	13 00
Princess Mary. Deepest rose-pink in commerce today. Flowers have slight lilac cast. Vigorous grower and in every respect a beautiful variety. Medium height. (14 weeks).....	10 00
Queen Alexandra Improved. Soft light pink, large, individual recurved flowers, borne on heavy plumes. Tall and midseason. Foliage is abundant and of spreading habit with red stems and veins. (12 weeks).....	13 00
Rubens. Attractive deep rose, with red flower-stems. Flat-growing foliage of glossy dark green. Medium height. (13 weeks).....	10 00

Amaryllis

For growing in the house or conservatory, few plants produce as striking a display, with so little trouble, as Amaryllis. The bulbs should be potted in the fall, be kept rather dry all winter until growth starts in early spring when they should be watered plentifully, fertilized and lightly shaded. A few weeks, and they break into immense lily-like blooms of gorgeous color and form.

Vittata Hybrids. This selection contains a mixture of the finest unnamed seedlings in cultivation. The colorings and markings are unique and provide a show of unexampled beauty. Extra-large, sound bulbs of enormous size. \$1.50 each, \$15 per doz.

Iris (Fleur-de-lis) Add Character to Modern Gardens

Holland Iris

Iris Tingitana and Spanish Iris may be grown both in and outdoors. If planted indoors they should not be forced as they will be apt to come blind; given a slow treatment they will bloom without difficulty in the early spring.

Imperator. Early-flowering. Brilliant blue, large and well-shaped flowers on long, strong stems. The best for greenhouse culture. \$1.75 per doz., \$12 per 100, \$110 per 1,000.

Tingitana. Early-flowering Dutch Iris. Produces large, well-shaped blue flowers on long, strong stems. If grown cool in greenhouse will flower early in March. Will not stand forcing. \$1.75 per doz., \$12 per 100, \$110 per 1,000.

Wedgwood. Was awarded First Prize at this year's International Flower Show, New York. Very early, large blue flower borne on long, strong stems. Splendid for greenhouse, flowering in March. \$4 per doz., \$25 per 100.

Albert Cuyp. White with yellow blotch.

Anton Mauve. Soft lilac-blue.

Hart Nibbrig. Bright, clear blue.

Hobbema. Pure white with yellow falls, shaded light blue.

Rembrandt. Early. Deep blue with orange dots.

Any of the above varieties, \$1.50 per doz., \$10 per 100, except as noted

Spanish Iris

Alex. von Humboldt. Exquisite light blue.

Belle Chinoise. Dark golden yellow.

British Queen. Large, pure white.

Cajanus. Canary-yellow.

Darling. Lovely azure-blue.

Emperor of the West. Dark bronze.

Excelsior. Light blue, deep orange blotch.

Flora. Creamy white, with lavender standards.

King of the Blues. Intense blue; fragrant.

Louise. Very pale blue and white.

Snowball. Pure white. Handsome shaped flower.

All named varieties, \$1.50 per doz., \$9.50 per 100, \$90 per 1,000

SPANISH IRIS, MIXED. A fine mixture of the above varieties; suitable for bedding and for cutting. 90 cts. per doz., \$8.50 per 100, \$80 per 1,000.

Spanish Iris

Hunt's Geneva Pink Antirrhinum

A Wonderful New Snapdragon

LOVELY in color. Profuse in bloom. Strong in growth. Unrivalled by any other new or old Antirrhinum. The best pink variety for under glass.

Our seed is saved only from greenhouse plants and can be relied upon to come true to name and color.

Best results are obtained by sowing seed in July, producing a heavy crop of flowers from January to June

*\$1 per packet,
\$2.75 for 3 packets*
