New York, N. Y.

Introductory Remarks

TO CORRESPONDENTS: We desire to thank the public for their liberal patronage, and solicit a continuance of the same. We aim to grow and supply the best of stock at the lowest prices consistent with the quality of stock offered. Where a large number of trees and plants are required we solicit a list of wants for special quotations.

LOCATION: The nurseries are located at West Chester, county seat of Chester County, in one of the richest and most fertile spots in Pennsylvania, having the richest soil and best climate to be found in this country for growing nursery stock; 117 miles west of New York City and 27 miles west of Philadelphia.

PRICES are f.o.b. nurseries, point of shipment. Stock furnished at special net prices in carload lots, freight charges to follow from point of shipment unless otherwise agreed upon. Prices subject to change without notice. **PRICES SUPERCEDE ALL OTHERS.**

SHIPPING: Spring season commences between March 15th and April 1st, and continues to June. Autumn season commences in September and ends with the freezing of the ground in December. Orders should be placed early to insure good stock and varieties wanted.

MISTAKES: We give most careful attention to the shipping of varieties as ordered and warrant our stock true to name, but we do not hold ourselves responsible to any greater extent than the original cost of the goods or replacing the same. Shipments are made when stock is in best condition for removal. Most deciduous trees and shrubs succeed well both in Spring and Autumn planting. Evergreens do better if planted in April or May.

REFERENCES: All orders from unknown parties must be accompanied by check, draft, express or money order, unless satisfactory reference is given. To avoid mistakes write the order plainly, giving both post office and shipping directions. All articles are at the risk of the purchaser after being delivered to the railroad or express companies.

COMPLAINTS will not receive consideration unless made upon receipt of the goods. By careful consideration of the wants of the public and strict attention to business we hope to receive a liberal share of your patronage.

GARDENERS: We have on file in our office names of competent gardeners wanting employment such as we can recommend to our patrons as trustworthy and reliable. There is no charge for registering or for the service.

LANDSCAPE ARCHITECT: We are prepared to furnish a first-class landscape architect and engineer to make surveys, draw plans and give estimates for the building of roads and walks and the planting of trees and plants required for such work. We solicit correspondence from all who need such service.
