New Haven Nurseries

New Haven, Missouri

Reliable Nursery Stock Since 1872

Condensed Price List
Fall 1929

LIBRARY
RECEIVED
★ JAN 4 1930 ★
U. S. Department of Agriculture

We are sending this condensed Price List now that our customers may be able to send their orders early. It will be to our mutual interest if you will send your orders now. Note special low prices on Fruit Trees of which we have a splendid stock.

THIS LIST CANCELS ALL PREVIOUS QUOTATIONS.

New Haven Nurseries

New Haven, Missouri

JUST ABOUT OURSELVES

Over fifty-seven years have been spent in building up our nursery business at New Haven. It was established in 1872 by Julian Bagby, the father and grandfather of the present management. Our employees have grown up in the business and are honored citizens of the community, and some have been with us over forty years. We state this fact that our customers may know that their orders are handled by responsible men.

All of the trees we offer are grown on our own land and under our own care. We are proud of our record of the orchards that are growing in every state from trees we have produced. Some of our customers have been with us for more than forty years, and we expect to keep right on serving a larger circle of new customers every year with **Bagby** quality trees. This list contains only the standard, time-tried and tested varieties.

Our years of experience in the nursery business have taught us that our customers like our way of doing business, for they know that we do not exaggerate the merits of our varieties. We produce good stock, true-to-name, pack it well, ship it promptly and in good condition, and charge only reasonable prices. Let us fill your order.

J. L. BAGBY
R. S. BAGBY

The Way We Do Business With You

Terms Cash, unless otherwise agreed upon. All orders to be sent C. O. D. must be accompanied with one-fourth the amount in cash. Remit by Money Order, Registered Letter or Check.

Order Early It is important that you order early. For the benefit of customers who wish to order early, but do not care to spare all of the money when the order is sent, we will accept such early orders if 10 per cent of the amount is sent with order. We will reserve the stock for you. Balance to be sent when you order the stock shipped.

Directions for Ordering Write name and address plainly. Always state distinctly the sizes and grades of stock ordered as per the grades given in this list. When named varieties cannot be furnished, we reserve the right to substitute such varieties as will fill the season as near as possible, unless prohibited in the order. Persons unacquainted with the different varieties will generally get a much better selection by leaving the assortment to us. Keep a correct copy of the order, so that when stock arrives you will know exactly whether you get what you have ordered. If we make mistakes, they are accidental, and we wish to right them.

Prices The prices are for the quantities named, but five, fifty and five hundred will be supplied at ten, hundred and thousand rates respectively—i. e., five at half the price of ten; fifty at half the price of one hundred, and so on.

The prices in this list are for the goods **F. O. B. New Haven, Missouri**. In our earnest endeavor to be fair with all our customers, we have discontinued the prepayment of freight.

Packing All goods are packed free. Notwithstanding this fact, we use the utmost care and pack according to the distance and our customers' best interests. **Everything is correctly labeled.**

Our Guarantee The fact that nurserymen, planters and fruit growers of the country have ordered of us year after year, is as good a guarantee as can be given by any other nursery of over fifty-seven years' standing. But if a mistake occurs we will cheerfully correct it.

We use the greatest care possible to have our stock true-to-name, and should any prove not true, we stand ready to replace it free of charge, or to refund the purchase price, but it is mutually agreed between the purchaser and ourselves that we shall not at any time be held responsible for any sum greater than the amount originally paid for said stock. We guarantee stock to reach customers in good condition.

All shipments will be accompanied by **Certificate of Inspection of the State Entomologist**. Good stock, true-to-name, sold direct to the planter at reasonable prices is our aim.

Our Location NEW HAVEN is on the Missouri Pacific Railroad and also on the Missouri River, sixty-seven miles west of St. Louis. Our soil is the very best for producing well ripened stock with splendid roots. Our facilities for prompt shipments are first class.

We solicit correspondence and personal inspection of our stock, confident that it will compare favorably with the best.

NEW HAVEN NURSERIES

J. Bagby & Sons Co.

NEW HAVEN, MISSOURI

Apples

The first fruit, both in importance and general culture, is the Apple. Its period, unlike that of all other fruits, extends nearly or quite through the year. By planting judicious selections of Summer, Fall and Winter sorts, a constant succession of this most desirable fruit will be obtained. Apple planting can never be overdone.

Our Apples are grown on Missouri River upland, on well branched, whole roots, smooth, clean and well grown in every respect. **No better trees can be found anywhere.**

	Each	10	100	1000
2 year, 5 to 6 feet, well branched, select	\$0.45	\$4.00	\$30.00	\$250.00
2 year, 4 to 5 feet, well branched, first-class	.40	3.50	25.00	200.00
1 year, 3 to 4 feet, select, or 2 year, 3 to 4 feet	.35	3.00	20.00	150.00
1 year, 2 to 3 feet	.25	2.00	15.00	100.00

	5.00	

Spraying

Spraying is a vital necessity if you want GOOD Fruit. It doesn't pay to miss one season, even if enemies are not visible. Spraying has an invigorating effect on trees, besides controlling enemies.

Spraying during the dormant period is distinctly different from spraying on foliage. Materials several times as strong can be used and are needed to control the scales.

On account of the life habits of enemies, often only two to seven days are available for any one spraying. Do the work then. Put the material on with force and cover every inch of bark and leaf.

Get a sprayer that is big enough, that will give one hundred to two hundred and fifty pounds of air pressure, that is adapted to your land and trees, and that is durable. Get a power outfit, if possible, for it does better work than hand pump can.

The Spraying program ordinarily resolves itself into two, three or four applications, one while trees are dormant with SCALECIDE, and the others on blossoms and fruit with SULFOCIDE. All applications must be guided by careful study.

Spraying will pay bigger dividends than anything you can do. Anything that is worth having is certainly worth taking care of.

BORERS WILL ATTACK FRUIT TREES IN SPITE OF ALL WE CAN DO, and will kill many trees if left alone. Trees must be gone over several times each year, and should be gone over each April and August.

Scalecide is truly the complete dormant spray. Applied in the fall it controls scale of all kinds, bud-moth, pear psylla, peach leaf-curl, and fungous cankers. The delayed dormant spray with Scalecide controls scale, aphids, pear thrips, leaf miner, case bearer, leaf roller, European red mites, bud-moth, and fungous cankers. And in addition year after year use of Scalecide invigorates the trees. Scalecide is guaranteed to make a better orchard than lime-sulphur.

Scalecide is pleasant to use; it does not injure even the eyes. It is non-poisonous. It saves half the labor of spraying—a tankful of dilute Scalecide goes as far as two tankfuls of dilute lime-sulphur. Scalecide saves the cost of nicotine; saves the cost of spreader; saves more than three-fourths the freight and haulage. A fifteen-gallon drum of Scalecide covers the same trees as a fifty-gallon barrel of lime-sulphur.

PROPORTIONS

For small quantities of spray solution, these figures will help you to get the proper mixture. Be accurate.

MATERIAL

Scalecide—Dilution recommended, 1 gallon to 15 gallons of water. Three cupfuls (1½ pints), equivalent for three gallons of water.

Scalecide

50-gal. bbls.....	\$35.00	5-gal. can.....	\$ 6.25
30-gal. bbls.....	25.00	1-gal. can.....	1.75
15 gals., \$11.50, drum returnable \$2.00.	13.50	1-qt. can.....	.75
10-gal. can.....	10.60		

Pints, quarts and gallons shipped by express or parcel post only.
F. O. B. New Haven, Mo.

General Information

About Agents

This Price List is our agent, but we shall be pleased to have you get up a club among your neighbors, and on club orders amounting to \$25.00 or more, at single or ten rates, we allow you 10 per cent, **additional in stock**. We put up each order in a separate package, so that upon receipt of goods you have only to hand out the different lots as ordered. Many of our best customers buy in large quantities at the lowest rates and distribute in lots as ordered by their neighbors.

References

We refer to any bank or business house in New Haven, Mo., as to our responsibility and standing in the community. We do our local business with the Farmers' Savings Bank, New Haven, Mo.

Distances for Planting

Standard Apples	30 feet apart each way
Standard Pears and Strong-growing Cherries.....	20 feet apart each way
Duke and Morello Cherries	18 feet apart each way
Standard Plums, Apricots	18 to 20 feet apart each way
Peaches, Nectarines	18 to 20 feet apart each way
Dwarf Pears	10 to 20 feet apart each way
Grapes	rows 10 feet apart, 7 to 16 feet in rows
Currants and Gooseberries	3 to 4 feet apart
Raspberries and Blackberries	3 to 4 by 5 to 7 feet apart
Strawberries for field culture	1 to 1½ by 3 to 4 feet apart
Strawberries for garden culture.....	1 to 2 feet apart

Number of Trees on an Acre

30 feet apart each way.....	50
25 feet apart each way.....	70
20 feet apart each way.....	110
18 feet apart each way.....	135
15 feet apart each way.....	205

Rule. Multiply the distance in feet between the rows by the distance the plants are apart in the rows, and the product will be the number of square feet for each plant or hill; which, divided into the number of square feet in an acre (43,560), will give the number of plants or trees to the acre.

WE GROW OUR OWN STOCK

We mail this list of prices to our friends and customers, and will ask that you favor us with your orders as early as practicable. All stock clean and healthy, and of our own growing. **ENTOMOLOGIST'S CERTIFICATE WITH EACH SHIPMENT.**

Shipments to Pacific Coast and Southern States from our frost-proof storage during winter months via southern routes.

THE MISSOURI STATE BOARD OF AGRICULTURE

Office of the Plant Commissioner

Jefferson City

CERTIFICATE OF NURSERY INSPECTION

No. 3.

Issued September 11, 1929.

THIS IS TO CERTIFY that, in accordance with the provisions of the Missouri Plant Act of 1929, the nursery and premises thereof belonging to New Haven Nurseries of New Haven, Mo., have been inspected by a duly authorized inspector and were found to be apparently free of injurious insect pests and plant diseases.

This certificate is not transferable and may be revoked for cause. This certificate expires September 1, 1930.

K. C. SULLIVAN, Plant Commissioner.

We are prepared to fumigate all consignments to states requiring fumigation. No Scale or Yellows has ever been found in our establishment, and we take pride in sending out only clean, healthy stock.

Read What Others Say:

LaFayette County, Mo., April 6, 1929.
The trees arrived in good shape and are extra good.
G. F. OBERHELMAN.

Boone County, Mo., April 23, 1929.
The fruit trees arrived in good condition, and are fine healthy trees. I had ordered trees from your nursery before, and was pleased in every way.
MRS. J. R. ANTHONY.

Shelby County, Mo., April 7, 1929.
Enclosed find stamps for postage. The plants were fine.
FRED POWELL.

Jackson County, Mo., April 16, 1929.
Trees and small fruit plants received in fine shape. Am well pleased.
W. L. JACKSON.

Van Buren County, Iowa, April 25, 1929.
I wish to acknowledge receipt of fruit trees ordered of you. I believe they are as good as could be procured anywhere, regardless of price. Many thanks for the gratis tree. You surely give full value.
CLYDE KERR.

Craig County, Okla., March 27, 1929.
I must say that you made out my tree order very nicely, and that trees are fine quality; received in good condition; and will surely do well, as they are all first-class. I thank you for the two excellent trees gratis.
I am pleased with your promptness and attention given to orders, and the quality of the stock.
ANDREW MACH, JR.

Chariton County, Mo., March 11, 1929.
Without flattery, I wish to say, for quality, quick shipment, and true to name trees, combined with your prices, your nursery stands among the leaders of the middle west.
C. W. STEIMAN.
