GREETINGS — 1929

IN PRESENTING my fourth catalogue I take great pleasure in thanking you all for the continued patronage. Most of my customers stuck to me the past season and that shows they were satisfied. My business doubled again and I was obliged to buy hundreds of tubers last season to fill my orders. I planted more this past season and have 17,000 clumps at present. The season with me was very satisfactory but flowers were about two weeks late. However I have a long growing season, my plants not being hit by the frost until the last week in October and my tubers had a good chance to mature in grand condition. I have had numerous letters praising my stock; room will not permit me to print them but I will be glad to furnish addresses of satisfied customers to any one who wish the same.

I have tried to add the outstanding dahlias to my collection and must state that I grow most of the good fellows. I have about eight hundred varieties of up-to-the minute dahlias and will add most of the new good varieties this coming season. I ship dahlias to most all the dahlia growing states, Canada and abroad.

I have a great many kinds that I do not catalogue and if you have some certain variety that you wish, write me and I may have it. I have one and two clumps of a lot of the older ones. I wish to extend my thanks to all who called at my gardens the past season and be sure and call in 1929. The latch string is always out. It is a great inspiration to me to have dahlia growers call and write me. That is what keeps a fellow in great spirits.

I hope my 1929 catalogue will be as interesting as last year's proved and that I may serve you. My stock is free from disease and I destroy all stunts and runts and destroy all tubers that do not run true.

Honesty is my policy.

I wish you all a very successful season for 1929.

Most sincerely,

Dr. SHIRLEY S. SHATTUCK,

Sagamore Gardens.

SAGAMORE GARDENS

My Introductions for 1929

PRINCE OF PILSEN

PRINCE OF PILSEN. Dec. (Dr. Shattuck.) The most popular Dahlia in my garden the past season except Jane Cowl. It is a flower of gigantic proportions, color is purple with lighter shadings and petals twist a little showing the silver reverse which adds to its beauty. It has broad, overlapping petals with twisted ends and has a fine high full center. The stiff stems are from twelve to eighteen inches long holding the flowers way above the foliage. The flower is deep and grows to eleven inches in diameter. Foliage is dark green and leathery and insects have never bothered it. Height of plant six to eight feet. This is a dandy for size and stem and for you who are looking for the big fellows this is one. Stock limited.

Tubers, **\$15.00**; Plants, **\$7.50**

SAGAMORE BEAUTY. Dec. (Dr. Shattuck.) A very handsome rose pink with a small cream center. A fine cut flower and great keeper. It has a good stiff stem ten to twelve inches in length. The flowers are held up and look right at you. It has good depth and are from six to seven inches in diameter. Foliage dark green and insect proof. Won third prize in the seedlings class at the Boston Show in 1927 in a class of sixteen. Also won first prize at Barnstable County Fair for best decorative basket of five blooms in 1927. The only times it has been shown.

Tubers, **\$7.50**; Plants, **\$3.75**

BETTY IVINS. Ex. Dec. A remarkable flower of huge proportions. Petals thickly placed to form a very full flower. Color a rich salmon, overlaid with an amber glow, showing a rosy pink reverse. Petals have that soft glistening gleam, as reflected in the texture of a rose. For a flower of such size, it has a remarkable stem that holds it perfectly upright, a point which has been noted by many of its admirers. Plants grow medium-tall with thick green foliage, stems stiff and long. Tubers, \$7.50; Plants, \$3.75

BUENO. (Bessie Boston.) This is a large, beautiful flower of an original coloring with a long, perfectly stiff stem. Color is burnished copper, shading to yellow at the center suffused with pink, bushes grow tall, and it blooms freely. Tubers, \$5.00; Plants, \$2.50

CHARLOT LA FRENZ. (Seal.) One of the best California decorative varieties in our trial ground last year; perfect flowers held facing on perfect stems held away above a strong growing plant. The color is beautiful, a pleasing autumn color combining shades of yellow salmon and apricot. A wonderful color effect. We strongly recommend this Dahlia for all purposes. Tubers, \$7.50; Plants, \$3.75

CITY OF TRENTON. (Prentice-Dahliadel.) This wonderful new decorative has all the qualifications of a first class exhibition Dahlia. It is impossible to portray the sheen and luster or the brightness in the color. The bush grows strong and robust about 6 feet tall, producing flowers up to 12 inches across with perfectly full centers on long erect stems. A Dahlia that will go beyond your expectation. Dahlia Society of New Jersey Certificate of Merit, 1927. Tubers, \$7.50; Plants, \$3.50

CLANSMAN. Dec. As an exhibition flower, it is very free, carrying six to eight blooms at one time on long stiff stems eight to nine inches. Color a beautiful apricot orange center darkening to a jasper pink. Tubers, \$7.50; Plants, \$3.75

An early and free bloomer. Stems rigid and straight, dark green foliage and good habit of growth. A superb flower that will rank high amongst prize winning Dahlias. Tubers, \$7.50; Plants, \$3.75

DORIS CANNEY. (Seal.) A fine new decorative of a rich golden apricot coloring. The blooms are huge and of great depth and are carried on strong stems above a most attractive bush, the foliage of which is exceptional dark green. A great exhibition variety as the flowers are always perfect and large and have excellent keeping qualities, thriving well in hot weather as this Dahlia has been tried out in the East and South and fine reports have been received concerning it. Tubers, \$5.00; Plants, \$2.50

FAIRHAVEN GOLD. This I believe to be the best hybrid cactus of its color to date. This Dahlia has great depth, as well as large size, and is produced freely on long, stiff stems. A medium, low grower. Color a pure glistening gold, beautiful formation, mentioned in the Garden and Home Builder Dahlia "Roll of Honor," 1927. Stock limited. Tubers, **\$7.50**; Plants, **\$3.75**

FORDHOOK GOLD CREST. (Burpee.) Considered an outstanding decorative for the year. A spectacular autumn tint combining shades of yellow, salmon pink, and rose. Perfect flowers are held erect above all the foliage. Fine for cutting, garden or exhibition. Dahlia Show of New Jersey Certificate of Merit, 1927. Tubers, **\$3.00**; Plants, **\$1.50**

FORT MONMOUTH. (Kemp.) One of the giants of the Dahlia world. The predominating color is a rich crimson maroon, with shading of bluish violet at tips of petals. The flowers are well formed of true hybrid cactus type, of immense size, frequently attaining to full thirteen inches in diameter, and are borne on long stiff stems high above the foliage, and look you right in the face. Does not burn, and is a splendid keeper, both on the plant and when cut. Very prolific bloomer, from early to late, and is no uncommon thing to see as many as five or six immense blooms on a plant at a time. Plants are a strong, vigorous grower, attaining to a height of seven to eight feet. Foliage dark green, healthy, and has been immune to attacks of leaf hoppers. Winner in the class for the largest Dahlia in diameter, at the 1927 Trenton, New Jersey, Show. Tubers, **\$10.00**; Plants, **\$5.00**

FRANCESS MINTON. Dec. One of the best if not the best yellow to date. Wonderful foliage on perfect stems, size averages eight inches and very deep. A lemon yellow distinct from most yellows. Stock very short. Good Dahlia critics pronounce this a winner. Tubers, **\$10.00**; Plants, **\$5.00**

GALLI-CURCI. (Lyndora Gardens.) Beauty, and no other word, can describe this curly petalled decorative. A flower of extreme grace and charm and one of the most beautiful of color combinations, brilliant salmon orange, intensified with gold tints, and the most sheen and lustre ever seen on a Dahlia. A sensation; it won undisseminated seedling prize at Camden in a hot class and first at Philadelphia, both in 1926 and 1927 for best established seedling. Tubers, **\$15.00**; Plants, **\$7.50**

GOLDEN DREAM. (Reed.) We grew this wonderful decorative in our gardens last year and judging from the comments of our visitors it was one of the best "Golds" in our trial gardens. The extra large blooms are held high above strong growing plants. Won two certificates in the official trial grounds. First prize at Boston and Mitchell, Neb. Ten-inch flowers are produced in abundance all season. Tubers, **\$7.50**; Plants, **\$3.75**

IDA PERKINS. Dec. (Perkins.) This clear white decorative won the Garden and Home Builder medal at Boston for the best New England Dahlia ever before shown at Boston, 1927. A true decorative with very great substance. Tubers, **\$7.50**; Plants, **\$3.75**

JANE COWL. Dec. (Downs. Prices.) Deep massive blooms of bronzy buff and old gold, blending darker toward the perfect center. Broad petals, with just enough twist to add the refinement so often lacking in the largest dahlias. A stem of unusual strength holds this giant decorative over a bush of ideal growth, while the foliage is the thick leatherly kind that insects seldom bother. Miss Jane Cowl selected this variety at the A. D. S. Exhibition at New York to bear her name. Also awarded first prize for undisseminated seedling and the Garden and Home Builder sweepstake medals at New York. Awarded Certificate of Merit at Storrs Trial Gardens, 1927. Tubers, **\$10.00**; Plants, **\$5.00**

JEAN HARE. (Fisher & Masson.) A distinctive exhibition hybrid cactus of peculiar formation and unusual charm. When flower first unfolds it is a beautiful golden yellow, as it matures it becomes an apricot buff and the outer row of petals a golden bronze. A flower that attracted unusual attention both in the field and at the shows. One of the most attractive autumn colored Dahlia on account of its size and great beauty. Free bloomer, medium to tall habit of growth, perfectly stiff upright stem and heavy dark green foliage. Tubers, **\$7.50**; Plants, **\$3.75**

JOY D. A clear silvery lavender with a trace of white. Grows tall and has beautiful fernlike leaves. Flowers never show center. Tubers, **\$7.50**; Plants, **\$3.75**

JUDGE SHINN. (Kemp.) One of the best hybrid decoratives, and an outstanding variety at the Eastern Show this season, winning silver medal at Atlantic City for the best unnamed seedling. A large artistic Dahlia of great depth. Color a pleasing combination of gold and salmon, gold predominating at the center and salmon in the outer petals. The plant is a tall vigorous grower. This Dahlia was named for the Hon. C. C. Shinn of Atlantic City.

Tubers, **\$10.00**; Plants, **\$5.00**

KEMP'S VIOLET WONDER. (Kemp.) The predominating color of this fine decorative Dahlia is naphthaline violet, with an undertone of royal purple, lightening to faint bluish violet at the tips of petals. Deep flowers are as near perfect in form as possible, growing ten inches and over in diameter. Stems are stiff, holding flowers a foot above the foliage. A truly outstanding variety keeping well when cut. Plant is a prolific bloomer, strong grower of spreading habit not susceptible to sucking insects. Awarded Dahlia Society of New Jersey Certificate, A. D. S. Gold Medal Ribbon at New York in 1927.

Tubers, **\$10.00**; Plants, **\$5.00**

LA GOLONDRINA. H. D. Silvery white shaded phlox purple, the general effect being a light lavender, very large flowers of distinct and pleasing shape, held well above the foliage on good stems. Height four feet.

Tubers, **\$7.50**; Plants, **\$3.75**

LAVENDULA. Dec. I consider this to be the best large flowered lavender Dahlia I have seen. The color is a pleasing shade of lavender throughout. It is a strong grower with fine stems and habit, and was universally admired by all who saw it in bloom. Height five feet.

Tubers, **\$3.50**

LESLIE. Dec. A snappy red and one that gets the public. Different than most reds, a profuse bloomer with good foliage and stem. If there were not so many reds this flower would demand a much higher price.

Tubers, **\$5.00**; Plants, **\$2.50**

MARGARET KNIGHT. Dec. A very beautiful combination of red and white with a faint gold tip, good stem and fine foliage, something new.

Tubers, **\$5.00**; Plants, **\$2.50**

Tubers, **\$10.00**; Plants, **\$5.00**

MARION GEORGE. H. C. A new tricolor of white, bronze and yellow very attractive. I grew this last year and it is well worth growing. A novelty on the best of stems making a fine cut flower. Blooms are six and seven inches without forcing.

Tubers, **\$7.50**; Plants, **\$3.75**

MAY TROWER. (Seal.) We cannot find words to paint a picture of this wonderful Dahlia, in the minds of those that admire the beautiful coloring found in this creation of Mrs. Seal's. The coloring saves it from becoming just another huge Dahlia, azure gold tinted with mauve in such a way that it leaves a lasting impression. The stems are exceptionally long and stiff. A wonderful exhibition variety.

Tubers, **\$7.50**; Plants, **\$3.75**

MRS. SHIRLEY SHAW. Dec. Ox blood red shaded maroon, this magnificent flower sometimes has a tendency to come with crooked stems, but notwithstanding this fact was more universally admired than any Dahlia in our gardens. The wonderful dark rich color and immense size capture everyone. Height five feet.

Plants only, **\$5.00**

Tubers, \$7.50; Plants, \$3.75

SPOTTSWOOD BEAUTY. Dec. This is one of the most beautiful varieties in the list of 1928 introductions. Color is a clear Chatena pink, shading to lemon yellow at base of petals. Flowers seven to eight inches in diameter, of great depth, and are borne on long cane like stems well above the foliage. Plant is a very healthy grower, and attains to a height of six feet and over. One of the most beautiful pink dahlias ever introduced. Tubers, \$7.50; Plants, \$3.75

Tubers, **\$2.00**

CAMDEN COURIER. Dec. (Wolfrum.) This massive Exhibition Dahlia is not only very large in size, but has great depth, on long straight stems. Flowers light cadmium overlaid grenadine red. Of artistic formation. A giant plant. This huge flower was very popular. Tubers, **\$2.50**

CATHERINE COOPER. Dec. This is one of our favorites both on account of its beautiful color, which is a rosy lavender, and its habit of profuse blooming. This color description does not do it justice, as there is something about it you cannot describe, so many linger by it in the garden and say "wonderful." The stems are fine and the flower stands high above the foliage. Tubers, **\$0.50**

CATHERINE WILCOX. Dec. In this we have a medium sized flower of very refined form and a most attractive color; white, points of petals tipped cerise. Very free bloomer. Tubers, **\$0.50**

CHARLOTTE FARGO. Dec. This fine large yellow decorative we think is one of the best yellows we have originated. It is a semi-dwarf plant, a very strong grower and a Dahlia that is well liked by everybody. It has strong stems to carry the flower above the foliage. It is a profuse bloomer for such a large flower. It is fine for exhibition. Tubers, **\$2.50**; Plants, **\$1.25**

CHAMPAGNE. Dec. This is a very large and beautiful flower. The color is rare and delightful, warm autumn shades varying from burnished copper to a dull golden champagne and chamois. The bushes are covered with massive blooms which are held on long rigid stems and lasting well when cut. Tubers, **\$1.00**

CHARLES STRATTON. D. A new combination, salmon pink and yellow buff shades that blend and make a nice unusual flower, very large and attractive. This is one new Dahlia you should grow. Tubers, **\$1.00**

CHEMAR'S MASTERPIECE. A huge incurved cactus flower of orchid pink or soft orchid coloring which everyone knows. The flowers are extra large of perfect form, under all conditions; are so placed on extra long stems that they show their beauty to the best advantage. It is a seedling of Mrs. I. de Ver Warner and a counterpart in every way except Masterpiece is an incurved English cactus producing ten-inch flowers in abundance. This has won a certificate at the New Jersey Trial Grounds. Tubers, **\$7.00**; Plants, **\$3.50**

CHEMAR'S PURITY. A most perfect white decorative seedling from Jersey's Beauty which it resembles in everything but color. The petals are long and straight, the center excellent, and size immense. Stems extra long and stiff holding flowers high up above a strong sturdy plant. When the flowers first open they show a slight trace of ivory near the center. This gradually changes to a pure white at maturity. Certificate at the A. D. S. Trial Grounds in 1927 and scored eighty-six (86) at the Nebraska Trial Grounds. Tubers, **\$5.00**; Plants, **\$2.50**

CHEMAR'S QUEEN. Dec. A very large bright yellow. A color that you will never tire of: there is no trace of any other color in the flower. Average nine inches without forcing; the large flowers are held perfectly erect on the long cane stiff stems. As a seedling L. C. a twelve-inch flower, won the certificate for the best Dahlia not in commerce. This was in 1923. The bush is a vigorous grower of average height, and is particularly striking in the garden because of the sharp contrast between the quantities of yellow blooms rising well up above the heavy dark green foliage. The flowers keep a long time when cut. It will grow in water. We firmly believe that this **CHEMAR'S QUEEN** will be one of the most popular Dahlias when it becomes generally known. JEAN M. MISSUD. H. C. (Roach.) It gives me great pleasure to name this Dahlia for one of our greatest musical conductors, known the world over, who is entering his fiftieth year as conductor of the Salem Cadet Band, which he has made famous. This Dahlia will not grow as large as some varieties, but its beauty more than makes up for its size. It is a very robust growing plant and has stems that can be cut three feet long if wanted. The color is hard to describe as it has four colors. As the flower opens it shows a rich yellow with white tip, but as the flower matures it changes to yellow center shading to pink with white tip, reversed of petals shows streaks of salmon and white tip.
