SUNNYSIDE DAHLIAS

GEORGE WOLFRUM

BERLIN, N. J.

1929

ETHEL A. WOLFRUM

A SUNNYSIDE CREATION

HYBRID CACTUS

This beautiful dahlia has proven to be all that we claimed in 1928. The plant is a wonderful grower, producing in abundance wonderful large blooms, of great depth and perfect in formation with stems of the best.

The exquisite color of this refined flower is a deep shade of thulite-pink enhanced by a soft shade of chalcedony-yellow, which predominates the full centers.

You cannot appreciate this delightful dahlia until you have grown it, as the illustration does not do it justice.

Tubers \$5.00

Plants \$2.50

Greetings

In presenting our catalogue for the season of 1929 we, at this time wish to thank our customers for their generous patronage during the past year, and also for the kind words received of their success.

Please note in this catalogue that we offer our patrons, a list of varieties that have proven worthwhile. We offer in tubers, strong field grown divisions, having been grown in soil that has been fed yearly with well rotted manure and raw-bone meal, thus producing a crop of tubers full of vitality.

The plants we offer are strong and well rooted and will bear as fine a bloom as the tubers.

In describing varieties, as usual, we have eliminated lengthy descriptions, dwelling on the essential points only; such as formation, size, stem, substance, color and floriferousness.

TERMS AND GUARANTEE

ORDER EARLY: Kindly place your order early, which will be acknowledged the same day received.

SHIPPING TIME: All orders will be shipped in May, Parcel Post Prepaid.

TERMS: Cash with order, post office, or express money order or your own personal check.

GUARANTEE: We guarantee all tubers and plants to be healthy and true to name. Tubers that fail to sprout in three weeks will be cheerfully replaced upon their return.

We guarantee our plants to be strong, well rooted and to reach you in perfect condition. **Should any arrive otherwise, "upon their immediate return,"** we will gladly replace them.

Growing The Dahlia

Select your dahlia garden in a sunny, open location, free from trees and perennials, if possible. The dahlia will grow in any kind of soil, but prefers light, loamy ground. If your soil is of heavy clay, give it a liberal application of either sharp sand or coal ashes, thus making the ground more porous and providing better drainage.

Broadcast your dahlia garden the fall previous with well-rotted barnyard manure to a depth of four to six inches, spading it well under.

In the early spring, spade the soil again, keep it fine and mellow until planting time. Divide your plantings into two; if you have plenty of stock, make three plantings.

June 20th—Make your first planting. Mark out your dahlia garden, four by four feet, if you have the room to spare; if not, three feet will do. Now drive stakes five feet long, allowing twelve inches to be driven into the ground; dig holes six inches deep, at the base of each stake; lay the tuber flat down in the hole with the eye end of the tuber next to the stake, three inches from it, with the eye up; cover it up with four inches of soil. When the sprout has grown four inches above the ground fill up the hole. Only one sprout, never more than two, should be allowed to grow from a tuber. When your plant has grown four sets of leaves, pinch out the top (or the fourth set of leaves); this checks the upward growth, will cause your plants to branch and keep each variety a uniform height. When your plants have attained a height of two feet, work in well around each plant a generous handful of raw bone meal (you have of course been cultivating and hoeing your dahlias well up to this time).

You have pinched out the top of each plant, side shoots or sprouts are growing and buds are appearing. Select the crown or center bud (if it is perfect); if the crown bud should be deformed, choose the best-looking bud of the three that appear on the main branches. At this time disprout the side shoots growing above the three sets of leaves and also rub off all flower buds except the bud that you select for your flower. You will now have a branch or branches, with one bud and stems for your blooms when they are fit to cut, two or three feet long.

Make your second planting the first week in July, and follow the above method. Follow with your third planting July 15th, but do not pinch out the top—just let this late July planting grow upward as they will. As soon as these dahlias of the third planting are well up, give each plant a good handful of high-grade potato fertilizer.

By making three plantings your dahlia garden will return you blooms of the highest quality the entire season.

After frost has killed the tops, dig the tubers carefully; remove the soil from the roots and store in a box or bin in your cellar, safe from frost and heat—a temperature of 40 degrees is best. During the winter, on nice sunny days, open your cellar windows and give them a breath of fresh air.

In the spring divide your clumps, allowing one or two eyes to each tuber for planting out again.

SUMMARY:—Select a sunny, open location for your dahlia garden; keep the soil well spaded, fine and mellow before planting, well cultivated and hoed after planting. Use raw bone meal or high-grade potato fertilizer in addition to well-rotted barnyard manure.

Do not plant too early; do not disbud too early. When your dahlias reach a height of two or three feet, tie them securely to their respective stakes. Keep your tubers after storing away from heat and frost.

VERNON DUBLE
A SUNNYSIDE CREATION
DECORATIVE

We feel that we are justified in saying that this is a handsome and meritorious dahlia.

The plant grows extra tall and vigorous, the blooms are very large in size and of the finest form that can be had in a true decorative. The stems are strong and stiff, holding the massive bloom very erect. The color is a beautiful shade of light congo pink with a blending toward the center of antimony yellow, a glistening sheen is pronounced over the entire bloom. On the reverse of petals there is a slight coloring of light mallow purple. Extra fine.

Tubers \$5.00

Plants \$2.50

AMERICAN MAID
A SUNNYSIDE CREATION
HYBRID CACTUS

A desirable dahlia; the plant grows tall, is free and open, and bears blooms in great abundance "the whole season," which are of fine form, always having full centers until frost.

The stems are strong and wiry holding the blooms up well, in a graceful manner, without the slightest weakness.

In color this new dahlia is a combination of flame scarlet suffused dull gold.

Don't fail to include "American Maid" in your new collection if you want good size blooms and many of them on fine long stems. Fine for cutting and a grand keeper.

Tubers \$5.00

Plants \$2.50

General List of Choice Dahlias

	Tubers	Plants
ALICE WHITTIER (Hybrid Cactus)—A very large deep bloom Color clear sulphur yellow. Stem long, carrying bloom well above the foliage. Plant tall and unusually vigorous.		\$1.00
AMBASSADOR (Cactus)—One of the finest dahlias ever offered. The color is a soft yellow buff, shaded salmon pink, flowers are immense size; fine formation, held erect on stems that are strong and stiff. Very good.	\$.50	
AMERICA'S GLORY (Decorative)—A grand fancy decorative dahlia. The color is a light bright scarlet, evenly tipped purest white.		1.50
AMUN RA (Decorative)—An immense dahlia, of the richest shade of bronze and copper, a splendid keeper, with stems that are long and stiff	.50	
ARTHUR R. GEMBERLING (American Cactus)—The plant is a strong, robust grower with rich dark green foliage. The flowers, which are composed of long, narrow petals, are produced in great abundance. The stems are extra strong and stiff as a cane. Formation perfect and a grand keeper. Color a clear, lively piric yellow, delicately veined, on the reverse soft thulite pink show up pure yellow under artificial light.	1.00	
ARTHUR TWITCHETT (Cactus)—American cactus, coloring a faint blush pink, turning to white late in the season. The large bloom is composed of many incurved petals. The stems are excellent and the plant is a generous bloomer	.50	
AVALON (Decorative)—Beautiful shade of rich lemon yellow. Fine form, on extra long stems; fine cut flower	1.00	
BLACK JACK (Decorative)—The deepest maroon dahlia of any type. Color is so dark, it might almost be described as black. Flowers are very large and full and carry the blossoms well above the leaves.	1.00	
CALIFORNIA BEAUTY (Cactus)—Probably the nearest approach to pure copper, a flower of excellent form and dainty ap- pearance, borne on good stems and very floriferous; a splendid cut flower	.75	
CALIFORNIA SUPERBA (Decorative)—A beautiful pink flower which has created quite a sensation in the West. It is com- posed of narrow petals of a delicate shade of pink and tints gradually to a white center. The blooms will average from nine to ten inches in diameter	.50	
CALVIN COOLIDGE, JR. (Decorative)—A huge flower borne on strong straight stems. Color a beautiful shade of rose pink with salmon suffusion. Each petal edged distinctly with gold. Fine	.75	

	Tubers	Plants
CAMDEN COURIER (Colossal Decorative)—The flowers, which are produced in great abundance, are perfect in formation. The petals are of good, thick substance, and while the blooms are of great size, this dahlia is not coarse. The stems are very long and straight. In color "Camden Courier" is a light cadmium, overlaid grenadine red. The blending of these two colors produces a shade of rich bronze, which is intensified by a golden glistening sheen spread over the entire bloom. For a short color description, the color could be called a rich golden bronze. The plant is a giant, with dark green, luxuriant foliage, strong and sturdy. A free grower, of branching habit. Should be given plenty of space to grow, as the plant grows as massive as its blooms. Admired by all who saw this huge dahlia.	\$1.50	
CARMENCITA (Decorative)—The low growing bush with its many blooms of large, artistically formed flowers, is a pleasing sight. Color a bright lively yellow; striped red. Very good.	.50	
CHAMPAGNE (Decorative)—Immense flowers on stems as stiff as a cane. Color a beautiful shade of dull gold with chamois shadings, free bloomer. Good for all purposes	.75	
CHARLES STRATTON (Hybrid Decorative)—Flowers are very large and deep, blooms profusely, stems good. Color, pale gold shaded and tipped with old rose	1.00	
CIGARETTE (Hybrid Cactus)—Flowers large and deep; extra good stems. Color a creamy white, heavily edged orange.	.50	
COURONNE D'OR (Decorative)—Rich golden apricot, reverse of petals rosy carmine which reflects in a luminous manner to the face of the flower.		\$1.00
DARK EYE (Hybrid Show)—A very fine flower with a good strong stem. Color a beautiful white, tinted flesh pink, at center; a coloring of carmine gives it the appropriate name.	.75	
DON WILLIAMS (Decorative)—A pleasing novelty that captures the eye at once. A seedling of Earl Williams. The color is a soft shade of clear lavender, each petal being tipped white. Fine stems, strong plant and low growers	.50	
EARL WILLIAMS (Decorative)—A huge dahlia with great depth; color scarlet tipped white, good stems. Admired by all	.50	
EL GRANADA (Hybrid Cactus)—The high bushes are covered with large deep flowers, with closed centers, from early until late season. Stems long and stiff. Color is a vivid orange showing at the tips a creamy yellow reverse. Fine	.75	
ELITE GLORY (Decorative)—Large flower, giant in size. Color, rich red; stems good		1.00
ELLINOR VANDERVEER (Decorative)—This beautiful dahlia is all that can be asked for. Plant is tall and open; a very free bloomer. Stems are long, straight and stiff. Color an exquisite shade of satiny rose pink. Extra fine	.75	
ELSIE DANIELS (Hybrid Cactus)—A fine dahlia of good form with splendid stem. Color, pale violet orchid with center of waxy white. Plant semi-dwarf	1.00	
EMPIRE (Cactus)—The strong vigorous plants are loaded the whole season with blooms of good size and fine formation. Stems are long and straight. Color a beautiful shade of raspberry red which deepens at the center. Very choice	.75	
FLORENCE MICHELL (Decorative)—The plant is a very tall and strong grower; the flowers are immense, held on good, long straight stems. Color an exquisite combination of creamy white and shell pink. Grand.	1.00	

	Tubers	Plants
FORT WASHINGTON (Decorative)—A strong growing plant, with immense flowers of very deep velvety maroon, held well up on strong stems		\$1.25
FRANCIS BURNS, JR. (Decorative)—Beautiful rose pink, creamy center, fine stem and free flowering, fine for cutting. Must be seen to be appreciated	\$.35	
FRANCIS LOBDELL (Hybrid Cactus)—A beautiful dahlia that you will be sure to love; color a soft shade of mallow pink, shading to white in the center. The stems are strong, stiff and straight. Good in every way	.50	
F. W. FELLOWS (Cactus)—Large, orange-scarlet flower, with long, straight petals often eight inches across, held on good stem	.50	
GEORGE AEUGLE (Decorative)—We offer in this dahlia all that is desired. The tall, vigorous plant with its fine light green foliage is very open. The immense flowers, which are very full and deep, are held erect on extra strong, stiff stems. Color a rich wax yellow suffused on the reverse dragon's blood red. Fine for exhibition and cutting. A grand keeper.	1.50	
GLADYS BATES (Cactus)—A large dahlia of good formation, pleasing shade of tan in color with a slight shading of rose on the reverse of petals, good stems and a profuse bloomer	.50	
GLADYS SHERWOOD (Hybrid Cactus)—Flowers often nine inches in diameter, of fine form and are held erect on strong stems	.50	
HALVELLA (Decorative)—Color is a lovely shade of rose-pink, flowers very large, which stand erect on long, stiff stems. Good for all purposes	.50	
HARRY SHELDON, JR. (Decorative)—Flowers are large of good formation; plant is low growing; stems medium. Color a bright shade of lavender pink, with creamy white center. Strong grower	.50	
INSULINDE (Hybrid Decorative)—The finest and most artistic dahlia of distinct form with petals twisted and curled. Stems are two to three feet long, and flowers nine to ten inches across. Color a rich saffron yellow, shaded russet orange. One of the grandest of Holland's introductions	.50	
ISLAM PATROL (Hybrid Cactus)—The flowers are large and held graceful on long stems; fine formation and a good keeper. Color a rich, dark velvety scarlet, tipped and flushed with gold. Very choice	.75	
JEAN CHAZOT (Cactus)—This delightful Autumn-tinted dahlia is a delight to all who have grown it. Its color is of olden bronze tints throughout; in form it is perfect. Fine free grower, an early and profuse bloomer, with stems that are long, stiff and wiry.	.35	
JERSEY'S BEACON (Decorative)—Color, bright scarlet with a paler reverse. The flowers are very large of fine form with good stems. A vigorous grower		1.00
JERSEY'S BEAUTY (Decorative)—A true decorative flower of real merit, excellent formation; strong, straight, stiff stems large in size, good depth and good keeper. Color a beautiful clear rose-pink	.50	

	Tubers	Plants
JERSEY'S IDEAL (Decorative)—Very large flowers of good depth. Color, described by the originator as a lavender-pink, varying to phlox pink, but with us this season the color was a light mallow purple		\$1.00
J. W. DAVIES (Decorative)—The dahlia is a favorite with everyone. An early and profuse bloomer; fine stems, good open plant. Color a deep cerise at the center, shading lighter toward the outer petals. Always in demand	\$.50	
KITTIE DUNLAP (Decorative)—A beautiful dahlia that blooms freely all season. The immense flowers have great substance and are borne on long, firm stems. The color is the delightful shade of the American Beauty rose	.50	
LADDIE (Decorative)—Large, deep flowers of fine formation; stiff, erect stems. Color soft yellow, shaded rose and tan on outer petals. A very choice variety	.50	
LITTLE JEWEL (Rosette)—A lovely little blossom that grows about two inches in diameter. Fine leaved foliage. The plants are loaded with blooms on stiff stems. Fine for florist work and garden. Color a soft shade of peach blossom pink	.35	
LOGAN'S WHITE (Decorative)—This lovely pure white flower must be seen to be appreciated. The blooms are very large, of good substance, waxy white, stems good, very free flowering	.75	
LOLITA VELASCO (Cactus)—A perfect white cactus; the stems are long and stiff; a fine keeper; good for both cutting and exhibition. A splendid dahlia	.50	
MABEL SNYDER (Decorative)—This variety has a very pleasing appearance and will captivate you at once. The strong, tall plants are covered with very large flowers, composed of broad pointed petals reminding one of a pond lily. The stems are long, straight and wiry, holding the blooms which are of a beautiful formation in a graceful manner. The color a soft shade of strontian yellow, outer petals overlaid soft vinaceous orange slightly colored on the reverse pale rosalane purple. Fine for exhibition.	1.00	
MAH JONG (Hybrid Cactus)—On a very tall robust plant with many branches grows this new dahlia. "Mah Jong," so named on account of its vivid oriental coloring, which is a lively shade of scarlet red shading to a pale lemon yellow at the base of each petal. The flowers, always with full centers, are very large and of great substance. Fine for exhibition and cutting as it is a splendid keeper.	2.50	
MARGARET MASSON (Decorative)—The color a beautiful shade of silvery rose-pink, an immense flower on a stiff stem. Free bloomer and wonderful for its keeping quality. Good	1.00	
MARGARET STARKE (American Cactus)—"Margaret Starke" is a dahlia of unusual merit and can be used for every purpose. American Cactus in type, fine form, full centers and all that could be asked for in a stem. The plant is of medium height, free and open; covered the entire season with good size blooms colored a soft Spinel pink. A grand keeper.	5.00	2.50
MARGARET WOODROW WILSON (Decorative)—A very deep bloom of immense size with good stem. Color, creamy white, suffused opalescent pink; reverse of petals, phlox pink. For garden and exhibition	2.00	1.00

	Tubers	Plants
MARIPOSA (Hybrid Cactus)—A perfectly formed hybrid type composed of long, narrow, incurved petals which twist and curl. A delightful shade of pink, intensified by deeper colored center. Stem and foliage of the best	\$.75	
MARJORIE LEIGH (Decorative)—Picture a very tall plant, strong, sturdy, of upright growth, with glossy foliage of a medium shade of green. Now leave this green setting and let your eyes rest on a mass of beautiful dahlia blossoms, large in size, fine in form; stems that are long, straight and stiff, holding erect, high above the plant, their blooms. The color, the softest shade of Jasper pink, tinted throughout pinkish buff with a reflex of rich begonia rose. A rare color combination.	1.00	
MARMION (Decorative)—Golden yellow, reverse of petals suffused with bronze, shading to deeper bronze toward center; large flowers held well up above the foliage.		\$1.50
MILLIONAIRE (Decorative)—Most delicate lavender with faint pink cast. The immense flower of unusual depth stands erect on its stem	.50	
MISS AMERICA (Hybrid Cactus)—This artistic dahlia with its warm shades of autumn colors has been a decided success with us again the past season. The first dahlia in the fields to bloom and still loaded with blooms and buds when Jack Frost made his appearance. Miss America in color is a rich orange buff, blending toward the center lemon chrome, the long petals are wavy, twisted and curled, colored on the reverse light Jasper red. The stems are stiff and wiry, the large blooms have no trace of stiffness or heaviness. Just a real artistic dahlia that has proven a favorite.	1.00	
MRS. CARL SALBACH (Decorative)—This variety is a mauve pink shading to white. The flower is very large, with long stout stems	.35	
MRS. E. C. BOSTON (Decorative)—The very best white decorative, for it is good in any climate and does not burn in the sunshine. Large, regularly formed flower of great depth, which holds its centre to the end of the season. Best stem and good for any purpose	.50	
MRS. EDNA SPENCER (Cactus)—A flower of delicate and exquisite shade of orchid pink. Good formation and stem.....	.35	
MRS. ELEANOR MARTIN (Decorative)—This fine dahlia impresses all flower lovers. Fine in formation, profuse in giving blooms, with its rich coloring of deep rose and violet produces the fitting color described as "Mulberry." A very choice variety	1.50	
MRS. I. DE VER WARNER (Decorative)—One of the most wonderful dahlias in existence—a universal favorite. Color a clear, bright lilac rose. The plant is a strong, open grower, and the giant flowers can be produced on stems of almost any length you may desire them	.50	
MRS. ROSE K. DARNELL (Decorative)—The large flowers which are very deep and of perfect formation are of true decorative type; having at all times thick, full centers. The stems are extra strong, long and stiff, holding the blooms very erect, which grow above the foliage on a sturdy bush of medium height very free and open. The plant is an easy grower and a profuse bloomer. Color a rich luminous old rose; tinted throughout on the reverse a soft tourmaline pink. Satisfactory you will say.	2.00	

	Tubers	Plants
MRS. JOHN M. ROOT (Hybrid Cactus)—The flowers grow to a great size; the plant is a fine grower, very tall and vigorous. Stems long, straight and stiff. Color a pure canary yellow. Very fine	\$.50	
NEVADA (Decorative)—A fine pure white, good stems and habit.	.35	
PAPILLON (Hybrid Cactus)—A strong, free bloomer of great size fine form and stem. Color, light old rose with golden shading. Always in demand	.50	
PATRICK O'MARA (Decorative)—Soft orange buff slightly tinged with rose. Flowers of medium size and good form, produced on long, erect stems	.35	
PAUL MICHAEL (Decorative)—One of the largest dahlias to date. Beautifully formed petals which are pointed, curled and twisted. Color, deep buttercup yellow, shaded with old rose, making it an ideal dahlia	.50	
PAUL REVERE (Decorative)—The flowers are large, full centered, and of good depth, and are a rich crimson color, overlaid with a brilliant scarlet satiny sheen.		\$1.00
PINK PERFECTION (Decorative)—A sport of Hortulanus Fiet; same form and habit. Color bright mauve pink, shading lighter at the tips	.35	
PIONEER (Decorative)—A large flower held on long, wiry stems; color dark mahogany red; profuse bloomers; ornamental foliage	.35	
PRIDE OF CALIFORNIA (Decorative)—A large red decorative, held on extra good stems. Fine for garden and exhibition.	.35	
PRINCESS PAT (Hybrid Decorative)—Flowers are very large, of perfect form, on good stems. Color a very pleasing shade of old rose, which illuminates under artificial light.	.50	
QUEEN OF THE GARDEN BEAUTIFUL (Decorative)—Primrose yellow. A large well formed flower on stiff stems. Very good.		1.00
ROBERT TREAT (Decorative)—Plants grow strong and produce many blooms of great size and depth, with full centers. Stems are straight, long and erect. Color a lively American Beauty rose shade. Very fine	1.00	
ROOKWOOD (Giant Decorative)—A remarkably distinctive dahlia in every way; habit of growth, heavy, vigorous and spreading, but dwarf, unusually free flowering, coming into bloom early and producing 100 per cent. perfect flowers to the end of the season. The form is absolutely perfect and entirely distinct, composed of peculiarly curled or twisted petals, in color a pleasing shade of cerise-rose, which does not vary during the entire season	1.00	
ROSA NELL (Decorative)—This dahlia cannot be recommended too highly, as it has all of the good qualities which a dahlia is expected to have; that is, perfect size, stem and form. Color commonly described as a bright rose, but really a bright Tyrian rose	.50	
ROSE FALLON (Decorative)—The color is dark orange, tinted with amber and salmon. Massive blooms stand well above a vigorous growing bush. Fine.		1.25
SAGAMORE (Decorative)—Fine cut flower variety, good form and stems. Plant is a vigorous grower. Color, amber gold overlaid orange buff tinted soft salmon rose. Grand keeper.	1.00	
SEÑORITA (Hybrid Cactus)—A fine, free flowering variety, with long, straight, stiff stems. The color a very rich shade of velvety scarlet. Fine	.35	

	Tubers	Plants
SHELIKOFF (Decorative)—A dahlia of good substance on erect stems. Color, deep garnet. Type and form very good	\$.50	
SHIRLEY BROWN —A Hybrid Cactus of the true type, with a delightful shade of old gold coloring which is one of its chief attractions. Flowers are borne well above the foliage on long, wiry stems. A large, deep flower, recommended for all purposes	.50	
SHUDOW'S LAVENDER (Decorative)—A beautiful lavender decorative of exquisite coloring, fine flowers held on long, stiff stems well above the foliage. A wonderful dahlia	1.00	
SISKIYOU (Hybrid Cactus)—The plants are low growing but very sturdy. Stems are straight and stiff. The flowers grow easily 10 inches across. Color is a beautiful shade of lavender pink enriched with tints of mauve. A fine dahlia	1.50	\$1.00
SKAGERRAK (Hybrid Cactus)—A lovely, clear lemon-yellow, large in size, with good depth. We have grown this dahlia for three years and cannot praise it enough—its fine shape good, long, straight stems and its free flowering habit make it all that is asked for. Just a real good dahlia	.75	
SPORT FELLOWS (Cactus)—Identical in every way of the much-admired F. W. Fellows, but a lovely shade of deep buttercup yellow. Fine for all purposes	.50	
SUNNYSIDE (Hybrid Cactus)—We have been waiting with patience to introduce a dahlia that we might fittingly call "Sunnyside." We have been finally rewarded. There is nothing like our new dahlia on the market that we know of. The immense flowers, always with full center, are of Hybrid Cactus type. The petals are long and flare back, almost meeting. The color is a clear shade of grenadine red greatly intensified with metallic shadings. The plant grows tall and vigorous. The stems are straight and stiff as a cane. An early profuse bloomer making a grand vivid spot in the garden. For all purposes.	2.00	
T. A. LEONARD (Decorative)—This dahlia never fails to give you an abundance of fine flowers which grow large on fine, strong stems. Color a bright carmine rose. A choice dahlia.	.50	
THE LEMONADE (Decorative)—Color pale lemon yellow. Blooms large, carried on excellent stems. Form full with good depth and center, vigorous grower. Excellent for exhibition.		1.25
THE U. S. A. (Decorative)—The mammoth flower of deep orange; that very unusual color so hard to obtain in the dahlia. It beats everything for color yet produced.	.35	
THEODORE VAIL (Decorative)—Flowers of good size and form held well above the foliage on long, erect stems. Color, old gold, shading to apricot.	.35	
TRENTONIAN (Decorative)—The plant is tall and of spreading habit. The stems are long, stiff and straight and hold the large flowers erect. Color a deep bronze, described by the originators as that of an "Indian's Skin." Profuse bloomer and good keeper.	.75	
VENUS (Decorative)—A very attractive and lovely variety. Color is a soft shade of creamy white with lavender suffusion.	.35	
WIZARD OF OZ (Decorative)—One of the largest dahlias grown. The color is a glowing amber pink, soft in tone. The plant is a strong grower and flowers are held erect on stout stems.	.75

WE EXTEND to you and your friends
our usual cordial invitation to visit
our fields and grounds during the months of

SEPTEMBER AND OCTOBER

1929

Our farm, where acres of dahlias are grown for cut flowers and tubers, is located one-quarter mile south of the White Horse Pike on the Taunton Road; easily being located by the sign "Sunnyside Dahlias."

Our exhibition grounds and cut flower department are located one mile below Berlin on the Blue Anchor Road.
