Gladiolus Price List

SEASON 1930

The
Three
A's

Quality of Bulb
Quality of Bloom
Quality of Variety

FOREWORD. My thanks are again extended to those of my patrons who have helped to make the past year the biggest and best ever. Although last summer's drought, affected the blooms somewhat, the rainfall in the late summer came in time to develop the bulb growth and my stock of bulbs is fully up to that of other years.

This season I am introducing one seedling, elsewhere described. I am pleased to announce that I have other fine seedlings for 1931 and they will be introduced at a moderate price. I also hope to obtain photos of some of these to give you some idea as to size, placement, etc. It will pay you to keep these in mind for 1931.

Small orders are welcome, even if only for one bulb, but don't get the idea the big ones aren't welcome too!

Order early! Every season some varieties are sold out. You stand a better chance of having your order filled in full by sending it in now. A 25% deposit will hold orders for future delivery.

I have shortened my descriptions of the older varieties, as these are too well known to need comment, and directed your attention to the newer ones. Of course some of the older ones are as good, if not better, than many of the newest introductions. Understand! these are merely *my* opinions, and climate, soil, tastes and ideals sure do differ at times!

TERMS. Cash with order, delivery prepaid. No substitution of varieties. I believe in extra count! No orders taken for bulblets after April 1st.

DISCOUNT. When cash accompanies order the following discounts can be taken.

\$10 to \$25—10% of the amount of your order additional, your selection from Price List.

\$25 to \$50—15% of the amount of your order additional, your selection from Price List.

\$50 to \$100—20% of the amount of your order additional, your selection from Price List.

On orders over \$100 write for special quotations for entire lot.

WARRANTY. I exercise great care to have everything true to name and believe everything listed here to be 100% true, however should stock prove untrue or otherwise unsatisfactory, my liability to cease upon free replacement, or refund of purchase price, but, I won't be satisfied until you are.

Join the New England Gladiolus Society. Use subscription blank enclosed. Annual dues \$1.00

Join the American Gladiolus Society. Send annual dues of \$2.00 to Roscoe Huff, Goshen Ind. and receive the "Gladiolus Review" each month.

My New Seedling Gladiolus

KING ARTHUR

Shown for the first time in competition this past summer. Winner of 1st Prize in the seedling class at the Conn. Gladiolus Show held at Hartford, Conn. Winner of 1st Prize in the seedling class at the New England Gladiolus Society's show held in Boston, Mass. It also received the following awards:

Silver Medal,
Silver Medal,
Special Centennial Bronze Medal,
Special Award of Merit,

New England Gladiolus Society
American Gladiolus Society
Massachusetts Horticultural Society
New England Gladiolus Society

In the Nov. number of the "Gladiolus Review", Elizabeth T. and John R. Larus, in their article "New England Shows, Boston and Hartford" speak of it as follows: "It was in Hartford that A. A. Arenius first exhibited a tremendous ruffled mauve-lavender seedling with unbelievably fine substance, since named King Arthur. It received the award in the seedling class and repeated its victory at Boston, where it was adjudged the champion seedling and awarded in addition, an especial centennial medal by the Mass. Horticultural Society. A perfect self, it appears to have an enviable future, especially as it immediately demands attention because of its characteristic form and poise. The petals are so heavily ruffled as to appear fluted, with a size of flower most unusual in the ruffled type." Mr. Chas. E. F. Gersdörff, in the Nov. number of the "Gladiolus Review", refers to it "as a ruffled fluted monster, in deep Orchid coloring."

The above awards and comments show what others think of this seedling. For myself, I might mention that this being my first introduction, I naturally would like to introduce something outstanding and worthwhile. I think I have it in this variety. According to Ridgways color chart it is a light mallow purple, practically a self color, although upon close examination the outer edges of the petals show markings of a deeper color. The color is even more beautiful under artificial light or in the bright sunlight. It is heavily ruffled and fluted, thick petaled and of extra substance. The color keeps well until the last bloom on the spike is open. I have grown it 50 inches high with blooms 6 inches across, five open at one time. It is a medium propagator. I have received several flattering offers for the entire stock of this variety and numerous requests to set a price on a bulb and have done my best to discourage its introduction this season, owing to a very limited stock. I have however finally decided to introduce it. I have only 25 bulbs available, $\frac{3}{4}$ inch or over in size.

They will be sold at \$100.00 each

SPECIAL COLLECTIONS

Many folks desire a few glads to plant in the garden and do not care to fuss with the names of the varieties, just merely grow them for cut flowers. For this purpose I am offering a special collection of assorted named varieties but not labelled. Of course if you have a preference or dislike for certain colors, just mention it, and I'll act accordingly. If after blooming time you are not satisfied and pleased in every way, the purchase price will be refunded and no questions asked. Cultural directions accompany each order.

200 bulbs	\$5.00	size 1" and over, sure to bloom
100 bulbs	3.00	
50 bulbs	1.75	all prepaid.
25 bulbs	1.00	

Why not send in your order now before you forget! Will hold and ship anytime you say.

INDEX TO ORIGINATORS. (A) Austin; (B) Gladiolus Bill;
(C) Coleman; (D) Diener; (Dec.) Decorah; (E) European;
(El.) Ellis; (K) Kunderd; (Pf.) Pfitzer; (Sal.) Salbach.
