EDWARD BARTLING SEED CO.

Seed Merchants

Nebraska City, Nebr.

Have you had an Analysis of your Red Clover Seed? If not, and you desire to have a test made, bring in a pound sample and we will make a cleaning test, showing the percentage of waste, will also examine the seed for weeds and will tell you if your seed contains Dodder or Buckhorn. While we believe our test is right, we can not guarantee same. We make no charge for this service, and the sample you bring in you may take back.

Quotations are per bushel unless otherwise specified and are subject to market changes and goods being unsold. F. O. B. Nebraska City. Bags extra. Ask for prices on items not quoted. Terms cash.

Ask for Our Brand—B. B. B., Bartling's Best Brand.

We carry a complete line of all principal varieties of Garden Seeds. Special prices in quantity lots.

THE HAMBURG NURSERIES of Hamburg, Iowa, will open in our building a retail nursery store about March 15th, operating during the planting season or until about the first of May. In this NURSERY STORE one will find a complete line of fruit trees, ornamental shrubs and hedging, shade trees, vines, roses, etc.

The Hamburg Nurseries are well known, having 200 acres devoted to the growing of nursery stock, the management give the business their entire attention, therefore, when you buy a tree produced by the Hamburg Nurseries, it is a good one. For several years the Edward Bartling Seed Co. has asked the Sjulín Brothers, owners of the Hamburg Nurseries to establish a branch in our building, this year they do so.

Many of the best orchards in Nebraska come from the Hamburg Nurseries. Their trees are favorably known at Union, Brownville, Auburn, Shubert, Falls City and Atchison.

PLANT THIS SPRING—APPLE, PLUM, PEAR, CHERRY, GRAPE VINES, SHRUBS.

THIS PICTURE SHOWS CENTRAL AVENUE, BETWEEN 15th AND 16th STREETS, IN NEBRASKA CITY.

The building which bears the sign "Bartling Seeds" is used by the Edward Bartling Seed Company, the picture shows the front or office entrance, the warehouse and cleaning rooms do not show in this picture. The next building is occupied by the Dunlop Tire and Rubber Company's retail store, selling new tires, tubes, batteries and oil. The small box building is the quarters for the Fourth Ward Company, dealing in ice, its business is selling direct to the consumer at 40c per hundred pounds. The filling station handles the Sinclair Gas and is known as the Sixteenth Street Filling Station. These concerns invite your patronage.

SEED CLEANING AND GRADING.

We would like to have our patrons know that our machinery is equipped for the cleaning and grading of all kinds of seeds and grains. That these machines are at your service. We make a reasonable charge for doing the work of cleaning and grading your seeds; if you ~~offer~~ offer any seeds to your neighbors or desire to sow seeds on your own farm, we suggest that you ~~bring~~ bring them to us and we will put it in clean condition. Our machinery will hull, scarify and clean ~~any~~ any seed, will clean and grade red clover, alfalfa, timothy, oats, wheat and seed corn and all kinds of other seeds. These machines have served in other purposes, such as cleaning beans, and have separated mixtures of grains. They are at your service. We invite your inquiries and assure you prompt and careful attention to any job entrusted to our care. You will find our work satisfactory and our charges reasonable.

RED CLOVER SEED

During the past twenty years the acreage of Red Clover Seed has been reduced about 80 per cent, due principally to the high price of the seed and the popularity and low price of Sweet Clover Seed. This year Red Clover is lower in value than for fifteen years. This fact, and the adaptability of Red Clover to the farm in eastern Nebraska will bring a heavy demand for this seed next spring. At present values, using 8 to 12 pounds of seed per acre, it costs just a little more to seed red than sweet clover. The advantages are better hay, pastures, and the seed crop is remunerative.

We will save you money on Red Clover Seed. We are large handlers of Red Clover Seed. Our supply comes from the farmers in a section around and near Nebraska City, a territory that produces more Red Clover Seed than any part of Nebraska. Such seed is dependable and the kind of seed that will give you the best of satisfaction. Our stock is complete and we can offer the seed according to quality. We keep each grade separate instead of mixing it all into one grade. If you buy your Red Clover seed of us you get what is termed "verified origin." We will tell you the name of the farmer who sold us the seed and location of his farm.

Last year Nebraska grown Alfalfa Seed sold at a premium of \$4.00 per bushel, this year it is plentiful and is priced in line with Northwestern grown. Buy Nebraska grown Alfalfa Seed, it is the best for seeding in this section.
