A Sure Winner

Where the finest strawberries in the world have been grown for the past 18 years.

GIBSON

Michigan's Greatest Berry

That fact alone speaks volumes for its all around excellence. There is no question about its being one of the most profitable strawberries grown. A strong pollinizer and vigorous plant maker; thrives in all soils and climates. 2 to 4 large fruit stems on every plant loaded with great, handsome, glossy red berries.

Gibson possesses an exceptionally fine flavor. The ideal berry for table, market or canning. Its good appearance always sells it.

4.50 Per 1000

Everbearing Mastodon

Price
\$ 2.75 Per 100
17.50 Per 1000

Plant Mastodon—Prove For Yourself

that it will do all we and many others claim for it. We would not be widely advertising and recommending it for general planting everywhere, if we did not believe in MASTODON. We know that this is by far the best everbearer grown—with a mighty good spring bearing berry thrown in for good measure—and brings big profits to those who grow it.

There will not be nearly enough MASTODON to meet the demand.

When we say that MASTODON does produce 3 full crops in 18 months; is largest berry grown; bears 90 days after planting; brings more per box; is a delicious home use berry—you probably won't believe it unless you have grown them. We don't blame you.

\$537.00 From One Acre

This is the return a local grower received from GIBSON. You can do the same.

Concord

Grapes

The old reliable Concord—the standard by which all other black grapes are judged—a lifetime money maker! No vineyard or arbor is complete without Concord.

Note These Facts—

Concord produces big crops on any soil every year. After the first expense the cost of upkeep is but little. It is a profitable, permanent investment. Growers regularly make \$500 and more NET PROFIT per acre—you can do the same.

Vines Scientifically Grown

Our scientific methods are recognized by horticulturists as producing vines fully up to the standard of those grown in the east. They are even better adapted to the central west.

Our Concord vines are well rooted, and guaranteed to give perfect satisfaction. Best for market, eating and all home uses.

Prices

2-Year Medium—65c for 12; \$3.65 for 100; \$24.00 for 1,000.

2-Year Extra Large—\$1.20 for 12; \$5.95 for 100; \$39.00 for 1,000.

The Old Reliable

Victory Raspberry

Profitable Everywhere

One of the leaders in productiveness and size of fruit—a record of 19 pints on one bush in one season. And again, bush for bush, acre for acre, it has produced nearly TWICE AS MUCH FRUIT as Cuthbert. In fact, it is a Cuthbert seedling, closely resembling that fine variety.

No practical berry grower can afford to overlook VICTORY. Positively one of the most profitable Red Raspberries grown.

Price
\$2.60 per 100

Every Normal Human Being Wants — Health, Comfort, Profit —And This Means You!

The home owners in this country of ours are becoming "Garden Conscious." It began last spring, increased during the summer and fall, until now you can't pick up a good magazine—such as Country Gentleman, Better Homes and Gardens, Ladies' Home Journal—without finding a timely article on planting fruits, flowers and shrubs about the home. To be in line with the times, every home must be well planted, attractive, beautiful. Incidentally, when you plant you add much to the value of your home.

We'll wager you can't look over the plants, trees, shrubs and flowers shown and described in this book without finding at least one that for some reason you would like to have. Look them over carefully now.

3 Big Reasons Why You Should Plant Baldwin Stock

This Spring

"It's not a Home-

until it's **PLANTED**

1. Quality—

First of all you want the best, whether you are buying a new hat or rose bush. Forty-one years constant experience has taught us how to grow the kind of nursery stock that will do what you have a right to expect. Don't be satisfied with any other.

2. Service—

Our long experience is at your command. We are ready to help you before you order with suggestions, whether you plan a commercial fruit farm, a home garden, a landscape planting, or a rose and perennial bed. When your order is shipped, it is filled with first quality stock and packed so that it will grow after you plant it. And afterward we want you to call on us with any growing problems you have.

3. Price—

You can pay a lot more than our prices for nursery stock, but why should you? You want the best but you don't want to pay more than a fair price for it. On the other hand, you know you can't afford to save a few cents on the first cost of stock and lose it many times over later. Our price policy over the years has been to sell as low as possible and still assure our customers the best in quality and service all the way through. Thousands of satisfied regular customers prove that this is right.

**Look Thru Our Specially Priced Offers

"How to Plant the Home Grounds"

By E. H. WILSON

Mr. Wilson is one of the foremost Horticulturists in the world, having been in charge of the famous Arnold Arboretum at Boston for many years. His clear, simple and helpful suggestions for planning and planting home surroundings are invaluable if you plan any kind of home planting. Well illustrated with photos and drawings.

We will mail this splendid booklet free to any one ordering \$3.00 or more; on smaller orders include 10c extra for it. If you want a copy of the booklet alone send 10c in stamps and we will mail it at once.

Plant Happiness

May We Have A Minute Of Your Time?

If You are Like Most of Us
You Want to Know the
Folks with Whom You
Do Business

At the start, we are at a disadvantage trying to tell you about our plants, our way of doing business, and ourselves through the means of a catalog. We are common, everyday, friendly folks who take pride in what we have accomplished and what we are trying to do. We want you to know about it, too, because we believe we can be of real service to you in our line. If we could talk to you, or, better yet, if you

Our First Packing House—1889

steadily progress this business has made. Up-to-date propagating and packing methods always. We have learned a lot about growing nursery stock. Again this year, everything has been grown on specially selected, fertile soil—the right kind to produce as vigorous and healthy plants and trees as any you can buy.

Ten Years Later—1899

could come and see us, our plant farms, packing houses and offices, we know we could show you why we are able to give the best there is in Fruit Plants, Fruit Trees, Shrubs, Flowers and Evergreens. And also, a full measure of individual service on every order large or small that means so much to you in making certain your success with nursery stock.

Back in 1889—41 years ago—the Baldwin nursery business was started. The pictures on this page show the strong,

The Best Reference of Any Business Is a Long Record of Satisfied Customers

This is a big business and we are justly proud of it—proud of our thousands of satisfied customers—good friends, made through 41 years of fair treatment and honest dealing. Don't think we are boasting at the other fellow's expense. We are tending strictly to our own business, a business we know from top to bottom. It is your business that makes ours grow; you are our partners, and we appreciate it. Ourselves and our business are at your service for your benefit.

What One of Many Say

Stoyestown Pa., February 11, 1929.

Dear Sirs:—

Ten or fifteen years ago, I bought plants of you by the thousands. At present I need only a few for the garden. Always found your plants best that money could buy and always recommended my friends to Baldwin.

Very truly yours, (Signed) P. P. Lambert.

Another Step
Forward—

See Page 12

Introducing
“LATEBERRY”

Perfected Late
Strawberry
That a Million
Growers Are
Waiting For

Today—1930—Modern Office and Packing Building Serves You Efficiently

“We Cannot Grow All the Nursery Stock In The World, So We Just Grow The Best Of It” Page 7

This seal means that we are one of several hundred modern progressive nurseries who are recognized as leaders in the business of growing and supplying you with the best of plants, trees and ornamentals and reliable planting and landscape information. You have seen this seal in advertisements, newspapers and garden club helps

for the past year in the nation wide program to promote healthier, happier and more beautiful American Homes.

The appeal has "clicked" with the home owner everywhere. He did not know before how much needed to be done and how little it would cost to bring his place up to its best in beauty, profit and happiness.

Forty-one years ago this winter, O. A. E. Baldwin sent out a few hundred price sheets to fruit growers. That was the beginning of this business that we, his sons, are carrying on. His principles of always giving the best in quality, a full measure of service at an honest price, carried on year after year, have built this business to one of the largest and oldest, with thousands of satisfied customers throughout the country. It is our privilege to carry on with these high ideals guiding us day by day.

O. A. E. Baldwin
Founder in 1889

Our Guarantee Your Protection

For 41 years the Baldwins have backed up this guarantee to the entire satisfaction of their thousands of customers everywhere.

We guarantee every plant, tree, shrub, or bulb sold by us to be first class, free from injurious disease or insects, and true-to-name. We further guarantee our stock to reach you in good growing condition and will replace free of charge any that does not.

Also, we will, on proper proof, replace or refund the purchase price of any stock that proves untrue to name. We are, of course, not liable for more than the purchase price of stock ordered.

If you are planning on using nursery stock this spring—that is fine. You will be making a wise investment. If you are planning on using our stock, that is still better. But we don't want you to buy from us until you know something about us, our plants and our way of doing business. That is why we have tried to make this book the best one we have ever sent. We want you to read it over carefully. It will serve you as a guide, as well as a catalog of the best in nursery products.

The next sentence is particularly important, so read it over twice. This year it is more necessary than ever that you order early, because of the unusually dry growing season all through the country during last July, August and September. This means a scarcity of most everything.

As much as we would like to, we cannot meet all of our friends and customers personally, so we want you to consider this book our personal message to you. Write us, we would like to hear from you whenever we can be of service. If it is possible to visit us, do so, you will be welcome.

Faithfully yours,

O. A. E. Baldwin

Michigan Certificate of Nursery Inspection

This is to certify that the nursery stock of O. A. D. Baldwin Nursery Company, Bridgman, has been examined and found to be apparently free from dangerous insects and dangerously contagious tree and plant diseases. This certificate to be void after Sept. 15, 1930.

E. C. MANDENBURG.

In charge of orchard and nursery inspection.
Lansing, Mich., Sept. 26th, 1929. No. 4745.

Baldwin's

Sure-Yield Plants

Produce Such

Profit Making Berries

Again

*Last Summer
Strawberries
Made Money*

They Do It Every Year—You Can Depend On Them

Right now when all kinds of fruit are making money—strawberries are doubly profitable. They bring a full crop only one year from planting, are easy to grow on

any good soil, require no expert care and pay big returns on a small space of ground. They bear full crops for two seasons—sometimes more. What more could you ask?

Plant Proven Varieties Only

Don't experiment with new untried sorts. Those we offer (only 9 out of many hundreds) have proven profitable in all fruit growing sections and what is more, our

plants are grown on ideal soils under scientific culture, so that you can be assured that Baldwin plants produce for you. Such certified plants cost you no more.

Premier *The Best Early Strawberry Without Question*

(Illustration on Front Cover)

1. Earliest of all.
2. Long fruiting season.
3. Unusually large crops.
4. Size above the average.
5. Bright, glossy, solid color.
6. Uniform, attractive shape.
7. Brings more money on any market.

Half Acre of Premier Brings \$700.00 Net

These are the big reasons why you can depend upon PREMIER to "deliver" every season. It is the **one** strawberry above all others that will bring you your **first** berry profits. We could tell you a lot more about the profits this berry has been making our customers, but we could do no more than recommend it in the highest degree and guarantee that it will give entire satisfaction.

Price, \$1.10 per 100; \$6.25 per 1000

Planted 50,000 PREMIER—Wants More Now

North Collins, N. Y., November 15, 1929.

Dear Sirs:—A few years ago I ordered 50,000 Premier. They have proved the best profit-maker and the earliest strawberry on the Buffalo market from this section. Shipped to New York and Philadelphia, they have brought me large profits as well as compliments on their quality. I have never, in my experience as a fruit grower, seen a strawberry equal to Premier. In the first place, they were received in perfect condition, so I must compliment you on your method of packing. Hoping that you will be able to supply me with the Premier I need this spring, I remain, Yours truly,

(Signed) Fred Musacchio.

MASTODON—World's Best Everbearer—&—GIBSON—Michigan's Biggest Acreage—Page 3

Booster

Five Years'
Profitable Crops
Prove It a
Winner

This is the berry for which we paid \$250 for a name. It is unusual in its many points of merit. The plant is large and vigorous, leaves large, protecting the berry from the sun. The bloom is perfect. Berries are round, smooth and uniform, large in size and of brilliant crimson. The flavor is delicious. As a table delicacy it challenges all others. A very heavy producer—it is regarded as one of the best commercial strawberries.

A Baldwin Introduction

BOOSTER is one of the best mid-season strawberries the world has ever produced. There are other good strawberries listed in this book, but you should not fail to include BOOSTER plants when sending in your order.

We hope our stock is large enough to meet the heavy demand, but we advise you to get your order in early and make sure that you get some of these wonderful plants now.

Booster

Price, \$1.40 per 100
\$7.50 per 1000

Booster All That Could Be Expected
South Fork, Pa., April, 1929.

Gentlemen:—

Am sending an order for plants. We have planted Booster and will say they were all that could be expected of strawberries. They are the very best berry for this location.

Sincerely yours,
(Signed) W. H. Flenner.

Aroma

Aroma—Very Late

Guaranteed by Us

The Fancy Market Berry

If you want an exceptionally fine, firm, late berry that stands up under long shipments, by all means plant AROMA. It is the standard late variety that brings big profits to growers everywhere. It thrives in any climate, the heavy, dark green foliage making it disease resisting to a remarkable degree.

AROMA is a steady producer of big, round, deep red, glossy berries of excellent eating quality. The skin is tough and the flesh firm—characteristics which make it such a splendid shipper.

AROMA is unusually mild and sweet. It is a fancy berry in the truest sense of the word which greatly adds to its marketability at top prices. It has steadily been growing in favor for the last 13 years and has proved its worth under all conditions. Our guarantee is behind this variety in every respect.

Price, \$0.95 per 100
\$5.50 per 1000

Dr. Burrill

Pearl

Latest June Berry

PEARL is the berry needed by strawberry growers—it insures a big, annual crop of fine berries at the end of the season.

Late Crops Mean High Prices

Blooms freely and opens its buds late enough in the spring generally to avoid late frosts. That's why its crops are so heavy and can be counted on so surely. Berries are very large, of dark red color. A fine shipper.

In the North it does not come into its prime until late in June, when other varieties are off the market—always bringing top prices.

Price, \$1.40 per 100; \$7.50 per 1000

Big Cooper—Medium Early

Big in Berry—Big in Yield—Big in Profit

Nine COOPERS make a layer in a full size quart box—27 fill the box! That gives you some idea of the size of this magnificent berry, and explains, too, why they sell for 10 to 12 cents more per quart than other fancy varieties. For profit on the roadside market there is no better seller than this mammoth berry.

Price, \$1.40 Per 100; \$7.50 Per 1000

Dr. Burrill

"The Million Dollar Berry"

**Tells Its Success Story
Everywhere**

Truly a most remarkable berry—one of the best all-around Strawberries ever produced. It is really in a class by itself. Commercial growers always feel safe in planting it—and sure of its ready sale at good prices. Home growers have good success and find it so easy to raise.

Fruits Mid-Season to Late

A ready seller on the market. As a dry-weather producer it can't be beaten, the long roots taking moisture from a greater soil depth and producing heavier crops than most varieties under similar conditions.

Price, 90¢ per 100; \$4.50 per 1000

Senator Dunlap

A "Best Seller"—For 25 Years

Perhaps no other Strawberry is so well and favorably known throughout the country. It has the reputation of producing full crops in a wider range of soil and climate than any other variety. No wonder, then, that growers in nearly every state in the Union order more and more of this old reliable berry every year. Today Senator Dunlap is one of the three or four strawberries that are known and asked for by buyers throughout the country wherever strawberries are bought. Everyone knows he can depend on unvarying high quality in this long-proven variety.

Certain Profits—Medium Early

That's what the practical grower wants. Big, uniform berries of dark red color. Splendid shipper and ready seller because of its attractive appearance.

Canning factories want nothing but Senator Dunlap. Local canneries make yearly contracts for thousands of cases, using no other kind. They know it always holds its shape and rich color long after canning—and that the flavor lasts.

Taking all into consideration, here's a berry that will bring you results—a big profit on your investment—**take our word for it.**

Prices, 80¢ per 100; \$4.00 per 1000

Here It Is!

The Strawberry 1,000,000 Growers Want

Baldwin's New Perfected

“LATEBERRY”

Big Berry—Bears Heavily—Ripens Later—Greater Profits

Every year for several years hundreds of strawberry growers have asked—“Can't you give us a better extra late berry—one as big as Aroma but a heavier bearer, and as late as Pearl but larger and of more attractive appearance? Such a berry would mean many more dollars profit in our pockets!”

LATEBERRY is a variety that fills this need for every berry grower. It is by far the best late strawberry we have ever tested—and we have tried many. For 3 years we have grown it under all conditions, and it has made good in every respect.

“LATEBERRY” expresses in one word the

outstanding features of this new variety. It is “The Berry” on every count of all late sorts. It is hard to make you realize just what a fine berry this is. We would not be recommending it and guaranteeing it fully as we are if we were not positive that it is every bit as good as we say it is. We have a real pleasure in offering this most excellent berry to fill the need so long felt by fruit growers in every section.

Plant this spring and see for yourself. Use 100 or 1,000 plants as you can. It will pay you. The supply is limited and we urge you to order now.

Lateberry's Profit-Making Points

1. Most important of all is its Late Season. This makes added profits—strawberries are scarce then.

2. Firmest berry we have ever seen. Think what this means in shipping and keeping qualities.

3. Beautiful appearance—bright red glossy tough skin and prominent yellow seeds topped by a brilliant green hull. After 36 hours these colors are still bright and attractive—a pleasant point in home use and actually means more dollars in market returns.

4. Wonderfully mild sweet flavor—no acid-sour here.

5. Every berry well above average size. We don't claim it is the largest berry grown. But examine the photograph of the box of berries—an even run of such good sized berries of top quality and finest appearance is more desirable than a few extra large with many small ones.

6. Heavy regular bearer in all fruit locations. Most late kinds fall short here, but not “Lateberry.” You can depend on it.

7. Blossoms are perfect. No other kind need be planted with Lateberry to produce a full crop. Blooms open late, avoiding spring frosts.

8. Desirable in garden or field. Its many outstanding good qualities make it equally desirable in the home garden or commercial field.

9. “Lateberry” has our fullest recommendation and endorsement for growth, crops, quality and satisfaction.

Red Raspberries Pay

Baldwin's Disease-Free, Vigorous Plants Bring Bigger Yields of Better Berries and Cost No More

Baldwin's
State
Inspected
Certified
Raspberry
Plants

Michigan is recognized throughout the country as having the most healthy, most vigorous raspberry plants grown. Every Baldwin plant is inspected twice by Michigan inspectors. (See certificate, page 8.)

Proper Production—Double Inspection

This means success or failure to the fruit grower because a plant "sick" with disease or poorly grown will never bear a full crop. Our propagating methods, improved and tested through long years of experience, make it certain you will get your full money's worth in Baldwin raspberry plants.

Red Raspberries Continue Fruit Profits

The right varieties of red raspberries continue paying crops after strawberries are gone. They keep the money rolling in. These varieties are the best, and our plants are right—Plant this spring assured of successful crops.

Cuthbert Prices
\$ 2.25 per 100
\$14.00 per 1000

Cuthbert It Grows and Pays Everywhere

This variety is grown in larger quantities than perhaps any other red raspberry. Bushes are hardy, vigorous and productive. Season is late. Cuthbert always brings top prices and is the standard of good quality on every market.

For canning, Cuthbert is hard to beat—Latham is its only rival. Holds its color and shape. The flavor is delicious.

Save a Year with Transplants

Big, well branched, two-year plants grown in the nursery row that will produce a crop the first summer. For the home garden or for a quick money return on a commercial planting—use transplants.

Price
\$1.30 per 25
\$3.75 per 100

Latham (See Illustration on Back Cover)

Best Late Raspberry

When we say "Best" we mean just that. In 5 years LATHAM has become recognized by fruit growers as the most profitable late berry ever grown, and by fruit users as having the richest color and most delicious flavor imaginable. Hardy and very productive—far outyielding all others. Regularly brings more money on any market. We wish we could convince you what a truly fine berry LATHAM is in every way. The supply of plants is not large and we sincerely hope you will order now so we can reserve what you want.

For Canning—Jams and Jellies—Unusually rich color that does not fade, and what a wonderfully delicious, true, fresh raspberry flavor!

GOVERNMENT EXPERIMENT STATIONS report from leading fruit states that Latham is by far the best quality berry yet tested and is highly recommended for planting.

Baldwin's Guaranteed, Disease-free, Genuine LATHAM—"The Kind It Pays to Plant."

Latham

Transplants

Fruit This Summer

Two year plants, large and well branched, that will give you a partial crop this summer. Excellent for garden planting. Sure to grow—quick crops. Have only a few in stock, so don't delay.
Price, \$2.40 per 25; \$6.85 per 100.

Gov't. Exp't. Stations say Latham is the Best Red Raspberry

Early King Red

One of the Most Profitable
Red Raspberries

King Red is not only an early bearer but its plants are hardy, healthy and wonderfully productive. They withstand extreme cold and are highly resistant to disease.

Berries are large, firm, round and bright red with a most excellent flavor, which insures a steady demand.

Easy to pick. Ripens about a week or ten days ahead of other varieties and for this reason is highly profitable. It is a good shipper and can be marketed when prices are highest.

Price,
\$2.25 per 100.
\$14.00 per 1000.

King

Transplants Bear Now

Plant **King Transplants** for berries this summer. Two year old big bushes are ideal for garden planting.

Price, \$1.30 per 25; \$3.75 per 100.

St. Regis—Everbearing Red Raspberry

Like the Everbearing Strawberry, the Everbearing Raspberry has passed the experimental stage and has come to stay.

Of all everbearing varieties ST. REGIS is by far the best. Bushes are good size, upright, vigorous and remarkably free from disease. ST. REGIS produces a full spring crop.

Bears Thru Summer and Into Fall

Just think of having delicious, ripe, red raspberries to market in September long after other berries are gone! Is it any wonder that they bring from \$7.00 to \$8.00 for a 24-pint crate? That's what growers of ST. REGIS usually get! Desirable, too, for home gardens to extend the Raspberry season for table and home canning.

Fruiting Size 2 Year St. Regis Transplants

Large branched plants ready to produce a partial crop this summer—and, of course, being everbearers there will be fine berries well into the fall. Transplants are best for garden planting and quick crops because they

are sure to grow and are already 2 year old bushes. There is always a big demand for these plants. Order yours right away.

Our Low Price, \$1.70 per 25; \$4.70 per 100.

This Photo is Only
½ Size

St. Regis
Everbearing Red Raspberry

Black Raspberries

Sure to Yield—Regular Profits

Blackcaps are especially liked as a table and canning berry everywhere and for these reasons canneries are using more every year and paying good prices. You will be getting in line for good profits by planting our Michigan grown, high producing plants this spring.

Cumberland

(See Color Illustration on Front Cover)

Thrives Everywhere—Makes Money Always

\$200 clear money per acre above all expense is what a local grower made on his 8 acre field of CUMBERLAND. You can do the same with Baldwin Quality Plants.

The Standard Black Raspberry everywhere. Plants vigorous and very productive; thrive everywhere. Berries large, firm, jet black with a delicious flavor. Wonderful long distance shippers—attractive appearance—always command good prices. We guarantee it to please you and make you big money.

Michigan grown, double-inspected Raspberry Plants are recognized throughout the country as the best. Our soil is especially adapted to produce sturdy, well rooted plants.

Price, \$ 2.95 per 100.
\$18.00 per 1000.

Plum Farmer

Best Early Blackcap

An extra early variety that has become one of the leading and most profitable Black Raspberries. We guarantee PLUM FARMER to bring you a paying crop of extra fine fruit. Plants are very healthy, unusually free from disease, strong growing, producing lots of bearing wood and insuring a heavy crop. The berry is grayish black, very firm, attractive and a good shipper. A favorite market variety with many, as practically the entire crop can be harvested in three pickings. PLUM FARMER is extra early and always brings top prices.

Plum Farmer Prices,
\$ 2.95 per 100.
\$18.00 per 1000.

Why Baldwin Plants Pay— The Picture Tells The Story

It's root growth that counts and our secret of producing it is first, a combination of soil and climate that is especially adapted to plant growth and second, proper propagation methods tested and proved by forty years of nursery experience. These two things, connected with the fact that every plant grown and sold in this state is twice inspected by state inspectors—making **Michigan Double Inspected** raspberry plants the standard in all fruit sections—assures you of the very best stock money can buy. And we offer these plants to you at a reasonable price.

Such roots mean sure growth and full crops.

Fruit of All Kinds is Profitable—Don't Put Off Planting

Page 15

Cumberland Transplants

2 Year Plants Bring Quick Profits

This year we have a limited supply of Cumberland Transplants—tip plants that have been transplanted and grown a year in our nurseries. Large bushy plants.

Some Fruit This Summer Full Crop Next Year

Each year there is an increasing demand for Cumberland Transplants. They are being planted in the home fruit garden, where they are especially satisfactory, because of their sure growth and early full bearing. They more than return the difference in cost over one year plants. To bring quick crops and quick returns, include some of these Transplants in your order. Don't wait too long. We have only a few and will be sold out early.

Price, \$1.95 per 25; \$6.00 per 100. Only 100 to each customer.

Sturdy Cumberland Transplant

Honeysweet Best for Home Use

Introduced as an extra large, fancy berry of superior quality, it has proven its claims. HONEYSWEET is a distinct variety in every respect—in vigorous growth of plants—the large jet black berries without a trace of bloom—in the larger crops produced—and in its delicious, sugar sweet flavor.

Worth the Cost in Any Garden

If you are looking for an especially high-class variety, that will produce large, fancy berries, buy HONEYSWEET. It is true that the planting cost is a little greater than the other varieties, but we know you will feel well repaid with HONEYSWEET.

Price \$ 3.75 per 100.
\$25.00 per 1000.

"Honeysweet"
Its Name Tells
Its Story

Kansas A Good Variety

Preferred By Many. Now a general favorite Black Raspberry all over the country. Ripens early, jet black, firm, of the best quality; a strong grower, stands drought and cold. Very productive. A money maker.

Price, \$2.95 per 100; \$18.00 per 1000.

Best Plants He Ever Bought

*Jerry City, Ohio, April 8, 1929.
Gentlemen:—Wish to acknowledge receipt of the raspberry plants. They arrived in splendid condition, and were, I believe, the best plants we have ever bought. Judging from the plants, you know how to grow them and any help you may give will be greatly appreciated. Yours truly,*

(Signed) D. Horner.

Eldorado

Alfred

A Big Berry Success

Sure - to - Grow

Root Cutting Plants

Introduced six years ago, it has proven a big success among horticulturists and practical berry growers. It made good from the very start until now the demand is ahead of the supply. And no wonder. Think of a bush full of tremendously big blackberries from 1½ to 1¾ inches long, practically free from seeds, coreless and with a thick pulp fairly bursting with sweet, delicious juice! That's ALFRED!

Enormous Crops Every Year

The plant is such a vigorous, healthy grower that it produces a good crop the first year after planting. Withstands extreme cold that kills less hardy varieties.

Alfred will please you—whether raised for pleasure or profit. It is another of our splendid varieties—selected for its worth, and is easily grown.

Don't be disappointed—order today.

Blackberries

Continue Your Profits

When Berries Are Scarce

—And Prices High

Ripening in August, blackberries are about the only fresh berries on the market, and therefore bring a good price to the commercial grower. A real luxury in the home garden. These plants, like our raspberries, are Michigan double-inspected, A-1 bushes. You can't afford to buy a poor grade of plants no matter how low the price may be.

Yes! This is The Famous Eldorado

Every good quality possessed by other blackberries is emphasized in ELDORADO. Its exclusive advantages are: absolute freedom from Orange Rust; a very heavy bearer with great, jet black juicy berries.

Plants are so strong and vigorous they survive severest Northern Winters without mulching. A splendid shipper because the berries are so firm. Plant Eldorado generously—at least 50 for home gardens or several acres for commercial purposes. They are making big money for other growers and will do the same for you.

Price, \$2.65 per hundred; \$16.50 per thousand.

Root Cuttings for Big Quick Crops

For best results, plant ELDORADO ROOT CUTTINGS rather than sucker plants. The cuttings are better rooted and thrive better even under unfavorable conditions. They are well worth the small additional cost. Ours are from thrifty plants in full bearing, and especially adapted to home gardens, where strong growing plants and quick yields are wanted.

Price, \$5.45 per 100; \$36.00 per 1,000.

Lucretia

America's Leading Dewberry

Recognized by fruit growers everywhere as the leading Dewberry. Incomparably better in every way than any blackberry you have ever seen or tasted. For real profit be sure to plant LUCRETIA in field or garden.

An Early Bearer

Ripens a week to ten days before the earliest ordinary blackberries. This, and the fact that they are unquestionably the finest looking berry of their kind and of such big, uniform size, makes them top-notchers on price in any market.

Price
\$ 2.50 per 100.
\$15.00 per 1000.

Lucretia

Mersereau Blackberry

A Favorite Early Variety

Here are a few reasons why Mersereau is being planted in increasing quantities in all fruit sections:

1. Ripens about a week before Eldorado.
2. Splendid in flavor, large, sweet, juicy.
3. Brings better prices because of size, color and flavor.

Bushes are hardy, quick to grow under all conditions, and produce full crops early. You will not be disappointed in Mersereau. Get started this spring with quick bearing root-cutting plants.

Myatts Victoria
The Pink Stalk

There Is a Growing Demand for Good Asparagus

One of the most delicious and healthful garden vegetables. Easy to grow with practically no care. Just plant it, hoe it and eat it. You can quickly have an asparagus bed that will last many years. Such a bed (at least 100 plants) will provide all you want for family use and will give a surplus to sell to local markets or neighbors. There is just one thing—be sure you get a productive kind.

Martha Washington

Developed by U. S. Dept. of Agriculture. A heavy yielding, pedigreed strain immune to rust; grows rapidly and produces long tender shoots of unexcelled table quality.

NOTE: Two year roots are generally preferred as they are larger, reach full production a whole year sooner, and cost only a little more.

Price (for all quantities see page 34)—
1 yr. Roots—40c per 25; \$1.25 per 100; \$8.00 per 1000.
2 yr. Roots—65c per 25; \$1.95 per 100; \$12.50 per 1000.

Martha Washington
Rust Proof

Rhubarb

Tenderest Sweetest Variety

No home garden is complete without Rhubarb. Transplants easily; requires very little attention; produces abundantly. In spring healthful Rhubarb, sauce and pies are most welcome. So be sure to include this Special in your order.

Regular price, 7c each; \$1.30 per 25.

Baldwin's Better Grape Vines

A Permanent Investment—

Paying a Regular Income

For centuries grape growing has been a pleasant and profitable business, but with present day improved hardy varieties and country-wide year-around demand it is not only pleasant and profitable but dependable and permanent as well. Michigan vines rank among the finest grown and because of our specially adapted soil and location, you can depend upon vines.

Superior in Quality and Productiveness

We have grown an extra nice stock of healthy, vigorous vines and are offering them to our customers at unusually low prices.

Grapes grow and produce big crops on any soil, year after year. They are a permanent investment. Growers regularly make \$500 and more net profit, per acre, and you can do the same.

Campbell's Early

Finest Quality Black Table Grape

Unusually large berries make up firm, compact bunches that simply look "quality," and the taste proves it. They ripen two weeks before Concord. For a dozen vines in the fruit garden plant CAMPBELL'S EARLY and know a real eating grape.

Price—2-Yr. Extra Large, 12c each; 70c for 6; \$1.30 for 12; \$2.20 for 25; \$6.50 for 100.

Moore's Early Black Grape

A Big Crop for Early Market

A heavy producing early variety. Profitable for commercial growing because it gets the early season high prices. Similar to Concord in appearance and quality, ripening about two weeks earlier. It has a peculiarly sweet flavor that makes it a good table grape along with Campbell's Early.

Price—2-Yr. Medium, 40c for 6; 70c for 12; \$3.75 for 100; \$25.00 for 1,000.

2-Yr. Extra Large, 75c for 6; \$1.35 for 12; \$6.85 for 100; \$45.00 for 1,000.

Worden Black

Big compact bunches of extra large, thin skinned berries, quality equal to Concord but, because of thin skin, not so good a shipper. Ripens five to ten days earlier than Concord.

Price—2-Yr. Medium, 40c for 6; 70c for 12; \$3.75 for 100; \$25.00 for 1,000.

2-Yr. Extra Large, 75c for 6; \$1.35 for 12; \$6.85 for 100; \$45.00 for 1,000.

Niagara

Most Satisfactory White Grape

This best known and most popular of all white grapes ranks with Concord in prolific bearing, size and quality. An unusually mild delicious flavor makes Niagara one of the finest table grapes.

Medium compact, large bunches; berries mostly round, of greenish-white color, very juicy and of excellent flavor. Skin is thin but tough and does not crack, making it a fine long-distance shipper.

Price—1-Yr. Medium, 40c for 6; 70c for 12; \$3.75 for 100; \$25.00 for 1,000.

1-Yr. Extra Large, 75c for 6; \$1.35 for 12; \$6.85 for 100; \$45.00 for 1,000.

Size

**The New Caco
Red Grape**

New Caco Red Grape Has Earned Our Unqualified Recommendation

As we do with every fruit, we have waited to offer Caco until certain that it was A-1 in every respect. We can now give it our unqualified approval. It is hardy, quick bearing, produces every year, fruit beautiful in color, unusually large in size, and best of all has a flavor of such sweetness that it is a superior table grape.

In fact, one of the strong points of Caco is that it contains so much sugar as to be readily eaten while still green and long before it appears ripe.

Very Early—Heavy Bearer—Superior Quality

Bunch is firm and compact—berries unusually large, clear amber in color. Caco is a most beautiful hardy grape. Always in demand at grape markets with extra prices. Widely endorsed by experiment stations.

Vines are just as easy to grow as any other. There is always room for a few vines somewhere. You don't want to be without Caco.

Our supply of this new grape is limited—order yours at once.

Delaware Red Flavor Unsurpassed

Long called the standard of excellence of all grapes as a table delicacy. Bunch small, compact, sometimes shouldered; berries small with skin thin and of unusually sweet flavor. Ripens with Concord. Very hardy.

It is impossible to tell you how really delicious these little red grapes are. Don't fail to plant a few vines this spring. Just a little space over the back porch or on a trellis along the garden wall is enough for 5 or 6 vines.

Price—2-Yr. Medium, 15c each; 80c for 6; \$1.50 for 12; \$2.70 for 25; \$8.50 for 100.

Agawam—Red Grapes

Probably the best big, red grape. Large bunches of big berries, of excellent flavor. Delicious for home and table. Very productive; good shipper; rapidly growing in commercial demand and very profitable.

Price—2-Yr. Extra Large, 13c each; 75c for 6; \$1.40 for 12; \$2.50 for 25; \$7.50 for 100.

Grapes Have Wonderful Root System

St. Louis, Mo., January 14, 1929.

Gentlemen: The nursery stock you shipped me last year certainly was of the best quality and in fine condition when I received it. Everything made a fine growth. To my surprise, I found a few bunches of grapes on the vines that had only been planted in the spring, and I consider this due to the fact that they all had a very wonderful root system. I expect to do some more planting this spring. Please send me your latest catalog. Yours most truly,

(Signed) Arthur T. Brewster.

Price 1-Yr. Extra Large, 40c each; \$2.10 for 6; \$3.95 for 12; \$7.35 for 25.

**Red
Delaware**

Special Selected Plantings Pages 37-38

McIntosh

No Small Trees Offered

The best growers have found that it pays to plant only the larger size, better grade trees. "Whips," "Mediums," and "Second Size" at lower prices are a gamble at best and don't pay in the long run.

We offer only the most profitable varieties in the better grade. And we guarantee them.

Bargains on Small Fruit Trees—If You Can Use Them

Many catalogs list small trees at lower prices. We never recommend smaller grades. But if you can use them, write for special prices on any variety listed. We can furnish them at a lower price than you can buy them elsewhere.

Baldwin Quality Fruit Trees

Guaranteed, Hardy, True-to-Name, Productive
Buy from Us and Save Half of Agents' Prices

Whether you want only a few trees for a home fruit yard or several hundred for a commercial orchard, we can supply you with well grown, strong, sturdy trees. Our prices are less than half the usual prices asked by agents, because we sell direct from Nursery to you. And, what's more, we stand back of the trees after you get them.

There is real pleasure and a big saving in having 2 or 3 trees of each kind of fruit right in your garden. As a commercial proposition,

tree fruit is always in demand and with modern storage practices, prices are kept high.

Especial care is given to the selection of those high-quality, proven-value varieties which are best adapted to eastern, middle-western and northern soils and climatic conditions. We have no hesitancy in guaranteeing them. Don't wait to set fruit trees—they are a good investment in garden or orchard. Plant this spring.

A Word About Right Grading

Trees are graded either by caliper or by height. Ours are carefully graded by both measurements—because we want you to have trees that are not "short" either in height or in sturdiness. Every tree must be $\frac{9}{16}$ ths inches in diameter and 5 to 6 feet high. This insures our customers trees of good height yet not spindly, (as would be the case if graded for height only). Every tree we ship has a good sturdy trunk and root system capable of carrying it to full growth even through unfavorable conditions.

Apples 35c each.
\$3.25 for 10.
\$30.00 for 100.

(2 yr. 5 to 6 ft., $\frac{9}{16}$ in. Caliper Trees)

Mc Intosh

A Most Profitable Apple Today

Juicy snow apple—white crisp flesh; beautiful solid crimson color. Excellent quality—wine-like, true apple flavor. Good annual bearer. Rapidly increasing popularity among consumers everywhere makes good prices certain. One of the most profitable apples today.

For your information—we have carefully investigated the Cortland apple so widely advertised by many nurseries. Several experiment stations have advised us that McIntosh is superior and probably will never be replaced by the newer Cortland. Because of their advice we offer only McIntosh, and you can be assured it is unsurpassed in its class.

"Red Delicious", Color Illustration—Page 40

These Peach Trees are a Sample of Baldwin's Guaranteed Better Grade Fruit Trees

Note sturdy tops; branched fibrous roots

Stayman's

Best of All Winesaps

Late Winter. Extra large, bright red, crisp, juicy with a wonderful zestful flavor. Stayman easily leads all other Winesaps. Heavy bearers and big money makers everywhere.

Baldwin

Winter. This widely known variety averages above medium size, rich dark red, juicy, fine flavor. Good for market and home use. One of the first two or three varieties in the great Michigan and New York apple sections.

Northern Spy

Winter. The old, well-known favorite. Delicious spicy flavor; excellent for eating and cooking. Brilliant streaked red color. Always in demand at good prices. Long keeper.

Grimes Golden

Winter. Favorite mild eating apple. Excellent keeper. Uniform shape, typical dull gold color. Hardy, productive tree. Carefully selected and grafted trees insure entire satisfaction with this fine apple.

Wealthy

Fall. Heavy yearly bearer. Hardy, long lived. Attractive brilliant red striped; superb quality, wine-like flavor. An all around apple for eating, cooking, cider and market.

Jonathan

In Demand from Coast to Coast

Late Fall. Glossy red; fine grained, juicy flesh, excellent flavor. Medium to large size. Unusual keeping quality (to February) makes it a most profitable commercial apple. Quick to bear and easily grown in practically every fruit section. Jonathan is the first choice in many homes.

Jonathan
½ Size

Full
Size
Stayman's
Winesap

Yellow Transparent

Early Fall. Has proven both popular and profitable. Fruit large, yellow with crisp sub-acid flavor. Heavy annual bearer; well known everywhere.

Duchess of Oldenburg

Summer. Yellow, streaked with red. White, juicy flesh and wonderful flavor make it famous everywhere. Trees are dwarf growers requiring small planting space. Fine for early market and home use.

Hyslop Crab

The Best Variety

Hyslop is recognized as the best of all crabapples. Its hardy, quick growing tree comes into bearing early. Strong, disease-resistant. Always a heavy annual bearer. Fruit beautiful deep red; firm, juicy, uniform—sells well. Excellent for home use.

"Certainly Fine Stock"

Rockford, Mich., May, 1929.

Gentlemen:—

I will say that the fruit trees you sent me "were certainly fine looking stock" and am sure every one of them will do their part in growing. The man setting them out for us said that "it is the finest fruit stock I have seen in years."

Thanking you for the fine stock you sent me, I remain

Respectfully yours,

(Signed) A. V. Barrett.

Bartlett

Pears 50c each
\$4.75 for 10
\$45.00 for 100

(5 to 6 ft. trees, $\frac{9}{16}$ in. caliper)

Clapp's Favorite—Summer. Ripens August 1st. A seedling of Bartlett but earlier ripening; somewhat larger; lemon yellow; of very good eating quality.

Anjou—(Buere d'Anjou)—Fall. Prime from late October to late November. Greenish yellow; clear, white flesh of splendid eating quality. Stored in a cool, dry place will keep until Christmas. Strong vigorous tree; prolific yielder.

Seckel—Early Fall. A medium sized pear that ripens late in September. Extremely fine quality and flavor. Always in market demand and equally valuable for home use.

Duchess D'Angouleme—Late Fall. Fruit large, frequently a pound in weight. Most dependable crops. Dull greenish yellow with russet spots; flesh white, rich and good quality. Duchess is a profitable, all around market pear.

Kieffer—Fall. Best pear for large commercial planting, because of its sure crop, heavy yield and exceptional shipping qualities. Kieffer has proven unexcelled for commercial canning. A local cannery used over 200,000 bushels last fall.

Bartlett Pear

The Standard of Quality

Summer. One of the best known and popular varieties for both commercial and home orchard planting. Golden color with red streak, mellow and indescribably delicious both fresh and canned. Produces enormous crops; bears early. If picked before ripe will keep until late.

Lombard Plum

Leading Market Variety

Heavy regular bearer of medium sized red-purple fruit of excellent quality. A dependable plum everywhere and always commands good prices because it is widely and favorably known. Ripens August.

Lombard Plum

Plums 45c each
\$4.25 for 10
\$40.00 for 100

(5 to 6 ft. $\frac{9}{16}$ in. trees)

Monarch—Widely Grown and Profitable. This strong tree is a heavy bearer of finest plums. **Very large**, entirely free-stone, dark purple blue color, splendid flavor and quality. Ripens in October. Brings fancy market prices. None better for home use—fresh jelly or canned. Ripens October.

Burbank—Delicious Table Plum. A strong, hardy Japanese variety. Practically curculio-proof and free from black knot. Deep red color, unusually delicious flavor. Keeps three weeks after ripening. Trees bear three to four years after planting. Ripens August 15 to September 1st.

German Prune—Best for Canning and Preserving. Medium sized, dark purple plum. Firm, sweet; the favorite everywhere for canning. Tree easy to grow and remarkably free from disease and very productive. Good keeper, excellent shipper. Ripens September.

J. H. Hale

Peaches

30¢ Each
\$2.75 for 10
\$25.00 for 100

Except South Haven—40¢ Each
(5 to 6 ft., $\frac{3}{8}$ in. caliper)

Elberta, Rochester and Gold Drop, full color, Page 40

J. H. Hale

Unexcelled in Size, Color and Quality

Late August—Yellow, extra large; thick skin; colors to a rosy tint. Deep yellow, fine grained, very firm flesh of excellent quality. Truly a beautiful peach either fresh or canned. In size, color and quality, no peach compares with J. H. Hale. Always brings \$1.00 to \$1.50 more per bushel.

South Haven

Now the Profitable Early Peach

Originated and developed in the famous Michigan Peach Belt, South Haven has proven one of the best varieties in every peach growing section. Experiment stations recommend it when an earlier peach than Elberta is desired. It is also a more hardy variety than Elberta standing severe winters better. As fine a peach as the standard Elberta, big, firm, highly colored, but more dependable for big crops in cold sections—and Ripens 12 to 18 Days Earlier. An early peach is always profitable but an excellent peach like South Haven is doubly so. Don't fail to plant now.

Early Crawford—Early September—Widely planted; large size, well colored; good flavor. Freestone, good canning and market variety.

South Haven

New Prolific—Late August—A fine canning peach. Delicious mild flavor; clear yellow color; average size; freestone. Regular annual bearer.

Kalamazoo—Late August—Medium size, oval, yellow skin, yellow red flesh, freestone of excellent quality. A fine peach for dessert, pies and canning and for market.

Black Tartarian

Favorite Sweet Cherry

Sweet Cherries

60¢ each—\$5.50 for 10—\$50.00 for 100

(5 to 6 ft., $\frac{3}{8}$ in. caliper)

(Sour Cherries in color, Page 40)

Bing—Large, firm black cherry. Splendid shipper. Hardy tree; upright grower. Ripens middle of June.

Windsor—Liver colored, large cherry, wonderful flavor. Originated at Windsor, Canada. Hardy prolific tree. Most valuable variety for market or family use.

Black Tartarian—Extensively planted and prolific. Regular bearer of big, black, juicy, sweet fruit. Hardy, vigorous. Best and most profitable black sweet cherry—for market, cooking, canning.

Napoleon—Yellow—Old time favorite, succeeds practically everywhere. Heavy bearer of large, light yellow, heart-shaped fruit.

Before
and After
Planting

The Home Beautiful

Plant Shrubs, Roses, Flowers, Shade Trees, Evergreens
Enjoy a Beautiful, Well-Planted Home — It Costs Little

Today, home planting is the thing that every up-to-date, progressive man and woman is discussing, planning and doing. It's the subject of the hour on the farm, in the village and in the city. They recognize it as the right thing because it gives them the utmost in health, beauty and happiness. At the same time it is a practical investment through increased value.

\$10 Spent in Planting Adds \$100 in Value

Statistics show this is the value real estate men put on planting. Our ornamentals are wonderfully fine stock, and in selling them direct to you we save you half what agents ask. So a complete planting costs you but little.

**P. Virginal—New
Mock Orange**

An Outdoor Living Room

Your farm home should have an outdoor living room. Nothing else will add so much to the pleasures of farm life, and to the actual cash value of every acre of your farm, as an Outdoor Living Room.

No other improvement costs so little and none gives so rich a return in happiness, health and contentment.

Your outdoor living room, with lovely trees, shrubs and evergreens giving shade, privacy, and screening out objectionable views—with hardy flowers adding cheerful touches of color and lovely fragrance—has a never-ending appeal for every member of the family.

Free Landscape Suggestions

We will gladly send planting suggestions for your home if you will send us a rough sketch of the location and measurements of buildings, drives and present plantings. The sooner you do this the more time we will have to help you before our busy season.

Mock Orange—P. Virginal **New Variety of Unusual Beauty**

A magnificent new variety. Medium height, compact bush. The flowers (single, semi-double and fully double) are the largest and most sweetly fragrant of any variety, with longest early blooming season. Gaining popularity in every state.

Price, 1 ½ to 2 ft., each, 40c; \$2.20 for 6.

Mock Orange—*P. Coronarius*

A large, very hardy shrub which has a profusion of pure white, highly scented flowers. Attains a height of 4 to 6 feet. Blossoms in June.

Price, 1½ to 2 ft., each, 12c; 70c for 6.

Forsythia

F. Fortunei. One of the first shrubs to bloom. Their bright yellow flowers seem the very spirit of Spring, opening before the leaves appear. Will reach a height of 6 to 8 feet but may be pruned to desired height; branches slightly drooping. Dark green leaves. Flowers hauntingly sweet.

Price, 1½ to 2 ft., each, 15c; 80c for 6.

Spirea Van Houtei

One of the most beautiful and popular of flowering shrubs. In May and June the slender branches droop and form a veritable fountain of snowy white bloom. Thrives anywhere, in shade or sun, wet or dry and grows from 6 to 8 feet high in good ground. Makes a beautiful ornamental hedge.

Price, 1½ to 2 ft., each, 12c; 70c for 6.

Spirea Anthony Waterer

Dwarf hardy shrub; large pink-red flowers 3 inches across. Blooms July to frost. Rarely reaches over 3 feet; good used as edging for taller shrubs.

Price, 1½ to 2 ft., each, 40c; \$2.20 for 6.

Spirea Arguta

One of the showiest of spring shrubs. Dense masses of white flower clusters along drooping branches. Leaves light green, narrow—giving a lace-like beautifully soft appearance. April-May bloom.

Price, 1½ to 2 ft., each, 25c; \$1.40 for 6.

Deutzia

Pride of Rochester. The large double white flowers, reverse side of petals a delicate pink, make this a most highly prized shrub. Fine specimen plant 6 to 8 feet high. This *Deutzia* deserves a much wider use. Blooms June-July.

Price, 1½ to 2 ft., each, 12c; 70c for 6.

Privet Hedge

Hardy Amoor River North

Excellent hedge plant. Especially desirable in the north because of its unusual hardiness. Absolutely does not winterkill. Leaves are dark; do not fall until late winter. Readily trimmed to any desired shape.

Price, 1½ to 2 ft., each, 12c; \$1.30 for 12; \$9.00 for 100.

Japanese Barberry

For Every Purpose

Where a beautiful foliage effect is desired there is no shrub so generally planted or more practical for all purposes than the JAPANESE BARBERRY. Dwarf growing, bushy and rounded in form. Of special importance for use as a filler, and edging for shrubbery groups, and above all as a compact, low hedge for lawn borders. In autumn the foliage turns scarlet and gold covered with crimson berries.

Price, 1½ to 2 ft., each, 18c; \$1.85 for 12; \$14.00 for 100.

Forsythia

Spirea Van Houtei

Japanese Barberry

Weigela Rosca

Weigelas

Rosca—Pink. 4 to 5 feet. The most popular Weigela. Delicate pink, bell shaped blossoms are borne in great profusion along great arching canes, during May and June. Large leaves especially free from disease. This variety is the best of the group and is good for all use where a shrub of this height is needed.

Price, 1½ to 2 ft., each, 20c; \$1.10 for 6.

Weigela Eva Rathke—Crimson. 3½-4 feet. June flowering. Of smaller growth than the other Weigelas. It is decidedly spreading. A profusion of flowers brilliant crimson with white throats is its outstanding characteristic. It is especially showy and will prove an excellent variety.

Price, 1½ to 2 ft., each, 40c; \$2.20 for 6.

Flowering Almond

Rose-pink flowering—3 to 4 foot, upright grower. A very attractive shrub. The long branches are thickly studded with small, double, delicate pink flowers over their full length, before the leaves appear. Blooms in April.

Price, 1½ to 2 ft., each, 40c; \$2.20 for 6.

Butterfly Bush

A beautiful medium size shrub that bears clusters of lilac-colored flowers, 5 to 6 inches long. Attracts butterflies in large numbers. Blooms early Summer until late in Fall.

Price, 1½ to 2 ft., each, 25c; \$1.40 for 6.

White Snowberry

Distinguished for its graceful sprays of large, milk-white berries coming in mid-summer and lasting well into winter. Added effect of soft green foliage makes this one of the most attractive ornamental shrubs. 4 to 5 feet.

Price, 1½ to 2 ft., each, 20c; \$1.10 for 6.

Red Snowberry

Coralberry. Desirable for its clusters of red berries, hanging on all winter. Low growing, graceful, spreading habit. Attractive foliage; sturdy grower in shade.

Price, 1½ to 2 ft., each, 20c; \$1.10 for 6.

Golden Elder

Showy, golden leaves; tall, sturdy, hardy shrub. Just right where height and color are needed. Unusually large clusters of white fragrant elder blossoms, followed by black berries. Attractive ornamental shrub. 7-10 feet; blossoms August.

Price, 2 to 3 ft., each, 40c; \$2.20 for 6.

Bechtel's Flowering Crab

A flowering tree of outstanding beauty. Large, apple-pink, double, fragrant blossoms. Adapted to single planting—grows 8-10 feet high. Slower growing, longer lived ornamental tree well worth the added cost.

Price, 2 to 3 ft., each, 70c; \$3.50 for 6.

"SHRUBS" By F. F. Rockwell

Brief but complete information for improving the beauty and value of your home with shrubs. Tells what to select for different combinations and effects; how to plant, prune and care for shrubs. 49 illustrations, 76 pages.

Price, postpaid, \$1.15.

Bechtel's Flowering Crab

Evergreens

Suitable for Every Home Provide All Year Beauty

In the last few years the value and desirability of Evergreens for all kinds of ornamental planting has been realized by home owners. The increase in demand for the finer varieties has been enormous.

There is some place in every home where nothing will quite take the place of an Evergreen. Their beautifully colored foliage is outstanding in summer; in winter many a harsh landscape is made truly beautiful. In all seasons Evergreens present a pleasing appearance—a warm welcome—and are thoroughly worthwhile.

Wide Range of Shapes, Colors and Uses

Evergreen specialists have perfected fine varieties in all kinds of shapes,

Irish Juniper

Irish Juniper

This upright, decidedly column-like form is ideal for formal effects and just the thing to bring out other plantings by contrast. Grows 6 to 8 feet in height and not over 1½ feet in diameter. Color is blue-green. Grows sturdily in poor soils and is fairly tolerant of shade.

"Evergreens for the Small Place"

By F. F. Rockwell

All needed information to make the best use of Evergreens. Written by one who is himself a home owner. It tells the uses and types of small or dwarf Evergreens, and planting and general care. 67 illustrations, 84 pages.

Price, postpaid, \$1.15.

colors and sizes. Select the right tree for plantings at doorways, about foundations, in groups, as wind-breaks or as single lawn specimens. Shapes range from the low spreading Pfitzer's Juniper, through globe and upright kinds to the great pines and spruces. In color, you have your choice running from brilliant golden through yellow green and delicate blue to deep green.

Modern Planting Requires Evergreens

Every up-to-date planting includes some Evergreens—not because it is the "style," but because they are worthy and well qualified for landscape uses. Evergreens give a certain sense of pride, permanence and satisfaction that no other shrub or tree does.

Dwarf Mugho Pine

One of the Choicest New Ornamental Evergreens

A true dwarf, never reaching over 4 to 6 feet in height but spreading 6 to 8 feet. May be trimmed to any height. Does not have one main trunk but many stems branching close to the ground. Heavy dark green needles; always attractive, especially in spring when new growth appears as numerous tiny silver candles.

Adapted to Many Uses in Every Planting —Large or Small

For foundations, beds, hedges and single planting Mugho Pine is one of the best. You need not worry about its getting too big. Its dark color makes it stand out anywhere.

Our price on True Mugho Pine is unusually low for this new fine Evergreen.

Dwarf
Mugho
Pine

Genuine Colorado Blue Spruce

Nature's Most Beautiful Evergreen

Imagine a straight, perfectly shaped, gradually tapered tree with heavy foliage from ground to tip of brilliant, glistening steel-blue—and you have a faint picture of this beautiful tree. Best used as a specimen set alone; also attractive set in a dark green background for contrast.

There have never been enough true blue specimens for the demand. It is always a highly prized tree and you should take this opportunity to secure one or more. Our supply is limited.

Norway Spruce

Most planted of all spruces because of its graceful form, deep green foliage, rapid growth and hardiness. Its even, regular growth makes it suitable for ornamental specimen or hedge use. Nothing better for screens and wind-breaks. One of the most beautiful large evergreens, with its graceful, drooping branches. Grows vigorously in all locations.

Douglas Fir

A typical fir in rugged, sturdy growth in any situation. Especially adapted to landscape planting because its dull green short needles and compact growth give the suggestion of softness as contrasted with the stiff harshness of the spruces. Lower branches horizontal or even drooping; higher ones upright and the top sharply pointed. Reaches 60 feet or more with spread of 10 to 18 feet. A rapid grower.

Pfitzer's Juniper

Particularly adapted to landscape use in small or large grounds. Unknown a few years ago, this tree is today one of the most desired ornamental evergreens. Low and spreading growth, soft wavy branches, deep green in color with greyish cast. Just the right variation in doorway, foundation or bed plantings, contrasting with the upright growers. Don't fail to set two or more.

**Pfitzer's
Juniper**

Colorado Blue Spruce

Pyramidal Arbor Vitae

Well known and always attractive. Of dense, compact growth and narrow, pyramidal form, sometimes reaching 15 feet, but rarely more than 2 feet in diameter at the base. Deep, rich green foliage. Often used at corners, pillars and as a background for smaller evergreens. Easy to transplant and very hardy.

Hovey's Golden Globe Arbor Vitae

Unusually striking beautiful dwarf form—one of the best. Foliage is golden yellow, fine and soft in appearance. Particularly desirable for foundations and window-boxes. A true globe type and deservedly popular.

Persian Lilac

Persian Lilac

Choicest variety—unusually large, pale lilac blooms, sweetly fragrant. Everybody admires the lilac. Practically every yard should have 2 or 3 of these popular shrubs.

Price, 2 to 3 ft., each, 40c; \$2.20 for 6.

Bush Honeysuckle

Red Tartarian. This vigorous spreading shrub with dark green foliage bears large, bright red flowers in June and, later in the season, crimson berries. Very showy. Height, 6-10 feet.

Price, 1½ to 2 ft., each, 12c; 70c for 6.

Althea—Rose of Sharon

Beautiful deep pink flowers; dark green, glossy foliage. Great masses of large flowers 3 inches across in August and September when there are few other flowers. Hardy; succeeds anywhere. Plant the bush form (grows to 4-6 feet) in beds; the tree form (reaches 6-10 feet) for single ornamental use.

Price, (Bush Form), each, 15c; 80c for 6.

Price, (Tree Form), each, 40c; \$2.20 for 6.

Tamarix

Africana. Distinctive because of its delicate thread-like foliage, dull sea-green in color, waving from long bending branches. Numberless small pink flowers in April before the leaves appear make it a cloud of soft pink. 6 to 10 feet.

Price, 2 to 3 ft., each, 30c; \$1.55 for 6.

Excellent Shrubs—Bloomed First Summer

Staunton, Ill., August 26, 1929.

Dear Sirs:—

Early this spring I ordered the Rose and Shrub Special from you and wish to compliment you on your excellent stock. Every plant lived and is growing nicely. The Spiraea Van Houttei, Dorothy Perkins and Hydrangea bloomed. I am sending in an order now and hope it is of as excellent stock as the others.

Yours truly,

(Signed) Mrs. George Hunsinger.

A Well Pleased Customer

Flushing, Mich., April, 1929.

Gentlemen:—

We received the first part of our order Saturday, and are very well pleased with our trees and shrubs. This is our first order to Baldwin's, and it will not be our last when in need of nursery stock.

(Signed) C. W. Browning.

Climbing Vines

Hall's Honeysuckle

The favorite. Sometimes called Japanese Honeysuckle. Delicate white and yellow flowers blooming in June, with some flowers all summer. Heavy pungent fragrance. Dark green foliage holding its full color late into the fall. A vigorous grower, often shooting 7 to 10 feet in a single season.

Price, each, 30c; 80c for 3.

Wisteria

Chinese Purple. A luxuriant, growing, clinging vine. Beautiful, fine, lacy foliage filled with long, drooping clusters of soft, purple flowers, that come in May. A long-lived, hardy vine.

Price, each, 30c; 80c for 3.

Engleman's Ivy

A new variety. Similar to Boston Ivy but smaller, closer deep green leaves give a softer, more attractive covering. Clings to brick or stone walls and buildings. Rapid grower in dry or wet soil. Deep fall colorings.

Price, each, 35c; 95c for 3.

Clematis Paniculata

White. The small, white "star" variety that blooms so profusely in late summer. Delicately fragrant. Attractive light green foliage. A hardy grower—one of the most satisfactory flowering vines.

Price, each, 45c; \$1.20 for 3.

Clematis Jackmani

Purple. The most strikingly beautiful clematis. Large, open, deep purple flowers cover the vine in July and August. Deep green, glossy foliage.

Price, each, 75c; \$2.00 for 3.

Clematis Paniculata

Special Shrub Offers Pages 37-38

Silver Maple

Weeping Willow

Spreading, graceful tree with long drooping branches. Long, slender grey-green leaves—an imposing tree on any lawn. Grows rapidly on transplanting in wet or dry soils.

Cut-Leaved Weeping Birch

A distinctive ornamental tree with its white bark, deep cut delicate leaves and graceful, drooping habit. Attractive when planted alone or among others where it stands out strikingly.

How Are You Fixed For Shade Trees?

Year after year shade trees bring increasing beauty and comfort. Trees frame the landscape and form the background for all other planting. Our trees are offered in the sizes of each variety best adapted for transplanting. Shade trees promote real estate values.

Silver Maple

Most desirable because of its quick growth, good foliage and graceful spreading shape. Transplants readily; grows in any good location. Leaves light green, silver underneath—open in early spring and hold late in the fall.

Norway Maple

Sometimes called European Hard Maple. Similar to our Hard Maple but has larger, darker foliage and a rounder, more spreading growth. Recommended as one of the best shade trees for lawn, park or roadside. Of slower growth than Silver Maple, but of sturdier, heavier form—a distinctive, stately tree.

Schwedler's Red Maple

The Purple Norway Maple. Resembles Norway Maple closely except that the young leaves are bright purple and red, changing to bronze and then to deep green; changing again in Autumn to brilliant reds and browns. Grows 30 to 50 feet. Thoroughly usable, satisfactory tree—not a novelty.

American Elm

One of our grandest native trees—"The Graceful Elm." A strong, vigorous grower; great size and unusually long lived. A tree too well known throughout the country to need further description.

Mountain Ash

Especially desirable for its cheerful yellow and scarlet berries carried from late summer through the winter. Strong grower in wet or dry locations. Small leaves lend appearance of softness to this gracefully branching tree.

Lombardy Poplar

Rapid growing, spirelike tree reaching a great height. Unsurpassed for screens, narrow lots or background plantings. Plant for quick showing.

Two New Striking Perennials

You Need Them Both in Your Garden

Tritoma Pfitzeri

Red Hot Poker. Unusual and attractive in any garden. Brilliant yellow-red flower spikes extend several feet above green leaves. Blooms July to frost.

Price—POSTPAID IN U. S.—45c each; \$1.20 for 3; \$2.25 for 6; \$4.40 for 12.

Japanese Iris

The newer, most beautiful colored variety of this garden favorite. Present day Japanese Iris are not to be compared with the "Flags" we used to know. They are a permanent highly prized perennial you will need in your garden. Selected roots from finest color varieties.

Price—POSTPAID IN U. S.—25c each; 70c for 3; \$1.25 for 6; \$2.25 for 12; \$6.50 for 50.

Japanese Iris

Tritoma Pfitzeri

Do You Love Roses? Of Course!

When Mother Nature Made the Rose She
Gave Man a Gift of Rarest Beauty

To the lover of roses—and who is not?—each spring is an opportunity to add more and newer varieties to his collection. Today no garden is complete without several specimens of this—the loveliest of all flowers—the rose. You find a particular satisfaction in growing beautiful roses that you find in growing no other flower. We are offering the best in rose varieties.

Frau Karl Druschki
(Pure White)

Bush Roses

(Climbing Roses on page 39)

Frau Karl Druschki—Pure

white. A great favorite. The ideal hardy, pure white rose, perfect in form. A strong, rugged grower doing well even under unfavorable conditions. A monthly blooming rose. Price, each, 45c; \$1.25 for 3.

Gruss an Teplitz—Deep red. A hybrid tea rose of exquisite loveliness; richest scarlet, shading to velvety crimson; very fragrant; strong grower. Price, each, 45c; \$1.25 for 3.

Rosa Hugonis—"Golden Rose of China." Genuine Chinese variety—not a wild rose. A large bush of beautiful, lacy soft green, fern-like foliage, covered in April or early May with a mass of single, clear golden-yellow flowers; borne on long arching sprays. Hardy everywhere. Price, each, 55c; \$1.45 for 3.

Los Angeles—Flame pink. The most popular rose next to Radiance.

Chosen one of the "Best Dozen" by rose experts. Extremely beautiful in both bud and flower. Delicately shaded flame pink, apricot and gold.

Price, each, 55c; \$1.45 for 3.

Mme. Butterfly—Pink. A newer rose of real merit. Exquisite delicate pink shading to soft gold at the base. Fine for cutting; a steady bloomer—good in the fall.

Price, each, 55c; \$1.45 for 3.

Mrs. Aaron Ward—Cream yellow. One of the finest and most beautiful of yellow roses. Continuously blooming. Buds are a rich golden fawn and on opening quickly change to soft pink and cream. We want you to have at least one bush in your garden.

Price, each, 55c; \$1.45 for 3.

Paul Neyron—True rose pink. Immense globe-like flowers on long, stout stems. Bush hardy, vigorous and comparatively free from thorns. Add it to your rose garden.

Price, each, 45c; \$1.25 for 3.

Red Radiance—Cerise red. Probably the best known and most popular of the lighter red shades. Big round blooms of cerise red. Hardy, vigorous. Price, each, 45c; \$1.25 for 3.

Souv. de Claudius Pernet—Lemon yellow—Another new rose. Just what rose lovers have been looking for—a clear brilliant yellow—and what is more, one that does not fade. Exceptionally fine for cutting. Does best in hot, dry weather. Price, each, 55c; \$1.45 for 3.

(Lemon Yellow)

Mrs. Aaron Ward
(Cream Yellow)

"How to Grow Roses"

by Pyle, McFarland
& Stevens

Makes every step in the culture and care of roses so clear that any grower can succeed. America's most popular rose book completely rewritten. 144 pages, 32 plates in full color, 32 half-tones. Price, postpaid, \$2.20.

Hardy Perennial Flowers

The Finishing Touch to Yard and Garden

Every home needs a flower garden! Hardy flowers bring cheer and fragrance to the garden, to the doorstep and to the home—and yet with all their delicacy and fragrance are easy to grow and most dependable in bloom. Plant them in front of shrubs, along the hedge or walk, in a vegetable garden and in a garden by themselves.

Hardy Perennials are a pleasure to the home gardener, coming back year after year with increasing profusion and no need of seeding or planting every spring.

Our list offers Perennials that are best adapted to transplanting and will give you flowers all summer long. Strong plants ready to bloom the first year. You should have at least six to make a showing.

Chrysanthemum

Hardy Phlox

July-September. These beautiful hardy border plants are among the most effective things in the garden in late summer and fall. These newer varieties, much improved both in color and size of bloom, offer a wide range of rich colors.

Bridesmaid. Excellent pure white; red eye.

Eclairer. Best real red phlox we have.

Ferdinand Cortez. Red, deep rose pink.

Mrs. Charles Dorr. Unusual lilac purple.

Rhinestrom. Large pink.

R. P. Struthers. Deep salmon; one of the best.

Other Hardy Perennials

Aquilegia—Columbine. May-July. One of the faintest outdoor grown flowers. Does well anywhere, though preferring a moist, sunny spot. A most important part of every old-fashioned garden.

Campanula—Canterbury Bell. May-June. (See illustration.) Another old favorite; covered with large bell-shaped flowers on long stems. Showy in mixed borders.

Chrysanthemum. Sept.-Nov. (See illustration.) Every one knows these brilliant, hardy flowers. They extend garden colors up to winter. Nothing better for cutting.

Coreopsis—Tick Seed. June-October. One of the best hardy plants; golden yellow flowers, daisy-like, but broader petals, with notched edges.

Delphinium—Perennial Larkspur. June to frost. (See illus.) Queen of the garden—beautiful shades of blue and lavender flowers borne on tall spikes add a distinction to the perennial bed that no other flowers give.

Dianthus—Hardy Pinks. May-June. Without the spicy fragrance of hardy pinks a garden is incomplete. Their perfect form and rich coloring make them great favorites for edging flower beds and garden walks.

Digitalis—Foxglove. June-July. Old-fashioned, dignified and stately. Rich green masses of leaves always attractive and when in bloom this plant dominates the garden.

Gaillardia—Blanket Flower. June to frost. Vigorous grower in all soils. Quantities of fine blooms deep yellow shaded to rich brown and red at the centers. Good cut flower.

Hollyhocks. June-July. One of the most stately, picturesque and beautiful plants in the world. There is always room for this old garden favorite. Pink and red, double and single blooms.

Lupines. July-August. There are but few good blue flowers—this is one. Beautiful, foot long spikes of pea shaped flowers on three foot stems. Plant in moist location.

Physalis—Chinese Lantern Plant. August to frost. Its bright orange-scarlet lantern like fruits make decorative, cheerful winter bouquets. Very attractive garden plant.

Pyrethrum—Painted Daisy. May-July. Ideal cut flowers; blooms uninjured by wind and sun. Perfectly hardy, grows everywhere. Mixed colors.

Shasta Daisy. June-August. (See illus.) Bright and sturdy, well known garden daisy. Large clear white petals, yellow centers.

Sweet William. April-May. An old-fashioned favorite; spice-scented; flowers like pinks but borne in clusters; fine for cutting. Colors variegated.

Instructions for Ordering—Please Read Carefully

Parcel Post Shipments

Everything except trees can be sent by mail. Quick delivery right to your door in city or country. Express is sometimes cheaper on larger orders. We can probably tell the best and cheapest way to ship your larger orders. If you care to leave it to us, just check "Our judgment" on the order blank. On all small and average sized orders, mail shipment is cheaper and better for you.

Send No Money For Postage—Mail Shipments Sent C. O. D. For Charges

You pay the postman. This is the cheaper way for you, because it is impossible to estimate just what your plants will weigh. Postal clerks give C. O. D. shipments preference, assuring more prompt delivery. Another thing—C. O. D. shipments are automatically insured against loss or damage. Mark your order blank for mail shipment, sending cost of plants only, and we will send them C. O. D. for the exact postage.

LOCATION: Bridgman, Berrien County, Southwestern Michigan—the heart of the "Michigan Fruit Belt." Fast service to Chicago trunk lines east, west, north, south.

EXPRESS SHIPMENTS: Cheapest for large orders. Rapid handling. Charges not prepaid.

SHIPPING SEASONS—SPRING: From last of March or first of April to May 15th to 25th, according to season. **FALL:** October 10th to November 15th.

PACKING: No charge. All plants packed in damp moss or shingle tow. Will keep in good condition 5 days to 2 weeks, according to time of shipment and weather conditions. Each variety carefully separated in package and correctly labeled.

SUBSTITUTION: No substitution without your permission, except on late orders when time is often saved by substituting varieties of same season and value as those ordered. We guarantee satisfaction on varieties substituted.

ORDER EARLY: The earlier you order the surer you will be of getting the varieties you want. Many varieties sell out quickly. Order now, we will reserve yours.

HOW TO ORDER: Write your name and address plainly on enclosed order blank. Indicate "Mail," "Express," or "Our judgment,"

as you prefer. If express shipment, be sure there is an express office at the destination you give. Enclose remittance. Your order acknowledged promptly.

PRICES: See above. Also Evergreens, page 29; Shade Trees, page 31; Perennials, pages 31, 33.

TERMS: Orders of \$5.00 or less, please send cash with order; if more than \$5.00, please remit 25% of total amount with order, balance before shipment. No credit or C. O. D. shipments.

REMITTANCES: Send check, Bank Draft, Express Money Order, or P. O. Money Order. If you send Currency, register your letter.

REFERENCES: Our local Express Agent or Postmaster; also Bridgman State Bank of Bridgman, or the Commercial National Bank, St. Joseph, Mich.

COMPLAINTS: All complaints as to condition on arrival, shortage or errors must be made within five days after stock is received. This allows ample time to examine shipments, and if there is anything wrong, the sooner we know it, the sooner it can be satisfactorily adjusted. That is just exactly what you want. Out of thousands of shipments we make few errors. Complaints as to condition on arrival must be accompanied by express or postoffice receipt showing statement of bad condition.

A Wonderful List of Beautiful Roses and Sturdy Shrubs

Make Your Selection Now

Planting time this spring is the opportunity for the up-to-date man with an out-of-date planting to move forward.

Colorful Red-Leaved Barberry

Similar in all respects to the green-leaved Japanese Barberry so popular for hedge or clump plantings, except that the foliage of this new variety is a rich, lustrous, bronzy red. In the fall its foliage changes to vivid orange, scarlet and red shades, more brilliant than the ordinary Japanese Barberry. This coloring is followed by the same brilliant, scarlet berries, which remain on the plant all winter. Plant in full exposure to the sun.

Price, 1¼ to 1½ ft., each, 65c; \$3.25 for 6.

Don't Be Satisfied Without Some Evergreens—Pages 28-29

Dorothy Perkins

Climbing Roses

Dorothy Perkins—Shell Pink

—Loveliest of Ramblers—This beautiful climbing Rose grows ten to fifteen feet in a single season, the vine being a hardy, vigorous grower. Dainty, pointed buds open into a profuse shell pink bloom of large flower clusters of exquisite beauty and fragrance.

Price, each, 30c; 80c for 3.

Crimson Rambler—Deep crimson. A beautiful climbing rose. Foliage rich, dark green; rapid grower. You all know this Rambler and why not have plenty for your trellises, garden wall and home?

Price, each, 35c; 95c for 3.

Paul's Scarlet Climber—Vivid scarlet. Usually large flowers for a climber. You're sure to be delighted with this wonderful Rambler. Brilliant, semi-double flowers in clusters of color. They hold their bright color for two to four weeks. Cut them liberally—the bush will not be injured.

Price, each, 35c; 95c for 3.

Gardenia—Yellow to cream. One of the best yellow climbers. Bud comes as bright yellow, opening to cream—double bloom.

Price, each, 50c; \$1.35 for 3.

Bush Roses

Bathurst's Selected Varieties, Page 32

Hydrangea P. G.

This showy shrub is perfectly hardy. Its large clusters of pure white blossoms, later turning to soft pink, bloom from August until late fall. Superb either in single or group plantings; often used as a hedge. A beautiful shrub both for its blooms and its rich green foliage—and should be used much more than it is. Grows 4 to 5 feet high.

Price, 1½ to 2 ft., each, 35c; \$2.00 for 6.

Sour Cherries

Montmorency—50c each; \$1.75 for 10; \$45.00 for 100.

Early Richmond—15c each; \$4.25 for 10; \$40.00 for 100.

(All 5 to 6 ft. 9/16 in. caliper trees)

Montmorency—Sour—Ripens late in June and is best sour cherry for the market. Makes delicious pies; fine for canning. Fruit larger than Richmond; bright red, acid flavor.

Big growers who know tell us: "There is good money—big money, to be made in growing Montmorency for the rambling factory market." And they are planting heavily now.

Early Richmond—Sour—One of the most popular sour cherries, unexcelled for cooking. Dark red, tart and juicy. Thrive trees uninjured by cold. Big crops.

3 Good Market
Sorts

Early to Late.

Rochester—Early August. Unusually early free-stone peach; wonderfully sweet, good color. Hardy and prolific.

Elberta—September first—Large to extra large. Free-stone. Golden yellow flesh, red at the pit. Firm, juicy. Has no equal as a prolific bearer and shipper. Best known peach.

Gold Drop—Late September. Excellent late, well known peach much in demand. Good annual crops of firm juicy, yellow, medium sized fruits.

(Other Varieties, Page 24)

Elberta

Apples 35 Cents Each

(Other Varieties, Pages 21-22)

RED DELICIOUS

Known the World Over

Winter. Brilliant dark red, shading to yellow at blossom end. Large to very large; white, tender juicy flesh. Wonderfully rich sub-acid flavor—truly delicious. Ships without bruising; makes a wonderful appearance, commanding top prices. Comes into bearing early.
