SEEDS THAT SUCCEED SEED BEANS

FOR SPOT AND EARLY FALL PLANTING

IF YOU EXPECT TO PLANT FALL BEANS ORDER THEM NOW

There has never been a year when Seed Beans have been as scarce and as high priced as the past season. Seed crops were extremely short and in many sections TOTAL FAILURES. Seed stocks in the hands of Growers have been reduced to a minimum. We have saved out a limited stock of the better varieties for our Fall Planters—we have these Beans in stock and we will ship them now or we will hold them for you until Fall if preferred. Remember that for Fall Planting you must rely upon stocks that are available now as new Crop Beans will not be harvested in time to plant this year. The following stocks are for Prompt Shipment. We will hold them until Fall if desired but we feel that you should give us a deposit of \$1.00 per bushel for holding them for you. We have only limited quantities. Wire or phone your orders at our expense, 201 Washington St., New York.

Bountiful

THE BEST STRINGLESS GREEN POD

WAX AND GREEN BEANS

Limited quantities—subject to being unsold and confirmation from our New York Office. All F. O. B. New York. To firms of established credit, 2% 10 days net 60 days, or less 2% draft against B/L.

CABBAGE SEED

Special Selected Stocks—Special Prices to Plant Growers on Request.

For years we have grown selected stocks of Cabbage Seed both for the Seed Trade and for the larger Growers. We have discontinued growing many of the old varieties and have centered our efforts on improving new strains of the better sorts. We will make special prices in large lots. Write or wire us for prices on your requirements. We especially recommend our new Golden Acre—an extra early very uniform Copenhagen market type some ten days earlier. Our new selected strains of Jersey and Charleston Wakefield—Succession—the best of the medium early flat cabbages and Steins Early Flat Dutch, the best of its type. We can supply either Long Island grown or Puget Sound grown stocks. Long Island grown at of course higher prices and in limited quantities.

BERMUDA ONION SEED

Tenneriffe Island Grown

For the past few seasons we have been growing our own Bermuda Onion Seed in the Tenneriffe Islands on contract with native growers there. We have one of our own men, a Spaniard—trained by ourselves in the Seed Growing Industry—in the Canary Islands. He carefully selects the stock bulbs for planting. Superintends the growing, harvesting and shipping of the seed; sees to it that we get the crops from our own bulbs and our own planting, and no others. In other words we are as careful in the growing of this seed as we are in the crops we grow at home. If you are buyers of large quantities we will make special prices and terms in lots of 1,000 lbs. or more.

WE ALSO GROW SWEET SPANISH OR VALENCIA ONION. We can furnish either American or Spanish Grown Stock. Per lb. \$2.25, 100 lbs. \$1.90.

NEW YORK OR WONDERFUL LETTUCE

An excellent stock of the Iceberg Type. More N. Y. Lettuce is grown in the U. S. than all other varieties combined.

OUR NEW STRAIN should really be called Eastern Iceberg or New York. It is fully one-fourth again as big as New York and has been selected to a point where practically every plant develops into a hard compact head. This strain insures any grower a type of lettuce to compete with California and Western Iceberg in any market. It is highly resistant to warm weather. Per lb. \$1.25, 10 lbs. \$1.00, 100 lbs. \$.80.00.

BIG BOSTON LETTUCE

S. D. W. Select Strain.—We believe that this is the surest heading, most solid, and most uniform strain of Big Boston Lettuce ever produced. It forms a very large frame and unlike most bulky Lettuces, it heads quickly and is extremely hard. For Spring and Fall use it has no superior. On account of its hardness and the tough character of the outer leaves, it cannot be surpassed for a shipping Lettuce. Per lb. \$1.00, 10 lbs. 90c, 100 lbs. \$75.00.

ROMAINE—PARIS WHITE COS

The large type of Self Folding White Cos. The best type for shipping. Per lb. 90c, 10 lbs. 80c, 100 lbs. \$75.00.

FIELD CORN—IT'S TIME TO PLANT—SWEET CORN

Minnesota No. 13.....	2.50

ITALIAN BROCCOLI

Special Italian Calabrese—The Right Kind—Broccoli is recognized everywhere as a delicious vegetable and is in very great demand. It grows like Cauliflower, cooked and served in a similar way. An easy crop to grow and a tremendous yielder. Our strain is the variety the New York and other produce markets want and demand.

It makes large compact green heads. After it is cut the plant branches at the main stalk, making a number of smaller heads which can be bunched and crated. Don't get the wrong strain of Broccoli. We know what the buyers want and we have it.
Price ¼ lb. \$3.50, ½ lb. \$6.00, 1 lb. \$10.00, 10 lbs or over \$8.00

RADISH SEED

SELECT SCARLET GLOBE

Our strain of this, the most popular of all market sorts, is grown from selected hand transplanted roots and produces a beautiful uniform color and shape. This stock and Crimson Giant we consider the two finest basket or crate radishes grown.
Per lb. 40c, 10 lbs. 35c, 100 lbs. \$32.00.

NEW CRIMSON GIANT

Larger than Scarlet Globe and with a better top. A beautiful color, uniform shape, but never pithy. One of the best for out-door culture. The most showy Bunch and Crate Radish grown.
Per lb. 40c, 10 lbs. 35c, 100 lbs. \$32.00.

SPINACH SEED

RESELECTED BLOOMSDALE SAVOY

An improvement over the old type bred for size. The plant is early and makes an immense spreading rosette which bushels wonderfully. The leaves are intensely blistered and crumpled and are a glossy deep green in color. Very desirable for Spring planting and for Wintering over. Several days earlier than Long Standing Savoy.

Per 100 Lbs. \$18.00, 1000 Lbs. or more \$15.00

WOODRUFF'S NEW LONG STANDING SAVOY

Shows a marked improvement over the old Standard Bloomsdale Savoy type. It is very heavily curled—it is a deep dark green color—it will stand two weeks longer without shooting seed stalks than Bloomsdale, which is a really remarkable feature.

Per 100 Lbs. \$18.00, 1000 Lbs. or more \$17.00

Woodruff's New Crimson Giant

A PREDICTION

BEET - CARROT - TURNIP

All Biennial Seed Crops will be extremely short the coming Season—Owing to the ABNORMALLY cold winter in Europe The most severe in a century—Roots of practically all seed Crops have been lost—There will be no imported stocks and tremendous quantities are imported yearly. The acreage planted in the United States is small and the demand for these crops for Export is greater and prices are higher than at any time since the war. REMEMBER THIS AND SEE HOW NEAR RIGHT WE ARE.

EARLY WONDER BEET

It is the earliest, the most perfect shaped, finest appearing bunch Beet on the market; beautiful and dark colored, small top, single small tap root, excellent keeper, truly the ideal Beet. Used not only as a bunch Beet, but grown extensively for late fall sowing because it grows two weeks quicker than any other Beet worth while.

Per lb. 85c, 10 lbs. 75c, 100 lbs. 70c.

BAGLEY DANVERS CARROT

The best Bunch and Crate Carrot we have ever grown. A long Stump Rooted type of Danvers—A Big yielder—Uniform, very High Colored Roots, with a Beautiful Showy Top for bunching—It is equally good for a Bushel Carrot, far superior to Danvers Half Long and a better Carrot for Crating than Chantenay. It always Tops the Market.

Per lb. \$1.50, 10 lbs., \$1.35, 100 lbs. \$1.25

BAGLEY DANVER'S CARROT
