KEYSTONE CITY LAWN GRASS is a proven mixture containing more of Kentucky blue grass than any other seed, but with sufficient English perennial rye grass, red top grass and white Dutch clover to assure a quick growth, even under unfavorable conditions. The blue grass comes on more slowly, but provides a permanent lawn. Sow in spring, early summer or fall, ½ lb. per 100 square feet.

Something Definite

Something definite—a standard—something solid to tie up to. That is the desire of the average American. We like standard things because standards save us a lot of time and worry. Once we've found a standard we go ahead on it; our mind is freed for other decisions.

That's the reason for the Keystone Dealers Sign. It brings business to the dealer because it represents an accepted standard, a dependable known quality. It says to thousands of gardeners and farmers, "Buy your Seeds here; don't worry about quality, that's been proven for years and years."

PUT UP A KEYSTONE DEALER SIGN

It's a good-looking enamel steel sign that will bring you business. Send for your Sign—it's waiting for you. We'll be glad to pay the express charges.
