SINGLE AND COLORETTE DAHLIAS

These showy Dahlias do not receive the attention they deserve from Dahlia lovers. I will send 12 kinds of my seedlings to any one interested with their order for \$1.00 all different but not labeled.

DOUBLE DAHLIAS

For mass planting in beds, along walks or hedges we can furnish tubers at \$7.00 per 100, 10 or 12 kinds in each 100. The color and height of plant will be given on wrapper of each kind. Advise your choice of colors which will be followed as close as possible.

DAHLIA COLLECTIONS

Many of our customers ask us to make a selection of nice Dahlias for them. We will send 12 different kinds, all double free flowering sorts for \$1.50, \$2.50 or \$3.50. Suggest the colors you like best and we will send you full value for your money.

IRIS GERMANICA OR FLAGS

These beautiful flowers are very hardy, easy of cultivation and will grow well in city gardens. The plants start growing early. For best results place your order early so we can ship when the frost is out of the ground.

In planting set the plant so the heavy root is just under the surface. The smaller roots should be spread out down into the soil. Work fine dirt in between these roots and water to settle the ground. The upright petals are indicated by S. and the drooping petals by F. in the description.

IRIS KAEMPFERI OR JAPANESE IRIS

The color combinations and size of blooms make these flowers truly wonderful. Some kinds have six fully developed petals and are called double, while the single varieties have three petals. Japanese Iris bloom in June and July. The plants start late and may be transplanted until middle of May. The plants should be

set deep enough so top of the root crown is one inch below the surface. The roots must be well spread and fine soil worked between them. Water thoroughly when planted and keep surface ground loose when soil becomes dry. Watering during the growing and blooming season is beneficial and will greatly improve the flowers. If you admire Iris be sure to plant some of these beautiful flowers. All varieties listed, with the exception of **Purple and Gold**, are my own originations and may be ordered by number. You will not get any better plants under a name and high prices from specialists.

SPECIAL OFFER—Eight different Japanese Iris \$1.50, 12 kinds \$2.50 prepaid to Fourth Zone.

MONTBRETIA—These plants are similar to Gladiolus. They are grown from bulbs which must be stored like "Glads" over winter. The blooms are like miniature Glads on slender stems and many side shoots appear which prolongs the flowering season. Flowers are orange scarlet. For best display plant 6 or 12 in a cluster about 4 or 5 inches apart. Price 5c each, 50c per dozen.

GLADIOLUS

The varieties offered in this list cover the wide range of colors in this beautiful flower. My prices for this year are very low and you can make up your own collection of 25, 50, 100 or more at prices quoted if you select 3 or more of one kind. On all orders for one or two bulbs of a kind the single rate applies. The prices are for large bulbs 1¼ inch or larger. In some varieties we will run short in large bulbs and will send two medium size in place of one bulb ordered. These bulbs will give a good flower spike and make large bulbs for next season. If you do not desire medium size substituted please advise in your order.

My Gladiolus collection includes very choice and beautiful varieties just as nice as the high priced, much advertised novelties, which are yearly offered at prices impossible to the average lover of flowers.

Price of the following: 5 cents each; 25 for \$1.10;
50 for \$2.00; 100 for \$3.75.
