To Our Customers

Gentlemen:

We again greet our many friends and customers this season, and we are certainly pleased to be able to offer you the excellent prices on bulk seed which are listed in the following pages.

From year to year you purchase packet and bulk seed. You are interested in price, yes, and yet you are more vitally interested in quality, for you know that seed can be seed and yet not contain the organism that will produce its kind in vegetable or flower plant. It would be impossible for you to purchase and maintain a germination test laboratory, and therefore you are dependent on the reliability of the company with whom you deal to furnish you with seed tested for germination and purity of strain. The result is that you may or may not be furnishing your trade, the producers of vegetables and flowers, with the quality seed that they must procure to be fully successful. They depend on you to select your seed supply with the utmost of care.

In the past few years men who have had many years of training in growing and selecting seed for the Crosman Company have been making every attempt to packet, for consignment boxes, not just good seed, but seed of par-excellence. The wonderful reports and letters from our customers from every part of the country have proven that our endeavors have been rewarded in no small degree.

We now send to you this list, giving you the opportunity to purchase this seed in bulk at prices in comparison with any on the market, and seed that will produce flowers and vegetables to delight the most critical planter and gardener.

We warmly thank you for your good will and patronage, and assure you that our one aim, above pecuniary benefit, is to supply you and your trade with live, new crop seed, thoroughly tested. We guarantee all seed sold to be such, subject, of course, to the conditions as explained below.

Yours very truly,

CROSMAN SEED COMPANY, Inc.

TRADE TERMS—PLEASE NOTICE

Prices are F. O. B. East Rochester, N. Y., on beans, peas and corn. All other seed delivered, prepaid, if in quantity of 50 pounds or over. Bags charged as cost, but are returnable for credit.

Seed sold to our customers of approved credit. 3% deductible if cash or check accompanies order, otherwise no discount. Bills due on delivery of seed.

We ship via freight unless in small amounts, or where otherwise advised.

It is impossible for us to guarantee crops, and we do not warrant in any way any seed sold. However, we exercise the greatest of care in producing only the finest strains, and all seed is carefully tested by a qualified seed analyst.
