Fairview Garden Gladiolus Seeds for 1930

106 First Avenue East
CEDAR RAPIDS, IOWA

I am sending you an invitation into a new field of garden joy. Raise your own Glads from seed and unbloomed seedling bulbs.

I am offering for sale hand-pollinated seeds from selected stock. You can get blooms the second year. I also have on hand unbloomed seedling bulbs—two and three years old, which are blooming size.

Orders not less than \$1.00.

Orders over 5 dozen, 15% discount.

Directions for raising Glads from seed with every order.

All stock is subjected to prior sale. Order early to avoid disappointment. I will accept orders up to April 15th. Order by name and number.

All shipments in U. S. A. and Canada prepaid. Ask for references.

HAND POLLINATED SEED OF 1929 CROSSES

You will find an X at either one or the other parents of named variety (pistillate or staminate) of pollinated Glads. In these seeds the X signifies the predominating factors in color or other characteristic of the one specie over the other in first generation. However I kept in mind during pollination in many cases as many as six unit characters—never less than two.

I am offering an opportunity to those acquainted with the law of the famous Mendel formula of plant breeding to carry on extended breeding according to their individual liking. Any one interested in raising his own glads will be delighted with the results from these pollinated seed. I paid especial attention to breeding new specie in colors, size of bloom, productiveness—and free from diseases.

I also have a large stock of bee pollinated seed. (I keep several swarms of bees in the garden.) Ask for any here listed by names of the pollinated seed, and we will send you price of the same.
