The New Head

In looking over our 1928 catalog we started with a new head and it worked all right so this year it will still be

G. B. CUTLER SEED CO.

The management will be the same as always, as I guess it is not so bad, as our business is on the increase.

Now if you want to see the real head turn this page over and take a good look.

GEO.

GEORGE

When in Marshall come and see me any time. Can be found at 75-77 W. Second Street on the Bank of the Roaring Redwood River.

Twelfth Annual
PRICE LIST
—OF THE—

G. B. CUTLER SEED CO.

Marshall, Minn.

March 1st, 1930

In presenting you this 1930 Price List, we wish to thank all our friends and customers for their past patronage.

Our old customers are well acquainted with our ways of doing business, and you should ask the old if in doubt as to our square dealings.

No Warranty.—We exercise extreme care in the filling of all orders, but we give no warranty, expressed or implied, as to the quality, description or productiveness, or any other matter of any seeds we send out, and will in no way be responsible for the crop.

This non-warranty is similar to that used by all seed houses and we recommend that you test all seeds on arrival and if they do not meet your requirements, return them at once at our expense and we will cheerfully refund your money.

ORDER EARLY—As market conditions are not yet normal, and as fancy stocks are going to be hard to replace, we strongly recommend that our customers place their orders early, thereby taking advantage of the low prices which we present in this first issue of our 1929 Price List.

Prices Subject to Change.—The prices quoted herein are based on market conditions at the time this list is issued and are subject to change without notice. We do not alter prices except in extreme cases, but if your list is an old one and you have occasions to presume that prices are either higher or lower, just write us for current list before ordering and we will supply one at once.

Orders Promptly Filled.—In case of delay you will be notified by letter explaining the cause of such delay and advised when shipment will be made. If you do not hear from an order sent us within a reasonable

length of time, send us a duplicate, stating amount of remittance, and be sure to give your name and full address.

Terms of Sale—Cash must accompany orders and should be in the form of Money Order or Bank Draft, Currency or Registered Mail, or Bank Check.

G. B. CUTLER SEED CO.

Just a Few Words From George

It seems to be customery for a Seed Man to tell a little of his history. Of course it likely will be better not to tell everything that has happened in his life as we were all boys at one time and did things, such as swiping grapes, watermelons and several other things that might not look good in print. A few years ago while visiting my old home town, Marshall, Wisconsin, I heard several things that I did when a boy that I had forgotten until reminded of it. I will admit that I never was an angel, but did always manage to keep out of jail. Now when a boy of 12 or 14 years old I always had several seed catalogs and thought I wanted to be a seed man and I went as far as to write several asking for a job, but they all wrote me a very nice letter saying that they all had plenty of help and from then on the seed game was a thing of the past.

Twenty-nine years ago I came to Marshall, Minn., the best town and state that I know of. I worked out on a farm the first year here for \$20.00 per month and then rented my folks' farm 2½ miles east of Marshall and was there 15 years. Eight of them was spent in batching,

when I found a girl at Chatfield, Minnesota that felt sorry for me and have had a good cook and three meals a day since. I cannot tell you what she thinks of me now, but to be honest with you I have heard her say that I was the best man she ever had, (as I am the only one she has had.)

Thirteen years ago I became good, come to town and bought a church parsonage to live in and I rented the old Catholic church and started in the seed business. Seed corn being about all that I had the first year, if I remember right, I had six sacks of grass seed and carried about one half of that over until the next year, but business has grown until in my present location, that instead of getting in seed by the sack as at first, it is shipped in, in car load lots now. Until nine years ago I did not handle garden seeds at all, but since have handled them in bulk. This department has grown just as fast if not faster than the field seed, as in the bulk garden seed buyer I never lose a customer. After they buy that way once they never go back to the pretty packages with very few seeds in them and perhaps they are 10 years old as far as the dealer you buy them of knows. As to the chicken feed, that has grown from nothing

a few years ago, until now that is shipped in by the car load.

Now to sum this all up there must be a reason for this growth in the past years. I do not know what it is unless it is by trying hard to please the people and selling them what they want at the right price. Of course we make mistakes but if we do we are always glad to correct them, (some times at a loss), which we are glad to do if it is our fault. You are just as welcome in this place with overalls on as you are with a white collar and it will always be so as long as I run things around here.

Come in and see us whether you buy anything or not as we always like company. Perhaps I have said more than I ought to but it is too late now. When you come in say Hello George, leave the Mr. stuff off and oblige.

Thank you
G. B. CUTLER

From The News-Messenger
March 1, 1929.

Great oaks from little acorns grow, great crops from little seeds, and great seed men—from nothing. At least the latter seems true of G. B. Cutler, who operates the G. B. Cutler Seed Company here, for starting out with nothing he has developed in 11 or 12 years the largest seed business in southwestern Minnesota.

The Culter company this week opened

its 1929 season by sending out 6,000 price list books over a territory extending 35 to 40 miles from Marshall. The company handles all kinds of field seeds, garden, and flower seeds, chick feeds and oyster shells, and other kindred products. Its equipment includes a sweet clover scari-fer.

His first year in business here, Mr. Cutler sold about three sacks of grass seed and a little seed corn. The business had developed last year to a point where the company handled 200,000 pounds of seed. About five years ago the company began handling garden seeds, and last year this end of the business reached a total of 3,500 pounds.

The building the company now occupies on Second street has been improved for this year's business by putting in a hardwood floor in the warehouse, which, with the offices, is on the main floor. The firm cleans seed in the basement, where two large cleaners and the sweet clover scari-fer are located. Storage rooms are on the third floor.

George Cutler came to Marshall 28 years ago. He must have liked the name "Marshall," for he came here from Marshall, Wis. He worked as a farm hand one year for \$20 a month, then rented his parents' place east of here. Fifteen years later he moved into town and entered the seed business, of which he had dreamed as a boy. Since then he has developed that business from nothing to one that now handles seed in carload lots.

Though if necessary he ships in seed, George buys as many as possible in this territory. He is a strong booster for Marshall, and declares in his 1929 book, after telling of a trip to other parts of the state, that "we can figure ourselves lucky that we live in the best little city in Minnesota, Marshall."

Sweet Clover Scarifier

Having just installed a new modern Scarifier we are able to do you a better job and in less time than before. Bring in your Sweet Clover—have it scarified and cleaned. Our price is \$1.00 per cwt.

Medium Red Clover

This seed is grown in Minnesota, cleaned in fine shape and is the best grade to be had.

Price per lb. 25c

Sweet Clover

All of this seed is scarified
White Blossom (Home grown),
1st grade ----- 9c
2d grade ----- 8c
Yellow Blossom, per pound ----- 9c

Grundy Co. or Dwarf Sweet Clover

This is something new in this territory. It is a great deal finer, more like alfalfa. Makes better hay than common sweet clover.

Per lb. 9c

Alsike

This is by all means the best clover for a low land pasture.

Price per lb. 26c

White Dutch Clover

This is the kind to sow on your lawn. Also good in a pasture mixture.

Per lb. 50c

Alfalfa

Our seed all comes to us in sealed and branded bags, and is of the 1st grade. You have likely been hearing over the radio about the cheap seed you can buy. If you have, send for sample and see then if you want the grade of seed advertised.

Northern Grown Alfalfa

This does not need any explanation as everybody knows how good it is and every farm should have a few acres.

Do not buy Alfalfa seed that is offered cheap as it may be southern grown seed which is always cheaper than northern grown seed. The southern grown alfalfa, grown from

this seed will not stand our cold winters.

Cossack	-----	44c
Grimms	-----	40c
Dakota No. 12	-----	30c

Nitragin

Inoculate your alfalfa and clover with Nitragin for best results.

1/2 bushel size can	-----	60c
1 bushel size can	-----	\$1.00

Grass Seeds

Timothy, price per pound	-----	9c
Timothy and Alsike Clover mixed		
20 per cent Alsike, 80 per cent timothy, price per pound	-----	14c
Red Top, price per pound	-----	22c
Blue Grass, price per pound	-----	40c
Bromus, price per pound	-----	25c

Dwarf Essex Rape

This seed is grown in Holland and sure is the quickest pasture for cattle, hogs and sheep when sown in spring. For fall pasture nothing gives more cheap feed than Rape sown in small grain. Price per cwt.----\$10.00

Sudan Grass

A great one year hay and pasture grass; can be cut for hay two or three times a season, a little coarse, but very good feed. Price per cwt.---\$8.00

Amber Cané

One of the greatest fodders—if mixed with corn. Price per cwt. \$6.00

Kaffir Corn

If cut green makes fine fodder. If allowed to ripen, is one of the best feeds for chickens. per cwt.----\$6.00

Sun Flower

In a real dairy country this is getting to be quite a popular crop to put in a silo for the dairy cow. When raised for the seed is a good feed for poultry. Price per pound-----20c

Field Peas

A crop of field peas and oats, cut for hay, has proven itself nearly as good as alfalfa, sown at the rate of one bushel peas, one bushel oats is a good mixture. Price per cwt.----\$8.00

Sweet Clover Scarifier

If you have any sweet clover that you want cleaned and scarified we will be glad to do it for you at a reasonable price of \$1.00 per cwt.

We also clean any other seed that you might have that you want cleaned.

BEMIS "A" GRAIN BAGS, Each 40c

Millet

Siberian, per cwt. -----	\$4.00
German, per cwt. -----	\$4.00

Soy Beans

Manchu, per cwt. -----	\$6.50
------------------------	--------

Seed Corn

At the present time we are not able to tell you just what we will have as we do not know just how it will germinate later and cannot quote you a price, but when you are in the market later, let us hear from you.

Clipper Cleaner

Having made arrangements with the jobbers in Minneapolis, we can sell you these cleaners complete, F. O. B. Minneapolis:

No. 1 Clipper	\$34.50
No. 2 Clipper	\$42.00

Garden Seeds

Why pay two prices for your garden seed done up in packages with a pretty picture on it? If you do so—you have to pay for the picture extra.

Our seeds are in plain packages with as many or more seeds for less money. If you would like different varieties not listed below we can furnish same.

We pay postage on all garden seed. If you want package seeds will furnish them at 5 cents per package.

MAKES THINGS GROW

SACCO is a specially prepared PLANT FOOD for the development of fine LAWNS, GARDENS, SHRUBS, FLOWERS and TREES. It has the endorsement of highest authorities on plant nutrition.

SACCO is very effective and economical. A light application once or twice a year, of 2 to 4 pounds per hundred square feet, will keep the lawn in excellent growing condition.

SACCO has more than four times as much plant food value as pulverized manures. Full directions for use on each package.
