Delivered at your door

Friendship Offer No. 4

One each of Offer No. 2, \$2.00

Delivered at your door

Plant these trees in your garden and watch them grow.

Cupsuptic Nursery, Ogunssoc, Me.

SUGGESTIONS ~ 100 LOTS

Hedges

A FINE HEDGE could be made with our larger trees. Arborvitae for softness, the Spruces for ruggedness, White Pine for future height. Plant 12-18" stock one foot apart, removing every other one as they grow in diameter. Clip for density.

Borders

ADD BEAUTY to any enclosure with tall varieties in back, small bushy ones, as Mugho Pine, in front.

Windbreaks

SPRUCES for growth close to ground are recommended.

Lines 3' apart, spacing 5'. 100 trees would cover 250 feet.

Plan for planting a windbreak with older trees.
