My New Year's Wish for You

From The Gladiolus Review

O! may your gladdest dreams come true,
And fill your heart with cheer;
May all good fortune come to you
Due to the good and glad.

From joy you've sown, may lasting wealth,
Delight you when you're sad—
Hope, honor, happiness and health,
Due to the good and glad.

May flowers of friendship bud and bloom,
And never fade or die;
For friends are best in hours of gloom—
God bless them all, say I.

A friend is won by being one,
By giving of your best;
And after all is said and done,
Glad friends outshine the rest.

So, may you garner lots of good,
To cheer and bless your heart;—
Join in the Gladsters' Brotherhood
And play the Gladster's part.

And if my wishes fail to work
The way I wish they may,
Do not give up and do not shirk,—
Good luck is on the way.

Benjamin Keech.

In presenting this new 1930 price list of over 200 Gladiolus, several varieties of Tulips, Daffodils, Regal and Madonna Lilies, and over fifty varieties of Iris, I wish to thank all of my old customers for their patronage. If there has been any unsatisfactory treatment or service on my part, just write me the trouble and I will endeavor to make good.

To new customers I can only state that I will try to the best of my ability to merit their patronage this coming season.

I do not issue a highly colored catalog for two reasons:—First, frankly I cannot afford the expense. Second what I can save in cost of an expensive catalog I turn over to my customers in cash-saving prices on my bulbs.

SIZE OF BULBS

I always ship my customers the largest bulbs I have in stock when order is received. Order early if you want the largest bulbs. If unable to send you large bulbs, I will send enough more smaller ones to make up the difference. On many kinds I can send you smaller bulbs at half the price of large bulbs. SOME VARIETIES DO NOT MAKE LARGE BULBS but they will all be of a good blooming size.

BULBLETS

The amount listed on bulblets is the smallest lot I can put up. Bulblets also vary in size, some making very large bulbs the first year and others barely germinating. I CAN NOT GUARANTEE THE GERMINATION OF BULBLETS for myself or anyone else. Seventy-five per cent is about all that can be expected on the average, though many will bloom the first season if planted EARLY. IF YOU WANT BULBLETS ORDER EARLY, BEFORE APRIL 1 AT LATEST.

GUARANTEE

I guarantee all bulbs shipped by me to be true to name, sound and healthy and in good growing condition. All that do not come true to name will be replaced. I cannot guarantee growth or crop as the planting and cultivation is beyond my jurisdiction.

If bulbs are not satisfactory when received, on above terms, they are to be returned in good condition at once without mixing, and your money will be refunded.

TERMS

All bulbs and plants are sold CASH with order. Twenty-five per cent deposit will hold bulbs till April 1 when they will be shipped C. O. D. for balance and C. O. D. Charges.

All bulbs are shipped prepaid anywhere in the United States either by mail or express. NO ORDER WILL BE FILLED FOR LESS THAN \$1.00. The cost of packing and mailing such orders amounts to more than the value of the bulbs. Bulbs sold at the Garden in any amount.

FOR SALE AT THE GARDEN

I will have for sale at the Garden many plants and flowers as usual. Tulips will be in bloom around the last week in May. Iris will be in bloom in June, Lilies in July and Glads a little later.

You will be cordially welcomed at the Gardens at any time throughout the year. Would rather you would come some other day than Sunday if possible, as my wife likes to go to church, and as she can't drive the car, I have to go along as chauffeur. I don't object either.

ABOUT QUALITY

My bulbs were all grown last year on new sandy loam where *Gladiolus* had never been grown before. Bulbs were soaked in a Mercury solution before planting using this formula: 1 ounce corrosive sublimate dissolved in 30 quarts of water to which had been added 10 ounces muriatic acid to help dissolve the corrosive sublimate. They were soaked seven hours in this solution.

I used no fertilizer of any kind on the large bulbs, and only a small amount of sheep manure and bone meal on the bulblets to give them a good growth the first year. Consequently my bulbs this year are hard as nuts and full of vigor ready to bloom for you when planted this summer.

NEW LOCATION

I am at my new location "Gladhaven," just one mile north of the Main Street Post Office on the cement road to Plymouth and the White Mountains.

ORDER EARLY

Every year I run short on some kinds and have to return the order. To save disappointment, order early and bulbs will be shipped as soon as weather permits. If wanted earlier than April 1, please state it on the order.

MIXTURES

I offer only one mixture this year and that is better than I have ever sold before. Try as hard as we can, tags will get lost, bulbs tipped over and spilled and these all have to go as "mixed bulbs," though many are much higher in price than what I sell them for when mixed. There are probably over 50 varieties in GLADHAVEN MIXTURE this year. You will be astonished at the wonderful large

blooms and beautiful colors you will be able to get from a lot of 100 bulbs. As there are many kinds they will not all bloom at once, giving you a long blooming season, especially if you plant 50 bulbs May 15 and 50 more June 1. For prices see Gladhaven Mixture in list.

DISCOUNTS AND PRICES

My list this season is practically retail and wholesale combined. The larger your order, the lower the price. On orders received before March 15 amounting to \$25 or more, you may select 10% of the amount in extra bulbs, your choice. On order of \$50 or more you may select extra bulbs to the amount of 20% of your order. For orders of \$100 or more you may select 25% of the order in extra bulbs. Discounts will be made in extra bulbs only thus: If your order amounts to \$25 you may select 10% of that amount in bulbs which would be \$2.50 worth.

HOW TO REMIT

Please use my order blank and keep a copy of your order.

Send Post Office Money Orders, Registered letters, personal checks for amounts of \$1 or more. Safe delivery of bulbs guaranteed.

Cordially yours,

GEORGE G. FOWLER.

BEAUTIFUL DARWIN TULIPS

Tulips should be planted in October for best results if grown in the garden. They should be planted in beds raised about 8 inches for drainage. Bone meal and pulverized sheep manure well mixed in the soil for fertilizer. Plant bulbs 5 inches deep and about 6 inches apart. The varieties I list are selected especially for blooming for Memorial Day, the last week in May. I cannot, however, guarantee the blooming date.

REGAL LILIES

The Regal lily is without doubt the most popular of all the hardy lilies. It stands the cold winters of the north. Increases in number of bulbs from year to year and is a free bloomer of beautiful large trumpet shaped white, sweetly scented flowers. It may also be easily grown from seed. I have no seedlings to offer this spring. The bulbs should be planted early in April or late in October or November. Seed may be planted anytime in the spring outside or at any time inside. Seed 25c packet. \$1.00 an ounce postpaid.

Size 1, none for sale. Size 2, good blooming size, 25c each, \$2.50 a doz. Size 3 medium large, 40c each, \$4.00 a doz. Size 4, very large, 75c each., \$7.50 a doz., prepaid, if total order for bulbs amounts to \$1.00.

MADONNA LILIES

(*Lilium Candidum*)

The original Easter Lily but now mostly grown as a hardy garden lily. Many sweetly scented white flowers on a tall stalk, of good size and very satisfactory in every way. Should be planted in September. Blooming size bulbs, 25c each, \$2.50 a doz. Large bulbs, 40c each, \$4.00 a doz., prepaid if total order amounts to \$1.00 or over.

IRIS

Iris has been called the "poor man's orchid" and with the new and beautiful varieties now on the market, its ease of cultivation, rapid propagation and the fact that it will flourish on most any sort of rather poor soil that is not wet, makes it a very true statement. I have over 75 different kinds, in fact too many to list, so I am selling them a new way. If you order one of these collections you will have an agreeable surprise. Iris shipped in July, August and September only, as that is the best time to plant them in your garden.

Collection A, 15 assorted roots or rhizoms, unlabeled for	\$1.00
Collection B, 12 assorted roots or rhizoms, labeled, for	\$1.00
Collection C, 12 assorted roots or rhizoms, labeled, for	\$2.00
Collection D, 12 assorted roots or rhizoms, labeled, for	\$3.00
Collection E, 12 assorted roots or rhizoms, labeled, for	\$4.00
Collection F, 12 assorted roots or rhizoms, labeled, for	\$5.00

Collection F will include at least one rhizom valued at \$1.00 or over; each collection will be my selection and will include Iris of greater value than the price of the collection.

DAFFODILS OR NARCISSUS

These beautiful flowers that greet us early in the spring at about the time Jack Frost bids us good bye, are more popular than ever, and rightly, too. The modern Daffodil is a great improvement over the Jonquils of our grandmother's flower garden.

I only have them in a mixture this year, as they are very satisfactory that way to most flower lovers, giving a longer blooming season and greater variety of color than would be possible at double the price in named varieties. My assortment will be made up of the leading varieties and I guarantee it will be satisfactory in every way.

Six bulbs 40c; 12 bulbs, 75c; 100 bulbs, \$6.00, postpaid.

Daffodils should be planted from September 1 to October 15. Order accordingly.

If you have read this list carefully, I think you will find it covers about every detail of price, time of planting and shipping. Anyway if there is any point that is not clear, I will be glad to give you the desired information. I have to confess I did get behind with my correspondence last year.

And last but not least, in ordering be sure and write your name and address plainly and correctly. I received some last year with wrong addresses, some with no name and I am still waiting for the writers to give me the correct name and address.

ORDER EARLY AND GET THE PICK OF MY STOCK.

Greenfield, Mass., Jan. 9, 1930.

Mr. George Fowler.

Dear Sir:

I am sending a list of Glads taken from your last year's book. If it is correct I will send money at once for them.

The 10 for 10c I got last year were surely worth quite a lot more than I paid for them, and then some.
