Facts About PEONIES

The peony is without question one of the most beautiful of all flowers—the Queen of the Garden. Many are as fragrant as roses and have a most beautiful foliage throughout the entire summer and fall. Once planted they require little care or attention and become an ornament of permanent beauty. Many of these outstanding varieties I am offering in this collection have flowers measuring seven to nine inches in diameter. The average cost of peonies is well above a dollar each and a large number are priced as high as \$5.00 to \$15.00. The high cost, at regular prices, of peonies have kept a great many admirers of this flower from having them. However, my sensational Collection offer will make it possible for you to have eight very choice varieties for your own garden at the small cost of only \$2.

PLANT PEONIES NOW

For permanent plantings around homes and porches, along walks for hedges and around pools and rock gardens Peonies are ideal. The preparation of the soil for peonies is very simple and my cultural directions included with each collection explains everything necessary for the successful growing of these marvelous flowers. Delay means disappointment—This Offer Positively Closes in 30 Days.
