WE wish to call your attention to our B & B Evergreens listed herein. They include some very fine plants. After years of experience we have learned to dig and burlap them right. They have been well grown and you will be well pleased with them.

Because of a large supply we have reduced the price on the following items. Norway Spruce, Scotch, Austrian, Uncinata and Mugho pine, Seedlings. Hydrangea P. G. Spirea billardi, Sugar Maple and American Elm.

We invite your correspondence and will be glad to make special quotations on large quantities.

THUYA ORIENTALIS (BIOTA) (Chinese A. V.)			
Although the seed of the different varieties of Chinese Arbor Vitae is selected with care from trees having the definite characteristics of the variety, on account of the possibility of variation in form, color, etc., we cannot guarantee any definite percentage of them to develop the exact form for which they are named. The Thuya orientalis Aurea is not Berchman's Golden. The seed is supposed to have been collected from trees showing distinct golden foliage. At their present age they show little difference from plain Chinese. The Nana is a new variety for us. We purchased the seed from a reliable dealer, which is supposed to have come from dwarf trees, we do not know what percentage of them come true.
