FALL, 1930

Marshall's Matchless Darwin Tulips

The Darwin Tulips, while among the last of the race to bloom, are easily first in the affections and esteem of flower lovers. Gorgeous in color, easy to grow, splendid as a cut flower, superb in mass plantings in shrubbery, they may be easily forced if brought into the conservatory or greenhouse not earlier than January.

The heights of the flowers are given in inches. Varieties marked with an asterisk (*) are good for forcing.

Not less than 6 bulbs sold at dozen rate, 25 bulbs at 100 rate

Darwin Tulips in Mixture

Mixed Darwin Tulips are unsurpassed for group planting, massing and for naturalizing. When so planted they form brilliant patches of color silhouetted against the rich verdure of the early Summer season. The shades of colors included in our mixtures are judiciously blended so as to create delightfully artistic ensembles.

Breeder Tulip, Dom Pedro

Marshall's Matchless Mixed Breeders.

Here we offer an unusually choice assortment of colors, judiciously blended so as to insure the grower a wide assortment of splendid colors. 90c. per doz., \$6.00 per 100.

Dutch Breeder Tulips

Breeder Tulips bloom at the same time as the Darwins and their immense blooms are erectly held on long, strong stems. The colors of the Breeder are what modernists term as "art" or pastel shades, embracing rich tones of bronze, yellow and purple. For association with the brighter hued Darwins, they are unsurpassed.

Abd-el-Kadir. Soft bronzy yellow, shading lighter at edges. Interior bronze brown, olive base. 26 in.	Doz. 100	\$1.40	\$9.00
Apricot. Subdued deep bronze orange with olive green base. 26 in.	1.20	7.50

Dom Pedro. Distinct shade of coffee brown, shaded maroon. Interior rich mahogany. 22 in.	1.50	10.00	
Fairy. Rich orange red shaded mahogany. Superior for border or late forcing. 24 in.	.90	6.00	
Golden Bronze. A charming combination of old gold, flushed heliotrope. Inside mahogany brown. 20 in.	1.20	8.00	
Louis XIV. A Tulip of outstanding merit with blooms of dark purple flushed bronze and edged golden brown. A superb flower. 28 in.	1.40	9.00	
Prince Albert. Glowing mahogany brown shading to soft bronze in center. 32 in.	1.40	9.00	
Turenne (MacMahon). Dark blue, shading to purplish brown, flushed bronze at margin. Very large. 30 in.	1.30	8.50	
Velvet King (Dreadnought). Velvety blue black with white base. Immense flowers of good form. 24 in.	1.40	9.00	
Yellow Perfection. Light bronze yellow, margined gold. Distinct and attractive. 24 in.	1.10	7.00	

Marshall's Cottage Garden Tulips

These late flowering Tulips are used extensively for late bedding and certainly contribute heavily to the gala Spring display. As a cut flower they are ideal, the wide range and brilliancy of their colors being most effective.

Bouton d'Or (Ida). A splendid, pure, deep yellow; late blooming type. Fine for bedding or forcing. 17 in.	Doz. 100	\$0.90	\$5.50
Ellen Willmott. A superb flower of soft creamy yellow, passing to dark yellow. Reflexed petals. 19 in.	1.10	7.00	
Gesneriana Spathulata. Dazzling scarlet, black center. Very effective. 24 in.	.85	5.50	
Gesneriana Lutea. Immense, globe-shaped blossoms of rich deep yellow. 24 in.	.85	5.50	
Inglescombe Pink. Beautifully formed blossoms of bright rose pink, shaded salmon. 24 in.	.80	5.00	
Inglescombe Yellow. Perfectly formed flowers of rich yellow. Known as the Yellow Darwin. 22 in.	.85	5.50	
John Ruskin. Beautiful combination of apricot, rose, mauve and yellow. Exquisite. 18 in.	.90	6.00	
Marvel. Interior old gold, outside salmon rose, reflexed petals. Fragrant. 24 in.	1.40	9.00	
Moonlight. Long oval flowers of bright canary yellow. Slightly reflexed. 22 in.	.90	6.00	
Mrs. Moon. Large, golden yellow flowers of good substance. 24 in.	1.30	8.50	
Picotee (Maiden's Blush). Handsome, pure white flowers, recurved petals and with rose pink margins. 20 in.	.80	5.00	
Picotee Yellow. Pale canary margined with deep rose. Very handsome. 20 in.	.90	6.00	
Sirene. A charming Lily flowered cerise pink shading to pale pink at the margins; white base. 26 in.	1.00	6.50	
The Fawn. Pale rosy fawn, changing to a blush rose. The flower is large, egg shaped and has a good stem. 24 in.	.85	5.50

Tulipa Species

See second page of cover for color illustrations

Here we offer a galaxy of exquisite floral treasures to those fastidious gardeners who desire something choice and unusual. They are just the treasures to stimulate the keen enjoyment of gardening, so often surfeited with the commoner—but beautiful—bulbs offered and so universally grown.

It is well nigh impossible to attempt to visualize or portray in words the beauty afforded by these gems. Tucked away, in generous quantities in the rock garden or border, they will be seen to advantage but are perhaps at their best in colonies on sloping hill or bedecking the borders of brook or waterside.

They are easy to grow, hardy and give abundantly of their vivid blossoms under ordinary care. They increase in magnificence and number with each passing year. They are moderately priced so as to enable flower lovers to grow them in generous quantities.

Doz. 100

Clusiana (The Lady Tulip). This species comes from the Mediterranean region; has small white flowers with a flush of rose on the outer surface, and purplish-black at the base. Height 12 in.....	\$1.20	\$7.50
Eichleri. A native of Turkestan. It is a fine species with large leaves and broad flowers of intense scarlet, having a black blotch at the base margined with yellow. Height 8 in.....	2.30	15.00
Greigi. Low growing, the flower stem rarely exceeding 8 in. in height, the leaves marbled with purplish blotches. The large size flowers are of a dazzling vermilion red color, faintly marked at the base with a dark spot. Early flowering and most attractive.....	3.50	25.00
Kaufmanniana. An early flowering species from Turkestan and is one of the finest. It grows 8 in. high with broad, flat leaves. The flowers are very large, the color being white to creamy-yellow tinged with pink on the outside, the petals marked with a broad orange blotch....	2.50	18.00
Marjolette. Soft-primrose, shaded carmine-red at base. A small flower. Late May flowering. Height 14 in.....	2.30	15.00
Sylvestris (Florentina odorata). A British species. Pale yellow flowers with casual edgings of red and frequently the scapes carry two flowers, but the most valuable property of all is its fragrance. April and May flowering. Height 10 in.....	1.50	10.00

Marshall's Single Early Tulips

Tulips for bedding are the most popular and effective of all hardy, bulbous plants. In our descriptions we give the color and average height to which they grow. For pot culture and forcing for Winter cut flowers they are invaluable.

For outdoor planting, 4 inches to the bottom of the bulb is deep enough, and a distance of 5 to 6 inches between the bulbs is sufficient. They may be planted in October and November, before the ground freezes. For pot culture, a compost of two parts loam to one part light manure, with some sand intermixed, is suitable. From three to five bulbs, according to size, in a 5-inch pot, are very effective. The pot should be buried until the bulbs are well rooted.

A, B, and C indicate season for flowering. A and B may be planted to flower about the same time in the open ground; C flowers later. The figures indicate average height in inches.

Not less than 6 bulbs sold at dozen rate, 25 at 100 rate.

Eucharis Amazonica

Eucharis Amazonica

The Amazon Lily

This unusual plant deserves to be better known for there are few flowers that equal it in fragrance. In the South it makes a good house or garden plant while in the north it requires greenhouse treatment. When well grown the flower stems are 2 feet high and bear five or six pure white flowers at their apex, with each flower measuring 4 to 5 inches in diameter. A warm, humid atmosphere is necessary for this enchanting plant.

Good flowering bulbs, \$1.25 each, \$12.00 per doz.

Eremurus (Foxtail Lily or King's Spear)

A noble family of hardy plants, most delightful and desirable for stately and colorful groups in large plant borders and shrubberies. They are perfectly hardy, and when well established, produce dozens of giant flower spikes, like huge Hyacinths, attaining a height of from 6 to 10 feet, the flower spike (comprising several hundred flowers) being from 2 to 3 feet long. They are best planted in early Fall and thrive in any sunny, well drained border. They should be planted in early Fall only, as it is dangerous to disturb them in Spring, when they make an early growth. These wonderful, gigantic flowering plants do not require a great depth of soil, as the fleshy roots spread outwards. The plant disappears above ground after flowering and annuals may be planted close to them to fill the vacant space. A mulching of wood ashes is advised as a Winter protection for the crowns and when the flower spikes appear in early Spring a slight protection from the late frosts is necessary. We would recommend the Ever Ready Plant Protector, made of weatherproof paper.

The following list includes some of the finest and rarest in commerce, flowering in various months, as indicated, in Spring and early Summer. Each 10

Bungei superba (July). Vigorous, enormous spikes of widely expanded flowers of clear yellow. 6 ft.....	\$6.00	\$55.00

Himalaicus (May to June). Waxy white flowers with golden anthers, developing huge stems and flower spike. 8 to 10 ft.....	4.00	35.00
Robustus (June). Rosy pink flowers in a spike 3 to 4 ft. long, standing on an 8 to 10 ft. stem. One of the finest in the group.....	5.00	45.00
Shelford (July). Coppery yellow inside, tinted ruddy bronze outside. Flowers arranged close together on an 8 ft. spike.....	5.00	45.00
Tubergenii (July). Light yellow, flowers densely packed in the spike. 7 ft.....	5.00	45.00
Himrob (June). Pale silvery rose. A hybrid between Himalaicus and Robustus, the spikes being densely clothed with large flowers. A splendid variety. 8 to 10 ft.....	5.00	45.00
Warei (July). A grand hybrid of tall stature. The actual inflorescence being three feet long, studded with myriads of coppery pink flowers, shot with bronze. A rare plant and very richly colored. 8 ft.....	11.00	100.00

The above are offered in strong flowering, field grown crowns for September delivery

Grape Hyacinths

Helleborus niger

Helleborus Niger

(THE CHRISTMAS ROSE)

This interesting hardy plant can be grown in any sheltered position. It makes an excellent addition to the Rock Garden, as its blooms appear in November and continue to bloom as long as the weather is open. Frost and snow apparently have little effect on its blooming, as whenever a thaw happens in the early Winter, their flowers appear untouched by ice and snow.

The color is white, suffused with pink, and if sheltered in a glass coldframe they will turn almost pure white, on stems from 6 to 12 in. in length, flowers from 2 to 3 in. across. The leaves are large and leathery in substance.

Ever since the government embargo on all plants, this most interesting plant has been extremely scarce and almost out of the market. We have, for years, been propagating a stock and are now in a position to offer extra large roots that will bloom profusely late this Fall and into the Winter.

Strong roots, each \$1.50, doz. \$15.00.

Delivery in October

Forcing Iris *Iris David Bless*

(See back page of cover)

As the stock of *Iris Wedgwood* has become very scarce we have been obliged to find a substitute and after repeated tests we believe we have a good one in *Iris David Bless*. It appears to force just as early as *I. Wedgwood*, the color is quite as good and the blooms are large. *I. David Bless* carried first honors at the last New York Spring Flower Show in competition with *I. Wedgwood* and others.

\$2.50 per doz., \$18.00 per 100

Iris Filifolia "Wedgwood"

It is best described as a rich delph blue—standards and falls—a yellow blotch at the top of each fall enhancing its beauty. Its early blooming qualities and large flowers on strong stems make it an exceptional cut flower. Very scarce.

40c. each, \$4.00 per doz., \$28.00 per 100

Iris Filifolia "Imperator"

The best early flowering blue *Iris* in existence. A fine forcer. \$2.50 per doz., \$16.00 per 100.

Iris, Dutch or Holland

This *Iris* is a giant strain of the Spanish *Iris*. The flowers are of enormous size and it has the advantage of coming into bloom two weeks earlier than the Spanish.

Albert Cuyp. Falls primrose with orange blotch; standards palest blue, changing to white.

Anton Mauve. Large pearl blue; a pleasing shade.

David Teniers. Falls yellow, standards pale blue.

Huchtenburg. Falls orange yellow, standards palest blue, passing to white.

Rembrandt. Wide, dark blue standards; falls rich, deep blue with orange.

Any of the above varieties, doz. \$1.25, 100 \$8.00. October delivery.

Iris, Spanish

Graceful, slender stems, with loose but beautiful flowers, the charming colors producing a combination not surpassed by an *Orchid*. The finest effects are produced when planted in clumps in the perennial border; flowering period May and early June. They are also excellent for growing in pots indoors or for forcing.

We have secured a large quantity of Northern grown bulbs, which although smaller than the California bulbs, are all hard, firm bulbs that will give more and larger flowers.

British Queen. Large pure white.

Cajanus. Canary yellow with orange yellow blotch on falls.

Excelsior. Light blue, with deep orange blotch.

King of the Blues. A fine, deep purplish blue.

Longfellow. Light blue with lighter falls.

Queen Emma. Fine, deep golden yellow.

Reconnaissance. Dark bronze, with golden blotch.

Royal Blue. Clear blue, extra large flower.

Mixed. All colors.

Price of any of the above varieties, 4 bulbs for 50c., doz. \$1.25, 100 \$8.00

Not less than 4 bulbs of 1 variety sold

Japanese Iris

Iris, Japanese

The Japan *Iris* is perfectly hardy and flowers in great profusion in July and August.

The large size of the flowers is noteworthy, as they often reach 6 to 8 inches across in most fascinating combinations.

Lucie Marshall. An immense double with six petals of Pansy violet in color with distinct white veins coming from a golden yellow center. Stems 4 ft. Strong roots, \$1.00 each, \$10.00 per doz.

Price of the following strong clumps, 3 for \$2.00, \$7.00 per doz.

Gold Bound. Large, pure white, yellow center.

Helen von Siebold. Reddish violet, veined white.

Oriole. Large, double flowers of rich plum red, shaded deep purple.

Pyramid. Light blue, center of petals veined white.

Templeton. Double light blue flowers mottled rose and white.

Victor. White, veined violet blue, purple center.

JAPANESE IRIS, Double and Single Mixed. All colors and shades. Large, individual clumps. \$5.00 per doz., \$40.00 per 100.

Iris, Siberian

Narrow, glossy foliage, delicate flowers on tall stems. Excellent for cutting as the blooms keep well in water and can be used with other flowers. 10

Sibirica orientalis. Purplish blue. 2 to 3 ft. 3 for \$1.50, \$4.00

Sibirica, Perry's Blue. A large flower of clear blue with horizontal falls. 4 ft. 3 for \$2.50, 7.00

Sibirica, Snow Queen. Flowers snow white. A very attractive plant. 3 for \$1.50, 4.00

Leucojum, Spring Snowflake

Ixias

Desirable bulbs for forcing or outside borders. If planted outside they require coverings during the Winter.

Leucojum (Spring Snowflake)

Charming, early flowering bulbs, producing flowers like Giant Snowdrops on stems 1 foot high. Perfectly hardy. Doz. \$1.25, 100 \$8.00.

Lilium Camtschatscense

(FRITILLARIA KAMTSCHATENSIS)

This wonderful Lily-like plant was found in Siberia. The drooping flowers are purple and produced in whorls of ten to fifteen on stems 12 to 18 in. high. It is perfectly hardy and flowers early in the Spring. October delivery. Each 35c., doz. \$3.50, 100 \$25.00.

Lily-of-the-valley

For forcing, the pips are to be preferred, being grown under conditions tending to promote vigorous and early blooming. Twelve to eighteen pips may be planted in a 6-inch pot, with all the fibrous roots carefully preserved, and keeping the crowns above the soil. Place them in a temperature of about 80 degrees, cover the crowns with loose moss and keep them constantly moist with tepid water.

Marshall's Matchless Pips. The earliest, largest and best for forcing. Extra strong pips with long roots producing flowers with 15 to 20 bells and fine foliage. \$7.00 per 100, \$17.50 per 250, \$65.00 per 1000. Ready in December.

Field Grown Clumps. We recommend Fall planting of Lily-of-the-valley for outdoor culture and can supply exceptionally vigorous, field grown clumps at 40c. each, \$3.50 for 10.

Lycoris squamigera

Lycoris squamigera

A perfectly hardy bulb of the Amaryllis family. They produce attractive green foliage in the early Spring, which later dies away, and about a month later the flower stalks appear, growing about 2 feet high and developing an umbel of large Lily-shaped delicate pink flowers shaded with clear blue.

Extra Large Flowering Bulbs. Each \$1.00, doz. \$10.00.

Lycoris purpurea

An introduction from Japan, but now very scarce. The foliage is produced in Spring and ripens up in August, after which the flower stalks appear, producing flowers in clusters of 6 and 8 flowers of 6 petals each. The bud is wine-color changing to royal purple when expanded, giving a startling and beautiful effect. Perfectly hardy. 18 inches high.

Strong Flowering Bulbs. Each \$1.00, doz. \$10.00, 100 \$75.00.

LILIES for FORCING

Lilium Candidum (Ascension or Madonna Lily)

This is the old-fashioned garden Lily. The many snow white flowers borne on a stem 3 to 4 feet high, make this Lily most effective. Very large bulbs, ready for delivery in September.

"Consider the Lilies"

The first edition of our book "Consider the Lilies" was accepted by the world's greatest horticulturists as one of the most interesting, authentic, and glorified treatises on Lilies ever published.

The Second Edition (now ready) surpasses its predecessor in every way. More descriptive and cultural matter has been added, several new varieties have been included, and pictures of the most delightful old and interesting new types are gloriously and truthfully reproduced in natural colors.

No expense has been spared, no effort shirked in its compilation; it is a book that every recipient will read and frequently refer to for authentic information on the Great Family of Lilies.

The above book will be sent postpaid to any address in the United States upon receipt of \$1.00. Upon request it will be sent FREE with orders for Lilies amounting to \$3.00 or more.

Oxalis Buttercup

Magno Garden Label

This label derives its name from the fact that its glass top enlarges the lettering on the card name, making it easy to read at a distance. It is $12\frac{3}{8}$ inches long, rust-proof, waterproof, sturdy and durable. Doz. \$3.00, 100 \$20.00.

Ornithogalum Thyrsoideum

Ornithogalum

Arabicum. Makes a large umbel of small white flowers with black base produced on a tall spike. Hardy and very prolific in the extreme south but must be protected or forced in the north. 3 for 60c., \$2.00 per doz., \$14.00 per 100.

Umbellatum (Star of Bethlehem). This is the small white hardy variety that is seen in great profusion around many of the old gardens. It propagates readily and adapts itself splendidly to naturalizing. It does well over a wide temperature range and blooms profusely each season with little or no care. 3 for 50c., \$1.50 per doz., \$10.00 per 100.

Thyrsoideum. This is the famous Chinchinchee the wonder flower from South Africa. Flowers of this bulb, arriving from South Africa after a six weeks trip, have attracted considerable attention at the eastern markets due to its extreme longevity. The flowers are pyramidal shape with the buds of straw color changing to pure white. It is not hardy in the north; but should make an excellent forcing subject in the early Spring and is very fine for outdoor planting in the south. 3 for \$1.00, \$3.00 per doz., \$20.00 per 100.

Ranunculus

MARSHALL'S DOUBLE GIANTS

(See colored illustration on outside cover)

This remarkable strain has been selected from the very best of the Florentine type; the largest and most double flowers have been used and at the same time all dull colors have been discarded, leaving nothing but the brightest colored flowers measuring 3 inches across. They are not hardy and should not be planted outside north of Washington. Strong, 2 year old roots, \$1.50 per doz., \$10.00 per 100. (6 sold at dozen rate).

Peonies

(Ready in September)

The Peony roots offered by us are vigorous flowering sized clumps of from 3 to 5 eyes. Peonies are gross feeders and the ground in which they are planted cannot be too heavily fertilized.

The best time to plant is September. The crowns should be planted from 2½ to 3 inches below the surface of the soil.

Prices of the following strong plants with 3 to 5 eyes, \$1.00 each, \$10.00 per doz.

Albatre. Milk white with cream center; ruby markings; large flowers; midseason.

Couronne d'Or. Tall, white, slightly speckled crimson; golden stamens; late.

Duchesse de Nemours. Sulphur white with touch of green in center; early.

Edulis Superba. Bright clear deep pink; very early and fragrant.

Festiva Maxima. Large ivory white, feathery flowers; splashed crimson in center.

Prices of the following strong plants with 3 to 5 eyes, \$1.50 each, \$15.00 per doz.

Auguste Villaume. Deep rich violet rose. Globular and compact flowers; tall; late.

Felix Crousse. Deep ruby red; center shading deeper; large, fine form; midseason.

Mme. Camille Bancel. Deep pink with silvery reflex; center shaded salmon; late.

Marguerite Gerard. Pale Hydrangea pink shading white; center flecked crimson; late.

Spiraea, Elegance

Spiraea, or Astilbe

We will be able to supply, in October, a fine lot of well ripened clumps of some of the best varieties of the new *Spiraeas*. These clumps will be suitable for 7 inch pots and will force readily for Easter or earlier.

Novelties

The following two new introductions are, without doubt, two of the finest and most outstanding *Spiraeas* ever offered.

Market Glory. A deep rich crushed strawberry pink or rose carmine. From seven to ten handsome flower spikes. Magnificent forcer.

Elegance. A pastel shade of cattleya or orchid pink. A gorgeous color which must be seen to be appreciated.

Field grown clumps for forcing, each \$2.00, doz. \$20.00

Small plants for outdoor planting, each 75c., doz. \$7.50

NEW VARIETIES

Amethyst. A tall growing, later variety, with full feathery plumes of lavender rose. The most striking color of all *Spiraeas*.

Pink Perfection. Earliest and freest flowering of all the pink varieties. Color is a deep rose with lilac cast.

White Plume. A pure white variety. An early forcer. Tall and graceful grower.

All above varieties, strong, field grown clumps, \$1.25 each, \$12.00 per doz.

Gladstone. Double white.

Queen Alexandra. Bright pink. One of the best.

Rubens. Deep carmine rose.

Strong forcing clumps, each 80c., doz. \$9.00

If wanted by mail, add 10c. each for postage in Zones 1, 2, 3; 15c. each in zones 4, 5; 20c. each in zones 7 and 8

Ready for delivery in October

Sparaxis

Sparaxis

A race of Cape bulbs with extra large flowers, remarkable for exceptional brilliancy of color. They are quite hardy and do well in a sunny, well drained border.

Finest Mixed. \$1.20 per doz., \$8.00 per 100.

Sternbergia Lutea

Sometimes called the Autumn Daffodil, although they resemble giant yellow *Crocus* and are the most showy of the late flowering bulbs. The flowers are frequently produced as late as November and bulbs planted in August or September will produce flowers the same season. A light, well drained soil with the addition of leafmold is preferable. This interesting plant objects to lime. \$1.50 per doz., \$10.00 per 100.

Trillium grandiflorum

Trillium

(American Wood Lily)

Most beautiful American plants, perfectly hardy, growing and flowering profusely in partially shaded nooks about the lawn, under trees, etc.

Erectum. Broad leaves with a dark purple flower.
Grandiflorum. Large white flowers changing to soft rose.

Stylosum. Pink flowers in early Spring.

Any of the above, doz. \$1.00, 100 \$7.00, 1000 \$60.00
Roots ready for delivery in October.

Tritonia Crocata

This interesting bulbous plant is commonly known as the Orange Ixia, which it resembles. Very floriferous. Orange red. Good forcer. Delivery in October. Doz. \$1.00, 100 \$7.00.

Planting Table for Beds of Bulbs

A circular bed 6 ft. in diameter with bulbs 6 in. apart, requires 110 bulbs; 5 in. apart, requires 160 bulbs; 4 in. apart, requires 300 bulbs.

Depth at Which Bulbs Should Be Planted

Many of our customers are frequently puzzled to know the proper depth and distance apart at which bulbs should be planted. The accompanying diagram conveys the information much more clearly and briefly than we could describe it. The chart will bear careful study. **Outdoor planting should be done early in the Fall** to secure healthy plants, vigorous foliage and beautiful flowers.

Tritoma Rufa

(See back page of cover)

We still advocate the use of this beautiful everblooming Tritoma for greenhouse forcing. Being an early flowering type and a continuous bloomer it is particularly adaptable for forcing. The long stems are of good substance enabling the flowers to remain fresh for a long time after cutting.

Extra Strong Plants for Forcing. \$7.50 per doz., \$50.00 per 100.

Watsonia

A lovely plant for pots and pans in the cool greenhouse. The graceful branches grow from 2 to 3 feet high, covered with elegant blossoms.

Pot Grown Strawberry Plants

For Summer and Fall Delivery

The best time to plant pot-grown Strawberries is during the month of July and early part of September. They have the great advantage over "layer" plants of producing a crop of the largest and finest berries the first season after planting. Further than this, they may be safely planted in the hottest and driest weather without serious check to growth, and may be planted where early Potatoes, Peas or other early crops have been harvested.

All varieties of Strawberries give the greatest yield and the largest berries when grown in rich soil, hence no pains should be spared in preparing the bed carefully before planting, by digging or plowing deeply and turning under a liberal application of well-rotted manure.

Extra Early Varieties

	25	100
Charles I. Extra early, being one of the very first varieties to mature fruit. A big cropper of evenly shaped, well-colored berries. Because of its extra heavy root system, will withstand drought better than almost any variety.....	\$2.00	\$7.00
Premier. A vigorous grower, doing well on all types of soil. The plants are enormously productive, commencing very early and bearing through a long season. The berries are beautiful in appearance, having a glossy, rich red color, and are delicious in quality.....	2.00	7.00
Success. This berry is an excellent variety with large and uniform berries of bright scarlet color.....	2.00	7.00

Medium Early Varieties

	25	100
Cooper. Makes vigorous plant growth. Berries are large in size, and of high quality, but are too soft to be used for shipping.....	\$2.25	\$8.00
Early Jersey Giant. Very large, brilliant scarlet-crimson berries of conical form with pointed tip. They have a delightful aroma, and a rich, wild Strawberry flavor.	2.25	8.00
John H. Cook. The berries are nearly round in shape, of excellent quality, blood red in color and very firm. An enormous cropper with delicious flavor.....	2.50	9.00
Senator Dunlap. This variety does well on almost any soil. It is a large cropper with firm berries of good flavor.....	2.00	7.00

Midseason Varieties

	25	100
Brandywine. An old variety but still popular. The plants produce large, bright crimson berries of good flavor. For best results it requires deep rich soil.....	\$2.00	\$7.00
Bushel Basket. This is a veritable giant and is creating a genuine sensation. It is an immense plant and the fruit, though unusually large, is freely produced and of fine quality.....	2.25	8.00
Delicious. A medium late to late variety, producing enormous crops of berries that are truly delicious, and of very attractive appearance.....	2.25	8.00
Eaton. Of remarkable size, excellent in color, of superior flavor, and possesses every characteristic to make it one of the really worth while Strawberries introduced of late. It yields large berries in greatest profusion and their dark red color easily makes them one of the most desirable for canning.....	2.25	8.00
Edmund Wilson (The Giant Strawberry). This variety produces the largest fruit of any Strawberry in existence. The berries are of a very dark color, are bluntly heart-shaped, and are as large as small apples..	2.50	9.00
Glen Mary. Wonderfully high quality and great productivity are the laudable qualities of this berry; it is also a fine strong grower, and among the most prolific....	2.00	7.00
Howard No. 17. The plants of this variety are strong and vigorous. They keep green and healthy after yielding the largest crop. The berries are large and beautiful and of the highest quality.....	2.00	7.00

All pot-grown Strawberry plants are shipped by express charges collect

STRAWBERRY PLANTS—Continued

	25	100		25	100
Hundred Dollar. This plant is a strong, vigorous grower and among the most prolific. The berries average very large indeed. The color is bright scarlet and the quality mild, sweet and luscious.				\$2.00	\$7.00
Joe. This most valuable berry succeeds on most any soil and under all conditions; bears very large, beautiful berries from midseason to late, and is one of the best in flavor.	2.00	7.00			
Judith. The large, well flavored fruit maintains its size uniformly throughout the season. The deep red berries are large, pointed in shape, and of a deep red color throughout.	2.25	8.00			
McKinley. Pre-eminently a variety for the home garden. The berries are large, handsome and freely produced on strong growing plants.	2.00	7.00			
Marshall. Though an old berry, Marshall has lost none of its popularity. Requires good, fertile soil and high culture. One of the best varieties for forcing under glass.	2.00	7.00			
Royal Sovereign. The flesh is firm and white. The flavor is rich and vinous. The best variety in existence for forcing under glass.	4.00	15.00			
	25	100			
Chesapeake. This variety requires high culture upon clay loam, where it is a wonderful berry. The color is bright crimson and the flesh firm and of good quality.				\$2.25	\$8.00

Daphne Cneorum

(GARLAND FLOWER)

A most desirable plant for the Rock Garden

These shrubs are of spreading habit and do not grow over 8 to 12 inches high, producing delicately perfumed rose pink blossoms. The flowers completely cover the plant not only in Spring but again in early Autumn. As an edging plant in front of evergreens or shrubs it is unequalled. It also forms a splendid low hedge along garden walks and around flower beds. It prefers a sunny position in well drained, sandy soil. In order to keep the evergreen foliage perfect, protect it with a little straw during the coldest part of the Winter. The plants withstand temperatures as low as 10 below zero.

Prices: Plants 8 to 10 inches in diameter, securely packed, parcels postpaid, 3 for \$3.50; not less than 3 plants sold. Packed balled and burlapped, by express, charges collect, \$12.00 per doz., \$90.00 per 100
