J. d. CAR. LINNÆUS.

ACcepi ante octiduum literas tuas d. 30 Junii. Obstupefcunt extranei ad adfpectum operum Anglorum, quæ in hiftoriâ naturali prodeunt, et quorum fimulia nullibi vidit orbis et fero vifurus eft, Catesby Carolina, Ellifi Carallinæ, Ehretii figuræ, Milleri ordines, Edwardi Aves, &c.

Edwardi Aves certe primum locum tenent, inter omnia opera, quæ in Ornithologiâ prodire, in quibus dubius hæreo, utrum magis extollam auctoris infinitam diligentiam in conquiendo rariffimam copiam avium novarum ex toto orbe, et acutiffimè describendo earum structuram; an figuras dando vivas et accuratiffimas, et quales mundus antea non vidit. Optimè itaque facis, quod des novam editionem, ne deficiat opus naturæ confultis, quo carere nequeunt.

Novam ego adorno editionem Systematis Naturæ multùm auctam, quam hoc anno abfolvere nequeo, fed proximo vere, v. D. paratam præftabo.

D. Forfterum veſtratem cum toto orbe ardenter exſpectamus, quem novimus ut ex ungue Leonem.

Evolvi immortale opus Edwardi, adpoſui raptim meas nomenclaturas ad mandatum tuum. Tibi fauſta omnia adprecor.
