Better Trees & Plants

Extra Value for Early Buyers

Formal garden on our grounds at Neosho. This Picture was taken about three months after planting.

A Safe Place to Buy

In the purchase of most articles you must rely upon the integrity of the seller. That is particularly true with trees and plants since most people do not know the quality, they cannot see vitality nor distinguish varieties.

The Neosho Nurseries own over 400 acres of land, a 25-acre apple orchard, stock blocks for propagation of true-to-name trees and plants and the best of equipment. Our office and packing house cover an area of 37,000 sq. ft.

Our organization of experienced men and women, experts in growing, handling and shipping nursery stock, in orchard planting and operation, and in landscaping, keep in mind the spirit of our slogan, "Yours for Growing Satisfaction."

The Neosho Nurseries is a safe place to buy, as customers in every state testify.

NEOSHO NURSERIES CO.

"IT'S NOT A HOME UNTIL IT'S PLANTED"

... enjoy an Outdoor Living Room

Throughout the country the old-fashioned, unsightly, useless rear and side yards are being converted into beautiful **Outdoor Living Rooms**—the outward symbols of prosperous, modern, happy homes. The collection below may fit your needs and give you the right start.

Let Us Plan Your Outdoor Living Room

The back yard transformed into an outdoor living room by the proper use of plant materials pays large dividends in beauty of flowers and foliage, as a playground for the children, for the entertainment of guests, and for the enjoyment and comfort of the entire family. It will also add greatly to the cash value of your property.

The creation of an Outdoor Living Room is a simple matter. It need not be expensive, and if planted this fall it can be enjoyed next summer.

There are certain fundamental principles in all arts which must be followed in order to secure harmonious, artistic results. That is quite apparent in the art of landscaping. In order that home grounds, or the Outdoor Living Room, may present a pleasing picture there must be harmonious arrangement of suitable plant materials, garden furniture, and other objects. This requires a knowledge of the form, foliage, bloom and habits of growth of trees, shrubs, vines, perennials, etc. If you do not have sufficient confidence in your own ability to plan your grounds look at opposite page and see how you can secure our expert advice at no cost to customers. Act now—the planting season is limited.

Special Get-Acquainted Offers

We were fortunate in having enough rain but particularly successful with some sorts, so we are sharing our good fortune with our customers.

Over one-half of our orders came from our old customers—full endorsement of our products and service. You, too, can enjoy "Growing Satisfaction."

Terms—Cash with order—Satisfaction guaranteed upon arrival. Subject to prior sale.

Demonstration Orchards

There are first-class trees, just the same as our commercial customers have used with highly satisfactory results. Remember you must cut the tops back after planting and what you then have left makes the foundation of your orchard. Graded as they are, by diameter, you will have a uniform lot of trees, all with the same size trunks and with good root systems.

APPLE—1 yr. $\frac{3}{8}$ in. up diameter, 3 to 4 ft.
