YELLOW ORCHID

THIS IS a startling novelty, a greater departure in form from any known type, than its parent, The Orchid. Its petals are lily-like, long, narrow, slightly ruffled and lacinated, of the color of old ivory, shading to darker yellow in throat, and absolutely free from mark or stain, but with a touch of clear pink at tip of petals. It is a big flower, but very graceful. We have priced this at \$5.00 each for medium to large bulbs. The entire stock is still owned by us, as it was shown for the first time this season, 1930. It is vigorous and very productive.

THE ORCHID still stands alone as the only variety of that type.

WHAT THEY SAY ABOUT IT

A New Zealand catalogue says: "Most distinct novelty for the last 50 years."

Soule, of St. Petersburg, Florida, writes: "Your Orchid is fine. I marketed 3000 fine spikes and dug 3500 No. 1 and 2 from the 2000 you sold me."

A. J. Anderson, of White Bear Lake, Minnesota, writes: "It is the most delicately beautiful Glad that could be imagined and fully up to expectations."

It has special certificates from judges of national reputation, as: "A new and beautiful type of Gladiolus."

Professor Crowe in Canadian Gladiolus Society Bulletin: "The Orchid variety is a sensational hybrid of exquisite beauty."

Chas. E. F. Gersdorf, Washington, D. C.: "It is undoubtedly a new type, but scores very high as a Grandiflorus."

Price now—Each 20c; \$1.50 dozen

From it, by crosses, we have secured entirely new forms and colors, some of which we have begun to introduce.

Crimson Cardinal is the very richest of crimson center, and cardinal on the outer petals, tall, vigorous and productive, and absolutely new, not five bulbs have yet been sold. Amber Queen is a Grand Primulinus, has very large florets, tall stem with petals of great substance and, so far as known, it is the only Prim of absolutely clear color—no marks. Set No. 2 for \$5.00

In this catalog we have priced everything very low and especially so by the dozen. We think purchasers will be best served by purchasing in dozen lots and to encourage this we have cut the dozen prices to the quick. In getting a dozen, the buyer will have enough of each to give sufficient bloom for a good showing, even if an accident happens to a part. Also, by planting at intervals, a succession of blooms will always be insured.

In our special sets offered, we have selected those that give a great range of color, and are new, vigorous, and in every way desirable. Our named seedlings we have chosen for beautiful and unusual color or form, one or both, and we shall be greatly obliged to any buyer who will point out to us any near resemblance to any variety now in the field.

We grow our bulbs on virgin soil and do not find it necessary to highly stimulate with commercial fertilizers. Owing to our longer season, they are dug early, and yet are fully matured, splendid bulbs, that will give a good account of themselves when planted.

In case any customer is not satisfied, we will gladly refund his money upon the return of the bulbs.

Please do not order for less than \$1, and by ordering before January you will receive a 10% discount on orders of \$5 or more. We give liberal count and often put in extras to surprise and delight the receiver.

Anything on our list we will sell by the hundred for 20% off from dozen prices.

We pay the postage, except on hundred lots of a single variety.
