Most of the dahlias in our gardens are our own originations. We grow thousands of seedlings each year and the seed we sell is the same as we use for our own planting. We can recommend our extra selected seed to be as good as it is possible to obtain anywhere, regardless of price. Our planting this year will cover nearly eight acres. The flowers from these are sold on the Los Angeles flower market. This large planting of florists varieties enables us to produce a high grade seed at a reasonable price.

We have no bulbs for sale this year, except a collection of eight for \$5.00. These are new dahlias and each one is a variety of beauty and quality of which we have a small surplus. We can fully recommend this collection to our host of dahlia friends. Shipment of the bulbs will not be made until after April 15.

Look for no catalogue this year as this is all we have to offer.
