DAHLIA

CATALOGUE

TO OUR PATRONS

WE present with great pleasure our 1930 catalogue of field grown tuberous dahlia roots. Our stock is thoroughly inspected, and has been sent to many parts of the world and it gives us great satisfaction to hear from our customers and friends, the success they have had in growing our dahlias, and the many prizes won by them. We grow many dahlias for florist purposes so if interested in dahlias of this type, we can offer them at special prices upon request.

To you people of the dahlia world, we send you greetings for 1930.

CULTURE OF THE DAHLIA

THE Dahlia is one of the easiest flowers to grow and will produce more flowers than any other plant grown, if the simple cultural directions are followed closely. They can be grown in any garden soil, but, if possible, plant in an open, sunny location. Prepare the soil thoroughly by digging 12 to 18 inches deep, in the fall, if possible, and again in the spring. Plant any time between April 1 and June 1, digging holes six inches deep and from three to four feet apart. Then lay in the tuber flat on its side, the size of which makes no difference as long as it has one strong eye, or sprout. Cover three inches deep, thus leaving the hole one-half full, to be filled after plant comes up to 6 or 8 inches above the ground. As soon as plant is large enough, cut out the top of it just above the second or third set of leaves, which causes the plant to grow a stout branch at the base of each of the four or six leaves left. Just as soon as the plants are up, the most important thing to do is to keep the soil loose and mellow by hoeing or cultivating once or twice a week, and just as soon after each rain as the soil will permit. As soon as the buds appear, stop all cultivation and give the beds a mulch of rotten manure, leaves, grass clippings, etc., and around the base of each plant place a shovelful of well-rotted manure, if possible. Water the beds and plants thoroughly once or twice a week and especially during the dry weather. It is hardly necessary to water the plants very much until the first part of July, unless we experience a dry season in June, or unless you have them planted in a narrow bed or single rows and the adjoining ground is not kept moist. To have the greatest success is to keep them growing, but as strong and sturdy as possible. Never allow the faded flowers to remain on the plant, but cut them off with as much stem or stalk as you can. Dahlias will continue to bloom until a heavy frost kills the tops in the fall, after which the tops are cut off and the roots are dug up and stored in a frost-proof cellar or basement, covering with dry soil, sand or anything that will keep them from shriveling. Divide in the spring after the eyes begin to show.

PLEASE READ BEFORE ORDERING

Order Early.—Do not delay ordering until planting time, as many varieties will be sold out. As orders are received, stock will be reserved and sent at the proper time, or sooner, if requested. Prices quoted are for field grown divided tuberous dahlia roots.

Terms.—Cash with order by Money Order or Bank Draft. Stamps will be accepted for all orders amounting to \$1.00 or less.

Shipping.—All orders taken at the Dahlia Shows and Gardens last fall and those received this spring will be sent the latter part of April, unless we are advised to send otherwise.

Our Guarantee.—We guarantee every bulb, root or plant sent out to be true to name and color, and also to be in growing condition when received, after which our responsibility ceases. Please notify at once if anything is unsatisfactory, when received, or any bulb or tuber does not start to grow after planted a reasonable time.

Substitution.—We never substitute unless asked to do so, in the order, but would suggest naming a few varieties as second choice.

Name and Address.—Be sure to write name and address very plainly in each letter and send same to the following address:

DECORATIVE DAHLIAS

This form is unquestionably the best type of the Dahlia for cut flower purposes, with possibly the exception of the show form—both of these types being quite compact, and therefore, possess keeping qualities far in excess of other types.

The true Decorative Dahlia has broad, rounded petals and should never show an open center. Nearly all of this type of Dahlia produce flowers of exceptional size and beauty, with splendid long stout stems. Several of this extraordinary fine collection are of our own introduction. They cannot fail to please the most critical.

AL KORAN

- e Immense amber yellow with a slight wave in each petal. Excellent stems, and fine for exhibition and commercial purposes. \$0.75

ALPINE ROSE (New 1929)

- e A large decorative dahlia of salmon rose which has strong, stiff stems and is a prolific bloomer. The bushes are somewhat tall and are always filled with flowers which never show center. It is an early bloomer, an excellent cut flower and good keeper. 2.00

AMUN RA

- e A large exhibition decorative with gorgeous shades of copper and orange, shading to gold and amber. Has exceptionally good stems, a fine dahlia for exhibition purposes, and a good cut flower for decorative purposes. 1.00

ANITA DAY HUBBARD (New 1929)

- e A good all-around dahlia of violet pink. It has good stiff stems and produces an abundance of large blooms throughout the season. It is an excellent cut flower lasting two and three days when cut. 4.00

BABY MINE (New 1929)

- A dahlia everyone admires for its unusual dainty and beautiful combination of color. The flowers are large and the petals broad and flat; they have good stems, and the color is a soft ivory with each petal suffused with pink. It is a low grower, and an excellent keeper. 2.00

BEAU IDEAL

- e A dahlia that has done very well with us. The color is lavender and pink. Majority of the flowers in our garden were lavender with a light pink center. Some showed a variation of lavender and pink. The stems are very long and stiff with large flowers. This is a splendid exhibition variety. 4.00

BLACK JACK

- An excellent decorative of very dark maroon, almost black. Has perfect large flowers on long stout stems. 1.00

CAROLYN WINTJEN

- e A fine decorative dahlia of salmon pink, shading to old rose. A beautiful dahlia for exhibition purposes, and has excellent commercial qualities.50

CHAMPAGNE

- e An excellent dahlia for decorative purposes. The color is dull gold shading to chamois. The flowers have fine stiff stems, and have been consistent prize winners at many dahlia shows. 1.00

CROWN PRINCESS LOUISE

- e One of the most popular dahlias of a few seasons ago. The plant itself is a tall and vigorous grower. The flowers are large with strong stiff stems, having a color combination of old gold to deep amber. Bushes are always filled with large flowers which retain their centers to the last of the season. We have had the honor in naming this dahlia for Her Royal Highness Crown Princess Louise of Sweden on her recent visit to San Francisco. 5.00

Dahlias marked e are of California origin.

DECORATIVE DAHLIAS—Continued

DR. TEVIS

- c The largest and most beautiful decorative in cultivation, with long strong stems, flowers average nine to eleven inches across, color is a beautiful shade of salmon rose suffused with gold, shading to golden apricot. An excellent exhibition variety..... \$0.50

ELLINOR VANDERVEER

- A persistent prize winner everywhere. This immense rose pink decorative is an excellent addition to any dahlia grower's garden. The stems are long and stiff and hold the flowers high above the foliage. We have found this dahlia an excellent commercial flower..... 1.00

EVA PELICANO

- c One of the best white dahlias grown; very large flowers on long, stiff stems. This dahlia is a fine exhibition variety and at the same time equally good for garden decoration..... 1.00

FAITH GARIBALDI

- c Immense silvery pink decorative with long stiff stems, a wonderful keeper, and a good exhibition variety..... 1.50

FLAMING METEOR

- c An ideal dahlia of flame or orange scarlet color; excellent long straight stems. It is a prolific bloomer and readily adapts itself as a fine flower for florist work. This dahlia has been a persistent prize winner in recent Southern California Dahlia Shows..... 2.00

FUTURITY

- A beautiful shade of shrimp pink and old rose..... .50

HALVELLA

- c Very large blooms of rose pink with perfect stems, good for exhibition purposes and garden effect..... 1.00

JERSEY'S BEAUTY

- Famous prize-winning dahlia of a clear true pink, with perfect flowers, held high above the foliage on stiff stems. Fine flower for florist purposes..... .75

JOY

- A fine dahlia which it is a pleasure to grow. The color is a clear silvery lavender, the immense flowers are held exactly on the top of the stiff stems like a chrysanthemum. This attractive dahlia has done very well all over the country, and is a fine exhibition flower..... 5.00

J. W. DAVIES

- c The deepest shade of cerise. This decorative is very attractive growing in your garden or on the exhibition table. The blooms are supported on unusually strong stems..... 1.00

KARMA

- c Large flowers of clear orchid pink, with excellent stems. A continuous bloomer throughout the season. A good commercial flower..... .50

LADY FRANCES (1930)

- A fine new decorative which was a First Prize winner at our recent 1929 Palace Hotel Show held in San Francisco. The color is a deep old rose suffused with gold. The stems are excellent and the flowers extremely large, and are good keepers. An excellent exhibition flower..... 10.00

Dahlias marked c are of California origin.

MISS CALIFORNIA

Decorative Dahlia

First Prize at a recent Palace Hotel Show.

(For description see page 8)

DECORATIVE DAHLIAS—Continued

MAE SADLER REID

- c One of our finest 1923 introductions. An exceptionally large blossom of mahogany red, deepening to a dull maroon. The petals are broad and flat, and flowers have great depth. Some petals show a venation of royal purple. Has strong canelike stems which hold the flowers perfectly erect, and look one squarely in the face. Flowers never show center, and bloom till late fall. \$3.50

MADRONA (1926)

Winner of the 1926 Achievement Medal
for the best dahlia introduced that year

- c The vigorous growth and extra long stiff stems of this velvety crimson dahlia, whose flowers average over 10 inches, made this dahlia one of the most attractive in our garden this year. It is an exceptionally free bloomer and a good keeper. 1.50

MANON

A beautiful flower of white and heliotrope. The bushes are constantly a mass of flowers with straight, stiff stems. The flower suggests one of a hybrid show type having quilled petals in the center and the outer ones flat. 1.00

MARMION

Immense flowers of pure yellow with a suffusion of bronze. Has excellent stems and is a hardy grower and fine exhibition flower. Has done exceedingly well here in San Francisco. 1.50

MARY A. BURNETT (1928)

- c One of the finest white decoratives produced in years. The flowers are very large and have great depth and fine substance and excellent stems. The flowers do not burn in the hottest sun; this dahlia does very well in San Francisco. 5.00

MARY C. BURNS

- c An old time favorite. The outside petals are old gold, and the reverse dull red; a very attractive dahlia in the garden and an excellent exhibition variety. 1.00

MILLE RODGERS

- c A wonderful flower of immense size; a beautiful color of gold shading to amber. The flowers are held erect on long stems far above the foliage. As a cut flower the blooms last for days. A pretty dahlia for garden effect and also good for exhibition purposes. 1.00

MILLIONAIRE

An immense decorative of lavender and pink on upright stems; an exhibition variety of fine quality.50

MISS CALIFORNIA

- c A large decorative dahlia, perfectly formed and beautiful in color, known as oriental fuchsia (a new color). This dahlia is tall and hardy, with strong, stiff stems ranging from 4 to 5 feet in length with the blooms held high above the foliage. The size of the blooms is from 9 to 10 inches in diameter. It is an excellent keeper, therefore it is a fine dahlia for commercial and exhibition purposes. Winner of the best 12 blooms at the Palace Hotel show, 1926, and best basket of dahlias at our 1927 Palace Hotel show. 1.00

MISS SAN FRANCISCO

- c One of the best dahlias we have introduced in years. The plants are sturdy growers and the immense flowers are held high above the foliage on a very strong stem. The color is a true orchid shade mixed with a deep rose. The flowers have great depth and substance and never show center. Average size of flowers, 9 to 10 inches in diameter. Its keeping qualities are excellent, and it is a fine exhibition dahlia. 2.50

Dahlias marked c are of California origin.

MISS SAN FRANCISCO

Decorative Dahlia

(For description see page 8)

DECORATIVE DAHLIAS—Continued

MISSION BELLE

A recent prize winner. It is an immense old rose and pale lavender; flowers have broad petals, and great depth; stem stiff as cane, medium height grower, and an excellent exhibition flower. \$7.50

MRS. CARL SALBACH

c One of the finest decoratives in cultivation; lavender pink, a very full and deep flower on very long stiff stems. The blooms average 9 inches across and are in big demand for exhibition and very striking in the garden. 1.50

MRS. ELEANOR MARTIN

c A giant decorative. The color is a beautiful mulberry suffused with gold. The form of the flower is of the best exhibition type, and blooms average 10 to 11 inches across on stiff stems over two feet tall and stiff as cane. 2.00

MRS. A. S. MUSANTE

c This is a large and attractive dahlia. Color is a mauve suffused with a delicate rose pink. The flowers are full and have great depth, which give them the formation of a huge ball. A fine exhibition variety. 4.00

MYRTLE

c A very free flowering variety. Color is a golden apricot suffused with salmon rose. The plant is of medium height and a hardy grower. The flowers are large, average size 9 to 10 inches in diameter, and have excellent long stiff stems. Myrtle is a continual bloomer till late fall. 2.00

NEW PINK DELICE

c A seedling of old Delice, only a slight shade of deeper pink. Has excellent stems, and flowers larger than old Delice. Sturdy medium height grower. The flowers are large and plants are always filled with flowers. Won First Prize for the best vase of fifty blooms at the recent Palace Hotel show. 1.75

OTONO

A very fine autumn colored dahlia, suffused with gold. Has a fine stem. Will come peony later in the season. It is an excellent dahlia for decorative purposes. 2.50

PAUL MICHAEL

c Deep orange buff, shading to old rose on reverse of petals. This is the largest in diameter in decoratives, and a prize winner each season. 1.00

PLACERVILLE (1930)

An unusual dahlia that has been an added attraction in our garden last year. The color is a dull gold with a suffusion of tan. The plant is a tall grower and the flowers are large and have fine stems. One of the outstanding features of this new dahlia is its sturdiness. This dahlia is an excellent keeper and is a fine exhibition dahlia, also good for decorative purposes. 2.50

QUEEN OF THE GARDEN BEAUTIFUL

This is really the largest dahlia ever introduced. The color is light lemon yellow. The stems are huge stiff canes, which support the large flowers wonderfully. A very excellent grower in a warm climate. Winner of the S. W. Heller Memorial Prize at the 1925 Palace Hotel show. 1.50

REGAL (1928)

An enormous decorative of burnished copper, bronze, and a suffusion of dull old rose. The crown flowers are over 12 inches in diameter and have fine stiff stems. Regal has been a prize winner all over the country, and is a regal addition to anyone's garden. 10.00

Dahlias marked c are of California origin.

DECORATIVE DAHLIAS—Continued

ROOKWOOD

- c A bright cerise rose; one of the best in its shade, and carries flowers upright on strong wiry stems. This variety has been a prize winner the last four years. \$2.00

ROSA NELL

- c An attractive dahlia which has an unusual color of clear bright rose. The flowers are large and have strong stems. It is a good keeper and excellent for basket work.75

SANTA BARBARA (1930) [Illustrated. See front cover]

- The finest dahlia we have ever introduced. The color is true clear pink. The flowers are enormous and have great depth and good substance. The stems are absolutely perfect, long and stiff, and hold the flowers high above the foliage. On the 1929 Derrill W. Hart Dahlia Roll of Honor and the 1929 Sunkissed Dahlia Roll of Honor of the Dahlia Society of Southern California. Winner of the 1929 Achievement Medal. Santa Barbara has won the following prizes: In 1927, best two-year-old seedling, best dahlia in the show; 1928, best dahlia in the show, gold medal best three-year-old seedling; 1929, prizes listed on inside front cover. Net 10.00

SANTA ROSA

- c An excellent commercial dahlia, color old rose. Flowers held erect on good stems. Prolific bloomer and extra good keeper; fine for florist work.50

SANTUZZA (1929)

- A beautiful dahlia with a color everyone admires, a beautiful soft coral pink. The flowers are large and well formed, with good depth, and held erect by strong stems. Here in San Francisco it is an early bloomer. We have had crown flowers over 10 inches in diameter. This dahlia is a fine producer of blooms, and as an exhibition variety it is unequalled. Santuzza won best dahlia at our 1929 Palace Hotel show. 3.50

SHUDOW LAVENDER

- c A very large dahlia whose silvery lavender flowers are held aloft on absolutely perfect long and stiff stems. Has attractive lace-like foliage. This dahlia has been awarded prizes for many years all over America. 1.50

ST. BERNARD

- c This is one of the largest dahlias in cultivation. Its color is a soft creamy white with a clear pink. Has very good stiff stems. We have named this dahlia in honor of the St. Bernard dogs which we bred for many years at our nursery. 1.00

TOMMY ATKINS

- A dahlia which always attracts one, even when amongst a large collection of dahlias. This vivid flaming red dahlia with cane-like stems is one of the best selling cut-flower dahlias we have in this color. 1.00

VALENTINO

- A fine dahlia of creamy salmon shading to rose pink. The flowers are of enormous size and attractive form and have excellent stems. We have found this dahlia a good keeper and a fine cut-flower variety. 7.50

VIRGINIA

- c A novelty of lavender pink on perfect stems. A fine garden flower. 1.00

YUKON

- A very attractive dahlia with a distinctive coloring of royal purple. The flowers are perfect, with long, stiff stems, and are prolific bloomers. 1.00

Dahlias marked **c** are of California origin.

CACTUS VARIETIES OF DAHLIAS

The true "Cactus" form or type of dahlia is that which has the long sharp-pointed quilled petal. Many of the hybrid-cactus are the best varieties introduced in the last few years. Cactus varieties are as a rule very free in blooms.

ALABASTER

Large and snowy white, with incurved petals, a true English type, with fine stem..... \$1.00

AMBASSADOR

One of the best hybrid cactus ever introduced. The color, a soft amber, with shades of amber pink and salmon. The flowers are large and held high above the foliage on long stiff stems. Our stock is true stock, never showing center. Ambassador has been a consistent prize winner..... 1.00

ARTHUR TWITCHETT

c An American cactus, white shading to blush. Large flowers on perfect upright stems..... 1.00

BALLET GIRL

c White shading to orange; sometimes the flowers come solid orange. This is one of the best cactus of true English type ever introduced in America. A very free bloomer, and first class exhibition flower..... 1.00

BELOIT

Rich purple garnet; very large flowers on stiff upright stems..... .50

DOROTHY DIX

An immense hybrid cactus of silvery pink with a distinct incurved formation. Stems long and perfect. Flowers are always true to type and centers remain closed all season. An excellent dahlia for cutting and for exhibition purposes..... 7.50

ELIZABETH MARIE

c A dandy new hybrid of a pink shade interspersed with silvery lavender. Has large flowers and the petals have a tendency to curl among one another, giving the flowers a fancy and attractive effect. The stems are excellent, and it is a fine keeper..... 2.50

F. W. FELLOW

Best orange English cactus grown; the blooms are very large and have great depth; the best for exhibition..... .75

GEORGE COULTER (1929)

A fine hybrid cactus with many good qualities. The color is vivid crimson red. The flowers are very large and have good stiff stems. The bushes are tall and very hardy. Fine attractive exhibition flowers..... 4.00

GEORGE WALTERS

c A hybrid cactus of pinkish salmon shading to yellow at the base. Blossoms freely, and has good stems, and is a fine dahlia for any purpose..... .75

GERTRUDE EDERLE

c Fine primrose yellow hybrid cactus, with strong, erect stems. Flower large, and is a profuse bloomer. Excellent cut flower with good lasting qualities. Highly recommended for florist work..... 5.00

GOLDEN WEST

c Golden yellow, suffused bronze, California variety. The king of all commercial flowers..... .50

Dahlias marked c are of California origin.

ROLLO BOY

Cactus Dahlia—Prize Winner

(For description see page 14)

CACTUS DAHLIAS—Continued

IRMA STARK

- c One of the best white cactus for florist purposes. The flowers are of medium size, with perfect stems. As a producer of flowers it is unexcelled, and the flowers are good keepers. \$1 00

ISLAM PATROL

- c A very attractive dahlia of deep red tipped gold. The plant is a hardy grower and has strong, stiff stems. A popular garden dahlia. 1 00

JEAN CHAZOT

- An American cactus of a golden bronze suffused with red. An excellent cut flower, perfect form, a good stem. 1.00

KALIF

- Bright red; a first class dahlia for garden and exhibition purposes.75

LA FAVORITA

- c Hybrid cactus; a beautiful orange salmon of fine form; a large flower; long stiff stems.75

LENORA WOLLAMS (1929)

- c A recent introduction which has proven to be a success. This hybrid of deep American Beauty rose color has flowers of great size and depth. The petals have a fancy twist and curl effect which add to its attractiveness. The stems are long and stiff. A fine exhibition flower. 5.00

LUCKY STRIKE

- c A very large pure white hybrid cactus with exceptionally long stiff stems. The plant is a tall and vigorous grower. Flowers 12 inches in diameter are common. A very striking and attractive dahlia, and is a fine exhibition flower. 1 50

MARY PURRIER

- An English cactus of a bright scarlet color; good stem; a large exhibition variety.75

PARAMOUNT

- A large hybrid of canary yellow, shading to cream. Stems straight and stiff as canes. The bushes are of medium height. 1.50

ROLLO BOY

This dahlia won for us **First Prize** for the **Largest Dahlia** and also **First Prize** for the **Best Dahlia** at the **Palace Hotel Dahlia Show, 1924**. The picture does not do this dahlia justice.

Rollo Boy has proven a great success as a prize-winner with both local and eastern growers.

Winner of the coveted Garden Club of America Plaque, 1924.

- This is a hybrid cactus of great size with every flower carried perfectly erect on a strong stem. A delicate shade of amber shading to old gold. The plants require little attention as regards thinning. This variety is in every way one of the most striking advances yet made on the hybrid cactus section. It is a conspicuous garden plant and if desired for exhibition it is the largest in this section. 1 00

SANTA ANNA

- c One of the largest and best hybrid cactus of this shade. The color is a beautiful salmon rose suffused with gold. The plant is a free bloomer, and bushes are of medium height. The flowers are held well above the dark green foliage on good stems. The petals are long and wavy, which gives the flower a striking form. Does very well in a warm climate. The shades of color in this dahlia are most attractive, and have won the admiration of every one wherever shown. A fine exhibition dahlia. Won first prize for the best dahlia in the 1927 show of the California State Floral Society. 4.00

Dahlias marked c are of California origin.

SANTA ANNA (New 1927)

Cactus Dahlia

(For description see page 14)

CACTUS DAHLIAS—Continued

SISKIYOU

One of the largest hybrid cactus introduced, color a mauve pink. The stems are stiff and erect. A constant winner for the largest dahlia in the show class. \$1.50

STILETTO

An English cactus of clear lemon yellow.75

SYDNEY JONES

An English cactus of large size with an unusually stiff erect stem. The color a deep pink, enhanced by a disc of yellow at the base, and petals tipped yellow. Stock limited. 1.00

TRUSTY

e A free blooming hybrid cactus of a delightful shade of pale pink. A fine florist flower, and an excellent garden flower. 1.00

POMPON DAHLIAS

This collection consists of the best from England and California. Each variety is perfect in form and size for exhibition purposes; for cut flowers they will last five days in the home; a vase of this type is graceful.

TOMMY KEITH —Crimson, tipped white; very attractive.....	.35
c Tom Thumb —A California lilliputian pom which is the smallest garnet in cultivation. Ideal for exhibition purposes, with perfect stems.....	.50
UNICE —Lavender, white shading.....	.35
c Yellow Gem —Fine canary yellow with good stems.....	.50

Dahlias marked **c** are of California origin.

PEONY DAHLIAS

This type of the dahlia was originated in Holland some years ago. They are of immense size and have from 2 to 5 rows of long broad petals which are generally curled and twisted, giving them the appearance in form of a semi-double Chinese peony, hence their name.

COLLEEN BAWN

c Large carmine rose suffused with pink. Long stiff stems. Excellent for basket work and decorative purposes. \$2.00

CREAM KING

Large creamy yellow; fine for exhibition purposes.75

EULALIA (1930)

c The color is golden yellow. The flowers are immense with stiff stems over 3 feet long. The petals twist and curl, giving the flowers an attractive form. The large yellow disc is surrounded by many petaloids. This is a striking exhibition flower. 2.50

JEAN MULLANE

c The phenomenal peony dahlia. A huge burnt orange. Flowers all over 11 inches. Free bloomer and excellent for exhibition. 2.50

OLD ENGLISH SINGLE DAHLIAS

c AGATHA (1930)—Pale pink; true type. \$0.75

c VICTORIA (1930)—Pale lavender pink, gold disc.75

c BUTTERFLY (1930)—Golden bronze, long stems; prolific.75

PINWHEEL—White with wine crimson border; very attractive.50

UNION JACK—White striped red; fine for cut flower purposes in the house.50

COLLARETTE DAHLIAS

Collarette Dahlias are similar in size to the single dahlia, but have a row of shorter petals, forming a collar around the yellow disc. They are very bright and pretty.

c FRANK HARRIS—Very large reddish brown; long stiff stems. \$1.00

c MARSAN (1928)—Very large, deep pink, white collar; good stem. 1.00

LOUISE JANIN—Flame red, yellow collar.50

c MERCEDES ANN—Very large maroon cream collar; good stem.75

c RAYME BOY—Large ruby red, white collar.75

Dahlias marked c are of California origin.

SHOW AND FANCY DAHLIAS

These are the old fashioned quilled or donble flowers and still hold a warm place in the hearts of many people. They are excellent cut flowers.

CLARA CLEMENS (1929)—Hybrid show brownish red, each petal tipped white. Flowers all bi-colored. Winners of first prize at the 1929 San Leandro Dahlia Show for the best show dahlia.....	\$4.00
ESMOND—Very good clear yellow. Fine form and stem.....	.75
GEN HAIG—Best scarlet red hybrid show.....	1.00
GOLD MEDAL—Bright yellow, striped red.....	.75
HERBERT (1929)—Show of pale pink lavender, petals shading to white. Excellent cut flower.....	2.50
