Hyacinths

From early winter to late spring the hyacinths give us pleasure and companionship while other flowers are asleep. We delight in offering imported Holland bulbs of the highest quality in two grades this season, the A grade being the largest for forcing and pot culture as well as bedding, while the B grade is equally fine in quality for those who do not require the largest exhibition blooms.

Prices for Single or Double Hyacinths

	Each	Dozen	100
A Grade.....	25c	\$2.25	\$15.00

Cottage or May-Flowering Tulips

These tulips come into bloom in May, after the early single varieties. They should be grown in the open ground, and are very hardy and robust. Long, stiff, strong stems, 18 to 24 inches high. Each flower is a marvel of beauty; the colors are delicate and artistic, and they are the best of all tulips for cutting. May flowering tulips appear at their best in borders, foregrounds of shrubbery or walls, or out-of-the-way corners of the garden where, if left undisturbed, they will bloom with increasing beauty for years. Plant about four inches deep.

Gesneriana Lutea (24")—Rich golden yellow, fine large flower and fragrant. Each **8c**, doz. **75c**, 100 **\$4.80**.

Sirene—A satiny-rose with slight white base; forces easily and is very beautiful. Each **15c**, doz. **\$1.00**, 100 **\$6.50**.

Fulgens—Beautiful dark scarlet flowers on long stems. Each **9c**, doz. **90c**, 100 **\$7.25**.

Botanical Tulips Wild and Rock Garden Species

The great interest in rock gardens and the desire for interesting novelties has created a demand for flowers of the tulip variety, and the varieties described below are especially selected for rock garden use. They are natives of Central Asia and are very attractive in their bright colorings.

Clusiana—"The Lady Tulip," has outer petals of cherry red, inner petals of creamy white, violet base, a small flower of great beauty. Plant in light soil 6 or 9 inches deep, in rock garden or sheltered among the stones in a border. Height 8 inches. Flowers in April. Each **15c**, doz. **\$1.30**, 100 **\$8.00**.

Marjollette—Soft primrose, margined with red; a small, elegant tulip flowering in May. Height 14 inches. Each **15c**, doz. **\$1.30**, 100 **\$8.00**.

Kaufmanniana—The Water Lily Tulip, large sulphur-yellow flower with carmine markings. Opens flat, blooming in April. Plant the bulbs at least 6 inches deep, in masses under evergreens or in shady places. Self-sows itself freely. Height 5 to 7 inches. One of the most beautiful tulips grown. Each **30c**, doz. **\$3.00**.

Virdiflora—An unusual color for a tulip, green, edged with yellow. Each **25c**, doz. **\$2.50**, 100 **\$20.00**.

Eichleri—Very tall, magnificent flower, brilliant scarlet. Each **25c**, doz. **\$2.50**.

Crocus

The most popular use for these lovely harbingers of spring is to scatter them about in patches on the lawns, simply lifting the turf and inserting about two inches deep. They bloom very early, dying down to the bulb in ample time to miss the lawnmower. Once planted, they remain in the ground and bloom for years. Also used in rockeries, borders and in pots. Plant in the fall.

Mammoth Yellows—Selected bulbs of large size, producing the finest blooms. Three sizes as below: First size, doz. **\$1.00**, 100 **\$6.65**; second size, doz. **85c**, 100 **\$5.85**; third size, doz. **75c**, 100 **\$4.80**.

Sacred Chinese Lily

A variety of narcissus bearing in lavish profusion silvery white flowers with golden cups, of exquisite beauty and charming perfume. Can be grown in pots, but are more novel and beautiful when grown in shallow bowls of water with enough pebbles to prevent tipping over when in bloom. A dozen bulbs started at intervals will give a succession of flowers throughout the winter. Ea. **15c**, doz. **\$1.75**.

Japanese Lilies

Lilies planted outdoors during the fall or early spring flower each year from June to October. After bulbs are set out they should remain undisturbed for five or six years. They will increase in size, beauty and number of flowers, with practically no attention, our Coast climate being perfectly suited to their requirements and once established they rival the famous product of Japan. Place bulbs on side on 2-inch layer of sand and cover with 4 to 6 inches of soil. Postpaid to 4th zone.

Auratum (Golden Banded Lily)—The handsomest and best known of the Japanese lilies. Immense ivory-white flowers with yellow and crimson dots; in the center of each petal is a gold band fading at its edges into white; very fragrant. Bloom June to October. Large bulbs, each **35c**, doz. **\$3.25**.

Lilium Candidum

(Known as Madonna Lily, or St. Joseph's Lily)

This is the ever popular, fragrant, snow-white, hardy garden lily. It grows four to five feet high and blooms in the open ground in June. The finest obtainable; should be planted early.

Mammoth bulbs, each **35c**; doz. **\$3.50**.

Select bulbs, each **25c**, doz. **\$2.50**.

Amaryllis Vittata Hybrids

Wonderfully beautiful lilies that can be grown easily, either as a pot plant or out-of-doors. The flower stalks are about 18 inches high and have two to six giant flowers of the most perfect form. They flourish in the sun but do even better in partial shade.

Outdoors, plant in sandy soil about a foot apart, covering about 4 inches. Indoors, plant in small pots as they seem to flower better when root-bound. We do not know of any flower that will please you more than this and as a house plant it is unsurpassed. It is not hardy. Mixed colors only, each **75c**, doz. **\$7.50**.

Lily of the Valley

One of the most satisfactory and charming spring flowering plants, producing in profusion its delicate bell-shaped fragrant white flowers; will thrive in any common soil, are perfectly hardy, and will succeed in shady situations. If left undisturbed in the open ground they will increase from year to year, and are charming in beds or borders around the lawn. Pips 3 for **25c**, doz. **75c**, 100 **\$5.00**.

Galanthus [Snow Drops]

The first flower to bloom in the spring, producing small but beautiful white blossoms. Plant about one inch apart, setting two or three inches deep. They come up from year to year; should not be moved.

Elwisi—Larger than Nivalis, slower to naturalize. Each **8c**, doz. **65c**, 100 **\$3.60**.

Nivalis—Single. Ea. **8c**, doz. **60c**, 100 **\$3.35**.

Nivalis—Double. Ea. **10c**, doz. **90c**, 100 **\$5.75**.

This diagram shows approximately how deep and how far apart to plant the different kinds of hardy bulbs in light soil. In heavy soil, plant an inch to an inch and a half nearer the surface.

The True EASTER LILY

Lilium Longiflorum (Giganteum)—Of grand size and substance, hardy and especially fine for the open ground as well as for pots. Pure white, fragrant, trumpet-shaped flowers 6 to 8 inches long. Plant early in December for Easter blooming. Large bulbs, each **35c**, doz. **\$3.50**.

Mount Hood Lilies

This is an especially beautiful lily, a native of Oregon and an interesting lily to have in the garden. The flower is large open form, white tinted with lilac and is very fragrant. Grows 3 to 5 feet high. Choice bulbs, each **30c**, doz. **\$3.00**; extra blooming size, each **35c**, doz. **\$3.50**.

Anemones

St. Brigid—Many lovely shadings, including pink, rose, purple, lavender, violet, scarlet, crimson, white and others. Easily grown and bloom freely. Plant in spring or fall. Mixed only. Each **5c**, doz. **50c**, 100 **\$3.50**.

Ranunculus

Among dwarf flowers these are unrivaled for their vivid and gorgeous colors. Fine for winter pot plants and make an attractive addition to the border or flower garden in summer. Mixed.

Giant French—Two-year bulbs, each **5c**, doz. **50c**, 100 **\$3.50**.

Scilla [Squills]

One of the prettiest dwarf early spring blooming bulbs, producing sprays of exquisite drooping bell-like flowers. Hardy.
