Deciduous Trees.....	3 to 9
Deciduous Shrubs.....	9 to 15
Vines and Climbers.....	15 to 16
Evergreen Trees.....	16 to 22
Broad-leaved Evergreens.....	23 to 24

Terms and Conditions

CUSTOMERS are requested to state mode of shipping, express or freight, and by what route. When none is given, we exercise our judgement, but in no case do we assume responsibility after goods are shipped.

All claims for errors or deficiencies must be made immediately upon receipt of the goods. In case of any error on our part, it is mutually agreed between the purchaser and ourselves that we shall not at any time be held responsible for a greater amount than the original price of the goods. Claims will not be considered unless made within ten days from date of delivery.

TERMS: Cash with order from unknown parties or satisfactory references. Two per cent (2%) discount allowed for cash within ten days from date of invoice. Spring accounts due net June 1st, Fall accounts due net December 1st. Interest at rate of 6% per annum charged on all accounts past due.

Five hundred will be furnished at the thousand rate; fifty at the hundred rate, and five at the ten rate.

The prices quoted are for our selection, and are in all instances F. O. B. our Nurseries. Where stock is selected by customers, it will be charged for in accordance with its value.

Shipment in bulk will be packed at no charge. Where packing is done in boxes or bales a charge will be made to cover the cost of material used.

A certificate of inspection from the State Entomologist will accompany each shipment.

The Spring shipping season usually begins here about March 15th and the Fall season for Evergreens, August 15th. Deciduous stock, October 15th.

Eatontown is on route No. 4 of the New Jersey State Highways, and about forty miles from New York on the Southern Division of the C. R. R. of N. J.

BUSINESS IS GOOD.

With us it was never better. Our wholesale business for the 1929 Fall season showed a gain of 53% over the Fall of 1928, for which we are very thankful. If any other Nursery can show a similar gain or in fact any gain on their wholesale business for the past six months, we shall be glad to hear from them.

We employ no high pressure salesmen, this Wholesale Trade List being the only connecting link which we send to our many friends and patrons. We do, however, make a special effort to grow ornamentals of exceptional quality paying special attention to nursery transplanting so that our stock not only looks good in the Nursery but will continue to do so after delivery. That we are successful in this endeavor is amply substantiated by the growing support which we receive year after year.

If you have never bought from us and would like to know what our regular customers think of us, we will gladly send you a list of names, everyone of whom will tell you that the stock they receive from us is better than that they receive from any other source.

This Wholesale List goes only to those whom we have proven by investigation are entitled to receive it. Under no circumstances will we sell ornamentals wholesale to those not entitled to wholesale prices.

SHREWSBURY NURSERIES.

Deciduous Trees

Only those trees which conform to the highest recognized standards are included in this list. We do not inventory stock which cannot be used by the most discriminating buyer.

For large specimen trees for immediate landscape effects, ask for special quotation.

7 to 8 ft.....	1.75

Deciduous Shrubs.

We give as much care and consideration to growing our shrubs as we do evergreen stock, the result being strong, healthy specimens which cannot be excelled.

Without exaggeration we state that you will find our shrubs twice as heavy as those obtained from most wholesale supplies.

All orders are dug immediately prior to shipping, and we insist that the roots be sent with the shrubs.

<i>ACANTHOPANAX pentaphyllum</i> (<i>Aralia pentaphylla</i>).	10	100

Evergreen Trees.

In comparing evergreen values, there is probably nothing more misleading than a bare price list description.

Evergreens, to be successfully handled, must be grown on soil ideal for the purpose and constantly transplanted. We have the right soil and unstintingly furnish the treatment necessary to produce specimen plants.

Dealers who have used our evergreens for many years tell us that the percentage of losses on our stock is much lower than on the stock obtained from any other source.

Prices quoted include digging with ball and burlapping.
