BUSINESS TERMS—CONDITIONS OF SALE

Your order for spring 1930 planting is solicited.

OUR STOCK is well cultivated and of superior quality. An inspection of our stock will convince you of its strong sturdy growth. Well developed tops that will quickly make a most satisfactory showing on your grounds.

SPRING SHIPPING season usually opens about the first of April and continues until the end of May.

Orders should be placed now, before the shipping season starts, to insure first selection of stock, as orders are filled in rotation as received.

QUANTITY RATES: 5 plants of a single size and variety will be supplied at the 10 rate; 25 at the 100 rate, excepting Evergreens which will be supplied—5 at the 10 rate; 50 at the 100 rate.

PRICES quoted are F. O. B. Barrington, Illinois. Where delivery is by truck a nominal charge will be made to cover the actual cost.

OUR TERMS of payment are—cash with order.

CERTIFICATE of inspection will accompany each shipment.

Claims for any cause must be made upon receipt of goods.

Prices quoted in this list void after spring 1930 shipping season.

Japanese Barberry

ORNAMENTAL FLOWERING SHRUBS

	Each	Per 10	Per 100
ARROWWOOD (<i>Viburnum dentatum</i>)			
White flowers, grouped in small flat heads—May. Blue-black fruit. Height at maturity, 8 to 10 feet.			
2 to 3 feet.....	\$0.40	\$3.00	\$25.00
BARBERRY—JAPANESE (<i>Berberis thunbergii</i>)			
Small green foliage, turning coppery red in autumn. Yellow blossoms in May; red berries in fall, lasting through winter. Grows to about 4 feet; can be kept at desired height by trimming. Good for use as hedge or single shrub. Very hardy.			
18 to 24 inches—3 yr.....	0.40	3.00	24.00
		Per 1000	\$200.00
2 to 3 feet—4 yr.....	.50	4.00	35.00
		Per 1000	\$300.00
CORALBERRY (<i>Symphoricarpos vulgaris</i>)			
Also called Indian Currant. Gray-green leaves; pink blossoms in July; clusters of small purplish red berries in autumn and winter. Height at maturity about 5 feet. Good for planting in shady places or on slopes where soil is loose.			
2 to 3 feet.....	0.40	3.00	20.00
3 to 4 feet.....	.50	4.00	30.00
4 to 5 feet.....	.55	4.50	40.00
CRAB—WILD SWEET (<i>Malus coronaria</i>)			
Fragrant pink blossoms in late spring. Hard yel- low fruit. A tree-like shrub.			
2 to 3 feet.....	1.25	10.00	
CRANBERRYBUSH—EUROPEAN (<i>Viburnum opulus</i>)			
White flowers in broad flat heads—May, June. Scarlet fruit in clusters, lasting through winter. Height at maturity about 8 feet.			
2 to 3 feet.....	0.70	6.00	50.00
DEUTZIA—PRIDE OF ROCHESTER (<i>Deutzia scabra</i> , var. <i>Pride of Rochester</i>)			
Blooms in May, having large double white flowers tinged rose-purple outside. Height at maturity 6 to 8 feet.			
3 to 4 feet.....	0.60	5.00	40.00

ORNAMENTAL FLOWERING SHRUBS (Continued)

	Each	Per 10	Per 100
DOGWOOD—BLOODTWIG (<i>Cornus sanguinea</i>)			
White blossoms in June; black fruit; branches deep red and upright. Very attractive in winter. Height at maturity 6 feet and up.			
4 to 5 feet.....	\$0.70	\$6.00	\$50.00
DOGWOOD—RED-OSIER (<i>Cornus stolonifera</i>)			
White blossoms in June; white fruit; smooth, slender, prostrate branches, brilliant red in winter. Height at maturity 6 feet and up.			
2 to 3 feet.....	0.35	2.50	20.00
4 to 5 feet.....	.50	4.00	30.00
5 to 6 feet.....	.60	5.00	40.00
FORSYTHIA—BORDER (<i>Forsythia intermedia</i>)			
Golden yellow blossoms in April, appearing before the leaves are out. Slender arching branches. Height at maturity 6 to 8 feet or more.			
3 to 4 feet.....	0.45	3.50	
4 to 5 feet.....	.50	4.00	30.00
FORSYTHIA—FORTUNE (<i>Forsythia suspensa fortunei</i>)			
Bright golden yellow blossoms in April; deep green foliage. Upright growth. Matured height about 8 feet.			
3 to 4 feet.....	0.60	5.00	
4 to 5 feet.....	.65	5.50	45.00
FORSYTHIA—GREENSTEM (<i>Forsythia viridissima</i>)			
Blossoms in April, deep yellow with greenish tinge. Height at maturity about 8 feet.			
4 to 5 feet.....	0.55	4.50	40.00
HONEYSUCKLE—MORROW (<i>Lonicera morrowi</i>)			
White blossoms in May and June. Covered with bright red fruit from late summer until winter. Height at maturity about 6 to 8 feet.			
4 to 5 feet.....	0.65	5.50	50.00

Honeysuckle

Paeonia

ORNAMENTAL FLOWERING SHRUBS (Continued)

	Each	Per 10	Per 100
HONEYSUCKLE—ROSY TATARIAN (<i>Lonicera tatarica rosea</i>)			
Has deep pink blossoms. Similar to the White Tatarian Honeysuckle described below.			
3 to 4 feet.....	\$0.40	\$3.00	\$25.00
4 to 5 feet.....	.50	4.00	35.00
HONEYSUCKLE—WHITE TATARIAN (<i>Lonicera tatarica alba</i>)			
White blossoms in May and June; red or orange berries in late summer and autumn. Grows to about 8 feet high.			
3 to 4 feet.....	0.45	3.50	30.00
4 to 5 feet.....	.55	4.50	40.00
HONEYSUCKLE—WHITE BELLE (<i>Lonicera bella albida</i>)			
Blossoms in May and June—white changing to yellow. Bears bright red berries during most of the summer. Grows 8 to 10 feet tall.			
4 to 5 feet.....	0.50	4.50	35.00
HYDRANGEA—PEEGEE (<i>Hydrangea paniculata grandiflora</i>)			
Huge panicles of white flowers in late summer or early fall, changing to rose and purple tints and then to bronze green and brown. Height at maturity 7 feet or more. Yearly trimming of branches will produce larger bloom.			
2 to 3 feet.....	0.70	6.00	50.00
HYDRANGEA—SNOWHILL (<i>Hydrangea arborescens grandiflora</i>)			
Large white flowers in great clusters—June, July. Height at maturity about 6 feet.			
2 to 3 feet.....	0.55	4.50	40.00
LILAC—COMMON (<i>Syringa vulgaris</i>)			
Bluish purple fragrant flowers in May. Height at maturity 8 to 10 feet. Very good for screen or tall hedge.			
2 to 3 feet.....	0.45	3.50	30.00
3 to 4 feet.....	.55	4.50	40.00
4 to 5 feet.....	.60	5.00	45.00
LILAC—MARIE LEGRAYE (<i>Syringa Marie Legraye</i>)			
One of the garden varieties of Lilac. Single white fragrant flowers.			
2 to 3 feet.....	0.85	7.50	70.00

ORNAMENTAL FLOWERING SHRUBS (Continued)

	Each	Per 10	Per 100
LILAC—PERSIAN (<i>Syringa persica</i>)			
Lilac colored flowers—in great quantities of large loose panicles—May and June. Slender arching branches; small foliage. Matured height about 8 feet. Excellent for tall hedge or screen effect.			
3 to 4 feet.....	\$0.60	\$5.00	\$45.00
4 to 5 feet.....	.65	5.50	47.50
5 to 6 feet.....	.70	6.00	50.00
MOCKORANGE—AVALANCHE (<i>Philadelphus avalanche</i>)			
Fragrant white flowers in June, blooming in such profusion as to weigh the slender arching branches almost to the ground. Matured height about 10 feet.			
3 to 4 feet.....	0.50	4.00	35.00
MOCKORANGE—GOLDEN (<i>Philadelphus coronarius aureus</i>)			
A shrub of compact form, bearing brilliant yellow leaves—good for contrast with darker shrubs. White blossoms in May and June. Height at maturity about 6 feet.			
5 to 6 feet.....	0.65	5.50	50.00
MOCKORANGE—SWEET (<i>Philadelphus coronarius</i>)			
An abundance of creamy white, sweetly scented flowers in May or June. Matured height about 8 feet.			
4 to 5 feet.....	0.55	4.50	40.00
NINEBARK—GOLDLEAF (<i>Physocarpus opulifolius luteus</i>)			
A very attractive shrub, having bright yellow leaves which become bronzy-green. White flowers in June. Height at maturity 8 feet and higher.			
5 to 6 feet.....	0.70	6.00	55.00
PLUM—FLOWERING (<i>Prunus rosea</i>)			
Similar to <i>Prunus triloba plena</i> . Deep pink blossoms in late spring.			
2 to 3 feet.....	0.75	6.50	55.00

Persian Lilac

Privet Hedge

ORNAMENTAL FLOWERING SHRUBS (Continued)

	Each	Per 10	Per 100
PLUM—DOUBLE-FLOWERING (<i>Prunus triloba plena</i>)			
Blooms in early spring before leaves are opened. Very large double delicate pink flowers closely arranged on long, slender branches.			
3 to 4 feet.....	\$0.90	\$8.00	
4 to 5 feet.....	1.00	9.00	\$85.00
PRIVET—AMUR N. (<i>Ligustrum amurense</i>)			
Dark green leaves, which often remain almost the entire winter. Small white flowers in June; black berries. Excellent for hedge; becomes very dense when trimmed.			
18 to 24 inches.....	0.15	1.20	10.00
2 to 3 feet.....	.18	1.50	12.50
		Per 1000	\$100.00
3 to 4 feet, heavy.....	.30	2.50	20.00
PRIVET—IBOTA (<i>Ligustrum ibota</i>)			
Spreading shrub; good for border or trimmed hedge. Small dark green leaves, turning purplish in fall. White flowers in June, followed by clusters of small black berries.			
18 to 24 inches.....	0.20	1.50	12.50
PRIVET—REGEL (<i>Ligustrum ibota regelianum</i>)			
Low shrub, with spreading branches drooping gracefully; black berries remain on all winter.			
2 to 3 feet.....	0.50	4.00	30.00
3 to 4 feet.....	.60	5.00	40.00
QUINCE—FLOWERING (<i>Cydonia japonica</i>)			
Covered with scarlet flowers early in spring, while branches are leafless. Dark green glossy leaves; yellowish green fruit. Height at maturity about 6 feet.			
2 to 3 feet.....	0.60	5.00	40.00
SNOWBERRY—COMMON (<i>Symphoricarpos racemosus</i>)			
Dainty pink blossoms in July, followed by waxy white berries in great profusion, persisting until Spring. Height at maturity about 5 feet. Does well in shade.			
2 to 3 feet.....	0.40	3.00	20.00
3 to 4 feet.....	.50	4.00	30.00

ORNAMENTAL FLOWERING SHRUBS (Continued)

	Each	Per 10	Per 100
SPIREA—ANTHONY WATERER (<i>Spiraea Anthony Waterer</i>)			
Crimson flowers in flat clusters—July and August. A compact shrub good for use in front of taller shrubs. Height at maturity about 3 feet.			
2 to 3 feet.....	\$0.50	\$4.50	\$40.00
SPIREA—FROEBEL (<i>Spiraea froebeli</i>)			
Clusters of deep pink flowers in July and August. Deep green leaves, turning red in autumn. Medium height.			
18 to 24 inches.....	0.40	3.00	25.00
2 to 3 feet.....	.45	3.50	30.00
SPIREA—GARLAND (<i>Spiraea arguta</i>)			
Masses of white flowers in early spring. Height at maturity about 5 feet.			
3 to 4 feet.....	0.50	4.00	35.00
4 to 5 feet.....	.55	4.50	40.00
SPIREA—MARGARITA (<i>Spiraea margaritae</i>)			
Corymbs of rose-pink flowers in July and August. Height at maturity about 5 feet.			
2 to 3 feet.....	0.50	4.00	30.00
SPIREA—VANHOUTTE (<i>Spiraea vanhouttei</i>)			
Like a fountain of flowers when its spreading arched branches are covered with clusters of pure white flowers in May and June. Deep green leaves. Height at maturity about 6 feet.			
3 to 4 feet.....	0.40	3.50	30.00
5 to 6 feet.....	.50	4.00	35.00
SUMAC—STAGHORN (<i>Rhus typhina</i>)			
Takes its name from its velvety branches which resemble a stag's horns. Bears a splendid display of scarlet fruit; leaves turn brilliant yellow, orange and red in autumn. Grows to height of 15 to 20 feet.			
8 to 10 feet.....	0.60	5.00	45.00
10 to 12 feet.....	.75	6.50	55.00

Vanhoutte Spirea

ORNAMENTAL FLOWERING SHRUBS (Continued)

	Each	Per 10	Per 100
TAMARIX—AFRICAN (<i>Tamarix africana</i>)			
Bright pink flowers in April and May. Graceful feathery foliage which is light green in color. Height at maturity about 15 feet.			
5 to 6 feet.....	\$0.65	\$6.00	\$55.00
VIBURNUM—DOUBLEFILE (<i>Viburnum tomentosum</i>)			
Blooms in June—white flowers arranged along branches in clusters 2 to 4 inches across. Small red berries changing to black. Grows to about 8 feet.			
12 to 18 inches.....	0.75	6.50	
WEIGELA—PINK (<i>Weigela rosea</i>)			
Weigela is also called Diervilla. Rose-pink flowers in June. Erect, compact growth. Height at maturity 6 to 9 feet.			
3 to 4 feet.....	0.60	5.00	40.00

Evergreen Planting

EVERGREENS

	Each	Per 10	Per 100
ARBORVITAE—AMERICAN (<i>Thuja occidentalis</i>)			
Of pyramidal form. Foliage soft and flexible; deep green color. Can be trimmed suitable for hedge.			
1½ to 2 feet xx B&B.....	\$1.50	\$12.50	
2 to 3 feet xxx B&B.....	2.75	25.00	
3 to 4 feet xxx B&B.....	3.50	32.50	
ARBORVITAE—AMERICAN GLOBE (<i>Thuja occidentalis globosa</i>)			
Round, bushy and compact. Good green color retained well in winter. Very hardy.			
10 to 12 inches xx B&B.....	1.35	11.00	
ARBORVITAE—WARE , (<i>Thuja occidentalis wareana</i>)			
Also known as Siberian Arborvitae, which name is applied because of its extreme hardiness and long life. Of conical outline; dark green foliage. Good for foundation planting and hedges. Height at maturity about 6 to 8 feet.			
1 to 1½ feet xx B&B.....	2.25	20.00	
ARBORVITAE—WOODWARD (<i>Thuja occidentalis woodwardi</i>)			
One of the best of the globe-shaped Arborvitae. Does not require trimming to maintain natural globe shape. Grows to about 3 feet in height and diameter. See illustration on page 10.			
12 to 15 inches xxx B&B.....	2.25	20.00	
15 x 15 inches xxx B&B.....	2.50	22.50	
FIR—DOUGLAS (<i>Pseudotsuga douglasi</i>)			
Of symmetrical pyramid-like form. Grows to height of 60 feet or more.			
1 to 1½ feet xx B&B.....	1.50	12.50	
1½ to 2 feet xxx B&B.....	3.25	30.00	
2 to 3 feet xxx B&B.....	4.25	40.00	
Each x indicates once transplanted. B&B signifies balled and burlapped.			

EVERGREENS (Continued)

	Each	Per 10	Per 100
FIR—WHITE (<i>Abies concolor</i>)			
Sometimes called Concolor Fir or Silver Fir. A pyramidal tree of grayish blue color, branched to the base.			
10 to 12 inches xx B&B.....	\$2.00	\$17.50	
JUNIPER—CHINESE (<i>Juniperus chinensis</i>)			
Tall pyramidal or columnar shape. Bright green color; bears small violet brown berries. Height at maturity approximately 15 to 20 feet; diameter about 3 feet.			
1½ to 2 feet xx B&B.....	2.00	17.50	
2 to 2½ feet xx B&B.....	3.00	27.50	
JUNIPER—PFITZER (<i>Juniperus chinensis pfitzeriana</i>)			
Deep green color with grayish cast. A spreading shrub-like tree, which can be kept small by trimming. Matured trees have attained heights varying from 5 to 12 feet, with an equal diameter. Exceptionally hardy.			
1 to 1½ feet xx B&B.....	2.75	25.00	
1½ to 2 feet xx B&B.....	3.25	30.00	
JUNIPER—PROSTRATE (<i>Juniperus communis depressa</i>)			
Low spreading plant, extending over the ground often 7 to 8 feet in every direction. The ends of the branches ascend to a height of about 3 feet. Grows rapidly, but can be kept small by trimming. Gray-green color, bearing smooth shining purple berries.			
1 to 1½ feet xx B&B.....	2.25	20.00	
1½ to 2 feet xx B&B.....	3.00	27.50	
PINE—AUSTRIAN (<i>Pinus nigra</i>)			
Dark black-green color; very long needles. Is strong and hardy; of unusually rapid growth and attains great height.			
1 to 1½ feet xx B&B.....	2.00	17.50

White Spruce

Woodward Arborvitae

EVERGREENS (Continued)

	Each	Per 10	Per 100
PINE—MUGHO (<i>Pinus montana mughus</i>)			
A symmetrical low-branched, many-stemmed dwarf evergreen. When full grown has a diameter of about 8 feet, and height of approximately 5 feet; but can be kept any desired size by trimming. Dark green color.			
10 to 12 inches xx B&B.....	\$2.00	\$17.50	\$150.00
SPRUCE—COLORADO BLUE (<i>Picea pungens glauca</i>)			
Foliage of steel-blue color. Perfect pyramidal form. One of the most beautiful of the evergreens.			
10 to 12 inches xx B&B.....	2.75	25.00	
SPRUCE—WHITE (<i>Picea canadensis</i>)			
Light green foliage, slightly tinged with blue. Hardy, free growing, long lived. Attains heights of 25 to 50 feet.			
See illustration on page 10.			
2 to 3 feet xxx B&B.....	4.00	37.50	
Each x indicates once transplanted.			
B&B signifies balled and burlapped.			

SHADE TREES

	Each	Per 10	Per 100
BIRCH—EUROPEAN WHITE (<i>Betula alba</i>)			
Its white bark and spray-like branches make this a very attractive tree. Height at maturity 40 to 50 feet. Hardy, rapid grower.			
4 to 5 feet.....	\$2.00	\$15.00	
CATALPA—UMBRELLA (<i>Catalpa bignonioides nana</i>)			
Commonly, though incorrectly, called "Catalpa Bungei." See illustration on page 12.			
A very ornamental tree, having a broad umbrella-like head bearing large leaves in a formation resembling shingles. Hardy.			
6 ft. stems—4 year heads.....	2.50	20.00	\$175.00
ELM—AMERICAN (<i>Ulmus americana</i>)			
One of the most beautiful and desirable of American trees for street or lawn planting. Graceful spreading branches, forming a wide arching top. Attains great height.			
6 to 8 feet.....	1.25	10.00	80.00
ELM—MOLINE (<i>Ulmus americana molini</i>)			
A variety of the American elm. Conical in shape when young, the branches spreading horizontally as the tree becomes older. Uniform in habit and of rapid growth.			
1 to 1½ inch, caliper.....	3.50	18.00	170.00
MAPLE—NORWAY (<i>Acer platanoides</i>)			
An excellent shade tree. Leaves turn pale yellow in the autumn. Grows to a height of about 50 feet.			
1 to 1½ inch, caliper.....	5.00	45.00	
PLUM—AMERICAN WILD (<i>Prunus americana</i>)			
Low, spreading branches. Bears white flowers in spring and is very decorative. Rapid growth.			
6 to 8 feet.....	.90	7.50	60.00
8 to 10 feet.....	1.25	10.00	75.00

SHADE TREES (Continued)

	Each	Per 10	Per 100
POPLAR—LOMBARDY (<i>Populus nigra italica</i>)			
Grows very tall, erect and spire-like. Of exceptionally rapid growth and very hardy. Splendid for use as a single specimen, or planted close together along a drive or boundary.			
1 to 1½ inch, caliper.....	\$1.50	\$12.50	\$100.00
1½ to 2 inch, caliper.....	2.25	17.50	150.00
2 to 2½ inch, caliper.....	3.00	25.00	200.00

WILLOW—RUSSIAN GOLDEN

(*Salix vitellina aurea*)

Golden yellow bark. An upright spreading tree which is excellent for use in shelter planting or near water. Height at maturity 30 to 40 feet.

8 to 10 feet.....	0.95	8.00	70.00
